TOWN OF MILTON

92nd

ANNUAL REPORT

1928

BOSTON
T. O. METCALF COMPANY
1929

REPORT OF TOWN ACCOUNTANT

To the Honorable Board of Selectmen.

In accordance with the Revised By-Laws of the Town of Milton, and General Laws Chapters 41 and 44, the books and accounts of all officers and committees intrusted with the expenditures of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending December 31, 1928, have been examined and found correct.

Respectfully submitted,

MARY A. BERNI,
Town Accountant.

Milton, Mass., December 31, 1928

Town of Milton, March 2, 1902

Adopted by the Town and approved by the Superior Court May 20, 1902

The amendments to Chapters 2, 3, 4, 7, 8, *and* 10, *adopted by the Town March* 2, 1914, *March* 13 *and September* 1, 1915, *March* 11, 1922, *March* 14, 1925, *March* 13, 1926, *March* 12, 1927, *March* 10, 1928, *June* 13, 1928, *were approved by the Attorney-General, December* 10, 1914, *May* 8 *and September* 22, 1915, *April* 6 *and July* 19, 1922, *March* 26, 1925, *March* 18, 1926, *April* 20, *June* 21, 1927, *June* 11, 1928 *and September* 24, 1928

Chapters 12 *and* 13, *adopted by the Town July* 10, 1922, *were approved July* 11 *and* 21, 1922

The amendment to Chapter 12, *adopted by the Town March* 13, 1926, *was approved March* 17, 1926

CHAPTER 1

General Provisions

Section 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

Sect. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the Town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

Sect. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

Sect. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

Sect. 5. In all the By-Laws of the Town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The word *publ c way* shall include any highway, town way, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land: words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

Sect. 6. All fines and penalties for the violation of any By-Laws shall, when received, inure to the use of the Town, and be paid into the Town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the Town.

Sect. 7. Whoever violates any of the provisions of the By-Laws of the Town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

Sect. 8. Whoever shall refuse or neglect to obey any order of any Town officer or board of Town officers, issued under any of the By-Laws of the Town, directed to

him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the Town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the Town may be repealed or amended, or other By-Laws may be adopted, at any Town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2

TOWN MEETINGS

SECTION 1. The warrants for all Town meetings shall be directed to the constables of the Town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the Town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the Town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of Town officers shall be held upon the first Saturday of March, the polls to be open at fifteen minutes before six o'clock in the forenoon, and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all said officers to be voted for on official ballots. At any time after said four o'clock a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. All business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall be considered at an adjournment of said meeting to the following Saturday at one-thirty o'clock in the afternoon.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, the sense of the meeting shall be taken by the voices of the town meeting members and the Moderator shall first announce the vote as it appears to him by the sound.

If the Moderator is unable to decide by the sound of the voices or if his announcement made thereupon is doubted by seven town meeting members arising in their places for that purpose, the Moderator shall request the town meeting members to be seated, and shall appoint tellers; the question then shall be distinctly stated, and those in the affirmative and negative respectively shall be requested to rise and stand in their places until they are counted by the tellers, who shall report their count to the Moderator.

If the vote is further doubted and twenty-five town meeting members arise in their places and ask for a division of the meeting by the taking of the yeas and nays, then the roll of the meeting shall be called in alphabetical order and no town meeting member shall be allowed to vote after the vote is declared.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

to adjourn,
to lay on the table,
for the previous question,
to postpone to a time certain,
to commit, (or recommit) or refer,
to amend or substitute,

shall have precedence in the order in which they are placed in this section; provided however, no article in the warrant shall be finally disposed of by a vote to lay upon table, to indefinitely postpone, or to take no action thereunder.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for Town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the Town meeting of the ensuing year.

CHAPTER 3

The Warrant Committee

Section 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

Sect. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the Town, the subject-matter of which is generally included in the warrants for its Town meetings; and the officers of the Town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the Town or its citizens.

Sect. 3. The Warrant Committee shall consider the various articles in the warrants for all the Town Meetings held during the period for which they were appointed including the various articles in the warrant for the annual Town Meeting next after their appointment; they shall also consider all questions submitted to the voters of the Town at any meeting, including State elections under any act or resolve of the Legislature and proposed amendments to the Constitution; and they shall report in print before all such meetings their estimates and recommendations for the action of the Town.

On or before January first of each year each board, committee or officer of the Town shall file with the Selectmen, who shall transmit the same to the Warrant Committee, a statement in detail of the appropriation or appropriations recommended by such board, committee or officer for the work under its or his charge for the ensuing year.

The Warrant Committee shall include in its report of recommendations for the annual Town Meeting a statement setting forth the total appropriations so requested, the appropriations recommended, and the total of such appropriations requested and recommended, and an estimate of the tax rate for the ensuing year if such recommendations are adopted.

CHAPTER 4

The Town Finances and Property

Section 1. The financial year shall begin with the first day of March.

Sect. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the Town, a detailed report of all money received into and paid out of the Town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the Town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the Trustees respectively, and a statement of all other funds belonging to the Town or held for the benefit of its inhabitants; also statements of the liabilities of the Town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the Town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the Town.

Sect. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the Collector on or before the first day of August in each year.

Sect. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part I, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the Town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the Town.

SECT. 6. The Selectmen, being duly authorized by vote of the Town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the Town, and to give promissory notes therefor in behalf of the Town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the Town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. The Selectmen shall keep full accounts in respect to the several separate appropriations and the drafts made against each and shall not approve any draft which does not state specifically the appropriation against which it is drawn, whether general or special.

SECT. 9. The Warrant Committee shall send to the Selectmen and to the Auditors certified copies of all votes whereby transfers are made out of the Reserve Fund for extraordinary or unforeseen expenditures.

SECT. 10. No board, committee, or officer of the Town shall commit the Town to any expenditure or liability which would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the Town at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the Town, either by the Selectmen or other Town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the Town.

SECT. 12. The Selectmen shall have full authority as agents of the Town to institute and prosecute suits in the name of the Town, and to appear and defend suits brought against, unless it is otherwise specially ordered by a vote of the Town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the Town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the Town, unless the Town shall otherwise vote in any special case.

SECT. 14. The Selectmen shall appoint a Town Accountant, who shall perform the duties prescribed by law. At the close of each fiscal year he shall cause an audit of the accounts of the Town to be made under the supervision of the Director of Accounts, as provided by Section 35 of Chapter 44 of the General Laws.

SECT. 15. Whenever damages may be recovered against the Town under General Laws, Chapter 79, entitled "Eminent Domain" and acts in amendment thereof and in addition thereto, the Board of Selectmen, unless otherwise provided by vote of the Town, may exercise in the name and behalf of the Town all the powers granted in Section 39 of said Chapter relative to settlement of damages, assumption of betterments, offers of settlement, and other matters in said section contained.

CHAPTER 5

THE CEMETERY

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and new member be elected at each annual meeting of the Town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual Town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the Town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the Town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of not less than fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such land marks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such Tomb, carefully remove its contents to a lot prepared for the purpose and erect over the remains a suitable memorial stone.

SECT. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.
2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.
6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6

POLICE REGULATIONS

SECTION 1. No person shall move or assist in moving any building, over any way which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this Town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and

to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the Town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the Town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the Town for all expenses and damages which, or for which, the Town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12 No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the Town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any sign board of the Town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars or advertisements through the Town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, firearm, torpedo, fire-cracker or fire-works in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

SECT. 26. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the Town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the Town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

SECT. 27. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

PROSECUTIONS AND PENALTIES.

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the Town may be made by any constable or police officer of the Town.

CHAPTER 7

The Construction and Inspection of Buildings

Section 1. This Chapter shall constitute and be known as the Building Code and may be cited as such. It provides, in conjunction with Chapter 635, Acts of 1912, known as the "Tenement House Act", for all matters concerning the construction, equipment, alteration, repair, demolition or moving of buildings or structures erected or to be erected in the Town of Milton.

Sect. 2. Whenever the word "Inspector" occurs in this Chapter it means the Inspector of Buildings.

Sect. 3. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within the Town at any reasonable hour.

Sect. 4. In this Chapter the following terms shall have the meanings respectively assigned to them:

First Class Buildings: A first class building shall consist of fireproof material throughout. with floors constructed of iron, steel or reinforced concrete beams, filled in between with terra cotta or other masonry arches or with concrete or reinforced concrete slabs. Wood may be used only for under and upper floors, window and door frames, sashes, doors, interior finish, handrails for stairs, necessary sleepers bedded in cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Buildings: Second class buildings shall include all buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete, concrete blocks or other equally substantial and fireproof material.

Third Class Buildings: Third class buildings shall include all buildings not of the first or second class.

Thickness of Wall: The minumum thickness of such wall.

Grade: Average grade of the ground immediately adjoining a building.

Cellar: A story more than one-half below the average grade of the ground immediately adjoining a building.

Wooden Frame Building: Any building of which an external wall is constructed wholly or partly of wood. Wood frames covered with metal, wire lath and plaster or brick shall be deemed to be wood structures.

Reinforced Concrete: By the term "reinforced concrete" is meant an approved concrete mixture reinforced by steel of any shape so combined that the steel takes up the tensile stress and assists in the resistance to shear.

Story: That part of a building between the top of any floor beams and the top of the floor or roof beams next above.

Permits

Sect. 5. Before the erection, construction or alteration of any building or part of any building, structure or part of any structure, wall, or any platform, or flooring to be used for standing or seating purposes, is commenced, the owner or lessee, or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration shall, except for ordinary repairs, submit to the Inspector a detailed description of the location, purpose and construction of the proposed structure or work on proper blanks to be furnished by the Inspector, and full and complete copies of the plans of such proposed work, and such structural detailed drawings as the Inspector may require.

Such plans and detailed drawings shall be furnished in duplicate and, if approved by the Inspector, one set shall be kept at the building during the progress of the work, open to the inspection of the Inspector or his representative. The other shall be kept on file in the office of the Inspector.

The Inspector may require an applicant for a permit to submit with the plans of a building or other structure detailed drawings and calculations of any portions thereof subjected to unusual stresses, or of complicated construction, or for a steel frame or reinforced construction, or of any type of construction not particularly described in this chapter.

Nothing in this section shall be construed to prevent the Inspector from granting his approval of the erection of any part of a building or structure where the general plans and detailed descriptions have been filed for the same, before the entire detailed plans have been submitted.

SECT. 6. It shall be the duty of the Inspector to approve or reject any plans filed with him pursuant to the provisions of this chapter within a reasonable time and within ten (10) days in any event, and no work shall be commenced until a permit is issued.

SECT. 7. Upon approval of plans the Inspector shall issue a permit. The permit shall be void unless work is commenced within three (3) months from the date thereof.

SECT. 8. No building shall be lathed nor shall any metal ceiling, plaster board or other covering be put on until the Inspector has been notified that the building is ready for such work, and until he has given written consent thereto.

SECT. 9. If a proposed building or structure is of a size or character not provided for by this chapter, plans and specifications of such building or structure shall be submitted to the Inspector and referred by him, with his recommendations thereon, to the Board of Selectmen for approval.

CONSTRUCTION

SECT. 10. The Inspector shall examine all buildings in the course of erection or alteration as frequently as is necessary, to see that the Law and the By-Laws of the Town are complied with.

SECT. 11. Every portion of every building or other structure in process of construction, alteration, repair or removal and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 12. All masonry below the finished grade shall be laid up in mortar no poorer than one part Portland cement and three parts sand.

All masonry above grade shall be laid up in mortar no poorer than one part Portland cement, one part lime, and six parts sand.

SECT. 13. Every building or structure hereafter erected shall have a masonry foundation resting upon the solid ground, piles, or other durable structure. Said foundation shall be securely and properly built, and shall be of such thickness as to properly sustain the weight it is intended to support; provided, however, that the Inspector may, in his discretion, permit the use of other materials for foundations of buildings not over one and one-half stories high.

SECT. 14. The underpinning above grade, if of concrete, shall be not less than ten (10) inches in thickness; if of brick, not less than twelve (12) inches in thickness; if of stone, not less than sixteen (16) inches in thickness; and shall be laid in cement mortar, as prescribed in Section 12.

SECT. 15. All foundation walls and pier footings shall be laid at least three (3) inches below cellar bottom and not less than three (3) feet six (6) inches below any adjoining surface exposed to frost.

SECT. 16. All piers shall be built of stone, good hard burnt brick laid in mortar, or reinforced concrete. Isolated brick piers shall not exceed in height ten (10) times their horizontal dimensions and, if of reinforced concrete, fifteen (15) times their least horizontal dimensions, which shall not be less than twelve (12) inches. Cement filled iron columns may be substituted for piers if of suitable size to carry the superimposed load. Such columns shall have cast iron caps and bases and shall rest on footings of masonry, stone, or concrete which shall be at least twelve (12) inches in each dimension.

SECT. 17. For buildings other than frame, where the walls are of brick or solid concrete, the minimum thickness in inches of all exterior and dividing walls carrying the loads of floors and roofs and including foundation walls for the same shall be not less than specified in the following table:

Height.	Foundation.	Basement.	Stories.					
			1	2	3	4	5	6
1 story . .	16	12	8					
2 stories . .	16	12	12	8				
3 stories . .	20	16	12	12	8			
4 stories . .	20	16	16	12	12	8		
5 stories . .	20	16	16	16	12	12	8	
6 stories . .	24	20	16	16	16	12	12	8

The height of stories for the thickness of walls given shall not exceed:

First Story	17 feet
Second Story	15 feet
Third Story	13 feet
Fourth and Upper Stories	12 feet

and if any story exceeds the foregoing heights, it shall be counted as one additional story for each twelve feet in height or fraction thereof and the thickness of the walls not diminished from the thickness of the lower portion of such story.

If stone is used in place of brick or solid concrete, the thickness of walls shall be made four (4) inches thicker than above specified.

In external walls of the thickness specified in this section, the area of openings for windows, doors, flues, etc., shall not exceed 50 per cent of the gross sectional area. In case the width of such openings exceeds one-half the length of the wall, the thickness of piers between openings shall be increased so as to maintain an area of at least fifty (50) per cent of the gross area required by the specified thickness; provided, however, that in the upper half of any vertical portion of the wall required to be of constant thickness a smaller addition may be made to the thickness of piers, if the stresses allowed by this code are not exceeded. Curtain walls of brick or concrete between piers, where carried to the piers by arches or lintels at each story, shall be not less than eight (8) inches in thickness.

SECT. 18. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 19. In reckoning the thickness of walls, no allowance for ashlar shall be made unless it is at least eight (8) inches thick, in which case the excess over four (4) inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four (4) inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

SECT. 20. Reinforced concrete construction will be accepted for buildings of the first class, and must be designed in accordance with the recommendations of the Joint Committee of the American Society of Civil Engineers, or American Society for Testing Materials, and all materials used in the construction must conform to the requirements of the standard specifications of the American Society for Testing Materials.

The Building Inspector shall have authority to require tests to be made of all materials used in the construction. Such tests shall conform to the requirements as approved by the American Society for Testing Materials.

Only stone or gravel concrete shall be allowed in the construction of reinforced concrete buildings, except that slag or cinder concrete may be used for fireproofing purposes and for floors or roofs where the superimposed load does not exceed fifty (50) pounds per square foot, and the spacing between supports does not exceed six (6) feet.

The allowable unit stresses shall not exceed those recommended by the Joint Committee above mentioned.

Before issuing permit for the construction of reinforced concrete buildings, the Inspector of Buildings shall require the owner to submit a complete set of working drawings and details of the proposed construction with the approval of some well-known consulting engineer written upon each sheet of the drawing, and the cost of such approved drawings shall be paid by the owner.

SECT. 21. The studding in outside walls shall be at least two (2) by four (4) inches in size and spaced not over sixteen (16) inches on centers.

Studs next door and window openings shall be at least three (3) inches by four (4) inches and shall be mortised into sills and girts.

Openings in outside walls shall be trussed if the Inspector so requires.

SECT. 22. Every wooden building hereafter erected or altered shall have all parts of sufficient strength to carry the weight of the super-structure; shall be built with sills, posts, girts, studs and plates all properly framed, braced and secured together by mortising, strapping or halving, to the satisfaction of the Inspector.

The posts and girts shall be not less than four (4) inches in size except intermediate posts, which shall be not less than four (4) inches by eight (8) inches in size. Studs in interior partitions shall be placed not more than twenty (20) inches on centers. Plates shall be not less than four (4) inches by four (4) inches in size, but may be two (2) inches by four (4) inches doubled. Sills shall be not less than four (4) inches by six (6) inches in size.

SECT. 23. The studding of main or carrying partitions shall be not less than two (2) by four (4) inches in size, and shall rest on a sole piece of hard pine two (2) by four (4) inches. All openings in main partitions of more than thirty-six (36) inches shall be trussed and have studs doubled at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding and two (2) inches thick, at least once in height.

Partitions over twelve (12) feet in height shall be bridged at least once in every six (6) feet.

When carrying partitions rest directly over each other, the studs shall run down between the floor beams and rest on the header of the partition below.

Headers of carrying partitions shall be at least two (2) inches by four (4) inches in size, doubled and of hard pine.

SECT. 23A. All wooden header beams more than four (4) feet long used in any building shall be framed together and pinned or hung to the trimmer beams in stirrup-irons. When it is not practicable to frame or secure the ends of tail beams into header beams, the ends of the tail beams shall be hung to the header beams by stirrup-irons.

SECT. 24. All wooden beams of floors or flat roofs shall be properly bridged with cross bridging at least one (1) inch by three (3) inches in size, and the distance between bridging or between bridging and walls shall not exceed eight (8) feet.

SECT. 25. No part of any floor timber shall be within two (2) inches of any chimney; no studding or furring shall be within one (1) inch of any chimney; and no timbers or woodwork shall be within two (2) inches of the back wall of any fireplace. The header beam, carrying the tail beams of a floor and supporting the trimmer arch in front of a fireplace, shall be not less than eighteen (18) inches from the finished chimney breast.

SECT. 26. Every wooden beam, except header beams, shall rest four (4) inches in the wall at each end, or upon a girder or column as authorized by this chapter, unless the wall is properly corbelled out of four (4) inches, in which case the brickwork or corbelling shall extend to the top of the floor beams.

SECT. 27. The ends of all wooden beams of floors where they rest on brick walls, and the ends of all wooden roof beams in parapeted walls, shall be cut to a bevel three (3) inches in their depth.

SECT. 28. No cutting of timbers for any purpose shall be done so as to reduce the strength of the supporting parts below that required by the provisions of this chapter. No floor, timber, header or trimmer beam of any building shall be cut into more than two (2) inches in depth for piping without a permit from the Inspector. Holes for electric wires through wooden beams, girders or floor beams shall not be located more than one (1) inch from the neutral axis thereof.

SECT. 29. Every second and third class building hereafter built shall have in each story all vertical space in the exterior walls, and carrying partitions thoroughly stopped with fireproof materials not less than four (4) inches in height. These steps may be omitted on approval of the Inspector in cases where the studding is to remain open and uncovered. In every building used solely as a mill or factory there shall be a fireproof stop between the upper and under floor. This fire stop may, however, be omitted if the floor boards are at least two (2) inches thick and splined or tongued together and the space between the timbers of the floor open and uncovered.

SECT. 30. All floors shall be of sufficient strength to bear the weight imposed thereon and of sufficient strength in all parts to safely bear (in addition to the weight of the material of which the floor is composed), upon every square foot of its surface not less than the weights named below for the specified purposes for which such floors are respectively used or designed to be used:

Dwelling houses and hotels [except public rooms having a floor area of over five hundred (500) square feet and corridors], fifty (50) pounds; unfinished attics used for storage purposes only, thirty (30) pounds; schoolhouses, except corridors and assembly halls, sixty (60) pounds; stairs, landings, platforms, fire escapes, office floors, places of public assembly and public buildings having permanent seats, seventy-five (75) pounds; stables, private garages and the portions of public garages not containing machinery, seventy-five (75) pounds; corridors of hotels, of public buildings and of schoolhouses and rooms in hotels exceeding five hundred (500) square feet in area, one hundred (100) pounds; retail stores and buildings for light manufacturing purposes, one hundred and twenty-five (125) pounds; places of public assembly and public buildings having movable seats, dance halls and gymnasiums, two hundred (200) pounds; warehouses and buildings for heavy manufacturing purposes, two hundred and fifty

(250) pounds. Loads not included in the above classification shall be determined by the inspector.

SECT. 31. The pressure upon brick masonry in walls or piers, of which the thickness or least dimension is more than one-sixth of the height, when lime mortar is used, shall not exceed eight (8) tons per square foot; with lime and cement mortar, twelve (12) tons per square foot; with cement mortar, eighteen (18) tons per square foot. When the thickness or least dimension is between one-sixth and one-twelfth the height, and lime mortar is used, the pressure shall not exceed seven (7) tons per square foot; lime and cement mortar, ten (10) tons per square foot; with cement mortar, fifteen (15) tons per square foot.

On first class stone work laid in cement, pressure shall not exceed: on sandstone, thirty (30) tons per square foot; on marble or limestone, forty (40) tons per square foot; on granite, sixty (60) tons per square foot.

Hollow blocks of terra cotta or concrete when used for bearing walls shall have not more than fifty (50) per cent of cellular space. Concrete blocks shall not be used in construction until they have attained the age of twenty-eight days, or developed the strength required in this section. All building blocks shall be laid in Portland cement mortar.

The compressive strength of building blocks shall in all cases be calculated upon the gross area of the bedding faces, no account being taken of the cellular spaces. The average ultimate compressive strength for terra cotta blocks laid with cells vertical shall be not less than twelve hundred (1,200) pounds per square inch; the average for concrete blocks laid with cells vertical shall be not less than eight hundred (800) pounds per square inch. Concrete blocks shall be not less than thirty-six (36) days old when tested. The average strength of the blocks as here given shall be obtained by testing ten blocks of average quality.

The allowable working stress of hollow building blocks shall not exceed one hundred (100) pounds per square inch of gross area for terra cotta blocks, or seventy-five (75) pounds per square inch of gross area for concrete blocks. If a wall be built of blocks with the cells horizontal, the allowable working stress shall not exceed thirty (30) pounds per square inch of gross area.

The maximum stress in pounds per square inch in woodwork shall not exceed the following:

	Long-leaved Yellow Pine, Oak and Locust	Other Woods
Direct tension on compression or fiber stress . .	1,500	1,000
Direct compression side grain	500	300
Shear across fiber	1,200	800
Shear with fiber	150	100
Short columns	1,000	700

Columns may used with a length not exceeding forty (40) times the least dimension. The unit strain for lengths up to ten (10) times the least dimensions shall be as given in the above table, with a reduction of one hundred (100) pounds per square inch for every increase of ten in the ratio of length to least dimension.

The maximum stress in tension in cast iron, or tensile fiber stress in case of beams, shall not exceed three thousand (3,000) pounds per square inch. The maximum compression in short pieces or compressive fiber stresses in beams shall not exceed sixteen thousand (16,000) pounds per square inch. Cast iron columns may be used with a length not exceeding twenty (20) times their least external diameter. The unit stress for lengths up to three (3) times their least diameter shall not exceed eleven thousand (11,000) pounds per square inch, with a reduction of five hundred (500) pounds per square inch for every increase of 3 in the ratio of length to least diameter.

In rolled steel the maximum stresses shall not exceed the following:

Tension and fiber stress, 16,000 pounds per square inch; compression in columns, 13,000 pounds per square inch.

Columns may be used with a ratio of length (1) to least radius of gyration (r) not exceeding 16, 1 being expressed in feet and the r in inches. The unit stress allowed shall be 13,000 pounds per square inch for 1/r from 2 to 4; 12,000 from 4 to 6; with a decrease of 1,000 pounds for each succeeding increase of 2 in the ratio of 1 to r.

Shear in rivets, 10,000 pounds per square inch; shear in rough bolts, 9,000 pounds per square inch; shear in web (stiffened), 8,000 pounds per square inch; bearing on rivets, 18,000 pounds per square inch; bearing on rough bolts, 15,000 pounds per square inch.

The maximum stresses in wrought iron shall not exceed seventy-five (75) per cent of those allowed in rolled steel.

Materials not specifically mentioned above shall not be allowed to carry stresses exceeding one-quarter the stresses which would cause fracture or cracks in specimens of such materials of average quality under similar conditions of loading. In cases of doubt of the strength of such materials, the owner may be required to make such tests as the Inspector shall deem necessary to determine the strength, said tests to be made in the presence of the Inspector or his authorized representative.

SECT. 32. Frame buildings veneered on the outside with four (4) inches of brick or stone work shall have such brick or stone work supported on a foundation of masonry, and shall be properly anchored to the frame structure. The height of any such veneer shall not exceed twenty-five (25) feet above the solid masonry.

SECT. 33. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

SECT. 34. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipe. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 35. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

SECT. 36. All walls, ceilings and partitions inclosing drying-rooms, when not made of fireproof material, shall be wire lathed and plastered, or covered with metal, tile or other hard, incombustible material.

SECT. 36A. No portion of any building of third class construction to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall be hereafter erected, enlarged, altered, or placed nearer than four (4) feet to the line of any adjacent lot or to any other building of the first or second class; or nearer than eight (8) feet to any portion of any other building of the third class on the same lot, unless fireproof masonry walls, with openings protected as required by Section 36, are built next to the said lot or other building, such walls to be of thickness provided under Section 17.

SECT. 37. In first or second class buildings all openings in walls within four (4) feet of adjoining property lines shall be protected by metal shutters or by metal sash, frames and wire glass.

SECT. 38. Every building of the third class hereafter erected to form a block of two or more buildings shall have a wall of brick, or Portland cement concrete, or other equally substantial and approved fireproof material between adjoining buildings, completely separating same. Such walls to be of thickness specified in Section 17, carried to under side of roof boarding.

SECT. 38A. Every dwelling to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall have at least two independent means of egress.

ELECTRIC WIRING AND FIXTURES

SECT. 39. All wires, appliances and apparatus in the interior of a public building or on private premises, which are intended for the transmission of electricity and to be connected with an outside circuit, shall be made and at all times kept safe, and

shall be placed, arranged, attached, changed and maintained by the person, firm or corporation owning or using the same, to the satisfaction of the Inspector of Wires appointed in accordance with the provisions of Chapter 337 of the Acts of the year 1899. The Inspector of Wires shall have access at all reasonable times to such wires, appliances and apparatus.

Before any person, firm or corporation shall arrange, fix, or essentially change any such wires, appliances and apparatus, the Inspector of Wires shall be notified and given full opportunity to inspect the said wires and their arrangement and fixtures before the same are covered or enclosed. Wires in the interior of buildings and on private premises shall not be connected with an outside circuit which crosses or runs along, over or under any street or way of the Town without written permission therefor having been first obtained from the Inspector of Wires.

Companies and contractors making any repairs on or installing any electric plants in the Town of Milton shall send a notice to the Inspector of Wires before the work is commenced.

All work and material must be supplied and installed in accordance with provisions of the National Electric code and any amendments or additions thereto.

Gas Fixtures

Sect. 40. The burners of all gas fixtures shall be at least three (3) feet below any ceiling or woodwork, unless the same is properly protected by a shield, in which case the distance shall be not less than eighteen (18) inches. No gas bracket on any lath and plaster partition or woodwork shall be less than five (5) inches in length, measured from the burner to the plaster surface or woodwork.

Sect. 41. Gas pipes in any building or structure shall be installed in accordance with the rules and regulations prescribed by the company furnishing gas. All gas pipes shall be inspected and tested by the gas company before the pipes are covered, and a certificate of the same from the gas company shall be placed on file with the Inspector of Buildings by the owner of the building or his representative. The method of installation of the gas pipes shall be subject to the approval of the Inspector of Buildings.

Sect. 42. Every hot water boiler hereafter installed, to be used for heating purposes, shall be provided with a safety or relief valve of a size not less than that known commercially as one-half (½) inch. Such valve shall be attached either directly to the boiler or to some pipe connected therewith at a point not more than one foot from the boiler.

Regulations Made by the Fire Engineers According to the Provisions of Chapter 32, Section 46, of the Revised Laws in Regard to Chimneys, Flues, Fireplaces and Heating Pipes

Sect. 43. All chimneys hereafter erected shall be built of brick, stone or other incombustible material.

Sect. 44. All chimneys hereafter erected, if walls are less than eight (8) inches thick, shall be lined on the inside with terra cotta or tile pipe, made smooth on the inside from two (2) feet below girder, or from the throat of the fireplace, if the flue starts from the latter, and carried up continuously to the top. The ends of all such lining pipes shall be made to fit close together, and the pipe shall be built in, as the flue or flues are carried up. The walls shall be at least four (4) inches thick. No parging mortar shall be used on the inside of any fireplace, chimney or flue. The firebacks of all fireplaces hereafter erected shall be not less than eight (8) inches in thickness if of solid brickwork not less than twelve (12) inches if of stone. When a grate is set in a fireplace, a lining of firebrick at least two (2) inches in thickness shall be added to the fireback, unless soapstone, tile or cast iron is used and filled solidly behind with fireproof material.

All chimneys shall extend at least three (3) feet above the highest point at which the chimney cuts the roof and at least six (6) inches above any roof surface within ten (10) feet in a horizontal line.

Sect. 45. Imitation fireplaces intended for use with gas or electricity and not having a flue shall be constructed throughout, including the hearth, of fireproof material not less than two (2) inches thick.

Hearths of all fireplaces and chimney breasts where mantels are placed shall be supported by trimmer arches of brick, stone, burnt clay or concrete at least eighteen

(18) inches in width measured from the face of the finished chimney breast and not less than sixteen (16) inches longer than the width of the finished fireplace opening. Wooden centers under trimmer arches shall be removed before plastering the ceiling underneath. Hearths may be supported on steel cantilever beams built not less than sixteen (16) inches into the chimney.

SECT. 46. No chimney shall be supported by, started or built upon any woodwork. In no case shall a chimney be corbelled out more than two-thirds the thickness of a wall to which it is attached, and in all such cases the corbellings shall consist of at least five course of brick. Where chimneys are supported by piers, the piers shall start from the foundation on the same line with the chimney breast, and shall be not less than twelve (12) inches on the face, properly bonded into the walls. When a chimney is to be cut off below, in whole or in part, it shall be wholly supported by stone, concrete, brick, iron or steel.

All chimneys which become dangerous in any manner whatever shall be repaired and made safe, or taken down.

SECT. 47. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

SECT. 48. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipes. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 49. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

CHAPTER 8

THE REGULATION AND INSPECTION OF PLUMBING

SECTION 1. There shall be in the Town a department for the inspection of plumbing in accordance with the provisions of Chapter 103 of the Revised Laws.

SECT. 2. The word "Inspector" without further addition wherever used in this chapter means the Inspector of Plumbing.

SECT. 3. Every plumber before commencing work on any part of the drainage system in a building, except in the case of the repair of leaks, shall file at the office of the Inspector upon blanks provided for that purpose, a description of the proposed work. No such work shall be done in any building unless approved by the Inspector and after a permit is issued therefor. Permits to perform plumbing shall be issued only to master plumbers. Drawings of the proposed work shall be filed when required by the Inspector.

SECT. 4. No drainage, waste or ventilation pipes shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two (2) working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All drainage, waste and ventilation pipes shall be subjected to the water test before the fixtures are set. After all the fixtures are set, said pipings and fixtures shall be subjected to pneumatic or other reliable pressure test. All such tests shall be made in the presence of the Inspector.

SECT. 6. The drainage and waste piping of every building shall be connected with the public sewer when such sewer is located in a street, way or other land adjacent

to the lot upon which the building is located, if the sewer is within two hundred (200) feet of such building and is so located as to take the sewerage therefrom. If the building is more than two hundred (200) feet from the sewer or a sewer is not accessible, connection may be made with a proper cesspool, provided a permit is granted therefor by the Board of Health.

SECT. 7. The soil pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil pipes shall be of extra heavy cast iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast iron with leaded and caulked joints, but galvanized wrought iron pipe may be used for vent purposes. All pipes shall be properly secured to walls and ceilings with wrought iron hangers. Waste pipes shall be of cast iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast iron recessed fittings. No soil pipe of any building shall be less than four (4) inches inside diameter, except by written permission of the Board of Health. No vent pipe shall be less than one and a half (1½) inches inside diameter. No waste pipe shall be less than one and a quarter (1¼) inches inside diameter.

SECT. 8. All drain pipes shall have a proper pitch, shall have an accessible clean-out, and shall extend to a point ten (10) feet outside of the cellar wall. The pipe from the sewer or cesspool to within ten (10) feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least two (2) feet above the highest window on the roof. Every drain pipe, except a drain pipe from a building having but one sink, or but one sink with adjoining trays, shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain pipe leaves the building. All changes in direction of soil pipes shall be made by Y branches or by curved pipes. No ventilation pipes on the outside of any building shall be less than two (2) inches inside diameter.

SECT. 9. All joints in iron drain pipes, soil or vent pipes shall be made by thoroughly caulking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full sized wiped joint and caulking the ferrules to pipes which are of cast iron, or screwing them to pipes which are of wrought iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop hopper, and every tray or set of four or less wash trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins, or a sink and a set of four or less wash trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe.

All fixtures traps shall be protected from syphonage or air pressure by special vent pipes having a diameter not less than the diameter of the waste pipe and connected with the waste pipe at a point not lower than the seal of the trap in such manner as to make the vent pipe a continuation of or a Y branch from the waste pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent pipe unless the length of the waste pipe from the trap of said fixture to the said stack exceeds three (3) feet. Vent pipes for water-closets shall be of not less than two (2) inches bore and may be connected with the water-closet waste pipe below the level of the trap seal. Two or more vent pipes may be connected together or with a soil pipe, but such connection with a soil pipe shall be above the uppermost fixture connected with such soil pipe. Lead vent pipes may be used only where they are exposed to view.

SECT. 11. No drip or overflow pipes from safes under water-closets, urinals, or other fixtures, no overflow pipes from tanks or cisterns, no waste pipes from refrigerators or other receptacles in which food is stored, no rain water conductors, and no steam exhaust pipes, or steam waste pipes shall be connected with any soil pipe. No openings shall be allowed in the soil or waste pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to, the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil or waste pipe.

SECT. 12. Every water-closet shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one and a quarter (1¼) inches inside diameter. Flushing valves attached directly to a water-closet may be used, but when used the method of installation shall conform in every particular to the requirements of the Inspector.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. No water-closet shall be enclosed with any woodwork.

SECT. 15. None of the provisions of the foregoing sections of this chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. Every closed tank or boiler hereafter installed, which is to be used for the storage and supply of hot water, shall, if fed by direct pressure from any source outside of the building, have a safety or relief valve and a vacuum valve. Each valve shall be of a size not less than that known commercially as one-half (½) inch.

SECT. 17. Any person violating any of the provisions of Chapters numbered Seven and Eight shall be liable to a fine of not less than twenty (20) dollars nor more than one hundred (100) dollars for each offence, to be paid into the treasury of the Town of Milton.

SECT. 18. Upon the approval of Chapter 7 and 8 by the Attorney-General of the Commonwealth and the publication as required by law, they shall go into effect, and all building laws heretofore adopted by the Town shall be thereby repealed, except that in cases where permits have been issued prior to the approval and publication as above provided, the laws then existing shall govern the work to be performed under said permits.

CHAPTER 9

STREET RAILWAYS

SECTION 1. The annual report shall contain the following concerning the street railways in the Town and the street railway companies owning or operating the same, viz:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the Town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the Town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the traveling public are required upon any street railway in the Town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10

TOWN WAYS

SECTION 1. Every way that shall be laid out for the acceptance of the Town as a town way shall be not less than fifty feet in width, provided, however, that this section shall not prevent the layout of any way, which, prior to the time when this amendment takes effect, shall have been duly approved by the Board of Survey. Provided, however, that upon written certification by the Board of Survey, in respect to the layout of a particular way, that the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but not less than forty feet in width.

SECT. 2. If an existing private way the fee of which is in the abutters shall be laid out for the acceptance of the Town as a town way, such way shall not be accepted unless and until the Selectmen shall have certified in writing that such way is well built, and as constructed it is equal to the average construction of existing highways of the Town; provided, however, that this section shall not apply to ways laid out subject to the provisions of law relating to the assessment of betterments.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town.

CHAPTER 11

Billboards

Section 1. No person or corporation shall erect or maintain a billboard sign or other outdoor advertising device, except as provided in Section 32 of Chapter 93 of General Laws, on any location within three hundred feet of any public park or playground or Metropolitan Park or Parkway, if within public view from any portion of such parks, playgounds, or parkways; or within three hundred feet of any other public way and within public view from any portion of the same, if such billboard, sign or device exceeds five feet in height or eight feet in length, and no billboard, sign or device placed within three hundred feet of any such public way and within public view shall be nearer than fifty feet to any other such billboard, sign or device; or at the corner of any public ways and within the radius of one hundred fifty feet from the point where the center lines of such ways intersect; or in any place unless the lowest portion of such billboard, sign or device is at least three feet from the ground, and the entire structure, including its braces and supports, is maintained in good repair, painted, and free from accumulation of rubbish and filth and from the pupæ, eggs and caterpillars of gypsy and brown-tail moths and other tree and shrub destroying pests; provided that this section shall not apply to signs or other devices which advertise or indicate either the person occupying the premises in question or the business transacted thereon, or advertise the property itself or any part thereof if for sale or to let.

CHAPTER 12

Use of Buildings

Section 1. *Districts.*—A residence district is hereby created in the Town of Milton to be known and designated as District A, the bounds of which shall be as set forth in the Zoning Map hereinafter in this By-Law referred to, the said district comprising all territory within the corporate limits of the Town of Milton, excepting the districts marked B and C on said Zoning Map, which are bounded and described as follows:

District B.—Beginning at a point in the boundary line between Milton and Quincy at the junction of the northeasterly side line of Bryant Avenue, and said boundary line: thence running northwesterly along said northeasterly boundary of Bryant Avenue to a point where the northwesterly side line of Martin Terrace extended northeasterly would intersect said line of Bryant Avenue: thence turning and running southwesterly along said extension of the northwesterly side line of Martin Terrace and said northwesterly side line itself to the end of said Martin Terrace at the land of L. A. Dame: thence turning to the right and running northwesterly along said land of L. A. Dame to the southeasterly side line of Boulevard Street: thence continuing in a northwesterly direction across said Boulevard Street to the intersection of the northwesterly side line of Boulevard Street with the southeasterly side line of Edge Hill Road: thence turning and running northeasterly and northerly along said southeasterly side line of Edge Hill Road and continuing northerly in the same line across Adams Street to the easterly boundary line of land of the New York, New Haven and Hartford Railroad Company: thence turning and running northwesterly along said easterly boundary line to a point where the southeasterly side line of Wood Street extended southwesterly would intersect said easterly boundary line: thence turning and running northeasterly along said southeasterly side line of Wood Street to a point distant 200 feet northeasterly from the northeasterly side line of Granite Avenue: thence turning at right angles and running southeasterly in line parallel with the northeasterly side line of Granite Avenue and 200 feet distant therefrom to a point distant 200 feet northerly from the northerly line of Adams Street: thence turning and running easterly in a line parallel with said northerly side line of Adams Street and distant 200 feet therefrom to the westerly side line of Church Street: thence turning and running southerly along the westerly side line of Church Street to a point where the westerly side line extended intersects the southerly side line of Adams Street: thence turning and running westerly to the westerly side line of Mechanic Street: thence turning and running southerly along the westerly side line of Mechanic Street 100 feet: thence turning to the right and running westerly on line parallel with the southerly side line of Adams Street and 100 feet distant therefrom to a point 100 feet northeasterly from the northeasterly side line of Granite Avenue: thence turning and running southeasterly in a line parallel with the northeasterly side line of Granite Avenue and 100 feet distant therefrom to the boundary line between Milton and Quincy: thence turning and running southwesterly along said boundary line to the point of beginning.

District C.—Beginning at a point in the boundary line between Milton and Boston at the Neponset River, said point being at the intersection of the southerly boundary of land of the New England Telephone and Telegraph Company extended easterly and said boundary line between Milton and Boston: thence running westerly along said extension of the southerly boundary line of the New England Telephone and Telegraph Company and said southerly boundary line itself, to the easterly side line of Adams Street; thence continuing in the same general westerly direction across Adams Street and Canton Avenue to a point 100 feet distant westerly from the westerly side of High Street extended: thence turning and running northerly parallel with the westerly side line of High Street and distant westerly 100 feet therefrom to the northerly side line of Eliot Street: thence turning and running westerly along said northerly side line of Eliot Street to Pine Tree Brook: thence turning and running along the center line of said Brook southerly and southwesterly to the southwesterly boundary of land of the Town of Milton used for a Police Station: thence turning and running northwesterly along the southwesterly boundary and southwesterly line extended across Central Avenue to land of Octavia L. Horne: thence turning and running in a general northerly direction along the westerly boundary line of land of said Octavia L. Horne, and said westerly boundary line extended to the northerly side line of Eliot Street: thence turning and running westerly along said northerly side line of Eliot Street to the westerly boundary of land now or formerly of the National Biscuit Company: thence turning and running northerly along said westerly boundary and said westerly boundary produced across land of the New York, New Haven and Hartford Railroad Company to boundary line between Boston and Milton at the Neponset River: thence turning and running in a general easterly and southerly direction along said boundary between Boston and Milton to the point of the beginning.

SECT. 2. *Zoning Map.*—(*a*) The Zoning Map prepared by C. Frederick Joy, Jr. Civil Engineer, dated June 23, 1922, bearing the signatures of the Board of Selectmen and showing the boundaries of Districts A, B, and C, is declared to be a part of this By-Law.

(*b*) Where a boundary line divides a lot in a single ownership at the time of the adoption of this By-Law, the regulations as to District A shall not apply provided the lot does not extend more than twenty-five feet within the boundary line of said District A.

SECT. 3. *Residence Purposes.*—In District A, except as herein otherwise provided, no building shall be used, and no building shall be erected or altered which is intended or designed to be used for a store or shop, or for manufacturing or commercial purposes, or any other purposes except one or more of the following:

(*a*) A dwelling for one or more families.

(*b*) A hotel or a lodging or boarding house.

(*c*) A club other than a club the chief activity of which is a service customarily carried on as a business.

(*d*) A church, school or academy.

(*e*) Other purposes which are not particular industries, trades, manufacturing or commercial purposes.

(*f*) A railroad passenger station.

(*g*) A farm, truck garden, nursery or greenhouse.

(*h*) An accessory purpose customarily incident to the above purposes and not detrimental to the use of other property in the district for the above purposes, including a private garage for not more than two automobiles. An accessory purpose shall not include an advertising sign except a real estate sign advertising for sale or rent the property on which it is placed, but may include a sign not over one square foot in area, bearing a name and the designation of any authorized occupation, and being such a sign as is customary on any building used for the purposes permitted by this section of this By-Law.

(*i*) A garage for more than two automobiles, or a telephone exchange or transforming station, provided in each case that after a public hearing, fourteen days' notice of which shall be given, in such manner as the Selectmen shall determine, the Selectmen shall rule that such use in a building or buildings located, designed and constructed as described by them in their ruling, will not be seriously detrimental to the use of other property in the district for the purpose specified in the preceding paragraphs of the section, and provided that the use is confined to a building or buildings conforming to the description of said ruling.

SECT. 3A. *Location of Buildings in District A.*—After this section shall be duly adopted by the Town and become effective pursuant to law, in District A,

1. Set-back: No part of a building except steps, and eaves not exceeding 18″ wide, shall be built within 15 feet of the side line of the street on which it fronts, provided that no building need be set back more than the average of the set-backs of the buildings on the lots next thereto on either side, a vacant lot or a lot occupied by a building set back more than 15 feet being considered as occupied by a building set back 15 feet, and provided further than on a lot less than 100 feet deep of record in the Registry of Deeds at the time this section becomes effective no building need be set back more than 15 per cent of the depth of the lot, and provided that in such cases the same exceptions shall be permissible as in the case of buildings to which the 15 foot set-back applies.

2. Rear Yards: No part of a building except steps, and eaves not exceeding 18″ wide shall be built within 25 feet or a distance equal to one-quarter of the mean depth of the lot, whichever is the less, from the rear lot line, provided that for each foot that the building sets back from the front line in addition to the requirements in the preceding paragraph its distance from the rear lot line may be reduced one foot, but in no case under this provision to less than 20 feet, excepting that buildings of accessory use as defined in Section 3, paragraph (*h*) may be built within said twenty-five foot or lesser strip.

3. Side Yards: No part of a building except steps, chimneys, and eaves not exceeding 18″ wide, and buildings of accessory use as defined in Section 3, paragraph (*h*) shall be built within 8 feet of a side line on a lot or street, provided that the width of one side yard may be reduced one foot for each foot that the width of the other side yard is increased, but no side yard shall be reduced to less than six feet, and provided further that on no lot of record in the Registry of Deeds at the time this section becomes effective, shall the buildable width, with the same permissible exceptions, be reduced to less than 25 feet.

4. Garages: No part of a garage, unless contained within the body of the house, shall be built within 40 feet, or a distance equal to 40 per cent of the mean depth of the lot, whichever is the less, from the front line of the lot, or within 15 feet of a street line forming the side line of a corner lot.

5. Area: No dwelling, exclusive of piazzas, eaves, and steps, shall occupy more than one-third of the lot on which it is placed, and no building other than a dwelling shall occupy more than one-half of the lot on which it is placed, except that on a corner lot an additional area of 400 square feet may be occupied subject, however, to the requirements contained in all other paragraphs of this section.

6. No lot shall be so reduced in area that the dimensions of the open spaces thereon shall be smaller than herein prescribed.

7. No building shall be built within 16 feet of any other building on the same lot excepting buildings of accessory use as defined in Section 3, paragraph (*h*).

Sect. 3B. *Single Family Dwellings.*—After this section shall be duly adopted by the Town and shall become effective pursuant to law, no dwelling shall be erected in District A which is intended or designed to be other than a single family detached dwelling, and no building shall be altered so as to be or become a dwelling other than a single family detached dwelling, and no building erected or altered in violation hereof, shall be used as a dwelling, provided, however, that a building may be used, erected or altered which is intended or designed to be used as a dwelling for not more than two families on any lot if, at the time this section becomes effective—

1. It is between two lots on which are buildings designed for occupation by two or more families each, located on the same side of the street and less than 100 feet apart, or if

2. The majority of all the frontage on the same street as the lot and on a street or streets in substantially direct continuation thereof and within 300 feet of the site of the proposed building is occupied by buildings designed for two or more families each or side yards adjacent thereto, no such side yard to exceed 10 feet in width, all frontage between buildings designed for two or more families and less than 100 feet apart being considered as occupied by buildings for two families.

Sect. 3C. *Validity.*—The invalidity of Section 3A or Section 3B, or any provision of said Sections, shall not affect the validity of any other Section or provision of said Sections, and said Sections shall affect the provisions of Chapter 12 in force when this amendment becomes effective only so far as said Sections are inconsistent therewith and valid.

Sect. 3D. So much of this amendment as is approved by the Attorney General shall go into effect upon its publication, or notice by delivery, as required by law.

Sect. 4. *Existing Buildings.*—Any building or part of a building in District A which at the time of the adoption of this By-Law is being used for a purpose forbidden

in said District may continue to be used for the same purpose or for a purpose not substantially different in character. Any such building or part of a building and any addition thereto made by permission of the Selectmen as hereinafter provided may be structurally altered or added to at any time provided the alterations or additions do not substantially enlarge the part of the building used for such purpose; and any such building or part of a building or such addition which is partially or wholly destroyed by fire or other casualty may be repaired or replaced by a structure of substantially the same size and character and used for the purpose for which it was formerly used or for a purpose not substantially different in character.

Any such building may be added to or enlarged at any time and such addition or enlargement used for the purpose for which the original building may lawfully be used under the provisions of the foregoing paragraph of this section provided in each case that after a public hearing, of which fourteen days' notice shall be given in such manner as the Selectmen may decide, the Selectmen shall determine that such addition or enlargement and the use to be made thereof will not to any substantial extent be more detrimental to the use of other property in the district for the purposes permitted in Section 3 than the building to which such addition or enlargement is to be made or the use then lawfully made thereof, and shall issue a permit therefor. Each such permit issued by the Selectmen shall specify the size and character of the addition or enlargement and no such addition or enlargement shall be constructed or used for any purpose forbidden in District A which is not constructed in accordance with the terms of such permit.

SECT. 5. *Incidental Use of Residential Buildings.*—Any building in District A designed solely for residential purposes, and used primarily and principally for residential purposes, may be used incidentally for a purpose forbidden in said District, provided, in each case, that after a public hearing, of which fourteen days' notice shall be given in such manner as the Selectmen may decide, the Selectmen shall determine that the use of such building is incidental only, within the meaning hereof, and that such incidental use will not be detrimental to the use of other property in the district for the purposes permitted in Section 3, and shall issue a permit therefor.

SECT. 6. *Enforcement.*—Whoever violates any of the provisions of this By-Law shall be punished by a fine of not more than twenty dollars for each violation. Upon any well founded information from any citizen that this By-Law is being violated or upon his own initiative, the Inspector of Buildings shall take immediate steps to enforce the By-Law.

SECT. 7. *Validity.*—The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision hereof.

SECT. 8. The provisions of this By-Law shall be construed as being additional to and not as limiting or lessening to any extent whatsoever the requirements of Chapters 7 and 8 of the Revised By-Laws of the Town.

SECT. 9. So much of this By-Law as is approved by the Attorney-General shall go into effect upon its publication, or notice by delivery, as required by law.

CHAPTER 13

PLANNING BOARD

A Board consisting of five members is hereby created and established, to be known as the Planning Board. At the annual town meeting to be held in March, 1923, there shall be elected one member of such Board to serve for one year, two members to serve for two years, and two members to serve for three years, and thereafter there shall be elected at the annual meeting in each year one or two members of such Board to fill the places of members whose terms of office expire in such year. The members of such Board shall serve without pay.

The Board shall perform the duties prescribed by Sections 70 and 71 of Chapter 41 of the General Laws. It shall be the duty of the Board also to consider and advise upon municipal improvements in regard to which the advice of the Board, at any time, may be asked by any official or officials of the Town. The Board may upon its own initiative make to any official or officials of the Town such recommendations in regard to municipal improvements as the Board may from time to time think proper or expedient.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON

March 19, 1866. *Voted*, To establish a high school, according to the provisions of Section 2 of Chapter 38 of the General Statutes. (Repealed, 1898, Chapter 496, Section 36.)

March 2, 1874. *Voted*, To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the town of Milton. (Special Act.)

March 4, 1878. *Voted*, To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers. (General Laws, Chapter 48, Section 45.)

March 3, 1879. *Voted*, To accept the provisions of Section 21 of Chapter 38 of the General Statutes, relative to the election of School Committee. (General Laws, Chapter 41, Section 1.)

December 8, 1879. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children. (Repealed, 1919, Chapter 363, Section 16.)

March 5, 1883. *Voted*, To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children. (Repealed, 1898, Chapter 496, Section 36.)

March 7, 1881. *Voted*, To accept the act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners." (General Laws, Chapter 41, Section 1.)

March 3, 1890. *Voted*, To accept the first nine sections of Chapter 51 of the Public Statues, said Chapter being entitled, "Of Betterments, and other Assessments on Account of the Cost of Public Improvements." (General Laws, Chapter 80.)

February 12, 1891. *Voted*, To accept the act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882. (General Laws, Chapter 45, Sections 1 to 11.)

March 2, 1891. *Voted*, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of town officers. (Repealed 1893, Chapter 417, Section 345.)

February 3, 1894. *Voted*, That the town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of 1893, relative to the election of a separate Board of Assessors. (General Laws, Chapter 41, Section 1.)

November 28, 1894. *Voted*, To accept the provisions of Chapter 324 of the Acts of 1894, entitled an "Act Relative to the Reservation of Spaces in Public Ways." (General Laws, Chapter 82, Section 34.)

March 4, 1895. *Voted*, That the town hereby accepts the provisions of Chapter 309 of the Acts of 1885, authorizing towns to license groves to be used for picnics and other lawful amusements. (General Laws, Chapter 140, Sections 188 to 190.)

March 4, 1895. *Voted*, To accept the provisions of Section 272 of Chapter 417 of the Acts of 1893, relative to the election of Sewer Commissioners. (General Laws, Chapter 41, Section 1.)

March 4, 1895. *Voted*, To accept the provisions of Chapter 462 of the Acts of 1893, relative to the establishment of a building line on Public Ways. (Repealed, Acts of 1917, Chapter 344, Part 8, Section 1.)

March 4, 1895. *Voted*, To accept the provisions of Chapter 218 of the Acts of 1894 as amended by Chapter 473 of that same year, relative to the election of Boards of Health in towns. (General Laws, Chapter 41, Section 1.)

March 4, 1895. *Voted*, To accept the provisions of Sections 20 and 21 of Chapter 50 of the Public Statutes, relative to the establishment and grading of sidewalks by the Selectmen. (General Laws, Chapter 83, Section 25.)

March 4, 1895. *Voted*, To accept the provisions of Chapter 304 of the Acts of 1895, authorizing the town of Milton to construct one or more systems of sewerage. (Special Act.)

March 1, 1897. *Voted*, To accept the provisions of Chapter 101 of the Public Statutes, relative to the suppression of common nuisances. (General Laws, Chapter 139.)

March 7, 1898. *Voted*, To accept the provisions of Section 11 of Chapter 481 of the Acts of 1894, relative to the regulation and inspection of buildings. (General Laws, Chapter 143, Section 3.)

March 5, 1900. *Voted*, To accept the provisions of Chapter 344 of the Acts of 1899, relative to eight-hour day for town employees. (General Laws, Chapter 149, Section 31.)

March 3, 1902. *Voted*, To accept the provisions of Section 18 of Chapter 122 of the Revised Laws (General Laws, Chapter 166, Section 32), relative to the appointment of an Inspector of Wires by the Selectmen.

July 14, 1902. *Voted*, To accept the provisions of Chapter 307 of the Acts of 1902, relative to water supply. (General Laws, Chapter 92, Section 10.)

August 16, 1902. *Voted*, To accept the provisions of Sections 58 to 64, inclusive, of Chapter 48 of the Revised Laws, relative to the jurisdiction of towns over highways and county bridges. (General Laws, Chapter 82, Sections 17 to 20.)

March 2, 1903. *Voted*, To accept the provisions of Sections 20 and 21 of Chapter 25 of the Revised Laws, relative to public baths. (General Laws, Chapter 40, Section 12.)

March 2, 1903. *Voted*, To accept the provisions of Section 339 of Chapter 11 of the Revised Laws, relative to the election of Overseers of the Poor. (General Laws, Chapter 41, Section 1.)

March 7, 1904. *Voted*, To accept the provisions of Section 70 of Chapter 75 of the Revised Laws, relative to privy vaults. (General Laws, Chapter 111, Section 126.)

March 6, 1905. *Voted*, To accept the provisions of Chapter 103 of the Revised Laws, relative to the supervision of plumbing. (General Laws, Chapter 142.)

July 21, 1905. *Voted*, To accept the provisions of Chapter 381 of the Acts of 1905, relative to the suppression of gypsy and brown-tail moths. (General Laws, Chapter 132.)

March 1, 1909. *Voted*, To accept the provisions of Chapter 476 of the Acts of 1908, relative to vacations for members of the Police Department. (General Laws, Chapter 92, Section 62, and Chapter 147, Sections 14 and 17.)

March 8, 1910. *Voted*, To accept the provisions of Section 43 of Chapter 49 of the Revised Laws, relative to the grading and construction of sidewalks. (General Laws, Chapter 83, Section 25.)

March 6, 1911. *Voted*, To accept the provisions of Section 359 of Chapter 560 of the Acts of 1907, relative to the election of Moderators. (General Laws, Chapter 41, Section 1.)

March 6, 1911. *Voted*, To accept the provisions of Section 362 of Chapter 560 of the Acts of 1907, relative to the election of four constables. (General Laws, Chapter 41, Section 1.)

November 7, 1911. *Voted*, To accept the provisions of Chapter 634 of the Acts of 1911, relative to the establishment by counties of the retirement system for employees. (General Laws, Chapter 32.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 146 of the Acts of 1911, relative to the establishment of an Art Commission. (General Laws, Chapter 41, Sections 82 to 84.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 468 of the Acts of 1911, relative to the extension of Civil Service Act to Chiefs of Police. (General Laws, Chapter 31, Section 49.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 314 of the Acts of 1911, relative to the expending of money by the School Committee for the supervision of sports. (General Laws, Chapter 71, Section 47.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 367 of the Acts of 1911, relative to the use of school halls for other than school purposes. (General Laws, Chapter 71, Section 71.)

March 3, 1913. *Voted*, To accept the provisions of Chapter 327 of the Acts of 1904, relative to the pensioning of permanent members of the Police and Fire Departments. (General Laws, Chapter 32, Section 85.)

March 3, 1913. *Voted*, To accept the provisions of Chapter 498 of the Acts of 1908, relative to the pension funds for teachers in the public schools. (General Laws, Chapter 32, Section 42.)

March 3, 1913. *Voted*, To accept the provisions of Chapter 635 of the Acts of 1912, relative to tenement house regulation. (General Laws, Chapter 145.)

March 3, 1913. *Voted*, To accept the provisions of Chapter 191 of the Acts of 1907, relative to the establishment of a Board of Survey. (General Laws, Chapter 41, Sections 73 to 81.)

NOVEMBER 4, 1913. *Voted*, To accept the provisions of Chapter 807 of the Acts of 1913, relative to the compensation of certain employees for injuries sustained in the course of their employment. (General Laws, Chapter 152, Section 69.)

NOVEMBER 5, 1912. *Voted*, To accept the provisions of Chapter 503 of the Acts of 1912, relative to the pensioning of laborers in the employ of the town. (General Laws, Chapter 32, Section 77.)

MARCH 2, 1914. *Voted*, To accept the provisions of Chapter 807 of the Acts of 1913, relative to workmen's compensation. (General Laws, Chapter 152, Section 69.)

MARCH 2, 1914. *Voted*, To accept the provisions of Section 42 of Chapter 514 of the Acts of 1909 as amended by the provisions of Chapter 494 of the Acts of 1911, relative to the eight-hour day for city and town employees. (General Laws, Chapter 149, Sections 30 to 33.)

NOVEMBER 3, 1914. *Voted*, To accept the provisions of Chapter 217 of the Acts of 1914, relative to vacations for town laborers. (General Laws, Chapter 41, Section 111.)

MARCH 13, 1915. *Voted*, To accept the provisions of Chapter 296 of the Acts of 1913, relative to the appointment of a Bird Warden. (General Laws, Chapter 131, Section 76.)

MARCH 10, 1917. *Voted*, To accept the provisions of Chapter 15 of the Special Acts of 1917, revoking the reservation of space for use of street railway on Blue Hill Avenue. (Special Act.)

MARCH 2, 1918. *Voted*, To accept the provisions of Chapter 140 of the Acts of 1917, amending Chapter 291 of the Acts of 1916, relative to the tenure of office of Chiefs of Fire Departments in the Metroplitan Fire Prevention District. (General Laws, Chapter 48, Section 58.)

MARCH 2, 1918. *Voted*, To accept the provisions of Chapter 575 of the Acts of 1913, relative to the furnishing of lunches for school children. (General Laws, Chapter 71, Section 72.)

MARCH 9, 1918. *Voted*, To accept the provisions of Chapter 305 of the Special Acts of 1917, relative to the management of the property received under the terms of the will of Edwin W. Wadsworth. (Special Act.)

MARCH 8, 1919. *Voted*, To accept the provisions of Chapter 293 of the Acts of 1916, relative to the licensing of motor vehicles carrying passengers for hire. (General Laws, Chapter 159, Sections 45 and 46.)

MARCH 8, 1919. *Voted*, To accept the provisions of Chapter 17 of the Special Acts of 1919, relative to the payment of an annuity to Catherine M. Moran. (Special Act.)

MARCH 8, 1919. *Voted*, To accept the provisions of Chapter 16 of the Special Acts of 1919, relative to the payment of an annuity to Katherine K. McDermott.

MARCH 13, 1920. *Voted*, To accept the provisions of Chapter 186 of the Acts of 1907, relative to the pensioning of widows and children of members of the Police and Fire Departments. (General Laws, Chapter 32, Section 88.)

MAY 3, 1920. *Voted*, To accept the provisions of Chapter 240 of the Acts of 1920, relative to sports and games on the Lord's Day. (General Laws, Chapter 136, Sections 21 to 28.)

NOVEMBER 2, 1920. *Voted*, To accept the provisions of Chapter 166 of the Acts of 1920, relative to the granting of one day off in every eight days to police officers without loss of pay. (General Laws, Chapter 147, Sections 16 and 17.)

MARCH 12, 1921. *Voted*, To accept the provisions of Section 25A of Chapter 41 of the General Laws, relative to the appointment and renewal of Assistant Assessors by the Assessors.

MARCH 3, 1923. *Voted*, To accept the provisions of Chapter 516 of the Acts of 1922 relative to the adoption of the State accounting system.

JUNE 12, 1923. *Voted*, To accept the provisions of Section 20 of Chapter 39 of the General Laws, relative to precinct voting.

MARCH 8, 1924. *Voted*, To accept the provisions of Chapter 26 of the Acts of 1923, relative to Boards of Public Welfare.

MARCH 8, 1924. *Voted*, To accept the provisions of Chapter 337 of the Acts of 1921, relative to the pensioning of call men.

MARCH 8, 1924. *Voted*, To accept the provisions of Chapter 391 of the Acts of 1923, relative to the collection of water rates.

MARCH 14, 1925. *Voted*, To accept Chapter 9 of the Acts of 1925, authorizing the retirement and pensioning of John H. Higgins of the Police Department.

MARCH 5, 1927. *Voted*, To accept Chapter 27 of the Acts of 1927, an act to erect and constitute in the Town of Milton representative town government by limited town meetings.

MILTON TOWN RECORDS IN THE MUNICIPAL YEAR 1928

MARCH MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

To any Constable of the Town of Milton, in said County, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Elections and in Town affairs, to meet at the several designated Polling places in their respective Precincts in said Milton, to wit:

In Precinct I, polling place, Town Hall, Canton Avenue.
In Precinct II, polling place, Tucker School Hall, Blue Hills Parkway.
In Precinct III, polling place, Police Station, Central Avenue.
In Precinct IV, polling place, Belcher School, Church Street, on Saturday, March third next, at fifteen minutes before six o'clock in the foremoon, then and there to bring in to the Precinct Officers of their respective Precincts their votes on one ballot respectively for the following-named Town Officers, to wit:
A Moderator for the term of one year.
A Town Clerk for the term of one year.
A Town Treasurer for the term of one year.
A Collector of Taxes for the term of one year.
Three Selectmen and Surveyors of Highways for the term of one year.
Two Assessors, one for the term of three years and one for the term of one year.
Two members of the Board of Public Welfare for the term of three years.
One Sewer Commissioner for the term of three years.
A Tree Warden for the term of one year.
Two members of the School Committee for the term of three years.
One member of the Board of Health for the term of three years.
One Trustee of the Cemetery for the term of five years.
Four Library Trustees, three for the term of three years, and one for the term of one year.
One Park Commissioner for the term of three years.
One Water Commissioner for the term of three years.
One Trustee of the Wadsworth Fund for the term of three years.
Two members of the Planning Board for the term of three years.
Four Constables for the term of one year.
One Hundred Seventy-one Town Meeting Members as follows:

Precinct I—Thirty-three
Precinct II—Sixty
Precinct III—Twenty-four
Precinct IV—Fifty-four

For these purposes the polls will be open at each and all of said Precincts at fifteen minutes before six o'clock in the forenoon and will be closed at four o'clock in the afternoon.

And thereupon, by adjournment of said meeting, to meet on the following Saturday, to wit, March tenth next, at thirty minutes past one o'clock in the afternoon at the Town Hall in said Milton, then and there to act upon the following Articles, to which we have requested the Warrant Committee to append their recommendations and report on all printed copies hereof, to wit:

Adjourned Meeting, March 10, 1928

ARTICLE 1. To choose all such Town Officers as are not required by law to be chosen by ballot.

The following officers were elected viva voce, namely: Ralph E. Forbes, Bird Warden; George E. Burt, Carl R. Horne, Measurers of Lumber.

ARTICLE 2. To hear and act upon the report of the Town Accountant and reports of other Town Officers and Committees.

Voted, That the report of the Town Accountant be accepted and placed on file.

REPORT OF THE LEGISLATIVE COMMITTEE FOR THE YEAR ENDING DECEMBER 31, 1927

As in past years, we employed Mr. L. B. Kent to collect and examine all bills filed in the Legislature and to report to the Committee such bills as he thought might directly, or indirectly, affect the Town. The Committee also, by personal examination of all bills filed in the Legislature, endeavored to keep track of any proposed legislation in which the Town might be interested. Bills which seemed of sufficient importance to require possible action, were reported to the Selectmen so that the Board might in its discretion cause the Town to be represented by the legislative counsel.

Respectfully submitted,

LINCOLN BRYANT
Chairman for the Committee.

March 1, 1928.

Report of the Committee Appointed by the Moderator to Advise the Treasurer about Investments

The Committee has held meetings at various times during the year, some of which Mr. Duffy, the Treasurer, attended.

Certain changes recommended by the Committee last year have been carried out by the Treasurer as shown in his report and the Committee has no further suggestions to make at this time.

Respectfully submitted,

Wallace D. Dexter, Jr.
Edward C. Bradley,
Ernest E. Jobling.

March 1, 1928.

Report of Special Committee on Department of Public Works, A Town Garage, and Centralized Purchasing

To the Citizens of Milton:

Acting under Article 13 of the Warrant for the Town Meeting of 1927—"To see if the Town will authorize the Moderator to appoint a committee of citizens to investigate the desirability of establishing a Department of Public Works, a Town Garage, and centralized purchasing; to report at the next Annual Town Meeting, and with full powers to introduce into the Legislature any bills which may be necessary to carry out their recommendations subject to the acceptance by the Town." This vote was passed and the undersigned, having been appointed as that committee, respectfully submit the following report:

Town Garage.—After a careful study of this subject, it is our opinion that with the Town Government as now constituted, no appreciable monetary saving, if any, will be secured by the establishment of a Town garage. The investment cost of building a new central garage equipped with the necessary heating apparatus and small machine shop and supply room, together with the pay roll cost of the force of men required to efficiently operate the same, and the undesirability of keeping all cars in a Town Garage because some of them are needed in emergencies, will result in only a certain portion of the automobile equipment being kept in the Town Garage, with the result that the cost of so doing will probably more than offset the apparent economies which might be secured from the institution of such a plan at this time.

Centralized Purchasing.—With respect to the matter of centralized purchasing, it is our opinion that with the Town Government as now organized the savings which might be secured through such procedure would be largely, if not more than offset by the additional expenses which it would be necessary to incur for salaries and the rent or construction of an adequate building for storeroom uses, etc., and centrally located, which would ensue were the proposed plan adopted.

We therefore recommend that action on these two matters be indefinitely postponed.

Respectfully submitted,

James W. Rollins,
Marcy L. Sperry,
Kenneth D. Johnson.

Voted, That the Report of the Legislative Committee be accepted and placed on file.

Voted, That the Report of the Committee appointed by the Moderator to advise the Treasurer about Investments, be accepted and placed on file.

Voted, That the Report of Special Committee on Department of Public Works, a Town Garage, and Centralized Purchasing, be accepted and placed on file and the committee discharged.

The following Motion was introduced by Percy E. Sheldon: That the Moderator be requested to read only so much of the Article of the Warrant as may be necessary to identify them, and to summarize the recommendations of the Warrant Committee as moved by the chairman of the Warrant Committee, when such summary shall in no way interfere with the clearness, or in validity of the vote of the Town.

He shall, upon request of any citizen, read both the article and the recommendation, or in cases of amendment, the full amendments without request.

Voted, That this Motion as introduced by Percy E. Sheldon be accepted.

Ordered, That whenever a Town Meeting Member on a question put by the Moderator on a matter where no request for a vote by ballot has been requested under Chapter 2,

Section 5 of the By-Laws, immediately after the result is declared shall ask that the vote be verified by a call of the yeas and nays the Moderator shall request those joining in the call to rise, and if twenty members join in the call the yeas and nays shall be taken accordingly. Certified copies of all roll-calls shall be deposited with the Town Clerk, and shall be open to public inspection.

General Government

Article 3. To see what sum of money the Town will vote to appropriate for General Government for salaries and expenses of the following departments, and other purposes, the present year:

Voted, That the following sums be appropriated.

1. Warrant Committee:	
General Expense	$500 00

Total	$7450 00
3. Accountant:	
Salary	$300 00
4. Town Engineer:	
Salary	$3,600 00
General Expense	12,000 00
Total	$15,600 00
5. Assessors:	
Salaries:	
Chairman	$1,000 00
Second Member	800 00
Third Member	800 00
General Expense	7,330 00
Total	$9,930 00
6. Treasurer:	
Salary	$2,200 00
General Expense	900 00
Total	$3,100 00
7. Collector:	
Salaries:	
Collector	$2,500 00
Permanent Clerk	650 00
General Expense	950 00
Total	$4,100 00
8. Town Clerk:	
Salaries:	
Town Clerk	$500 00
Permanent Clerk	650 00
General Expense	350 00
Total	$1,500 00
9. Election and Registration:	
Salaries	$250 00
General Expense	6,750 00
Total	$7,000.00

10. Law:	
General Expenses	$3,500 00
11. Town Hall and Lot:	
Salary	$1,800 00
General Expense	1,900 00
Total	$3,700 00
12. Thacher Building:	
Salary	$300 00
General Expenses and Repairs	2,200 00
Total	$2,500 00
13. Insurance	$12,599 94
14. Town Reports	$3,300 00
15. Licensing Commission for one and two-car private garages:	
General Expense	$150 00
16. Planning Board:	
General Expense	$500 00

Article 4. To see what sum of money the Town will vote to appropriate for the Reserve Fund for extraordinary or unforeseen expenditures during the current year.

Voted, That the sum of $9,000 be transferred from the Excess and Deficiency Account to the Reserve Fund for extraordinary or unforeseen expenditures during the current year.

Article 5. To see what sum of money the Town will vote to authorize the Assessors to use out of the Excess and Deficiency Account in fixing the tax rate for 1928.

Voted, That the Assessors be authorized to use $30,000 out of the Excess and Deficiency Account in fixing the tax rate for 1928.

Article 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year ending December 31, 1928.

Voted, That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow to an amount not to exceed $550,000, in anticipation of the revenue of the financial year ending December 31, 1928, and to issue a note or notes therefor payable within one year from date thereof, and that any debt or debts incurred under this vote be paid from the revenue of the financial year ending December 31, 1928.

(Unanimous Vote)

Article 7. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow on and after January 1, 1929, in anticipation of the revenue of the financial year ending December 31, 1929.

Voted, That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow on and after January 1, 1929, to an amount not to exceed $150,000, in anticipation of the revenue of the financial year ending December 31, 1929, and to issue a note or notes therefor; and that any debt or debts incurred under this vote be paid from the revenue of the financial year ending December 31, 1929.

(Unanimous Vote)

Article 8. To see if the Town will vote to authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer when appointed Collector may use.

Voted, That the Collector of Taxes is hereby authorized to use all means of collecting taxes which a Town Treasurer when appointed Collector may use.

Article 9. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before committees of the General Court.

Voted, That the Selectmen are hereby authorized to employ counsel to represent the Town at hearings before committees of the General Court.

(Unanimous Vote)

Article 10. To see if the Town will vote to authorize the Moderator to appoint a committee of five citizens to consider such proceedings of the Legislature and State Boards and Commissions as may affect the interest of the Town, and confer as they may

think expedient with the Selectmen in regard to the employment of counsel to represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have power to fill vacancies in its own number, and to report to the Town at the Town Meeting next following the close of its term of office.

Voted, That the Moderator be authorized to appoint a committee of five citizens to consider such proceedings of the Legislature and State Boards and Commissions as may affect the interests of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have power to fill vacancies in its own number, and to report to the Town at the Town Meeting next following the close of its term of office.

Committee appointed: Lincoln Bryant, Oscar W. Haussermann, Felix Rackemann, Reginald L. Robbins, Charles M. Rogerson.

ARTICLE 11. To see what sum of money the Town will vote to appropriate to be expended by the Selectmen for the celebration of the Fourth Day of July, 1928.

Voted, That the sum of $500 be appropriated to be expended by the Selectmen for the celebration of the Fourth Day of July, 1928.

PROTECTION OF PERSONS AND PROPERTY

ARTICLE 12. To see what sum of money the Town will vote to appropriate for the Protection of Persons and Property the present year:

Voted, That the following sums be appropriated under this article:

1. Police:	
General Expenses	$71,500 00
2. Fire	(See Art. 15)
3. Hydrant Service	18,935 00
4. Wire	8,680 68
5. Tree Warden:	
Public Work	8,500 00
Private Work	3,500 00
6. Moth:	
Public Work	6,500 00
Private Work	4,000 00
7. Street Lighting	24,765 70
8. Additional Lights	1,000 00
9. Building Inspector	2,800 00
10. Sealer of Weights and Measures	300 00

ARTICLE 13. To see if the Town will vote to increase the pay of the members of the Police Department two hundred dollars (200.00) per year and appropriate the sum of $5,014.70 for the same.

Voted, That the Town increase the pay of the members of the Police Department two hundred dollars ($200.00) per year and appropriate the sum of $5,014.70 for the same.

ARTICLE 14. To see if the Town will vote to raise the pay of the permanent men of the Milton Fire Department two hundred dollars ($200.00) per year and appropriate $3,256.00 for the same.

Voted, That the Town raise the pay of the permanent men of the Milton Fire Department two hundred dollars ($200.00) per year and appropriate $3,256.00 for the same.

ARTICLE 15. To see if the Town will accept the provisions of Sections 42, 43 and 44 of Chapter 48 of the General Laws and will establish thereunder a fire department to be under the control of an officer to be known as the Chief of the Fire Department, and to appropriate money for the salary of such Chief and for other expenses of the department, and will take any other action necessary or proper under the provisions of said sections.

Voted, That the provisions of Sections 42, 43 and 44 of Chapter 48 of the General Laws be and hereby are accepted and that a fire department is hereby established to be under the control of an officer to be known as the chief of the fire department in accordance with the provisions of said sections; that the sum of $53,000 be and hereby is appropriated for the expenses of said department, including the salary of such chief at not more than $3000 per annum.

Health and Sanitation

Article 16. To see what sum of money the Town will vote to appropriate for Health and Sanitation the present year:

Voted, That the following sums be appropriated under this article.

1. Health, general	$8,250 00
2. Inspector of Animals	300 00
3. Vital Statistics	750 00
4. Collection of Ashes and Garbage	19,700 00
5. Sewer Maintenance	3,000 00
6. Maintenance and Repairs of Norfolk County Hospital	7,071 32

Article 17. To see what sum of money the Town will vote to expend for the construction of sewers for sanitary purposes, and for sewage disposal and to raise and appropriate the same.

Voted, That the Town appropriate the sum of $50,000 for the construction of sewers for sanitary purposes and for sewage disposal; and that to meet said appropriation there be raised in the tax levy of the current year the sum of $8,000, and that the Treasurer with the approval of the Selectmen be and hereby is authorized to borrow the sum of $42,000 and to issue bonds or notes of the Town therefor, said bonds or notes to bear on their face the words "Town of Milton Sewer Loan, 1928" and to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twelve years from the date of the first bond or note at such earlier dates as the Treasurer and Selectmen may determine. Each bond shall be in coupon form and shall be subject to registration as to principal and may be exchanged in compliance with the statutory provisions for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticated certificate of The First National Bank of Boston thereon.

(Unanimous Vote)

Article 18. To see what action the Town will take with regard to the improvement of Pine Tree Brook, and to appropriate money therefor and act on anything relating thereto.

Voted, that the sum of $5,000 be appropriated for the continued improvement of Pine Tree Brook including the paying of land damages if necessary.

Highways

Article 19. To see what sum of money the Town will vote to appropriate for the Street Department the present year.

Voted, That the following sums be appropriated.

1. General Expense	$90,000 00
2. Permament Construction	17,000 00
3. Sidewalks	5,000 00
4. Private Work	4,000 00

Article 20. To see what sum of money the Town will vote for the care and maintenance of Granite Avenue Bridge, over the Neponset River, under Chapter 58, General Acts of 1915.

Voted, That the sum of $4,200 be appropriated.

Article 21. To see if the Town will vote to change the name of Bunton Place to Bunton Street and act on anything relating thereto.

Voted, That the Town change the name of Bunton Place to Bunton Street

Article 22. To see what action the Town will take in regard to proposed legislation, looking toward the creation of a Board of Public Works for Milton.

Voted, That the Town disapproves at this time the Board of Public Works as described in said proposed legislation; and that the Moderator be and hereby is instructed to appoint a committee of three citizens to consider the advisability of the establishment of a Board of Street Commissioners with all the existing powers of the Board of Selectmen in respect to the maintenance and construction of the streets, ways, bridges, sidewalks and kindred matters and to report thereon to the Warrant Committee at least ten days prior to the date of the next special town meeting.

Committee appointed: Arthur H. Tucker, Frank M. Eshleman, James S. Gallagher, At 5.55 P.M. Voted to adjourn until Saturday March 17, 1928 at 1.30 P.M.

Adjourned Meeting, March 17, 1928

Called to Order by the Moderator at 1.30 P.M.

The following Resolution was presented by William B. Thurber and voted by the Meeting:

RESOLVED: That the Moderator be instructed to appoint a committee, to consist of the Moderator and one Town Meeting Member from each Precinct, said committee to draft suitable amendments for the repeal of the provision for a secret ballot, contained in Chapter 2, Section 5, of the Revised By-Laws, and provide for the establishment of roll calls, and such other amendments relating to the conduct of Town Meetings as may in their judgment seem advisable; and to insert such proposed amendments in the Warrant for the next Town Meeting.

Committee: William B. Thurber, Francis P. McCarthy, Reginald L. Robbins, Kenneth D. Johnson, Charles S. Pierce.

ARTICLE 23. To see if the Town will vote to accept Fairfax Road as laid out by the Selectmen under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept Fairfax Road as laid out by the Selectmen under the Betterment Act and to appropriate the sum of $7,156 for the construction of said way.

ARTICLE 24. To see if the Town will vote to accept that part of Rowe Street running from Brook Road to Governors Road as laid out by the Selectmen under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept that part of Rowe Street running from Brook Road to Governors Road as laid out by the Selectmen under the Betterment Act, and to appropriate the sum of $7,405 for the construction of said way.

ARTICLE 25. To see if the Town will vote to accept that part of Waldeck Road running from Edge Hill Road to Brook Road as laid out by the Selectmen under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept that part of Waldeck Road running from Edge Hill Road to Brook Road as laid out by the Selectment under the Betterment Act, and to appropriate the sum of $7,500 for the construction of said way.

ARTICLE 26. To see if the Town will vote to accept that part of Antwerp Street from Wood Street to Squantum Street as laid out by the Selectment under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept that part of Antwerp Street running from Wood Street to Squantum Street as laid out by the Selectment under the Betterment Act, and to appropriate the sum of $5,500 for the construction of said way.

ARTICLE 27. To see if the Town will vote to accept that part of Cabot Street running from Cary Avenue to private land as laid out by the Selectmen under the Betterment Act and to appropriate money therefor and act on anything relating thereto.

Voted, That the Town do not accept that part of Cabot Street running from Cary Avenue to private land as laid out by the Selectmen under the Betterment Act.

ARTICLE 28. To see if the Town will vote to accept that part of Cary Avenue running from Adams Street to private land as laid out by the Board of Selectmen under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, That the Town do not accept that part of Cary Avenue running from Adams Street to private land as laid out by the Board of Selectmen under the Betterment Act.

ARTICLE 29. To see if the Town will vote to accept Winthrop Street as laid out by the Selectmen under the Betterment Act and to appropriate money therefor and act on anything relating thereto.

Voted, To accept Winthrop Street as laid out by the Selectmen under the Betterment Act, and to appropriate the sum of $3,755 for the construction of said way.

ARTICLE 30. To see if the Town will vote to accept the relocation and alteration made by the Board of Selectmen of Randolph Avenue, Canton Avenue and Adams Street at their junction and appropriate money therefor and act on anything relating thereto.

Voted, To accept the relocation and alteration made by the Board of Selectmen of Randolph Avenue, Canton Avenue and Adams Street at their junction, and to appropriate the sum of $1,040 for the construction of said ways as relocated and altered.

ARTICLE 31. To see if the Town will vote to accept the relocation and alteration made by the Board of Selectmen of Houston Avenue and Thacher Street at their junction, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept the relocation and alteration made by the Board of Selectmen of Houston Avenue and Thacher Street at their junction, and to appropriate the sum of $200 for the construction of said way as relocated and altered.

ARTICLE 32. To see if the Town will vote to accept the relocation and alteration made by the Board of Selectmen of Smith Road and Brush Hill Road at their junction and to appropriate money therefor and act on anything relating thereto.

Voted, To accept the relocation and alteration made by the Board of Selectmen of Smith Road and Brush Hill Road at their junction, and to appropriate the sum of $500 for the construction of said way as relocated and altered.

ARTICLE 33. To see if the Town will vote to accept the relocation and alteration made by the Board of Selectmen of Petersburg Avenue and Squantum Street, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept the relocation and alteration made by the Board of Selectmen of Petersburg Avenue and Squantum Street.

ARTICLE 34. To see if the Town will vote to accept the relocation and alteration made by the Board of Selectmen of Central Avenue and Brook Road at their junction, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept the relocation and alteration made by the Board of Selectmen of Central Avenue and Brook Road at their junction.

ARTICLE 35. To see if the Town will vote to accept the relocation and alteration made by the Board of Selectmen of Canton Avenue and Elm Street at their junction, and to appropriate money therefor and act on anything relating thereto.

Voted, To accept the relocation and alteration made by the Board of Selectmen of Canton Avenue and Elm Street at their junction.

ARTICLE 36. To see if the Town will vote to appropriate the sum of $1,857.80 to cover awards made by the State in connection with construction of Granite Avenue, and in accordance with vote of the Town taken under Article 31 of the March 1927 Warrant indemnifying the Commonwealth against any and all claims for land, grading and drainage damages.

Voted. To appropriate the sum of $1,857.80 to cover awards made by the State in connection with construction of Granite Avenue, and in accordance with vote of the Town taken under Article 31 of the March 1927 Warrant indemnifying the Commonwealth against any and all claims for land, grading and drainage damages.

ARTICLE 37. To see what sum the Town will vote to appropriate to cover additional land damage on Granite Avenue arising in connection with the relocation and alteration of said street by the County Commissioners.

Voted, That the sum of $7,678.53 be appropriated to cover additional land damages on Granite Avenue arising in connection with the relocation and alteration of said street by the County Commissioners.

ARTICLE 38. To see what sum the Town will vote to appropriate to cover the cost of constructing Granite Avenue from Adams Street to Squantum Street pursuant to the order of the County Commissioners dated August 31, 1926.

Voted, That the sum of $18,000 be appropriated.

ARTICLE 39. To see if the Town will vote to discontinue as a town way a part of Robbins Street, in accordance with a vote of the Board of Selectmen dated February 3, 1928, and filed in the Office of the Town Clerk.

Voted, To discontinue as a town way a part of Robbins Street, in accordance with a vote of the Board of Selectmen dated February 3, 1928, and filed in the Office of the Town Clerk.

ARTICLE 40. To see if the Town will vote to relocate and alter Lincoln Street and Brook Road at their junction, in accordance with a vote of the Board of Selectmen dated February 3, 1928, and filed in the Office of the Town Clerk.

Voted, That the Town relocate and alter Lincoln Street and Brook Road at their junction, in accordance with a vote of the Board of Selectmen dated February 3, 1928, and filed in the Office of the Town Clerk.

A Rising Vote of Thanks was given to the Donors of the above land.

ARTICLE 41. To see if the Town will vote to revoke the reservation for the use of street railways on Brook Road from Blue Hills Parkway to Central Avenue as provided by Chapter 13 of the Acts of 1927.

Voted. That the Town do not revoke the reservation for the use of street railways on Brook Road from Blue Hills Parkway to Central Avenue as provided by Chapter 13 of the Acts of 1927.

Public Welfare

Article 42. To see what sum of money the Town will vote to appropriate for the Public Welfare Department the present year.

Voted, That the sum of $13,500 be appropriated.

Soldiers' Benefits

Article 43. To see what sum of money the Town will vote to appropriate for Soldiers' Relief the present year.

Voted, That the sum of $1,800 be appropriated.

Article 44. To see what sum of money the Town will vote to appropriate for State Aid and Military Aid under Chapter 200, General Acts of 1919, the present year.

Voted, That the sum of $800 be appropriated.

Article 45. To see what sum of money the Town will vote to appropriate to be expended by the Huntington Frothingham Wolcott Post No. 102, G. A. R., on Memorial Day.

Voted, That the sum of $400 be appropriated.

Schools and Libraries

Article 46. To see what sum of money the Town will vote to appropriate for the support of the Schools the present year.

Voted, That the sum of $259,941.86 be appropriated for the present year and the further sum of $58.14 for unpaid bills of 1927.

Article 47. To see what sum of money the Town will vote to appropriate for Vocational Education under the provisions of General Laws, Chapter 74, and act on anything relating thereto.

Voted. That the sum of $469.53 be appropriated for the present year and the further sum of $130.47 for unpaid bills of 1927.

Report of Committee on Elementary School Building

Milton, Mass., December 7, 1927.

To the Citizens of Milton:

Article 46 of the Warrant for the Annual Town Meeting in March, 1927, reads as follows:

> To see if the Town will vote to erect and equip an elementary school building, and to determine how the money therefor shall be raised, and to act on anything relating thereto.

The Town authorized the Moderator to appoint a committee of five citizens "to consider the subject matter of this Article and to report to the Town on or before January 1, 1928."

The Committee appointed under Article 46 submits the following report:

Assuming that a consideration of the subject matter of Article 46 included a study of the public school needs, the Committee proceeded accordingly. It met independently to study the situation; it met in joint session with the Planning Board and the School Committee; and it discussed the question with individuals and with groups of interested townspeople.

The acquisition of land in 1926 for school purposes simplified the problem of location by practically limiting the available sites to

First: 4.96 acres on the south side of Eliot Street at its junction with Capen Street,
Second: 4⅓ acres on the north side of Edge Hill Road, opposite Cunningham Park,
Third: 2 acres west of the High School.

The building program favored by the School Committee and by the Superintendent of Schools in their report of March 6, 1926, served as a basis of procedure for our Committee.

This building program contemplated:

First: a new grade school in the Eliot Street district to take the place of the Glover and to relieve the Tucker,

Second: a new grade school in East Milton to take the place of the Wadsworth and to relieve the Belcher,

Third: a junior high school in East Milton,

Fourth: a new building for the present Junior High School, which now uses a part of the High School building, or for the High School.

The statistical data furnished by the Superintendent of Schools in regard to school

population was of assistance in showing where the chief increases in numbers were and where the needs are apt to be greatest in the near future.

As a result of its study, the Committee voted unanimously that

First: a new school building is needed,

Second: the site of the next school building should be on Edge Hill Road opposite Cunningham Park.

Third: the proposed building should be a modern, fire-proof, elementary school with fourteen classrooms, a kindergarten unit, and accessory rooms.

The Committee makes the following recommendation:

That a building committee, to be appointed by the Moderator at the next regular Town Meeting, be authorized to procure plans and specifications for a modern, fire-proof, elementary school building which shall be located on the school site on Edge Hill Road, opposite Cunningham Park, and that an appropriation be made to meet the cost of plans and specifications.

Since a new building in the East Milton section will be absolutely necessary before 1930, the Committee further recommends:

That the Building Committee report at a subsequent special Town Meeting to be held not later than June 1, 1928, at which meeting money may be appropriated for the erection and equipment of said school building.

Respectfully submitted,

LEONARD M. PATTON,
ELIZABETH M. SHELDON,
HATHERLY FOSTER, JR.,
ROY E. MOULTON,
HARRIS KENNEDY,
Special Committee on New School Building.

ARTICLE 48. To see if the Town will vote to authorize the appointment of a committee to procure plans and specifications for a modern fireproof elementary school building on the schoolhouse site on Edgehill Road opposite Cunningham Park and to appropriate money to defray the expenses of such committee and to act on anything relating thereto.

Voted, That the Moderator be authorized and instructed to appoint a committee to procure plans, specifications and approximate estimates for a modern fireproof elementary school building on the schoolhouse site on Edge Hill Road opposite Cunningham Park and that the sum of $3,000 be appropriated to defray the expenses of such committee.

Committee: Arthur W. Rice, Katherine W. Baxter, George F. Moulton, Howard E. Murphy, Leonard M. Patton, Charles M. Rogerson, Edwin F. Weber.

ARTICLE 49. To see what sum of money the Town will vote to appropriate for the Public Library the present year.

Voted, That the sum of $18,760 be appropriated.

ARTICLE 50. To see if the Town will vote to accept the buildings and land at 101 Blue Hills Parkway, the property of Kidder House Association, as a gift to be used for library purposes or for such other purposes as the Town may from time to time determine.

Voted, That the Town take no action at the present time.

ARTICLE 51. To see if the Trustees of the Library shall be requested to formulate plans for the possible development of the Mattapan and East Milton branches of the Milton Public Library and to report on or before January 1, 1929, and if the sum of $250 shall be appropriated for this purpose.

Voted, That the Trustees of the Library be requested to formulate plans for the possible development of the Mattapan and East Milton branches of the Milton Public Library and to report thereon on or before January 1, 1929, and that the sum of $250 be appropriated for said purpose.

RECREATION AND UNCLASSIFIED

ARTICLE 52. To see what sum of money the Town will vote to appropriate for the general uses of the Board of Park Commissioners the present year.

Voted, That the sum of $6,475 be appropriated.

ARTICLE 53. To see if the Town will authorize the Board of Park Commissioners to acquire in behalf of the Town, by purchase or by eminent domain, under Chapter 79 of the General Laws, for the purpose of a public playground or recreation center to be

under the control of the Board of Park Commissioners or other public board as the Town shall determine, the lands bounded and described as follows, to wit:

Northerly by Pine Road, 932.05 feet,
Northeasterly by Allerton Road,556.80 feet,
Easterly by Central Avenue, 291.65 feet,
Southerly by the center line of Pine Tree Brook, 850 feet,
Southwesterly by Brook Road, 507.58 feet, be all of said measurements more or less.
Containing about 592,000 square feet.

And to raise and appropriate money therefor and act on anything relating thereto.

Voted, That the Town do not authorize the Board of Park Commissioners to purchase for the purpose of a public playground or recreation center the lands bounded and described as set forth in the above Article 53 of this warrant, an

ARTICLE 54. To see what sum of money the Town will vote to appropriate for Pensions and Annuities the present year.

Voted, That the following sums be appropriated:

1. Police and Firemen, Section 85, Chapter 32, General Laws	$4,900 00
2. Annuity, Chapter 16, Special Acts of 1919	300 00
3. Police and Firemen's Widows' Pensions, Section 88, Chapter 32, General Laws	1,200 00
4. Laborers' Pensions, Section 77, Chapter 32, General Laws	6,554 07
5. School Teachers' Pensions, Section 42, Chapter 32, General Laws	925 00
6. Pension, Chapter 9, Special Acts of 1925	1,000 00

ARTICLE 55. To see if the Town will vote to expend a sum not exceeding $100,000 under the provisions of Chapter 307 of the Acts of 1902, for the extension of water mains and for hydrants, and to raise and appropriate the same, and to take any action in relation thereto.

Voted, That the Treasurer be and he hereby is authorized in the name and behalf of the Town and under authority granted in, and in compliance with, the provisions of Chapter 307 of the Acts of 1902 and other acts applicable thereto to borrow a sum not exceeding $95,000, the same to be expended by the Board of Water Commissioners for the extension of water mains and for hydrants and to issue bonds of the Town not exceeding said sum. Said bonds shall bear on their face the words "Town of Milton, Water Loan," and shall be payable as required by said Chapter 307 of the Acts of 1902 and by Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than thirty years from their date, or at such earlier dates as the Treasurer and the Water Comissioners may determine. They shall be sold at not less than the par value thereof from time to time, by the Treasurer. Each bond shall be subject to registration as to principal, and may be exchanged in compliance with the statutory provisions for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticating certificate of The First National Bank of Boston thereon.

(Unanimous Vote)

ARTICLE 56. To see what sum of money the Town will vote to appropriate for the improvement of the Cemetery the present year.

Voted, That the sum of $17,700 be appropriated.

INTEREST AND MATURING DEBT

ARTICLE 57. To see what sum of money the Town will vote to appropriate for Interest and Maturing Debt the present year:

Voted, To appropriate the following sums:

1. Interest	$34,357 00
2. Maturing Debt	$68,000 00

ARTICLE 58. To see if the Town will vote to instruct the Moderator to appoint a committee of five citizens who shall consider the regulation of future real estate developments in the Town and report in writing to the Selectmen not later than January 1, 1929, and act on anything relating thereto.

Voted, That the Moderator is hereby authorized and instructed to appoint a committee of five citizens who shall consider the regulation of future real estate developments in the Town and report in writing to the Selectmen not later than January 1, 1929, or earlier if possible, and that $500 be appropriated to defray the expenses of such committee.

Committee: James S. Russell, James F. Ballard, Edward C. Bradlee, Stanley Cunningham, Frank A. Stout.

ARTICLE 59. To see if the Town will vote to authorize the Moderator to appoint a committee of five to consider the advisability of revising the building laws of the Town, and to make suggestions as to proposed revisions therein, and to appropriate money for the use of such committees.

Voted, That the Moderator is hereby authorized and instructed to appoint a committee of five citizens to consider the advisability of revising the building laws of the Town and to report thereon to the Board of Selectmen not later than January 1, 1929, or earlier if possible, and that $100 be appropriated to defray the expenses of such committee.

Committee: James S. Russell, James F. Ballard, Edward C. Bradlee, Stanley Cunningham, Frank A. Stout.

ARTICLE 60. To see if the Town will vote to amend Chapter 10 of the Revised By-Laws, in Section 1, by adding at the end of said section the following words:

> Provided, however, that upon written certification by the Board of Survey, in respect to the layout of a particular way, that the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but not less than forty feet in width.

and act on anything relating thereto.

Voted, To amend Chapter 10 of the Revised By-Laws, in Section 1, by adding at the end of said section the following words:

> Provided, however, that upon written certification by the Board of Survey, in respect to the layout of a particular way, that the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but not less than forty feet in width.

Approved by the Attorney General, June 11, 1928.

ARTICLE 61. To see if the Town will amend Chapter 12 of the Revised By-Laws substantially as follows and act on anything relating thereto:

Chapter 12 of the Revised By-Laws is amended by inserting after paragraph seven in Section 3A the following paragraph.

> (8) "No building shall exceed 35 feet or 2½ stories in height unless it sets back from each street and lot line 10 feet in addition to the above requirements plus 1 foot for each foot or excess height. The term 'half story' shall mean a story in a sloping roof the area of which at a height 4 feet above the floor does not exceed two-thirds the floor area of the story immediately below it. No building shall exceed either 50 feet or 3 stories in height. The height of the building shall be measured from the average curb grade or if there is none from the average grade of the adjoining ground immediately in front of the building to the highest point of the roof beams for flat roofs and to the mean height of the roof for pitched roofs. Chimneys, spires, towers and other projections not used for human occupancy may extend above the height limit herein effected."

Voted, Not to amend Chapter 12 of the Revised By-Laws.

ARTICLE 62. To see if the Town will vote to accept the action of the Board of Selectmen in discontinuing the exterior lines of Bassett Street Extension as established by vote of the Town at the Annual Town Meeting held on March 12, 1927, and will vote to discontinue the same.

Voted, To accept the action of the Board of Selectmen in discontinuing the exterior lines of Bassett Street Extension as established by vote of the Town at the Annual Town Meeting held on March 12, 1927.

ARTICLE 63. To see if the Town will vote to accept Bassett Street as a Town Way as laid out by the Board of Selectmen and appropriate money therefor and act on anything relating thereto.

Voted, To accept Bassett Street as a Town Way as laid out by the Board of Selectmen.

ARTICLE 64. To see what sum of money the Town will appropriate for the drainage of public streets, the ensuing year.

Voted, That the sum of $9,000 be appropriated.

ARTICLE 65. To see what sum of money the Town will vote for the repair and maintenance of Central Avenue Bridge over the Neponset River.

The following Resolution was presented to the meeting and unanimously accepted:

> RESOLVED: That by the death of Ellerton Pratt Whitney the town of Milton and its citizens have lost a true friend and colleague; one who devoted much time and his best thought to the promotion of their interests and the furtherance of all good causes.

While not seeking public office he was called upon to serve the community in various ways, during his residence here of over forty years; and this he did at all times with thoroughness, zeal and due regard for the ultimate benefit of all.

Modest, unassuming, intelligent, deliberate, strongly gifted with common sense, he accomplished much and in all ways helped to maintain the high standards which have always prevailed here in the administration of our affairs.

Gratefully acknowledging our indebtedness to him, and mourning his untimely loss, we desire to place upon the records of the Town this slight tribute to his memory.

RESOLVED: Further, that a copy of the foregoing resolution be sent by the Town Clerk to the family of Mr. Whitney.

This Resolution was written by Charles S. Rackemann and presented by William B. Thurber.

And you are directed to warn said inhabitants qualified as aforesaid to meet at the times and places and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days at least before said third of March, and leaving printed copies thereof at the dwelling houses of said Town at least four days before said date.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk, on or before said third of March next.

Given under our hands at Milton, the tenth day of February, nineteen hundred and twenty-eight.

KENNETH D. JOHNSON,
JOSIAH BABCOCK,
Norton WIGGLESWORTH,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

Milton, February 23, 1928

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

March 17, 1928 at 5.22 P.M.
Voted, That the Meeting be dissolved.

The foregoing meeting was opened March 3, 1928, at 5.45 A.M. by the Wardens in the several precincts.

Attest:
G. FRANK KEMP,
Town Clerk

MARCH MEETING

Recount of Votes

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, ss.

Milton, March 8, 1928

At a meeting called and held at the Town Hall in said Milton on the above date, as per order of the Chairman of the Board of Registrars (a recount of votes cast at the annual town meeting, held upon March 3, 1928, for Selectmen, having been petitioned for by more than ten writers), said recount was held upon the above date with results as follows:

JUNE SPECIAL MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss

To any Constable of the Town of Milton, in said County, Greetings:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton qualified to vote in Town affairs to meet at the Town Hall in said Milton upon Wednesday, the thirteenth day of June next, at eight o'clock in the evening, then and there to act upon the following articles, to wit:—

ARTICLE 1. To see if the Town will vote to amend Revised By-Laws, Chapter 2, by striking out Section 5, and substituting in place thereof a section reading substantially as follows:

"SECTION 5. Upon taking the question, the sense of the meeting shall be taken by the voices of the town meeting members and the Moderator shall first announce the vote as it appears to him by the sound.

If the Moderator is unable to decide by the sound of the voices or if his announcement made thereupon is doubted by seven town meeting members arising in their places for that purpose, the Moderator shall request the town meeting members to be seated, and shall appoint tellers; the question then shall be distinctly stated, and those in the affirmative and negative respectively shall be requested to rise and stand in their places until they are counted by the tellers, who shall report their count to the Moderator.

If the vote is further doubted and twenty-five town meeting members arise in their places and ask for a division of the meeting by the taking of the yeas and nays, then the roll of the meeting shall be called in alphabetical order and no town meeting member shall be allowed to vote after the vote is declared."

and act on anything relating thereto.

Voted, To amend Revised By-Laws, Chapter 2, by striking out Section 5, and substituting in place thereof the following:

"SECTION 5. Upon taking the question, the sense of the meeting shall be taken by the voices of the town meeting members and the Moderator shall first announce the vote as it appears to him by the sound.

If the Moderator is unable to decide by the sound of the voices or if his announcement made thereupon is doubted by seven town meeting members arising in their places for that purpose, the Moderator shall request the town meeting members to be seated, and shall appoint tellers; the question then shall be distinctly stated, and those in the affirmative and negative respectively shall be requested to rise and stand in their places until they are counted by the tellers, who shall report their count to the Moderator.

If the vote is further doubted and twenty-five town meeting members arise in their places and ask for a division of the meeting by the taking of the yeas and nays then the roll of the meeting shall be called in alphabetical order and no town meeting member shall be allowed to vote after the vote is declared."

APPROVED by the Attorney General, September 22, 1928.

ARTICLE 2. To see if the Town will vote to amend Revised By-Laws, Chapter 2, by inserting after Section 5 a new section reading substantially as follows:

"SECTION 5A. No town meeting member shall vote upon any question where his private interest is immediately concerned, distinct from the public interest,"

and act on anything relating thereto.

Voted, To amend Revised By-Laws, Chapter 2, by inserting after Section 5 a new section as follows:

"SECTION 5A. No town meeting member shall vote upon any question where his private interest is immediately concerned, distinct from the public interest,"

Disapproved by the Attorney General, December 17, 1928.

ARTICLE 3. To see if the Town will vote to amend Revised By-Laws, Chapter 2, Section 7, by striking out the words

"to indefinitely postpone,"

and by adding at the end of the first sentence the following:

"provided, however, no article in the warrant shall be finally disposed of by a vote to lay upon the table, to indefinitely postpone, or to take no action thereunder."

so that said section as amended shall read substantially as follows:

"SECTION 7. When a question is before the meeting, the following motions, viz:

to adjourn,
to lay on the table,
for the previous question,
to postpone to a time certain,
to commit, (or recommit) or refer,
to amend or substitute,

shall have precedence in the order in which they are placed in this section; provided, however, no article in the warrant shall be finally disposed of by a vote to lay upon the table, to indefinitely postpone, or to take no action thereunder.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first."

and act on anything relating thereto.

Voted, To amend Revised By-Laws, Chapter 2, Section 7, by striking out the words

"to indefinitely postpone,"

and by adding at the end of the first sentence the following:

"provided, however, no article in the warrant shall be finally disposed of by a vote to lay upon the table, to indefinitely postpone, or to take no action thereunder,"

so that said section as amended shall read as follows:

"SECTION 7. When a question is before the meeting, the following motions, viz:

to adjourn,
to lay on the table,
for the previous question,
to postpone to a time certain,
to commit, (or recommit) or refer,
to amend or substitute,

shall have precedence in the order in which they are placed in this section; provided, however, no article in the warrant shall be finally disposed of by a vote to lay upon the table, to indefinitely postpone, or to take no action thereunder.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first."

APPROVED by the Attorney General September 22, 1928.

ARTICLE 4. To see if the Town will vote to amend Section 5 of Chapter 2 of the Revised By-Laws by striking out so much of said section as provides for voting by ballot and by substituting therefor a provision for the verification of votes by a call of yeas and nays upon request of a stated number of town meeting members, in accordance with the usual practice in representative assemblies.

Voted, That the Town do not amend Section 5 of Chapter 2 of the Revised By-Laws.

ARTICLE 5. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year ending December 31, 1928, in addition to the amount authorized at the Annual Town Meeting held in March, 1928, and act on anything relating thereto.

Voted, That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow to an amount not to exceed $100,000, in addition to the amount authorized at the Annual Town Meeting held in March, 1928, in anticipation of the revenue of the financial year ending December 31, 1928, and to issue a note or notes

therefor payable within one year from date thereof, and that any debt or debts incurred under this vote be paid from the revenue of the financial year ending December 31, 1928.

(Unanimous Vote)

ARTICLE 6. To see what sum of money the Town will vote to appropriate for interest the present year, in addition to the amount appropriated at the Town Meeting held in March, 1928, and act on anything relating thereto.

Voted, That the sum of $1,000 be appropriated for interest the present year,—this sum to be in addition to the amount appropriated at the Annual Town Meeting held in March, 1928.

ARTICLE 7. To see what sum of money the Town will appropriate for police signal apparatus, and act on anything relating thereto.

Voted, That the sum of $5,600 be appropriated.

ARTICLE 8. To see if the Town will vote to construct sewers in East Milton, for sewage disposal, and to raise and appropriate money for the same and act on anything relating thereto.

ARTICLE 9. To see if the Town will vote to construct sewers in East Milton, for sanitary and surface drainage purposes and to raise and appropriate money for the same and act on anything relating thereto.

Voted, Under Article 8 and Article 9, that the Board of Sewage Commissioners be and hereby are authorized to construct sewers for sanitary and surface drainage purposes, and for sewage disposal, in East Milton, and that the Town appropriate the sum of $63,000 for the same, and that to meet said appropriation there be raised in the tax levy of the present year the sum of $10,000, and that the Treasurer with the approval of the Selectmen be and hereby is authorized to borrow the sum of $53,000, and to issue bonds or notes of the Town therefor, said bonds or notes to bear on their face the words "Town of Milton Sewer Loan, 1928," and to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than eighteen years from the date of the first bond or note or at such earlier dates as the Treasurer and Selectmen may determine. Each bond shall be in coupon form and shall be subject to registration as to principal, and may be exchanged, in compliance with the statutory provisions, for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticating certificate of The First National Bank of Boston thereon.

(Unanimous Vote)

ARTICLE 10. To see if the Town will vote to accept Plymouth Avenue as a town way, as laid out by the Selectmen under the Betterment Act, and to appropriate money for the same and act on anything relating thereto.

Voted, That the Town do not accept Plymouth Avenue as a town way, as laid out by the Selectmen under the Betterment Act.

ARTICLE 11. To see if the Town will vote to accept Reservation Road as a town way, as laid out by the Selectmen under the Betterment Act, and to appropriate money for the same and act on anything relating thereto.

Voted, That the Town do not accept Reservation Road as a town way, as laid out by the Selectmen under the Betterment Act.

ARTICLE 12. To see if the Town will vote to accept that part of Cabot Street as a town way running from Cary Avenue to private land as laid out by the Selectmen under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, That the Town do not accept that part of Cabot Street as a town way running from Cary Avenue to private land as laid out by the Selectmen under the Betterment Act.

ARTICLE 13. To see if the Town will vote to accept that part of Cary Avenue as a town way running from Adams Street to private land as laid out by the Board of Selectmen under the Betterment Act, and to appropriate money therefor and act on anything relating thereto.

Voted, That the Town do not accept that part of Cary Avenue as a town way running from Adams Street to private land as laid out by the Board of Selectmen under the Betterment Act.

ARTICLE 14. To see if the Town will vote to accept the relocation and alteration of Pleasant Street as made by the Selectmen, and to appropriate money for the same and act on anything relating thereto.

Voted, That the Town do not accept the relocation and alteration of Pleasant Street as made by the Selectmen.

ARTICLE 15. To see what sum of money the Town will appropriate for the construction of Bassett Street and for the payment and adjustment of damages in connection with the taking therefor, and to act on anything relating thereto.

Voted, That the Town do not make an appropriation for the construction of Bassett Street and for the payment and adjustment of damages in connection with the taking therefor.

ARTICLE 16. To see what sum the Town will vote to appropriate for additional land damages and expenses arising in connection with the relocation and alteration of Granite Avenue by the County Commissioners, and act on anything relating thereto.

Voted, That the Town do not make an appropriation for additional land damges and expenses arising in connection with the relocation and alteration of Granite Avenue by the County Commissioners.

ARTICLE 17. To see if the Town will vote to construct and/or equip and furnish, a school house to be located on the land of the Town bordering on Edge Hill Road, and to raise and appropriate money for the same and act on anything relating thereto.

Voted, That the committee appointed by the Moderator to procure plans and specifications for a school building, pursuant to the vote of the Town at its Annual Meeting held in March, 1928, be continued as a committee, with authority in the Moderator to fill any vacancies that may occur therein, to erect an elementary school building on the school house site on Edgehill Road, opposite Cunningham Park, substantially in accordance with plans submitted, and in construction substantially in accordance with specifications and bids marked type "B", and that the sum of $250,000 be appropriated for said purpose to be expended by said committee; that $10,000 be raised in the tax levy of the current year; and that the Treasurer be and hereby is authorized in the name and behalf of the Town to borrow a sum not exceeding $240,000 for said purpose and to issue bonds of the Town not exceeding said sum. Said bonds shall bear on their face the words "Town of Milton School Loan" and shall be payable as required by section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from their date. They shall be sold at not less than the par value thereof, from time to time by the Treasurer. Each bond shall be in coupon form, subject to registration as to principal, and may be exchanged in compliance with the statutory provisions for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticating certificate of the First National Bank of Boston thereon.

(Unanimous Vote)

ARTICLE 18. To see if the Town will vote to accept as a gift, the land and the building thereon numbered 101 Blue Hills Parkway, Milton, and certain personal property, as offered by the Kidder House Association, and act on anything relating thereto.

Voted, That the Town accept as a gift, the land and the building thereon numbered 101 Blue Hills Parkway, Milton, and certain personal property, as offered by the Kidder House Association.

And you are directed to warn said inhabitants qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the Post Offices of said Town fourteen days at least before said thirteenth of June, and leaving printed copies thereof at the dwelling houses of said Town at least four days before said date.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk, on or before said thirteenth of June next.

Given under our hands at Milton, the eighteenth day of May, nineteen hundred and twenty-eight.

JOSIAH BABCOCK,
FREDERICK A. GASKINS,
KENNETH D. JOHNSON,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS NORFOLK, ss.

Milton, June 8, 1928.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

June 13, 1928 at 10.55 P.M. *Voted,* That the meeting be dissolved.
The foregoing meeting was opened June 13, 1928 at 8.00 P.M. by the Moderator
Attest.

G. FRANK KEMP,
Town Clerk

WARRANT

September Primaries

COMMONWEALTH OF MASSACHUSETTS NORFOLK, ss.

To any of the Constables of the Town of Milton in said County Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton qualified to vote in elections and in town affairs, to meet at the several designated polling places in their respective precincts in said Milton, to wit:

In Precinct I. Polling Place, Town Hall, Canton Avenue.
In Precinct II. Polling Place, Tucker School Hall, Blue Hills Parkway.
In Precinct III. Polling Place, Milton Police Station, Central Avenue.
In Precinct IV. Polling Place, Belcher School, Church Street, on Tuesday, the eighteenth day of September, 1928, at 1 o'clock in the afternoon for the following purposes:

To bring in their votes to the primary officers for the nomination of candidates of political parties for the following offices: Governor, Lieutenant Governor, Secretary, Treasurer and Receiver-General, Auditor, Attorney General, United States Senator in Congress; all of this Commonwealth. Representative in Congress for the Fourteenth Congressional District. Councillor for the Second Councillor District, Senator for the Norfolk Senatorial District, Representative in the General Court for the Seventh Norfolk Representative District, Two County Commissioners for the County of Norfolk, one Associate Commissioner for the County of Norfolk, Clerk of Courts for the County of Norfolk, Register of Deeds for the County of Norfolk, and for the election of the following officers: District Member of the State Committee for each political party for the Norfolk Senatorial District, Members of the Republican Town Committee, Members of the Democratic Town Committee, delegates to the State Convention of the Republican Party, and delegates to the State Convention of the Democratic Party.

All the above candidates and officers are to be voted for upon one ballot.

The polls will be open from 1 o'clock P.M. to 9 o'clock P.M., and you are directed to warn said inhabitants qualified as aforesaid to meet at the times and places and for the purposes herein mentioned by posting attested copies of this Warrant in each of the post offices of said town fourtteen days at least before said meeting and leaving printed copies thereof at the dwelling houses of said town at least four days before said meeting.

Hereof fail not and make due return of this Warrant, or a certified copy thereof with your doings thereon to each of the several precinct wardens at the time and places of meeting aforesaid in said precincts, and to the Town Clerk as soon as may be and before said meeting.

Given under our hands at Milton this twenty-second day of August nineteen hundred and twenty-eight.

JOSIAH BABCOCK
FREDERICK A. GASKINS
KENNETH D. JOHNSON
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS NORFOLK, ss.

Milton, September 11, 1928

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwelling of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

SPECIAL OCTOBER PRIMARY

COMMONWEALTH OF MASSACHUSETTS NORFOLK, ss.

To any of the Constables of the Town of Milton in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton qualified to vote in elections and in town affairs, to meet at the several designated polling places in their respective precincts in said Milton, to wit:

In Precinct I. Polling Place, Town Hall, Canton Avenue.

In Precinct II. Polling Place, Tucker School, Blue Hills Parkway.

In Precinct III. Polling Place, Milton Police Station, Central Ave.

In Precinct IV. Polling Place, Belcher School, Church Street.

on Tuesday, the twenty-third day of October, 1928, at 1 o'clock in the afternoon for the following purpose:

To bring in their votes to the primary officers for the nomination of a candidate of Political Parties to fill the vacancy of the unexpired term for the Representative in Congress for the Fourteenth Congressional District.

The polls will be open from 1 o'clock P.M. to 9 o'clock P.M., and you are directed to warn said inhabitants qualified as aforesaid to meet at the times and places and for the purpose herein mentioned by posting attested copies of this warrant in each of the post offices of said Town fourteen days at least before said meeting and leaving printed copies thereof at the dwelling houses of said town at least four days before said meeting.

Hereof fail not and make due return of this Warrant or a certified copy thereof with your doings thereon to each of the several precinct wardens at the time and places of meeting aforesaid in said precincts, and to the Town Clerk as soon as may be and before said meeting.

Given under our hands at Milton this Fourth day of October, nineteen hundred and twenty-eight.

JOSIAH BABCOCK,
FREDERICK A. GASKINS,
KENNETH E. JOHNSON,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS NORFOLK, ss.

Milton, October 15, 1928.

DEPARTMENT REPORTS

REPORT OF SELECTMEN

MILTON, MASS., December 31, 1928.

To the Citizens of Milton:

We respectfully submit the following report for the year 1928:

Josiah Babcock, Kenneth D. Johnson and Frederick A. Gaskins were elected Selectmen at the March meeting. The Board organized with Mr. Babcock as Chairman and Mr. Gaskins as Secretary.

As the duties of the Selectmen during the year were many and of a varied character it is impossible to give a complete account of their business in this annual report. There are, however, a few matters of such interest to the citizens and taxpayers of our town that we feel they should be touched upon at this time.

Appointments

Miss Mary A. Berni, after serving as Joseph H. Duffy's assistant for about four years, was appointed Town Accountant by the Board and has proved to be well qualified for the position. Her office is now in the Thacher Building.

Forrest J. Maynard, Town Engineer, and Edward A. McCue, Superintendent of Highways, who had been appointed on Jan. 13, 1928, to perambulate the town boundaries with the officials of the neighboring towns, reported that all points were found in place.

All other appointments will be found elsewhere in this town report.

Pensions

Edward Byrnes of the Highway Department and Bartholomew King of the Cemetery Department, were retired on pension.

Licenses

The Board has held several hearings on applications for variances of the Zoning By-Law, and only in cases where the enforcement of that law "would involve practical difficulty or unnecessary hardship" and where the relief desired would not, if granted, "substantially derogate from the intent and purpose of the Zoning By-Law," has the Board acted favorably. Permission to conduct a tea room in a building which had been used for other purposes, to enlarge and remodel a business building in part on land which would have to be purchased for the purpose, both of which buildings were in the residential zone, to change a vacant lot in the residential zone into one of commercial character, and to allow two dwellings to be built on separate lots closer to the lot lines than our building laws allow, has been declined. Two expansions were granted in the residential zone; one in connection with a church and the other in connection with a private business. Two permits to install underground tanks and dispensing pumps for the sale of gasolene have been granted in the business zone; one on the P. James McKay lot, corner of Pierce Street and Granite Avenue, and one on the Daniel A. McLaughlin lot opposite the East Milton depot. Permission to erect a public garage on Granite Avenue was also granted to Daniel A. McLaughlin.

Two applications were received for licenses to operate moving picture theatres: one located in a building on Adams St., East Milton, in the commercial zone and one in the Cunningham Gymnasium building in the residential zone. Both licenses were granted.

The usual applications for victuallers' licenses, junk dealers' licenses, permission to move buildings, parade on the public highways, and purchase revolvers, have been acted on by the Board.

Law

The Board has had frequent occasion to seek advice, the drafting of legal papers, and other legal assistance from the Town Counsel, who is now under regular retainer, except for litigated matters, under the policy of the Board adopted in 1925. We feel that the constant attention of the law department to matters when they are being undertaken tends to avoid future trouble. We understand that other boards and committees have adopted the same policy.

The Board takes this opportunity to acknowledge the co-operation and able assistance of the present Town Counsel, Lincoln Bryant.

Highways

Maintenance.—More oil of a heavier type has been used this year than usual, and we find that we are obtaining good results. Special No. 6 asphalt road oil was used on most streets instead of the ordinary No. 4 road oil. This grade of oil is much heavier and forms a tough, flexible and more lasting surface.

The following streets were treated with 85% Asphalt Oil (Binder A): Reedsdale Road, both sides; Randolph Avenue west side from Reedsdale Road to Highland Street; Central Avenue, east side from Brook Road to Hinckley Road; Canton Avenue, Reedsdale Road to Brook Road and Brook Road, Central Avenue to Centre Street. This oil should be applied on a very hot day if possible so that the Tarvia on the surface of the road will soften up enough to allow a small split stone to penetrate into the road under the pressure of a steam roller.

The maintenance of our highways is of great importance in order to provide safe conditions for travel. Although there is a steady increase in motor traffic we believe that the same "General Highway" appropriation as last year will be sufficient.

Sections of Blue Hill Terrace Street, Boulevard Street, Hinckley Road, Canton Avenue and Randolph Avenue were resurfaced. Street widenings were made on Brush Hill Road at Paul's Bridge and at the corner of Brook Road and Central Avenue.

Traffic beacons and signs have been put up in various locations; bridges and fences have been repaired and at this time we call your attention to several snow fences placed in different parts of the town.

Our snow problems have been well taken care of during the year.

Betterment Streets.—Four streets were built this year under the Betterment Act and in all cases the work was well done. Our Highway Department under the supervision of E. A. McCue, built Fairfax Road, Winthrop Street and Waldeck Road. E. C. Sargent of Quincy, a private contractor, built Rowe Street.

The Board has before it seven petitions for acceptance of as many private ways under the Betterment Act during the year 1929. We recommend that favorable action be taken by the town on six of these petitions.

The Board voted to grant the employees of the Highway Department and of the Engineering Department Saturday afternoons during the entire year as a half holiday without loss of pay, provided however, that the employees of said departments shall work on Saturday afternoons without extra pay or equivalent time off, in case of emergencies.

Adams Street

Simpson Brothers Corporation of Boston resurfaced Adams Street from the Milton-Quincy line to Governor's Road with what is known as Simpson's Vulcanized Pavement, which consists of a sheet asphalt vulcanized to the old road surface. Before deciding to let this contract the Board investigated this type of resurfacing at Lynn, Arlington and other municipalities. This work is guaranteed for five years, and the results obtained are very satisfactory for the amount of money expended.

The Board succeeded in getting the N.Y. N.H. & H. R.R. Co. to move back the crossing gates at the corner of Bryant Avenue and Adams Street and the gates at the corner of Granite Avenue and Adams Street about six feet, which makes Adams Street about twelve feet wider at the railroad crossing. This change gives the traffic officer a better view of traffic in all directions.

Engineering Department

Many plans have been made by the department not only for the Selectmen but for the Town Counsel and practically all Town departments. The mapping of the town is in itself an important piece of engineering, and will be of benefit to the town as a whole. When these maps are finished, they will show all lot lines, buildings and areas.

Considerable time and study have been given to our drainage problems, and the economical method of having the sewerage and drainage pipes laid in one trench at the same time has been adopted.

The Town Engineer has furnished lines and grades for all construction work of the Highway Department, in this way establishing grade lines so that surface water will not remain on the streets.

All plans for the layout of new streets that come before the Board of Survey are checked for lines and grades by the Engineering Department. Information for any public street is available at this office at all times. The work of this department will be appreciated more as the town develops.

Randolph Avenue

The Board is endeavoring to co-operate with the Public Works Department of the State and the Norfolk County Commissioners in reference to rebuilding Randolph Avenue from Highland Street to the Quincy line. Several conferences have been held with both departments, and we hope to have a definite report on this project for the annual Town Meeting in March.

Drainage

The Board will continue its policy in regard to drainage problems and will ask for a substantial appropriation to carry on the work proposed for the five year program commenced in 1928.

Town Hall

The Board is of the opinion that the inside appearance of the Town Hall should be improved, and recommends an appropriation for the same.

Fire Department

At the town meeting March 10th it was voted to accept sections 42, 43 and 44 of Chapter 48, General Laws, authorizing the establishment of a Fire Department under the control of an officer to be known as the Chief of the Fire Department. The Board appointed J. Harry Holmes Chief of the Fire Department on March 16th. The Chief appointed James F. Hanna Deputy Chief on May 16th after a competitive Civil Service examination.

The discipline of this department has been good during the year.

Custody of Town Records

The provisions of the statutes relative to the custody of public records require the town to provide and maintain fireproof rooms, safes or vaults. The present facilities of the town for this purpose are not adequate and we feel that an appropriation should be made and that action should be taken as soon as practicable to make proper provision for the safekeeping of the records.

Traffic Control

In November the Selectmen authorized a study of traffic control signals through their Chairman, assisted by Forrest J. Maynard, Town Engineer; James R. Travers, Chief of Police; W. Newton Harlow, and Patrick J. Bannin. The committee examined automatic signals at the General Electric Plant at Lynn and has had maps drawn of the following twelve street intersections:

Brook Road at Blue Hill Avenue
Robbins Street at Blue Hill Avenue
Atherton Street and Bradlee Road at Blue Hill Avenue
Dollar Lane and Milton Street at Blue Hill Avenue
Central Avenue and Reedsdale Road at Brook Road
Randolph Avenue at Brook Road
Center Street at Brook Road
Thacher and Highland Streets at Canton Avenue
Canton Avenue and Centre Street at Reedsdale Road
Centre Street at Randolph Avenue
Squantum Street at Granite Avenue
Granite Avenue at Adams Street

Studies have been made on the ground with an official from the Public Works Department of the State.

According to Police records these are the most dangerous intersections and the committee recommends that a substantial appropriation be made so that traffic at these intersections can be controlled automatically.

Now that the Department of Public Works of the State has the authority to establish uniform traffic rules, regulations and signs, the Board adopts the report of this special committee and recommends an appropriation sufficient to enable the town to install a uniform system of automatic signals.

Police Department

Patrick H. Shanahan was appointed a permanent patrolman March 2, 1928.

The new control desk has been installed at the station by the Gamewell Company. Connected with it there are a recall red light and a horn which have been installed on a pole at the corner of Eliot and Adams Streets, to be operated from the Police Station and upon signal by either the light or the horn the officer on the beat will immediately communicate with headquarters. It has been suggested that a similar recall system should

be installed at East Milton, Mattapan, Blue Hill Avenue near Hose 4 and at Central Avenue near the High School, but we are not recommending these installations at the present time because of the pressure of other appropriations.

On November 3, 1928, the revolver contest was held and with an average of 87%, Patrolman John P. Driscoll was declared winner of the second leg of the silver loving cup offered as a trophy by the Selectmen to be awarded to the member of the department who makes the highest record in markmanship for three years. Patrolman John W. Dalton won second place with an average of 84.5% and Patrolman James J. Dalton was third with an average of 77%.

We appreciate the interest shown by a citizen of the town, who wishes his name withheld, who gave three prizes in gold, one of $15, one of $10 and one of $5, which were presented to the three high men. The men are anxious to become more skilful in shooting, and the Selectmen recommend that an appropriation be made for ammunition so that the men can get more practice.

The discipline of this department has been good during the year.

Public Transportation

Through its purchase of the Massachusetts Coach Co., all of the public transportation in Milton is now under the control of the Eastern Massachusetts Street Railway Co., with the exception of the local Blue Hills bus line.

The Board believes that a uniform rate of fare on the trolley cars and buses of the Eastern Massachusetts Street Railway Co. in Milton, with a maximum charge of ten cents for a ride from any part of the town to any other part, ought to be in effect. While there is a ten-cent fare on the bus between Mattapan and East Milton, it costs fifteen cents to ride on the trolley between these points and also between Lower Mills and Scotts Woods. The Board sees no reason why passengers should not be carried between these points for ten cents, with a 12 trip ticket for ninety cents, to be used anywhere in town either on bus or trolley.

It was also suggested to the trustees of the Eastern Massachusetts Street Railway Co. that the company give a five-cent fare from the vicinity of the junction of Pleasant Street and Edgehill Road to East Milton with the privilege of continuing the ride on the Granite Avenue bus for another five-cent fare, thus providing a ten-cent fare from the Pleasant Street-Edgehill Road neighborhood to the Boston line. The trustees said they would have an investigation and a study made to determine if it is possible to grant these requests.

The Selectmen have held conferences with the Boston City Council in reference to the petitions of the Eastern Massachusetts Street Railway Co. for permission to run its Granite Avenue buses through to the Dorchester Rapid Transit Line. We hope the Boston City Council will grant this privilege at an early date.

Granite Avenue Damages

In connection with the Greenspan claim we quote from letter of Town Counsel as follows:

"Morris Greenspan, (awards made under names of Daniel A. McLaughlin and William N. Ambler), was paid the sum of $12,000 after the verdict he received upon the first trial of his suit had been set aside by the Supreme Court and when the case was about to proceed to be tried for the second time. Greenspan, in consideration of the settlement, built at his own expense a retaining wall approximatley 90 feet long by 10 feet high, which the Town would have been required to build and which the State engineers informed me would cost the Town from $1200 to $1400. Greenspan would also have been entitled to interest for two years on whatever verdict he obtained, which I approximated at $800. From the point of view of the Town, therefore, I consider that the actual payment to Greenspan was under $10,000. In view of the uncertainty of litigation and the evident opinion of the first jury that substantial damages had been suffered by Greenspan, and to avoid the expense of a second trial, this seemed to me a settlement advantageous to the Town."

We also quote from letter of Town Counsel as follows:

"There are now outstanding, claims as follows:

1. Award to Emma C. Emerson, et al, $247.50.

This has not been paid because the land stands in the names of a number of people and has been sold for taxes, and it is doubtful to whom payment should be made.

2. There are also pending in court suits on account of Edwin D. Dodge and Mary Wallace property. The awards to these parties total $714. These suits have not been put in my hands for defense by the County Commissioners.

The total amount of payments for damages which appear in detail upon the books of the Town Accountant, are as follows:

Payments in 1927	$11,493 75
Payments in 1928	12,903 25
The County of Norfolk advanced the money necessary to settle with Greenspan and with Richard M. F. Cahill, to the amount of	12,400 00
	$36,797 00

Transfers by the Warrant Committee have reduced the indebtedness of the Town to the County on this account by $2,342.68.

The County will reimburse the Town to the extent of $2000 when all damages are paid."

The following is a list of land damages paid in 1927:

Arthur E. Anderson	$407 00	
Jeremiah P. Fenno	227 00	
T. L. & M. E. Ormsby	206 00	
Dorothy M. Levenson & Eliz. M. Mitchener	78 75	
Emma C. Emerson and Fanny E. Hamlin	500 00	
Fanny E. Hamlin	400 00	
George A. and Annie B. Mayo	678 00	
Michael J. Condon	3,000 00	
T. L. and M. E. Ormsby	206 00	
Laura R. Cates	837 32	
William Adams	104 67	
Sarah Cutler	104 67	
Frank Adams	104 67	
Elias Adams	104 67	
Flora M. Babcock	2,627 50	
Martha E. Babcock	875 83	
Paul A. Babcock	343 89	
Josiah Babcock	343 89	
Rachel B. Grover	343 89	
Total payments in 1927		$11,493 75

The following is a list of land damages paid in 1928:

Albert Wood and Adeline Wood	$256 00	
Albert Wood	86 25	
Susan G. Rogers	152 00	
Alfred East and Edward R. Gregory	6,500 00	
Charles Morgan	5,900 00	
Paid on account to Norfolk County	2,342 68	
Payments in 1928		$15,245 93
Total payments		$26,739 68

The final figures on Granite Avenue construction have not yet been furnished us by the State.

Fourth of July Celebration

The town appropriated $500 at the March meeting for this celebration and $448.30 were expended by the Board through its Chairman assisted by William G. Rodd, Chairman of the Park Commission; William L. Wadsworth, Commander of Milton Post, No. 114, A. L.; Charles E. Cross, Commander of Camp No. 74, S. of U. V.; Ernest E. Leavitt, Matthew J. McGrath, George Caldwell, Patrick J. Bannin and Thomas F. White. An appropriate program was carried out during the day, fireworks and a band concert in the evening at the Brook Road playground.

For more detailed information we refer to the various departmental reports.

Joseph H. Duffy, our Clerk, with his knowledge of town affairs, and good judgment, has been a great help to the Board.

The co-operation of all departments is appreciated.

JOSIAH BABCOCK
KENNETH D. JOHNSON
FREDERICK A. GASKINS
Selectmen of Milton.

REPORT OF TOWN ENGINEER

MILTON, MASS., January 4, 1929.

To the Honorable Board of Selectmen:

GENTLEMEN:—Herewith is presented the annual report of the Engineering Department as carried out during the year ending December 31, 1928.

Town Survey

The mapping of the town is well under way. Large traverses have been run over most of the principal thoroughfares and the street lines located. During the winter these traverses will be computed and plotted. The men who have served as rodmen and chainmen are reproducing the lines run during the summer and are locating the buildings. When these plans are completed they will show all land lines and buildings abutting these streets. To assure an accurate co-ordinate plan the work must be thoroughly done and I estimate another three years will be required to complete the maps.

Central Avenue Bridge

It was planned to renew several stringers and redeck the Milton half of the bridge but when the decking was removed all the stringers were found to be much more decayed than the superficial examination showed so it was necessary to renew all wood work above the iron. Before the top planking was laid the stringers were treated with a wood preservation so that many years service can be expected before more money is required for repairs. This work was done by the Bay State Dredging Company who submitted the lowest bid.

Adams Street

The resurfacing of Adams Street was done by Simpson Brothers Corporation of Boston who were the lowest bidders. This pavement is known as Simpson Vulcanized Pavement and consists of a sheet asphalt vulcanized to the old road surface. This company laid 12,593 square yards of pavement from the Milton-Quincy line to Governor's Road within twenty days for the sum of $16,685.65. The work was begun on June 7th. The town has a five year guarantee of this work.

Granite Avenue Construction

One thousand nine hundred fifty (1,950) feet of this street was reconstructed and widened by the State Department of Public Works during the latter part of the summer, the expenses being shared by the state, county and town.

From Squantum to Wood Street a thirty-foot strip of bituminous macadam pavement was laid with a gravel shoulder and a sidewalk on the westerly side. There was no provision in the contract for doing any work on the easterly side between these points.

From Wood to Adams Street, the remaining distance, the bituminous pavement widens out to fifty-two (52) feet with granite curbing on both sides, a ten foot gravel walk on the easterly side and an eight foot gravel walk on the westerly side to the railroad land where it narrows down to a 3½ foot width. This was done because of the decreased width of street location at this point and to give as much space of roadway to vehicular travel as possible at this intersection with Adams Street.

Betterment Streets

All the betterment streets were advertised for bids using the form of the "Commonwealth of Massachusetts Contract with Standard Specifications for Highway Work in Cities and Towns." This form is based on the unit amount and is fair to the town and contractor.

Rowe Street only was awarded to E. C. Sargent of Quincy and the work was done in a very satisfactory manner to all concerned. The work was started on June 20th and completed on July 20th. All the other betterment streets were done by town labor.

The usual amount of work for the proposed betterment streets such as making surveys, plans, estimates, distributing costs, etc., has been carried on by this department.

Street Oiling

During the past year more street oiling was done with the heavier oils than ever before and those who use the streets can easily see the benefit derived from this method of

surface treatment. I recommend an appropriation sufficient to oil every main thoroughfare not oiled last year.

Street Intersection Signs and Signals

Now that Massachusetts has a traffic and signal department which has a supervisory power over traffic control signals the time has come when we shall proceed as rapidly as possible to meet our traffic problems.

The Selectmen, Police Department and Engineering Department have made various studies throughout the year. In November the Selectmen appointed a Safety Committee to make further studies and recommendations. The Committee is as follows: Josiah Babcock, Chairman of the Board of Selectmen, James R. Travers, Chief of Police, W. Newton Harlow, Patrick Bannin and Forrest J. Maynard, Town Engineer.

Twelve street intersections have been plotted and studies made both on paper and on the ground. We recommend that the following intersections be controlled by the installation of a signal system and that an adequate appropriation be made for this purpose:

Brook Road at Blue Hill Avenue
Robbins Street at Blue Hill Avenue
Atherton Street and Bradlee Road at Blue Hill Avenue
Dollar Lane and Milton Street at Blue Hill Avenue
Central Avenue and Reedsdale Road at Brook Road
Randolph Avenue at Brook Road
Centre Street at Brook Road
Thacher and Highland Streets at Canton Avenue
Canton Avenue and Centre Street at Reedsdale Road
Centre Street at Randolph Avenue
Squantum Street at Granite Avenue
Granite Avenue at Adams Street

Police records show these to be the most dangerous intersections.

Permits

The present method of street opening has proved very satisfactory. By it the town is given a record of all openings and an opportunity to collect the cost of street repairs if the work is not satisfactory when done by the applicant.

This year there have been 239 permits issued.

House Numbers

During the year 216 house numbers have been issued. In some cases it has been necessary to renumber the entire street.

Drainage

The main drain just completed in East Milton is the largest piece of drainage work this year. The construction started at the brook near Squantum Street and ended just beyond Church Street in the area known as Babcock Park. The sewage and drainage provided for is approximately fifty-nine (59) acres.

Because the sewerage and drainage pipes were laid in the one trench the work could be done by one contractor, thereby saving a substantial amount. This work has been done jointly with the Sewer Department.

The Engineering Department has prepared comprehensive drainage plans of other areas and again recommends an appropriation to carry on this work.

The Town Engineer expresses his appreciation of the co-operation of his assistants.

Respectfully submitted,
FORREST J. MAYNARD,
Town Engineer.

REPORT OF ASSESSORS OF TAXES

January 1, 1929.

To the Citizens of the Town of Milton, Massachusetts:

The Assessors of Taxes herewith submit their report for the year 1928.

At the annual Town Meeting for the election of Town Officers for the year 1928, George S. Murray was elected for the three year term, and Robert Bowie for the one year term, this being the unexpired term of Charles H. Horne, retired.

On March 5, 1928, the Board organized as follows: William W. Churchill, Chairman, George S. Murray, Secretary. Wallace C. Tucker was reappointed Clerk of the Board, and Dorothy L. Maxwell, Assistant Clerk.

This year was notable for the marked change in the making up of the valuation book, commitment list, and tax bills. Heretofore, this work has been done in hand writing, necessitating a duplication of most of the writing. A machine made especially for our use by the Burroughs Adding Machine Company performed all this work in typewritten form, in one operation The machine has proved very satisfactory, and will result in the saving of much clerical work in the future.

January 1, 1929, marks the beginning of a new method of taxing automobiles, a method which will probably mean a gain for the town in the personal property tax, but at the same time will undoubtedly involve much more clerical work in levying the taxes, and in making the adjustments which are sure to come later.

In determining the tax rate, the Assessors were confronted with the fact that the sums appropriated at the regular and special town meetings amounted to $1,000,067.24, against last year's figure of $917,023.26, an increase of $83,043.98. The natural growth of the town as represented by new buildings contributed about $1,200,000 increase to the town's assessed real estate valuation. At last year's tax rate such an increased valuation represented an additional annual revenue of $32,280, which deducted from this year's increase in expenditures of $83,043.98, left $50,763.98 still to be raised; such an amount would have required an increase of $1.60 in last year's tax rate from $26.90 to approximately $28.50, about the rate which appeared to be necessary at the time of the special town meeting in June.

The Assessors, however, were able to avoid a large addition to the tax rate by the readjustment of the property valuations of the Edison Electric Illuminating Company and the Boston Consolidated Gas Company, with an increase of $650,000, and of real estate valuations in the business zones to the extent of about $150,000 increase, in addition to the $1,200,000 in new buildings.

By reason of such changes, and other adjustments and variations, the Assessors were glad to be able to announce an increase of only thirty cents over last year's rate.

The Assessors point out, however, that ordinarily an increase in the town's expenditures such as occurred this year would call for a substantial increase in the tax rate. Furthermore, due to the decreased State tax and Metropolitan District taxes from $90,824.31 in 1927 to $85,420.95 in 1928, representing a net decreased expense to the town of $5,403.36, the tax payers of the town were entitled to expect a decrease in the tax rate of about $0.16 per $1000. Increased town expenditures, however, entirely wiped out this potential decrease and forced an increase. In other words, while the actual burden of State government expense for the town was less, the local town government expense increased faster than the town's growth. If the town is annually to grow in value of new buildings about $1,000,000 to $1,500,000, an annual increase in the town's expenditures in excess of $27,000 to $40,000 almost inevitably means an increased tax rate.

Milton being essentially a town of homes, with relatively little business, and correspondingly small revenue from business, the result is that increasing tax burdens will be felt very quickly by the individual home owner through an increasing tax rate. It seems unreasonable to expect any further substantial increases from any particular class of property, except as the town continues to grow in its real estate valuation. It is pointed out, therefore, that while this year's tax rate has not shown a large increase, an increase in next year's cost of town government such as occurred this year will necessarily mean a correspondingly large increase in next year's tax rate.

The population of the Town, as computed by the Assessors for the year ending April 1, 1928, was 15,508.

Other statistics are as follows:

Number of dogs	939
Number of horses	150
Number of cows	337
Number of sheep	45
Number of swine	32
Number of fowls	1,300
Number of persons liable for military duty	2,838
Number of dwelling houses	3,360
Number of acres assessed	6,218

Estimated Receipts

State Income and Public School Reimbursement Fund	$74,258.25
Business Corporation and Public Service Tax	18,311.10
National Bank Tax	3,425.20
Street Railway Tax	1,051.23
State Aid and Support of Paupers	787.50
Estimated Departmental Receipts	68,043.42
Amount voted by Town	30,000.00

Taxes assessed for the year 1928

Valuation of personal estate	$4,317,010 00	
Valuation of real estate	29,747,650 00	
	$34,064,660 00	
Tax rate, $27.20 per $1,000.		
$34,064,660.00 x $27.20		$926,558.75
Town Tax (including Bonds) less assets and polls	$795,456 54

All additional taxes	18,312 87	
		$944,871 62

Respectfully submitted,

WILLIAM W. CHURCHILL,
GEORGE S. MURRAY,
ROBERT BOWIE,
Assessors of Milton.

REPORT OF BIRD WARDEN

MILTON, MASS., December, 31, 1928.

To the Citizens of the Town of Milton:

I beg to submit to you my report as Bird Warden for the year 1928.

There was no appropriation and there are no accounts to be submitted.

I wish to report that during the winter and spring of 1928, my observations indicated that the bird-life within the Town of Milton was about the usual amount, there being very little change from the two previous years. I believe, however, that there was a scarcity of both varieties of Cuckoos, which birds are an active enemy of the Tent Caterpillar and do great destruction of this insect pest.

My observation led me to believe that the Thrushes were less numerous last spring, than usual.

I was absent a large part of the Summer and made very few observations in Milton during that period, but I believe that the Starlings have continued to increase to an undesirable extent, and the English Sparrows have apparently diminished.

The cats which wander about at night and in the early morning, unrestrained, are still doing much damage, especially to the young birds in the Spring before they have learned to take care of themselves, and I would urge those citizens interested in preserving bird-life, to bear this in mind and discourage the keeping of unnecessary cats, among themselves and their neighbors.

I recommend to those citizens interested in observing the bird-life, the putting out of shelters and feeding stations in convenient places.

Respectfully submitted,

RALPH E. FORBES,
Bird Warden.

REPORT OF TRUSTEES OF MILTON CEMETERY

MILTON, MASS., January 16, 1929.

To the Citizens of Milton:

The Trustees of the Cemetery report for the year 1928:

There were 157 interments in the Cemetery during the year, 96 of which were from out of town; 27 new lots were finished; 44 lots were taken by residents of the town and one lot was sold to a non-resident, closely connected with the town.

Seven single graves were sold to residents.

Thirty-eight lots and 5 single graves were placed under Perpetual Care during the year.

During the past summer Dr. Harris Kennedy and Mr. W. P. Wolcott have given the cemetery bulbs and shrubs and have aided in the planting of them. Further, the income of $1,000 given under the will of Francis Cunningham to "improve and adorn the cemetery" will be available shortly and will be so used.

The sheds for storing the machinery and tools of the cemetery, and used as shelter for the employees are old and in bad condition. They should be replaced.

PERCY E. SHELDON, *Chairman,*
REGINALD L. ROBBINS, *Treasurer and Secretary,*
THOMAS K. CUMMINS,
ASAPH CHURCHILL,
W. P. WOLCOTT,
THOMAS W. POND, *Superintendent.*

REPORT OF THE FIRE DEPARTMENT

MILTON, MASS., January 2, 1929.

To the Honorable Board of Selectmen, Milton, Mass.:

GENTLEMEN: I herewith submit my report for the Fire Department for the year ending December 31, 1928.

Alarms

There have been 296 alarms received as follows:
124 bell alarms; 172 telephone calls; 29 calls to Boston.
Boston has responded 28 times to Milton.

Alarms each month:

January	24	July	25
February	21	August	18
March	36	September	9
April	58	October	21
May	19	November	35
June	15	December	17

Classification

Automobiles	33	Grass	68
Barn and Shed	10	Hay Stack	2
Brush	37	Lumber	1
Chimney	17	Needless	21
Dump	18	Rubbish	6
Dwelling	18	Store	3
False	18	Tar Kettle	2
Fence	1	Tool House	1
Gasoline	1	Station platform	1

Calls other than for Fire

Accident.	Pulmotor
House filled with smoke.	Release children from locked room.

Property at Risk

Value	$410,100 00	Net loss	$265 00
Fire loss	26,185 76	Per capita loss	1 69
Insurance paid	25,920 76		

Work Performed

Feet of hose laid	22,250	Feet of ladder raised	1,086
Gallons of chemical used	2,495	Miles travelled	1,515.5

Permits Issued

Out-of-door fires	745	Explosives	54
Inflammable fluids	10	Fireworks	7
Oil burners	43		

Inspections

Regular inspections have been made of stores, garages, filling stations, etc.

Appointments

On March 10th, Sections 42, 43, 44 of Chapter 48, General Laws were accepted by the Town authorizing the establishment of a Fire Department to be under the control of an officer to be known as the Chief of the Fire Department.

On March 16th, I was appointed Chief of the Fire Department.

On May 16th, after a competitive Civil Service examination, James F. Hanna was appointed Deputy Chief of the Fire Department.

Personnel

The force now consists of the following:

Chief of Department	Deputy Chief of Department
3 Lieutenants	16 Firemen
16 Callmen	

Apparatus

The apparatus in service at the present time is as follows:

LaFrance Combination Hose and Chemical, purchased in 1915
LaFrance Pump Engine Hose and Chemical, purchased in 1916
LaFrance Combination Hose and Chemical, purchased in 1919
Oldsmobile Combination Hose and Chemical, purchased in 1919
LaFrance Combination Ladder and Chemical purchased in 1926
Buick Chief's Car purchased in 1926

The three combination hose and chemical trucks and the pump engine have been painted by men of the Department; new tires have been applied to the two LaFrance combination hose and chemical trucks during the year. The general condition of all of the apparatus is very good, but it will be seen from the above that one of these trucks is thirteen years old, one twelve years old, and two ten years old. The time is not far away when some of these trucks must be replaced.

Stations

Some painting has been done at the Central Station; part of the roof at Hose No. 4 Station has been reshingled; minor repairs have been made at all Stations.

The balance of the roof at Hose No. 4 Station must be reshingled in the near future.

Fire Alarms

Four fire alarm boxes have been purchased to replace four old type boxes that have been giving trouble. These boxes will be installed in a short time.

Discipline

The discipline in the Department continues at its usual high standard and the men continue to respond to alarms while off duty and show a willingness to co-operate in every way.

Recommendations

I would recommend that the permanent force be increased, especially at East Milton, as that part of the Town has grown tremendously in a very short space of time and this department has not kept pace with this growth.

I would recommend that a survey of the Fire Alarm System be made by the Gamewell Company with regard to replacing old cables and wire, some of which are over twenty years old; locations for new Fire Alarm boxes to take care of the newly built up sections.

I would recommend that the old type Fire Alarm Boxes, of which there are about twenty-five, be gradually replaced, a few each year, as the old type are giving more or less trouble and are bad boxes to have in the system.

I wish to extend my sincere thanks to the Honorable Board of Selectmen for their assistance in all matters concerning this Department.

I am very grateful for the help given by Messrs. Hallowell, Eshlemann, Keenan, and Patterson, who served on the Board of Fire Engineers from January 1 to March 16. These men gave a great deal of their time for this work and our associations were most pleasant.

I thank the Police Department for their help and co-operation during the year.

To the officers and men of this Department—I cannot speak too highly of the efficient and faithful manner in which they have performed their duties, ready and willing at all times to do their share in keeping the fire losses of the Town to a minimum.

Respectfully submitted,

J. HARRY HOLMES,
Chief of Department.

REPORT OF LICENSING COMMISSION ON GARAGES

MILTON, MASS, December 31, 1928.

To the Honorable Board of Selectmen, Milton, Mass.:

GENTLEMEN: The Licensing Commission for One and Two Car Private Garages respectfully submits the following report for the year ending December 31, 1928.

Fifty hearings were held and two hundred twenty-six (226) licenses were issued. Inspections were made on all locations and garages.

Respectfully submitted,

J. HARRY HOLMES, *Chairman*,
G. E. BURT,
JOSEPH H. DUFFY.

REPORT OF TREE WARDEN

December 31, 1928.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Tree Warden Department of this town, for the past year.

TRIMMING

There was considerable damage to the trees in the town this year, from the storms. During the year this Department trimmed about six miles of street trees.

PLANTING

It has been the policy of the Department to plant about 100 trees a year on the public property. This year 91 trees were planted.

INSECTS

The situation in regard to the insect pests is about the same as last year. The Satin Moth is very prevalent in the Carolina poplars throughout the town. The Tent Caterpillar infestation is about the same as last year. The two Elm-leaf pests are still troublesome.

SAW MILL

The Saw mill shows a profit again this year and it is very useful to the Department for handling its work.

PLANS FOR NEXT YEAR

We believe that the policy of tree planting should be continued and we hope to be able to plant about 100 trees next year.

Appendix A.

Trees planted:	
Norway maples	75
Tupelos	16
	91
Trees removed:	
American elms	8
Maples	3
Ash	4
	15

Appendix B. (General Account)

Appropriation for public work	$8,500 00
Expenditures	8,475 98
Balance reverting to Treasurer	$24 02

Appendix C. (Private Account)

Appropriation for private work	$3,500 00
Expenditures	3,482 39
Balance reverting to Treasurer	17 61
Receipts from private work	3,500 00
Total reverting to Treasurer	$3,517 61
Receipts	3,500 00
Less Expenditures	3,482 39
Profit from private work	$17 61

Sawmill Account

Credits

16,000 feet of lumber sawed at $10.00 per 1,000	$160 00	
Receipts from cord wood	140 00	
Receipts from lumber sold	82 40	
Receipts from saw dust	15 00	
		$397 40

Expenses

Cost of electricity	$78 60	
Cost of labor	70 00	
Cost of sawing wood	20 00	
		168 60
Credit Balance		$228 80

Respectfully submitted,

RALPH E. FORBES,
Tree Warden.

REPORT OF MOTH SUPERINTENDENT

December 31, 1928.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Moth Department of this town, for the past year.

Suppression Work

The amount of creosoting done this year was about the same as in the previous year. The infestation was about the same, but there was some improvement noticeable along the borders of the town.

The Brown-tail Moth has apparently disappeared from the town.

Equipment

The equipment and buildings are in good condition.

The Department has purchased a new Nash Coupe and a new Ford truck, to replace two 5-year old machines.

Appendix A.

Inventory of property of Moth and Tree Warden Department.

1—1926—3½ ton G. M. C. truck with Sprayer and platform body	$3,500 00
1—1913 Packard truck	50 00
1—1 ton G. M. C. truck	100 00
1—1 ton Ford truck 1928	800 00
1—Nash Coupe 1928	950 00
Tools of all kinds (including field supplies)	475 00
Office Equipment	200 00
Buildings (including Saw mill)	10,500 00
Hose	300 00
Total	$16,875 00

Appendix B. (General Account)

Appropriation	$6,500 00
Expenditures	6,462 05
Balance reverting to Treasurer	$37 95

Appendix C. (Private Account)

Appropriation	$4,000 00
Expenditures	3,137 19
Balance reverting to Treasurer	$862 81
Receipts from Private work	3,139 65
Total reverting to Treasurer	$4,002 46
Receipts	$3,139 65
Less Expenditures	3,137 16
Profit from Private work.	$2 49

Respectfully submitted,

RALPH E. FORBES,
Local Moth Superintendent.

REPORT OF THE BOARD OF HEALTH

MILTON, MASS., December 31, 1928.

To the Citizens of Milton:

The number of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1928	1927	1926
Anterior Poliomyelitis	1	7	0
Chicken Pox	59	73	42
Diphtheria	4	6	5
German Measles	9	7	95
Lobar Pneumonia	15	13	13
Measles	336	88	26
Mumps	6	205	42
Scarlet Fever	52	44	28
Tuberculosis (Pulmonary)	13	7	8
Tuberculosis (all other forms)	–	4	–
Whooping Cough	65	57	74
Influenza	–	1	6
Suppurative Conjunctivitis	–	–	1
Malaria	–	–	1
Dog Bite	5	12	–
Typhoid Fever	1	1	–
Para-Typhoid Fever	–	1	–
Ophthalmia Neonatorum	2	–	–

The Board organized March 22, 1928. Mr. Philip Y. DeNormandie was elected Chairman and Mr. Hervey King, Secretary. The following appointments were made: Agent, Dr. Paul W. Kimball; Inspector of Milk, Dr. Paul W. Kimball; Deputy Inspector of Milk, S. R. Ramsdell; Inspector of Plumbing, L. E. Young; Deputy Plumbing Inspector, B. F. Murray; Agent for Issuing Burial Permits, G. F. Kemp; General Contractor, A. B. Snow; Inspector of Slaughtering, P. W. Kimball; Caretaker of Contagious Hospital, John Dexter. The contract for collecting ashes and garbage was awarded to S. G. Craig.

During the month of January, owing to the prevalence of rabies, the Board arranged for the services of a competent veterinarian who inoculated dogs at the Town Hall as a preventative measure. A nominal charge of $1.00 per dog was made to cover the cost of this service. About 500 dogs were so treated.

The Board authorized the publication in the Milton Record weekly, the number of cases of contagious diseases, giving their incidence by schools.

In order to aid in the prevention of diphtheria, the Board furnished during the month of November, the Schick test and prophylactic treatment against diphtheria. Approximately 300 persons were given the Schick test to determine whether or not they were immune to diphtheria. This included a number who had previously been given the prophylactic treatment to determine if they had acquired permanent immunity.

Following the Schick test, 318 persons who showed susceptibility to diphtheria were given the prophylactic course of three treatments. The Board of Health wishes to publicly acknowledge the hearty cooperation of the School Department in this measure for the protection of all persons in the Town.

143 Permits for connecting houses with the common sewer have been issued during the past year.

During the month of March the State Department of Health held a clinic in the public schools for the examination of all underweight children in order to determine possible cases of latent tuberculosis. Out of a total of school population of 2,093, 829 children were examined; of these 195 were X-rayed; 6 cases of tuberculosis were definitely diagnosed and 17 cases were classified as suspects. The Board has, this year, continued its practice of having all known cases of tuberculosis in the Town followed up by a competent nurse to be sure that the cases are receiving proper care and that proper hygienic measures are being taken with respect to those coming in contact with these cases.

Respectfully submitted,

PHILIP Y. DeNORMANDIE, *Chairman,*
PAUL R. WITHINGTON, M.D.,
HERVEY W. KING, *Secretary,*
Board of Health of Milton.

REPORT OF COLLECTION OF ASHES AND GARBAGE

MILTON, MASS., January 5, 1928.

To the Board of Health:

I herewith submit my report for the year ending December 31, 1928. There have been collected 632 truck loads and 3,998 double loads of ashes and 372 cords of garbage.

Respectfully submitted,

SAMUEL G. CRAIG.

REPORT OF GENERAL CONTRACTOR

MILTON, MASS., January 4, 1929.

To the Board of Health:

GENTLEMEN:—I herewith submit my report for the year ending Dec. 31, 1928.

3 vaults cleaned
39 cesspools cleaned
4 dead animals buried.

Yours respectfully,

ALVAH B. SNOW.

REPORT OF INSPECTOR OF MILK

MILTON, MASS., December 31, 1928.

To the Board of Health:

GENTLEMEN:—During the year 1928, there were issued 51 licenses to sell milk or cream and 12 dealers were registered to sell oleomargarine. Forty-six of the licenses cover the sale of milk and cream which has been pasteurized and five are for the sale of milk and cream from cows that have been tuberculin tested and maintained in accordance with the State and Federal regulations. The milk has been of good quality with relatively low bacterial count.

Respectfully submitted,

PAUL W. KIMBALL, *Inspector*
SHERMAN R. RAMSDELL,
Deputy Inspector.

REPORT OF INSPECTOR OF PLUMBING

MILTON, MASS., January 1, 1929.

To the Honorable Board of Health:

Milton, Mass.

GENTLEMEN:—Herewith I submit annual report for the Department of Inspection of Plumbing:—for the year ending December 31, 1928.

MONTH.	Number Permits Issued	Valuation as per Application
January	18	$8,295 00
February	16	6,760 00
March	18	8,343 00
April	15	7,645 00
May	33	15,415 00
June	19	7,475 00
July	34	16,865 00
August	29	17,685 00
September	26	11,645 00
October	24	11,695 00
November	26	14,330 00
December	32	17,230 00
Totals	290	$143,383 00

Respectfully submitted,

LORENZO E. YOUNG,
Inspector of Plumbing.

REPORT OF INSPECTOR OF SLAUGHTERING

MILTON, MASS., December 31, 1928.

To the Board of Health:

GENTLEMEN: Three sheep were passed for food during the year 1928.

Respectfully submitted,

PAUL W. KIMBALL,
Inspector of Slaughtering.

REPORT OF INSPECTOR OF ANIMALS

MILTON, MASS., January 5, 1929.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my annual report for the year ending December 31, 1928.

I visited and inspected 47 barns and premises where cattle are kept and found sanitary and other requirements satisfactory to the health of the animals.

Physical examination was given to 315 cows and 7 bulls for infectious or communicable diseases.

All interstate shipments of cattle and horses have been inspected, identified and reported direct to the State Division of Animal Industry in compliance with regulations.

Following the removal of cattle reacting to the tuberculin test 7 barns and premises have been inspected to determine that thorough disinfection has taken place.

Rabies outbreaks continued during the year; there were 12 positive cases and 19 dogs were quarantined.

Through the efforts of the Board of Health about 400 dogs were given preventive rabies vaccine during January, at cost to owners for material used.

None of the dogs treated developed the disease although several were in contact and 2 actually bitten by rabid dogs.

Since the quarantine of this (or any communicable disease) in a community is in general no better than public opinion demands, the fact is, the quarantine of dogs to which public opinion seems indifferent is usually indifferently enforced.

Prevention of rabies amongst dogs should be practiced with prophylactic vaccination yearly.

Respectfully submitted,
ROBERT H. SEWALL,
Inspector of Animals.

REPORT OF INSPECTOR OF BUILDINGS

MILTON, MASS., January 4, 1929.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my report for the Building Department for the year ending December 31, 1928.

Month	Permits for new Dwellings	Permits for Alterations	Permits for Garages	Permits for other buildings	Valuation
January	11	7	6	–	$111,400 00
February	7	3	5	–	46,350 00
March	8	7	10	6	91,906 00
April	27	11	23	5	170,280 00
May	17	12	35	5	142,605 00
June	23	10	20	8	229,228 00
July	22	16	24	4	319,359 00
August	23	10	25	1	152,125 00
September	13	11	22	3	345,507 00
October	28	10	24	3	238,570 00
November	14	5	25	2	119,800 00
December	25	4	10	2	169,375 00
Totals	218	106	229	39	$2,136,505 00

Making valuation as per applications $2,136,505.00.

Respectfully submitted,
G. E. BURT,
Inspector of Buildings.

REPORT OF SUPERINTENDENT OF WIRES

MILTON, MASS., January 16, 1929.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Wire Department for the year ending December 31, 1928.

This department has supervision of the Fire and Police Signal System, inspection of all buildings equipped with electric light service and all poles and wires on town streets.

Interior Wiring

	1927	1928
Certificates issued for light and power	299	274
Number of inspections	794	675
Number of incandescent lights wired for	8673	7686
Number of motors installed	34	29
Total horse-power	27–7/12	51–11/12
Number of electric heaters and ranges installed	29	28
Total watts	72060	16550

Radio

All outside antenna wires must be protected by a lightning arrester.

Anyone wishing a copy of rules concerning Radio Installation may have same by notifying the Wire Department.

Fire and Police Signal System (overhead and underground)

Have run under ground from Hutchinson Street to School Street on Randolph Avenue.

Have changed plates on Fire Alarm storage battery.

Emergency calls 225.

For the maintenance of the Wire Department I have requested an appropriation of Nine Thousand, Six Hundred and Twenty-five Dollars and Sixty-eight cents ($9,625.68).

Respectfully submitted,

ERNEST E. CHOATE,
Superintendent of Wires.

REPORT OF THE PARK COMMISSIONERS

MILTON, MASS., January 10, 1929.

To the Citizens of the Town of Milton:

The Park Commissioners herewith present their report for the year ending December 31, 1928.

The general program of the department has not varied from that of former years. The increase in activities of the physical culture and athletic departments in the high school made it necessary to lay out additional fields for soccer and field hockey.

The personnel of the department was as follows:

Superintendent	John L. Kelly
Playground Director	Aaron H. Yeaton
Assistants	Miss Alice Cody
	Miss Barbara Kemp
	Miss Anne Rogers

Brook Road Playground

All the athletic engagements by high school teams at home took place on these grounds.

The cinder track was resurfaced with three inches of screened cinders and clay, and posts and cables were placed along the edge of the track to keep the crowds back during the football games.

The tennis court situation grows more acute every year. The courts are opened about May 1st, weather permitting, and during the afternoons many persons are usually waiting to play on the courts.

Although the courts are reserved during the evenings after six o'clock, Saturday afternoons, Sunday afternoons and holidays for adult use, yet many persons are often disappointed in obtaining a court.

The Park Commissioners are asking for sufficient funds for the erection of four more courts upon the Brook Road Playground.

Hollingsworth Field

A chain-link fabric fence was erected along the river at this playground to safeguard small children from falling into this dangerous stream.

A substantial field shelter was erected, and sandboxes and storage chest for supplies used by the supervisor, placed in it.

Additional work was accomplished upon the skating rink upon these grounds and during the closing days of the year, a gratifying result has been noticed on both the ice surface and numbers of persons using it.

East Milton Playground

A chain-link fence was erected along three hundred and seventy-five feet of the Squantum Street boundary of these grounds to protect them from destruction by wheel vehicles in the Spring. The Commissioners have asked the New York, New Haven and Hartford Railroad Company to repair its fences along our boundary of these grounds. The backstop and settees were painted and placed in good condition.

Crane Field

The Commissioners are asking the sum of two hundred dollars to build a walk across these grounds for the convenience of persons living in this neighborhood going to and from East Milton Square. An additional sum is asked for, to keep these grounds in better shape.

Respectfully submitted,

WILLIAM G. RODD,
THEODORE D. SHAPLEIGH,
CLYDE L. WHITTIER,
Board of Park Commissioners.

REPORT OF POLICE DEPARTMENT

MILTON, MASS., January 10, 1929.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit the report of the Police Department for the year ending December 31, 1928.

Roster of the Department

Chief—James R. Travers

Deputy—Timothy McDermott

Sergeants

Norman R. Bowman
John J. Haley
John B. Shields

Patrolmen

George P. Bertram
Robert J. Blake
William H. Byrnes
Thomas J. Callahan
John A. Chamberlain
Richard F. Chamberlain
William H. Coghlan
John F. Condon
James J. Dalton
John W. Dalton
Joseph F. Duggan
John P. Driscoll
Andrew J. Donahue
Patrick H. Donahue
William S. Fallon
James J. Foley
Francis T. Hanna
William D. Kearney
Edward F. Lee
Francis J. Lynes
Thomas J. Lynes
Frank H. McDermott
Joseph J. Mulhern
Michael J. Murphy
James J. Parrell
Patrick H. Shanahan

Clerk—Anna Healy

In Memoriam

WILLIAM J. STEPHENSON (retired)

Number of writs served for other departments	441
Officers attending fires	289
Officers detailed for public service	85
Officers detailed at request of citizens	497
Runaway horses stopped by officers	2
Solicitors driven out of Town	17
Amount of stolen property reported	$10,244 50
Amount of stolen property recovered	7,191 00

Crime

It is pleasing to be able to report that the Town has been free from serious crime this year. Very few houses were entered in comparison with other years. The decrease was due in a large measure to the faithfulness and efficiency of every member of the Department. The breaking and entering was committed in most cases by boys and several were apprehended and taken to Court. Other crimes committed were of a minor nature.

Traffic

A new traffic post was made at Canton Avenue and Reedsdale Road on account of so many accidents occurring at that intersection.

On November 24th, a new traffic signal was installed in East Milton square. Through the courtesy of the L. Scott Roe Signal Company of Boston the signal was put in on trial and has proved a great success in handling traffic and I recommend the purchase of same. It is operated manually from the traffic house on the side of Adams Street, thereby removing the officer from the dangerous intersection.

A safety committee consisting of Selectmen Babcock, Town Engineer Maynard, Chief Travers, Mr. Patrick Bannin and Mr. W. Newton Harlow were appointed and studied the most dangerous intersections throughout the Town. I recommend that the Town purchase automatic signal lights to be installed at Granite Avenue and Squantum Street; Brook Road and Center Street; Brook Road and Randolph Avenue; Brook Road and Central Avenue; Randolph Avenue and Center Street; Canton Avenue and Reedsdale Road; Canton Avenue and Highland Street; Blue Hill Avenue and Brook Road; Blue Hill Avenue and Robbins Street; Blue Hill Avenue and Atherton Street and Blue Hill Avenue and Dollar Lane. These lights will help to eliminate accidents and expedite traffic through the Town.

Safety talks were given in all of the schools by Traffic Officer Richard F. Chamberlain.

Motor Service

Two new Fords were purchased, one for the officers patrolling the Blue Hill and Brush Hill sections and the other for the Sergeants and as they have been in use day and night they will have to be replaced by new ones. The motorcycles purchased in 1927 should be exchanged for new ones as it is more economical than the upkeep and overhauling of them for another year.

Police Signal System

At the Special Town Meeting June 13th, $5,600.00 was appropriated to puchase a new Gamewell Signal desk and it has been installed and is giving complete satisfaction. A re-call signal and light has been installed at Adams and Eliot streets and when operated from the station the officer in that section can be obtained almost immediately. I recommend that the re-call system be installed at East Milton, Mattapan, Blue Hill Avenue and Atherton Street and at Brook Road and Central Avenue. It would add to the efficiency of the Department. According to figures compiled by Mr. Ernest Choate, Superintendent of the Milton Wire Department and Mr. Dawson of The Gamewell Company, the cost would be approximately $13,200.00.

The Force

Patrick H. Shanahan was appointed March 2nd to fill a vacancy.

The discipline of the Department has been good. Charges were preferred against one officer for violation of the rules and he was ordered to do punishment duty.

July 26th, the Selectmen amended Rule 65 of the Police Manual whereby officers on sick leave may receive full pay.

Thanks are due and tendered to the Town Meeting Members for voting for the increase in salaries for all members of the Department.

Revolver Practise

The silver cup donated by the Selectmen in 1927 was competed for again this year and Officer John P. Driscoll won the shoot and a leg with an average of 87%.

On account of no funds being available for ammunition, the officers could not do much practising and I have recommended $500.00 be appropriated in 1929 so that they can shoot every week as it is very important that they know how to use their revolvers in case of necessity.

Conclusion

I extend my thanks to the Justices, Clerks and Probation Officer of the District Court, to the Board of Selectmen for their advice and assistance and to the other Town Departments and citizens for their co-operation and information. For the excellent service of all members of the Department, I desire to express my appreciation.

Respectfully,

JAMES R. TRAVERS,
Chief of Police.

REPORT OF BOARD OF PUBLIC WELFARE

January 14, 1929.

To the Citizens of Milton:

The Milton Board of Public Welfare has the honor to present the report for the year 1928.

The appropriation from the town for the work of this department was $13,500.00 and with two refunds amounting to $29.00 the total credits were $13,529.00. The expenses of the Town Farm were $3,634.45, but from this sum the amount of $1,390.23 was returned to the town from produce sold, thus making the net cost of running the Town Farm $2,244.22. These reimbursements which formerly went directly to our department now go to the Town Treasurer and therefore do not reduce our appropriation as in former years.

The total amount expended on the outside relief was $8,662.76. Reimbursements received for aid rendered amounted to $2,217.51, thus making the net cost for outside relief $6,445.25.

The amount paid to the Milton Hospital for hospital care was $497.10.

The story of the money expended can easily and quickly be told but to tell of our hopes and ideals for those who are helped financially would take a long time. We want all the children to have sound minds in sound bodies and an education up to their capacity to receive it so that each one may be fitted to earn his own living in the best way for that individual. We receive the utmost co-operation from the public schools, and the superintendent and teachers show a real interest in each child.

For the aged we want to provide comfort in the declining years. The Town Farm is a good home for those who have no other, but in some instances aid is given to keep the sick or aged in their own homes. Each individual problem must be solved by itself. There are no rules or regulations that can be applied to all.

The sum of $1,231.79 was returned to the Town Treasurer as an unexpended balance.

Again we wish to express our appreciation of the help from the Milton Social Service League and the Red Cross Committee of the Women's Club. This year we were also greatly assisted by the New England Home for Little Wanderers which took a six months old baby for us in a great emergency and gave to a seven year old child a complete physical overhauling which included the removal of tonsils, adenoids, repair of the teeth, examination of eyes and furnishing of glasses.

Respectfully submitted,

HORACE N. PLUMMER, *Chairman,*
HUGH McCUE, *Secretary,*
JOHN TALBOT,
EDITH ENDICOTT STEBBINS,
CHARLES W. ROLLINS.

REPORT OF THE TRUSTEES OF THE MILTON PUBLIC LIBRARY

January 14, 1929.

To the Citizens of the Town of Milton:

Less than two weeks after the date of the last Trustees' Report to the citizens, the Town met with an irreparable loss in the death of the Reverend Roderick Stebbins, who had been for thirty-six years the Secretary of this Board.

Mr. Pier was appointed secretary and the Town elected Reverend LeRoy Bennett Trustee.

A gain in circulation of nearly 5,000 volumes over last year shows a healthy growth of the Library, the details of which may be found in the Librarian's report which is printed in full herewith. We are proud of this circulation, which is above library standards generally, and it is well worth noting that the cost per capita is .22 less than five years ago, and the cost of circulating a volume is also less. Note also that the class of books read has improved.

The two articles in the March Warrant relating to branches were taken up seriously and carefully. It took some time to put the Mattapan lot formally in the name of the Town, but as soon as this was accomplished an architect was consulted. Alterations of the old house seemed so undesirable that new plans have been prepared, estimates prepared and bids obtained. As a result we ask in a separate report an appropriation of $40,000 which we unanimously and heartily endorse as a plan which will enable the Library to supply Mattapan needs and deserts for years to come.

At East Milton the needs are practically and equally pressing, but land is not in the name of the Town there, which we are ready to recommend, and we ask more time to consider a site, with the expectations of soon recommending a similar branch building there.

In the appropriation asked for the regular expenses of the Library is included the price of a truck. Dealing with express companies has in the past proved unsatisfactory, and a truck owned by the Library will take care of the House-to-House Delivery in the scattered part of the Town, in addition to the delivery to the Branches, Schools and other stations, for the same amount which we would have to pay in expressage for a portion only of this work.

The exhibits in the Art Room have been much more varied the past year than usual. We point out with satisfaction the far flung questions asked of the staff and are proud that practically none have remained unanswered. We want to interest the young people in both the exhibits and the questions: and we are doing it!

The chief aim of the Report of the Trustees is to call attention to the Librarian's Report after all. We hope that every citizen will read that report and see why we feel that we have an excellent Librarian and Staff.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman,*
FRANK E. LANE, *Treasurer,*
ARTHUR S. PIER, *Secretary,*
VINCENT LEROY BENNETT,
STANLEY CUNNINGHAM,
ALEXANDER McADIE,
ROGER L. SCAIFE,
FREDERIC M. STONE,
ARTHUR H. TUCKER,

Trustees of the Milton Public Library.

REPORT OF THE LIBRARIAN

January 14, 1929.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1928, which is the 54th in the history of the library and my tenth.

A review of the work of the year shows that from a total circulation of 129,143 volumes, 44,262 were issued from the Central Library, 61,069 from the Branches, 9,551 from the Schools and 14,261 in the Blue Hill and Brush Hill Districts. This is a gain of 4,945 over 1927.

Statistics compiled by the American Library Association show that the average per capita circulation in libraries whose book collections range from 20,000 to 50,000 volumes is 7.7. Milton has 38,979 volumes and our per capita for the year was 8.3 computed by the last town census and 10.1 by the 1925 state census. This is high for a town of our population. The cost per capita for running the library was $1.20 which is 22 cents less than five years ago. The cost of circulating a volume is also slightly lower, being .14 against .16 in 1923. Again comparing with libraries in our class in book stock, we find the average in ten libraries was .191. In proportion as the circulation has increased, so has the routine work at the desk become heavier. Twice as many reserves were taken in and three times as many overdue notices sent out. It is also interesting to note that in five years the number of books issued from the history, science and literature has doubled.

The work in the Children's Room has continued along regular lines. The circulation for the year was 22,543. Much interest was shown by both children and adults in the industrial exhibits of cotton, paper, spices, chocolate, rope, coffee, tea and weaving which were in the Room during the Spring, and we are greatly indebted to the firms who gave or loaned these exhibits.

For several months the children were encouraged to read books suggested by these industries. Story hours were resumed in December and sixty-six children listened to the four Christmas stories told during Christmas week. We hope to hold these story hours at regular intervals during the coming year.

In September Miss Aimee F. Draper, who had been a member of the staff at intervals for fourteen years and who had been Children's Librarian since 1920, resigned her position, to study at Western Reserve Library School. Miss Draper's resignation was accepted with much regret after her long association with the Library, and our good wishes follow her in her new work.

As the year closes a definite step has been taken toward providing Mattapan with a new Branch Library. The Trustees are recommending that the town build in this section, a building which shall be adequate for taking care of the large amount of work which is now being done in a small room, a room which years ago reached the limit of its capacity.

The circulation from this Branch was 29,126, a gain of 1,005 over 1927. There can be no doubt in the minds of those who use the room regularly and who daily see its crowded and confused condition, that with such a circulation, a branch building is a need that the town can no longer ignore. In the last ten years there has been a fifty-two per cent gain in circulation. Two hundred fifty-nine new borrowers registered during the year.

The circulation from the East Milton Branch was 27,865, a gain of 405 and cards were issued to 171 new borrowers.

East Milton needs better quarters fully as much as Mattapan, but since the latter district has at present available land on which to build, it seems expedient to urge building there first.

In a community as small as that served by our Russell Reading Room there is little to report each year that is new. Mrs. Calderwood says that the room is having increased use as a reading room, sometimes all of the chairs being occupied at one time. The circulation for the year was 4,078.

The circulation in the Blue Hill and Brush Hill Districts has been 14,261, a gain of 1.537. In ten years the number of books so delivered has more than trebled and at present about 125 families are availing themselves of the delivery privileges.

The old Ford which is now being used is in such condition that its days of usefulness are numbered and we shall consider ourselves fortunate if it weathers this winter. In order that we may have satisfactory equipment to carry on our deliveries, we are asking the town in March for sufficient money to buy a truck.

The aim of every librarian is to place books in any community or center where groups of citizens are gathered together. This year our service has been extended by sending, since June, monthly deposits to the Central and East Milton Fire stations. The men at Hose 4 have been served for many years by the House-to-house Delivery wagon. Our service now covers, in addition to our Branches, the Public and Private schools, the Hospital, Town Farm, Blue Hill and Brush Hill Districts and the Fire Stations. Before a month of the New Year has passed we expect to place books in the Police station and plans are already in motion by which we feel we can materially better our service to the Hospital. During the summer, books were sent to Cunningham Camp at Orleans and the Milton Girl's Scout Camp at Waltham.

We mentioned earlier in the report that twice as many reserves had been taken in as in 1927. It is a pleasure to state that of these reserves, non-fiction predominated, and of the fiction asked for, names like Galsworthy, Hardy and Conrad appeared far more frequently than lighter and ephemeral fiction. With the same comparison in mind, the figures of six days average circulation were examined and it was found that about ¼ of the fiction issued was of standard and permanent value.

The problem of book buying in a public library is a serious one. When one considers the great number of books published each year and the small amount of money available for such purchase, the task of making a judicious choice becomes a serious matter. We try, to the best of our ability to purchase books which will have the most general appeal to the greatest number of readers.

We always welcome suggestions from our borrowers for the purchase of new titles.

One of the most interesting phases of library work is the answering of reference questions. By that we mean the problem that requires a certain amount of search before it can be satisfactorily answered. It is a comparatively simple matter to find for the High School pupil material on the deportation of the Arcadians, but more time is spent and sometimes much telephoning is done before we can tell a borrower where he can purchase a picture of Jack London. Some of the questions asked this year are:

With whom did the publishing firm of Osgood merge?
Information about insurance laws in Massachusetts.
Pictures and designs of stencils on French furniture.
How are Massachusetts judges appointed and for how long?
Information about hydro-electric power in Italy.
Is the publishing firm of McClure-Phillips still in existence?
A review of Conrad's "Victory."
The economic effect of the Panama Canal on the commerce of the world.
A profile of a bear.
What is the family name of King George of England?
Has the U. S. Senate the right to send a man to jail?

We went down, however, in ignominious defeat when we were asked last spring: "Have you a book telling if the world is flat?"

The exhibits in the Art Room have been more varied than usual. In addition to pictures of the California Missions, owned by the library, paintings by Charles W. Hudson, Sidney M. Chase, and prints from the Print Corner at Hingham, there have been three shows of unusual interest.

In February, Miss Gordon of the library staff, arranged an Oriental exhibit, which consisted of garments, hangings, household articles, photographs, jewelry and articles of personal adornment. This was one of the most effective and interesting exhibits ever shown in the library. Later in the year, Mrs. Horatio A. Lamb loaned fabrics and embroideries from Spain, Italy and the Orient. Some of these articles were rare pieces of unique texture and design.

Perhaps the most popular exhibit in several years was the Marine Show, held in May, when twenty-five ship models were loaned by Milton people. They ranged in size from a Chinese house boat carved from a peach stone to a 3½ foot model of the "Sovereign of the Seas."

We had models of the "Santa Maria," an English warship of about 1810, a Chinese junk made in silver, clipper ships, square riggers, schooners, a Spanish galleon, a Portuguese fishing boat, racing boats, South Sea Island paddle and sailing canoes, tiny ships in glass bottles, and a Chinese lucky boat.

In addition to the models we had old whaling logs, ships' lanterns, old prints, whales' teeth, walrus tusks, and a dead eye from the Whaler "Wanderer."

Simultaneously with the exhibit in Kidder Hall and the Reading Rooms, old ship pictures were shown in the Art Room. A list of the people who contributed toward the success of the exhibit is appended.

Next to the Marine Exhibit the most popular show was that put on by five boys in the Junior High School. A model airport was set up in Kidder Hall, equipped with various types of planes, an airdrome, wireless outfit, a lighting system, and hospital. On one afternoon Joseph Garside, who superintended the making of the exhibit gave an informal talk on aeroplanes to a group of thirty boys.

Many interesting articles have been on display in the glass cases, old Chinese and Japanese Jewelry, Oriental brasses, dolls in costume, modern hand-made jewelry, old manuscripts and deeds, and one ancient deed witnessed by the Rev. Peter Thacher in 1693.

A call came last year for books for the libraries in the districts of Vermont devastated by floods and Milton citizens sent 206 volumes.

Nine Girl Scouts have put in time at the Central Library and the Mattapan Branch, working toward their community service badges, and two young women from Simmons College did their summer practice work with us.

There have been two resignations, that of Miss Draper, mentioned earlier in the report. Mrs. Murray J. Simmons resigned in May after almost six years of efficient and capable service.

Several members of the Staff have taken courses for professional advancement, and the Library was represented at the Massachusetts Library Club meetings in February and June.

Miss J. Dorothy Gordon was appointed to the staff in January. Miss Gordon is a graduate of Radcliffe College and was for three years in China with the Rockefeller Foundation. Miss Mary P. Lane, who entered the service in June, is a graduate of Wheaton College and worked a year in the Burlington, Vermont Library, before coming to us.

Mrs. Christine T. Calderwood has during the past fifteen years helped us out in many capacities. She has substituted during summer vacations, on Sundays at the Central Library and once a week at the Mattapan Branch. She has now given up all of this work, still remaining, however, in charge of Russell Reading Room. We are grateful to Mrs. Calderwood for the cheerfulness and willingness with which she has helped us out in many emergencies. She is particularly missed at Mattapan, where she made hosts of friends.

A beginning was made last year to improve the looks of the Staff Room. Last summer a linoleum floor was laid over the bare concrete and recently a comfortable leather sofa has been added. Both of these were the generous gifts of Mr. Kidder. We now have a staff room that is attractive and comfortable for those members of the Staff who spend the noon or supper hour in the library.

Since our meeting last January, the library has met with a great loss in the death of Mr. Stebbins, a member of the Board of Trustees since his election in 1892. As a constant visitor to the Library, he will always be remembered with affection for his deep personal interest in all of our problems, for his kindly encouragement and for his sympathetic understanding.

Respectfully submitted,

CARRIE S. ALLEN,
Librarian.

APPENDIX I

Names of people who loaned models, pictures, etc. for the Marine Exhibit

Master Eugene H. George, Mr. Joseph H. Burlingame, Mr. Henry C. Tiews, Mr. B. Warren, Mr. Henry R. Davis, Miss Helen E. Ellis, Master Francis Thayer, Mr. Edward Lewis, Master Billy Mills, Miss J. Dorothy Gordon, Mr. Carlyle R. Hayes, Miss Priscilla Allen, Mrs. F. Smith, Dr. Harris Kennedy, Mr. Charles F. Mills, Miss Lottie M. Allen, Mr. Malcolm B. Stone, Mrs. Ernest W. Bowditch, Mr. Richard L. Bowditch, Mr. Hervey W. King, Mr. Robert L. Shewell, Miss Mary B. Forbes, Mr. Henry W. Cunningham, Mrs. Henry B. Martin, Miss Eleanor P. Martin, and Mr. George B. Hersey.

Mr. Hersey afterward gave his model of the "Vigilant" to the library.

Gifts of Books, Magazines, Flowers, etc.

Mrs. E. M. Tucker, Mrs. George H. Watson, Miss J. Dorothy Gordon, Mrs. Bernard W. Trafford, Miss Marie B. Gookin, Mrs. Paul W. Kimball, Mrs. Charles W. Lillie, Mrs. Norton Wigglesworth, Master Bruce Gordon, Milton Post American Legion No. 114, Mrs. J. Malcolm Forbes, Mrs. James Cooley, Mrs. Morgan Firth, Milton Academy War Memorial Association, Miss Alice E. Emery, Mrs. George Wigglesworth, Dr. Harris Kennedy, Mrs. Ernest W. Bowditch, Fortnightly Book Club, Mr. James M. Morrissey, Mrs. William H. Forbes, Mr. Edward M. Davenport, Mrs. Philip Y. DeNormandie, Mrs. Frederic O. Houghton, Mr. Nathaniel T. Kidder, Mrs. Samuel H. Wolcott, Mr. Roger L. Scaife, Mrs. Rodman Peabody, Dr. Henry S. Forbes, Mrs. John C. Cobb, Mrs. Orin Bates, Miss Hester Cunningham, Mrs. Mary Wilder Tileston, Miss Florence L. Kite, Miss Miriam S. Draper, Mrs. Weston Howland, Mrs. Edward C. Bradlee, Mrs. Horatio A. Lamb, Mr. Faust Norris, Dr. Francis B. Linde, Mrs. Harriet E. Tuell, Mr. Sumner E. Spencer, Mrs. Burton H. Smalley, Mrs. Walter Harrison, and Mrs. Christine T. Calderwood.

Loans

Oriental articles, Miss J. Dorothy Gordon; Washington and Lincoln pictures, and a 13 star campaign banner, Miss Mary B. Forbes; photographs of Living Pictures put on by High School Art Classes, Ruth Wight; handmade jewelry, Miss Beatrice Crossman; old deed witnessed in 1693 by the Rev. Peter Thacher, Mr. Harold Bisbee; old dolls in costume Mrs. Horatio A. Lamb; five goldfish, Mrs. Nathaniel M. Safford.

REPORT OF THE SEWER COMMISSIONERS

January 1, 1929.

The Board of Sewer Commissioners make the following report of operations of the Sewer Department during the year ending December 31, 1928.

General

Population by the Assessors' census of 1928	15,508
Estimated length of streets of the town (miles)	83
Percentage of length provided with sewers	31
Method of disposal	Metropolitan system

Collection Mains

	For Sewage	For Sewage and Surface Water.
Linear feet of pipe (measured)	138,065.6	700. (storm overflow)
Linear feet extended during the year:		
By town	9,874.9	
By private parties	364.7	
Number of inverted siphons	1	
Number of manholes	658	
Number of storm overflows	1	
Number of emergency overflows	2	
Number of automatic pumping stations	2	

House Connections

Number made during the year	154
Number of stoppages coming to the notice of the department	10

Discharge of Sewers

Estimated population using sewer system	10,545
Number of buildings connected	2,014

Financial

Total cost of collection mains to December 31, 1928 including the East Milton sewer and drain through Babcock Park district)	$429,925 62
Bonded debt at date (including East Milton sewer and drain bonds)	134,000
Rate of interest on bonds	4%

For details of sewer construction and maintenance accounts, reference is made to the Financial Report compiled by the Town Accountant, as shown elsewhere.

The sewer extensions made during the year were as follows:

By the town: Avalon Road, 790.0 feet; Blue Hills Parkway (westerly side), from opposite Dyer Road, southerly toward Pine Tree Brook, 365.5 feet; Catherine Road, 423.3 feet; Columbia Street, 943.0 feet; Easement, from Blue Hills Parkway to Columbia Street, 209.5 feet; Grove Street, 481.8 feet; Lancaster Lane, 169.2 feet; Lothrop Avenue, 396.3 feet; Pleasant Street, 1276.5 feet; Plymouth Avenue, 136.0 feet; Projecta Road, 593.0 feet; Valley Road, 1315.0 feet; East Milton trunk sewer from the new pumping station on Libby Road to Howe Street, 2775.8 feet.

By private parties: Concord Avenue, 364.7 feet.

The most important work undertaken this year has been that in connection with the East Milton sewer and drain, the construction of which was authorized at the special town meeting in June, 1928. The preliminary surveys, plan of the proposed location and plan for the necessary easements were made by the town engineer. Construction plans and specifications were drawn up by the engineer of the Sewer Board. A contract was awarded to A. D. Daddario, of Mattapan, for the construction of the sewer and drain from the proposed location of the new sewage pumping station on Libby Road to a point about 100 feet beyond Belcher Circle, a total distance of nearly 2,800 feet. The contractor has encountered obstacles in this work but has carried out his contract in an efficient and creditable manner.

As part of this same project, a new sewage pumping station has been designed and built on Libby Road, with a pumping capacity of approximately 1,000,000 gallons per day. The pumping machinery is now being installed and a 12-inch cast-iron force main, about 900 feet long, is being laid from the pumping station, through Libby Road, across Adams Street and through Governor's Road to the Metropolitan sewer in Brook Road. It is expected that the new pumping station will be in operation about the first of March, 1929.

The work of improving Pine Tree Brook has been continued this year and a contract was let for cleaning, straightening and deepening the channel from the end of the 1927 contract, about opposite Winthrop Street, to Blue Hills Parkway. This completes the present contemplated improvement work on the brook from Brook Road to Blue Hills Parkway, and the former objectionable conditions in this district will be greatly relieved thereby.

JAMES W. ROLLINS, *Chairman*,
FRED Y. MARSHALL,
STANLEY CUNNINGHAM,
Sewer Commissioners.

REPORT OF SEALER OF WEIGHTS AND MEASURES

MILTON, MASS., January 7, 1929.

Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my report for the year ending December 31, 1928.

Number of scales, weights and measures sealed	1,058
Number condemned	5
Number found incorrect and adjusted	24
Number of inspections	120
Number of re-weighings	179

Respectfully submitted,

JAMES SANGSTER,
Sealer of Weights and Measures.

REPORT OF SUPERINTENDENT OF STREETS

MILTON, MASS., January 1, 1929.

To the Honorable Board of Selectmen, Milton, Mass.:

GENTLEMEN:—I herewith submit the annual report of the Street Department, showing the cost of work under the various classifications.

Permanent Construction

The only special appropriation for permanent work was that of resurfacing Adams Street from the Quincy line to Brook Road.

This work was done by contract after a certain amount of preliminary work was taken care of by the Street Department forces.

Private Ways accepted by the Town and constructed under the Betterment Act

The following private ways were accepted and special appropriations were made for their construction. One Street was let out by contract and the others were built by the Street Department.

Rowe Street

Appropriation for construction	$7,405 00
Lowest estimate furnished by contractor	5,592 91
Actual cost of work by contractor	6,380 79

Fairfax Road

Appropriation for construction	$7,156 00
Lowest estimate furnished by contractor	5,393 73
Estimate furnished by Superintendent of Streets	5,868 67
Actual cost of work by the Street Department forces	5,231 31

Winthrop Street

Appropriation for construction	$3,755 00
Lowest estimate furnished by contractor	2,887 61
Estimate furnished by Superintendent of Streets	3,060 24
Actual cost of work by the Street Department forces	2,678 46

Waldeck Road

Appropriation for construction	$7,500 00
Lowest estimate furnished by contractor	5,808 70
Estimate furnished by Superintendent of Streets	5,188 50
Actual cost of work by Street Department forces	6,102 60

Antwerp Street

Appropriation for contruction $5,500 00

The work of rebuilding this street was not attempted, as it seemed best to wait until all the underground pipes were laid.

The drain for surface and storm water was laid at an expense of $1,059 75.

Robbins Street

Balance 1927 Appropriation $488 22

The unfinished work on this street was completed early in the season and is a great improvement on the old narrow roadway. Cost $488 20

Sidewalks

Appropriation $5,000 00

This appropriation was expended in building cement concrete sidewalks on the following streets:

Concord Avenue	$1,759 14	
Eliot Street	279 40	
Washington Street	540 42	
Warren Avenue	1,531 29	
Central Avenue and Brook Road	180 45	
Tucker Street	345 78	
Belcher Circle and Canton Avenue	361 73	
		$4,998 21

General Maintenance

Appropriation		$90,000 00

A much larger sum was expended on street oiling and general highway repairs, a much heavier oil was used and a much greater area was treated. The expense of snow and ice removal was unusually light.

Superintendents salary		$2,799 96
Office expense—Clerk, light and heat		1,836 88
Stable, buildings and Town yard		4,897 51
Snow and Ice removal, including purchase of new equipment, and maintenance of old		6,934 27
Oil, Tarvia and sand for road surfacing		15,548 96
Street cleaning, sectional men, mowing grass, etc.		8,125 66
Tar patching—including all kinds of patching and purchase of materials		10,068 28
Bridges, fences and signs		1,440 19
Traffic beacons and signs		867 27
Drains, culverts and basins		4,418 94
Road repairs—including repairing of all highways, resurfacing and patching. General work	$19,100 32	
Adams Street curbing and sidewalk	1,218 93	
Blue Hill Terrace Street	1,021 60	
Boulevard Street	584 94	
Hinckley Road	467 89	
Canton Avenue	451 44	
Randolph Avenue	312 56	23,157 68
Street widenings, Brush Hill Road at Paul's Bridge		189 85
Brook Road—Central Avenue		543 30
Motor Equipment and maintenance		6,354 86
Horse drawn vehicles—various kinds		150 50
Steam roller repairs		779 68
New Equipment—New Reo Truck, Tools etc.		1,886 13
Total General maintenance		$89,999 92

Drainage

Appropriation	$9,000 00

This appropriation was expended to provide relief for storm water in certain areas where conditions have been very serious, causing property owners much damage and trouble.

Eliot and Maple Street

Expenditures	$1,658 74

Elm Street Drain and Canton Avenue

Expenditures	2,359 29

Thacher Street and Houston Avenue

Expenditures	3,612 19

Warren Avenue

Expenditures	160 57

Columbine Road

Expenditures	160 58

General Drain Work Etc.

Expenditures	659 74
	$8,611 11

Improvement of Street Corners

The following dangerous corners were widened to improve traffic conditions:

Brush Hill Road and Smith Road

Appropriation	$500 00
Expenditures	$499 18

Thacher Street and Houston Avenue

Appropriation	$200 00
Expenditures	$199 40

Randolph Avenue and Adams Street

Appropriation	$1,040 00
Expenditures	$776 72

Brook Road and Central Avenue

No appropriation made.

Petersburg Avenue and Squantum Street

No appropriation made.

Private Work

Appropriation	$4,000 00

This appropriation was used mostly for repairs on the highways, where openings had been made by other town departments and Public Service Corporations.

A small amount of this appropriation was used in grading two private ways. In all cases the expense of the work was charged to the party responsible for the repairs.

Expenditures	$2,085 60

Granite Avenue Bridge

Appropriation		$4,200 00
Payroll	2,696 52	
Fuel	31 50	
Light	8 49	
Printing	10 02	
Repairs	1,096 37	$3,842 90

Inventory

Stable and equipment	$16,425 00
Steam rollers	5,950 00
Motor equipment	13,800 00
	$36,175 00

Respectfully submitted,

EDWARD A. McCUE,
Superintendent of Streets.

REPORT OF BOARD OF WATER COMMISSIONERS FOR 1928

MILTON, MASS., January 18, 1929.

To the Citizens of the Town of Milton:

The Board of Water Commissioners submits to you, herewith, its Annual Report for 1928.

In our report dated January 16, 1926, the problems with which the Department has had to deal, and the manner in which your Commissioners proposed to do so, were clearly outlined. During that year and continuing through the past two years, your Commissioners have followed the same policies, and it, therefore, does not appear necessary at this time to repeat the statements contained in our previous reports. We respectfully refer you to them.

During 1928 the population again increased over the previous year according to the Assessors' record, by 695 persons or 4.7%.

Report of Activities for the Calendar Year, 1928

1. OPERATIONS FOR 1928.

Operating receipts	$100,392 11	
Operating expenses	55,284 69	
Net operating revenue		$45,107 42
Interest	$13,415 98	
Bond Retirement	21,083 33	
Total fixed charges		34,499 31
Balance for Property Retirement and Surplus		$10,608 11
Retirement Reserve Transfer		10,350 00
Balance for Surplus		*$258 11

* In accordance with the terms of the "Enabling Act," under which your Commissioners must operate. this sum should be not less than $10,000.00.

The information in the following table compares the conditions of 1902 and the past five years.

	Number of Fire Hydrants in use	Number of Meters in Service	Miles of Main in Use	Cubic Feet of Water Purchased	Population April 1, by Assessors
1902	266	1000	35	15,873,596	7,100
1924	467	2659	60	26,277,406	11,950
1925	496	2976	64	29,471,791	12,779
1926	515	3174	67	34,234,400	14,259
1927	541	3317	70	34,322,900	14,813
1928	561	3482	72	36,191,000	15,508

At the close of 1928, eighteen persons were regularly employed by the Department, which is conducted economically and efficiently.

2. 1928 BUSINESS

A tabulation titled "Statement of Earnings, Expenses, Construction Expenditures, etc." will be found in the pages immediately following this report. This tabulation shows clearly the results of the Water Department operation, from the time the current bookkeeping system was installed to date, and including an estimate for 1929.

Total Earnings increased materially over 1927 figures in each source of revenue, including Hydrant Rental.

The necessity for increased Hydrant Rental is shown in the Balance for Surplus amounting to but $258.11, after deduction of Operating Expenses, Interest and Bond Retirement Charges and transfer to Retirement Reserve. A closer study of the tabulation reveals that the relatively small balance is a result of:

(1) An increase of $2,688.51 in the cost of water purchased from the Metropolitan District Commission,
(2) An increase of $5,494.06 in Interest and Bond Retirement Charges made necessary through additional financing, and
(3) A charge of $10,350, to build up a Retirement Reserve against which property when retired from service, as no longer useful to the Department, will be charged at its original cost.

It is interesting to note that the Operating Expenses, other than the cost of water, have decreased slightly in each of the past three years, although the cost of water and fixed charges, that is, Interest and Bond Retirement, over which the operating men have no control, have increased materially.

3. 1928 Construction Program

The necessary extensions and re-inforcements to the system, and additions to equipment of the Department, have been completed at a total cost of $55,972.17. This figure is less than the amount spent in 1927, due largely to a slowing up of private development work and also because the 1927 figure included an item of $8,100 for the purchase of a mechanical excavator.

4. Financing for 1928 and 1929

In December 1928, the total bond issue authorized at the previous March meeting, amounting to $95,000, was sold, $50,000 of which will be used to redeem a note temporarily financing construction in 1928, which falls due in February 1929. The balance will be used for 1929 construction.

Our Budget for the ensuing year indicates that no bond issue will be asked for at the 1929 March meeting.

5. Water Rates

Careful administration and operation of the Department has so far delayed the necessity for increasing water rates, but several municipalities which secure their water from the Metropolitan District Commission, as we do, have had to make such increases. The cost of the Swift River project, now being built, will continue to increase the cost of water to all communities purchasing from the Metropolitan District Commission.

Furthermore, the program of enlarging the water main system and the installation of additional fire hydrants, which this Department began in 1924 upon the recommendation of the Board of Fire Engineers, confirmed by Messrs. Metcalf and Eddy, Consulting Engineers, to improve the availability of water for fire protection and the extension of water mains to serve new customers, has necessitated the investment of nearly $363,000 in the last four years.

Reference to the "Statement of Earnings, Expenses, etc." clearly indicates that for 1929 the Department will barely meet its legitimate expenses, having no balance left for retirements or construction. It is, therefore, evident that the increase in hydrant rental which was granted by the Town last year was essential and, as stated, an increase in water rates is imminent.

6. Shelter for Automobile Equipment

The Department now has seven automobiles. Five of these are kept in a building near the Town Hall, over which one of the Department's employees lives with his family.

The Fire Department advises that the Fire Marshal has ruled that only two automobiles may be kept in a building occupied by a family. In order that there shall be no violation of this ruling, the Water and Engineering Departments are asking for an appropriation to cover the cost of erecting a building for housing the cars of these two Departments.

Articles have, therefore, been introduced in the Town Warrant to care for the Hydrant Rental and a shelter for motor vehicles.

Respectfully submitted,

MARCY L. SPERRY,
EDWARD E. FORD,
EDWARD L. HURD,
Board of Water Commissioners.

STATEMENT OF FINANCIAL CONDITION OF THE WATER DEPARTMENT ON DECEMBER 31, 1928

ASSETS

What the Department Owned

(1) Plant $879,496 91

This includes all of the water works property belonging to the town which is being operated by the Water Department. It consists of street mains; services, meters for measuring water used; gates for the control of water supply, and hydrants for fire protection; general equipment, such as, mechanical excavator, air compressor, Leadite equipment, pipe machines, forges, etc., used in construction work; automobiles and trucks; and office equipment, such as vault, counter, typewriters, adding machine, desks, filing cabinets, etc.

(2) Cash 119,175 22

The amount held by the Town Treasurer to the credit of the Water Department, subject to withdrawal only by warrants of the Commissioners, plus a small cash fund which is maintained in the offices of the Department for defraying minor expenses. This account at present includes receipts from sale of $95,000 in bonds sold in December 1928, part of which will be used to retire a $50,000 note in February 1929. The balance will be spent on additions to Plant in 1929.

(3) Savings Bank Deposits 12,398 93

These deposits are made by consumers whose homes are in new territory. The money is held in the Milton Savings Bank as a guarantee to the Water Department of an adequate return on the investment made to give such consumers water service.

(4) Accounts Receivable 26,220 47

The amount owed to the Water Department by residents and others for water supplied, service installations, or for miscellaneous items.

(5) Materials and Supplies 20,097 65

The value of supplies, such as iron pipe, pipe fittings, valves, repair parts, etc., on hand.

(6) Interest paid in advance 259 39

Prepaid interest on note which becomes due February 15, 1929.

Total Assets $1,057,648 57

LIABILITIES

What the Department Owed

The Department accounts for money used to provide for your water system as follows:

(7) Bonds Outstanding $391,000 00

The Department is responsible for the property represented by these bonds as shown below:

Date	Rate	Issued	Retired	Outstanding
1902	3½%	$312,000	$272,000	$40,000
1924	4 %	50,000	8,000	42,000
1925	4¼%	25,000	4,000	21,000
1926	4 %	50,000	6,000	44,000
1927	4 %	85,000	6,000	79,000
1928	3¾%	70,000	none	70,000
1928	4 %	95,000	none	95,000
		$687,000	$296,000	$391,000

The property represented by the bonds retired is included in the next two items.

(8)	Town of Milton The total net money provided by direct appropriation by the Town for extensions to the system.	$240,025 30
(9)	Milton Water Works Represents original capital investment plus subsequent increases as Water Loan Bonds are retired through Water Department earnings.	268,693 70
(10)	Accounts Payable This amount represents current bills for supplies or services not yet due.	344 62
(11)	Notes Payable Bank loan due February 15, 1929; to be paid from cash now held by Town Treasurer. (Item 2)	50,000 00
(12)	Consumers' Guarantee on Main Extensions The guarantees appearing in the assets (Item 3) as pledged by consumers in new territory are held only as a trust, and therefore cannot be used for Department purposes unless forfeited. To offset this item, which must be accounted for in the statement of assets, there must be again shown a like amount as a liability for which the Department is responsible to those who have pledged it.	12,398 93
(13)	Sale of water—minimum advance Advance payment of minimum charges made by the consumers and credited to this account are being reduced as the water is used.	8,378 24
(14)	Interest Accrued This is interest accrued on bonds outstanding.	2,543 09
(15)	Reserve for bond retirement Certain water loan bonds become due and payable each year. These payments are now being made from the earnings of the Department, and this amount represents that portion of $25,000 of bonds payable in 1929, which is applicable to the year 1928.	10,583 33
(16)	Reserve for inventory adjustment This account has been set aside to provide for adjustment of inventory, when it is depleted through loss, deterioration or damage, or when its market value is less than its inventory value.	633 07
(17)	Reserve for property retirement Amount set aside from surplus to build up a reserve against which will be charged the original cost less salvage of property retired from service due to having become worn out in service, obsolescence, or for other causes. This amount includes $10,350, which was transferred from surplus in 1928.	12,928 89
(18)	Suspense—Contributions for extensions Where a part of the cost of main extensions is advanced by outside parties the amount advanced is placed in this account temporarily. It will eventually be returned or credited to party advancing it.	475 00
(19)	Surplus The book value of the Department's property exceeds its obligations by the amount of this surplus.	59,644 40
	Total liabilities	$1,057,648 57

REPORT OF THE PLANNING BOARD

MILTON, MASS., January 17, 1929.

To the Citizens of Milton:

Your Planning Board presents its report for 1928.

The year has been a quiet one, and there is no article in the Warrant for the annual meeting next March for which we are primarily responsible.

In our capacity of advice givers upon request we have "sat in" with the Selectmen on various State, County, and Town matters, and are glad to do so whether our suggestions are followed or not.

One undertaking in which Milton is interested has borne fruit, namely: the Circumferential Highway south of the Blue Hills; the first section of five and one-half miles from Washington Street, Canton, to Braintree Five Corners having been opened last summer. Eventually it is hoped to extend it from the Plymouth road to the highways west and north of Boston, thus giving a chance to go around instead of through the crowded city.

Randolph Avenue from the Quincy line on the south to Reedsdale Road in Milton is another problem upon which we, as a board, and our Mr. Baxter in particular, have worked. It now looks as though some progress would be made in 1929, and our Selectmen deserve credit for activity with the state authorities.

Numerous requests come to the Selectmen, acting as a Board of Appeal, for variations of our Zoning By-Laws. They are largely from persons who think they see a chance to start a profitable business in the residential zone. While we thoroughly approve of granting permission for reasonable enlargements in the case of business establishments already located within the residential area, we also feel it of great importance to exercise a wise conservatism in allowing new undertakings.

So important are the powers of the Boards of Appeal that in some places independent commissions have been created to exercise them.

The completion of rapid transit to Mattapan is expected this year, 1929. The first plan of a single track with turnouts has been enlarged to a double track all the way.

Subdivision of land and growth of population usually follow in the train of better facilities for reaching a large business center like Boston.

We hope the general tax payer will not be called upon to pay for local streets in new developments, as we feel that the cost of such streets is a legitimate charge on the property improved, and should be borne entirely by it.

Respectfully submitted,

JAMES S. RUSSELL,
ARTHUR H. TUCKER,
JESSE B. BAXTER,
DAVID A. HEFFERNAN,
FRED N. RUSSELL.

FUNDS HELD BY THE TOWN

Perpetual Care Fund

Amount held December 31, 1928 . . . . . $79,004 50

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15–18, of the Public Statutes, interest at the rate of 6 per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

Jason Reed Fund

Amount held December 31, 1928 . . . . . $2,626 67

The interest on this at the rate of 4½ per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. Reed Public Park Fund

Amount held December 31, 1928 . . . . . $5,943 44

Extract from the Will of Elizabeth T. L. Reed

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement, or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

Mary L. Peabody Fund

Amount held December 31, 1928 . . . . . $5,000 00

The clause under which this bequest is given reads as follows: "To the Selectmen of the Town of Milton, Massachusetts, $5,000, to be invested and the income thereof to be distributed annually to the poor at Christmas."

Funds for Improvement of Cemetery

Dec. 31.	Sarah G. Vose Fund	$1,170 63

SCHOOL COMMITTEE

1928–1929

	Term expires in March of
Arthur W. Vose 207 Pleasant Street, Milton	1929
Harriet Whittier 233 Adams Street, Milton	1929
Charles C. Gilman 457 Eliot Street, Mattapan	1930
Edwin F. Weber 24 Brandon Road, Mattapan	1930
Harold B. Garland 129 Houston Avenue, Mattapan	1931
George F. Moulton 95 Plymouth Avenue, East Milton	1931

Organization

Harold B. Garland	Chairman
Arthur W. Vose	Secretary

STANDING COMMITTEES

Finance

Mr. Garland, Mr. Moulton, Mr. Weber

Textbooks and Courses of Study

Mr. Gilman, Miss Whittier, Mr. Vose

MEETINGS

The Committee holds its regular meetings in the High School building on the first and third Monday evenings of each month at eight o'clock.

SUPERINTENDENT OF SCHOOLS

HORACE F. TURNER
Office: High School Building
Telephone: Milton 0111
Residence: Gaskins Road, Milton
Telephone: Milton 5114

Office Hours: School Days at 4 P.M.

Superintendent's Secretary

FRANCES E. CONSIDINE, 1550 Blue Hill Avenue, Mattapan

Superintendent's Clerks

ELIZABETH G. PARK, 105 Bryant Avenue, East Milton
CHARLOTTE PARK, 105 Bryant Avenue, East Milton

School Physician

DR. CHESTER L. GLENN, 786 Furnace Brook Parkway, Quincy

School Dentist

DR. WILBER H. MORRILL, 1169 Washington Street, Dorchester

School Nurse

BARBARA ROBINSON, 12 Warren Avenue, Mattapan

Supervisor of Attendance

ARTEMUS A. MACQUARRIE, 16 Blue Hill Avenue, Mattapan

SCHOOL CALENDAR, 1928–1929

Fall term begins Tuesday, September 11, 1928
Fall term ends Friday, December 21, 1928
Winter term begins Wednesday, January 2, 1929
Schools close on Friday, February 15, 1929
Schools open on Monday, February 25, 1929
Winter term ends Friday, April 12, 1929
Spring term begins Monday, April 22, 1929
Spring term ends Thursday, June 27, 1929

REPORT

OF THE

SCHOOL COMMITTEE

AND THE

Forty-ninth Annual Report

OF THE

SUPERINTENDENT OF SCHOOLS

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith as its main report the report of the Superintendent of schools, to which it invites your careful attention.

The Committee acknowledges with pleasure the receipt of the following gifts to the several schools as indicated:

Gifts

High School

Picture—"Advanced Guard"
Bust of Colonel Lindbergh } Class of 1928

Belcher School

Typewriter and Mimeograph—Belcher School Association

Vose School

Framed etching of "John Alden and Priscilla Mullins"
Given by Mr. and Mrs. Irving Meredith

Wadsworth School

Silk Flag—Woman's Relief Corps

Gift of three hundred tickets for admission to the Repertory theater by public spirited citizens of Milton to be used by pupils of Milton High School.

Gift of Ninety-One Dollars from Woman's Club to be used toward the purchase of stage scenery for the High School Assembly Hall stage.

Gift of nine pictures of Memorial from the American Legion.

Beach tree from the Milton Garden Club.

Estimate for 1929

After careful consideration of the estimated cost of maintaining the schools during the year 1929, your Committee recommends the appropriation of $282,000.

Respectfully submitted,

HAROLD B. GARLAND, *Chairman*,
ARTHUR W. VOSE, *Secretary*,
CHARLES C. GILMAN,
GEORGE F. MOULTON,
EDWIN F. WEBER,
HARRIET WHITTIER,
School Committee.

Milton, Massachusetts
January 23, 1929

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Milton:

This is my third annual report as your executive of the Milton school system.

Important as the knowledge of school subjects and obtaining high ranks may be to pupils, the aim of those who have charge of their instruction is for every pupil in the schools so to develop his capacities that he may realize his best life.

The peculiar nature of developing the lives of boys and girls in school makes it difficult to show a clear-cut relation in financial statements between the cost and the productive value of the money spent. It is generally accepted that public school education creates a certain valuable product. The measure of this product and the interpretation of these intangible things are one of the growing problems that confront all who are responsible for administration of schools.

It is granted that the product is not as nearly perfect as is desired and the cost is high. Public school education, however, lays the foundation for technical skill, increases productive capacity, raises the intellectual and moral standards of the people and enables them to take part intelligently in the government of town, state and nation, and improves social qualities of economic importance, such as health and thrift, and increases powers of appreciation which determine the character of economic goods and services required and used by the community. These forces, set loose through the medium of the school, continue their influence throughout the lives of all in the community. No means have yet been found to measure them in terms of money values. The minimum cost of maintaining the best in public school education which produces them is the practical question which demands constant attention.

For convenience of this report, the subject matter is set forth under two main divisions: business management and educational service.

Business Management

Good business administration is concerned with future needs, recognizing problems and solving them, and providing physical equipment for promotion of the educational program. New buildings, equipment, and annual budgets are considered with respect to policies which recognize our public school education as progressing through years in the future.

To provide a seat and equipment with proper instruction and care for physical and mental health for every child who comes for public school education is a task weighted with responsibility.

A building program and an enlarged teaching force too far in advance of school population is an unwise expenditure of money. On the other hand a shortage of schoolhouse accommodations and an inadequate number of qualified teachers result in a waste of child energy, the most valuable natural resource of the Town, which can never be made up.

The recommendations relating to both the building program and the number of teachers are guided by a desire to have room, supplies and instruction ready only at the time when the child enters school, as nearly as can be determined by the facts at hand.

School Plant

The school plant now in use includes six schoolhouses and one portable building. It is not the purpose of this report to give the history of each building. The list is presented in relation to the building program.

School Buildings in Operation

1928–1929

School	Year built	Capacity in No. of Pupils	Cost	Architect
High School	1909		$111,000	Kilham, Hopkins & Greely
Addition	1917		190,500	Kilham, Hopkins & Greely
Addition	1926	1000	200,000	Kilham, Hopkins & Greely
Tucker School	1924	550	252,816	Kilham, Hopkins & Greely
Vose School.	1886		16,987	Burt
Addition	1896	450	65,000	Bradford O. Hamilton
Belcher School	1893	240	22,664	Harrison H. Atwood
Addition	1898	160	16,500	
Wadsworth School	1879	80	5,000	
Addition	1896	80	5,500	
Glover School	1889	160	16,141	Roch & Tilden

Very satisfactory progress has been made in carrying out the building program which has been developing as the result of the best thought of committees and individuals over a period of five or ten years. Action of the town at the last regular town meeting and a subsequent special meeting provided for construction of an elementary school building on the Edgehill Road site. The progress of work on it up to the present time indicates that it will be ready for use when the school year opens next September. A detailed description of it will come more properly in the next annual report.

The original part of the Wadsworth School has been in use for exactly fifty years. One might easily digress to consider the influence of the faithful teachers who have taught there in the development of the boys and girls who have worn its thresholds during half a century and are now eminent citizens of Milton and other communities. It is proposed to discontinue the use of this building for purposes of instruction at the close of the present school year. The pupils from the Wadsworth district with those now attending at the Belcher School from west of the railroad will make up the enrollment in the new school now in process of construction. This will relieve overcrowded conditions and give to that part of the Town school accommodations adequate to meet its needs.

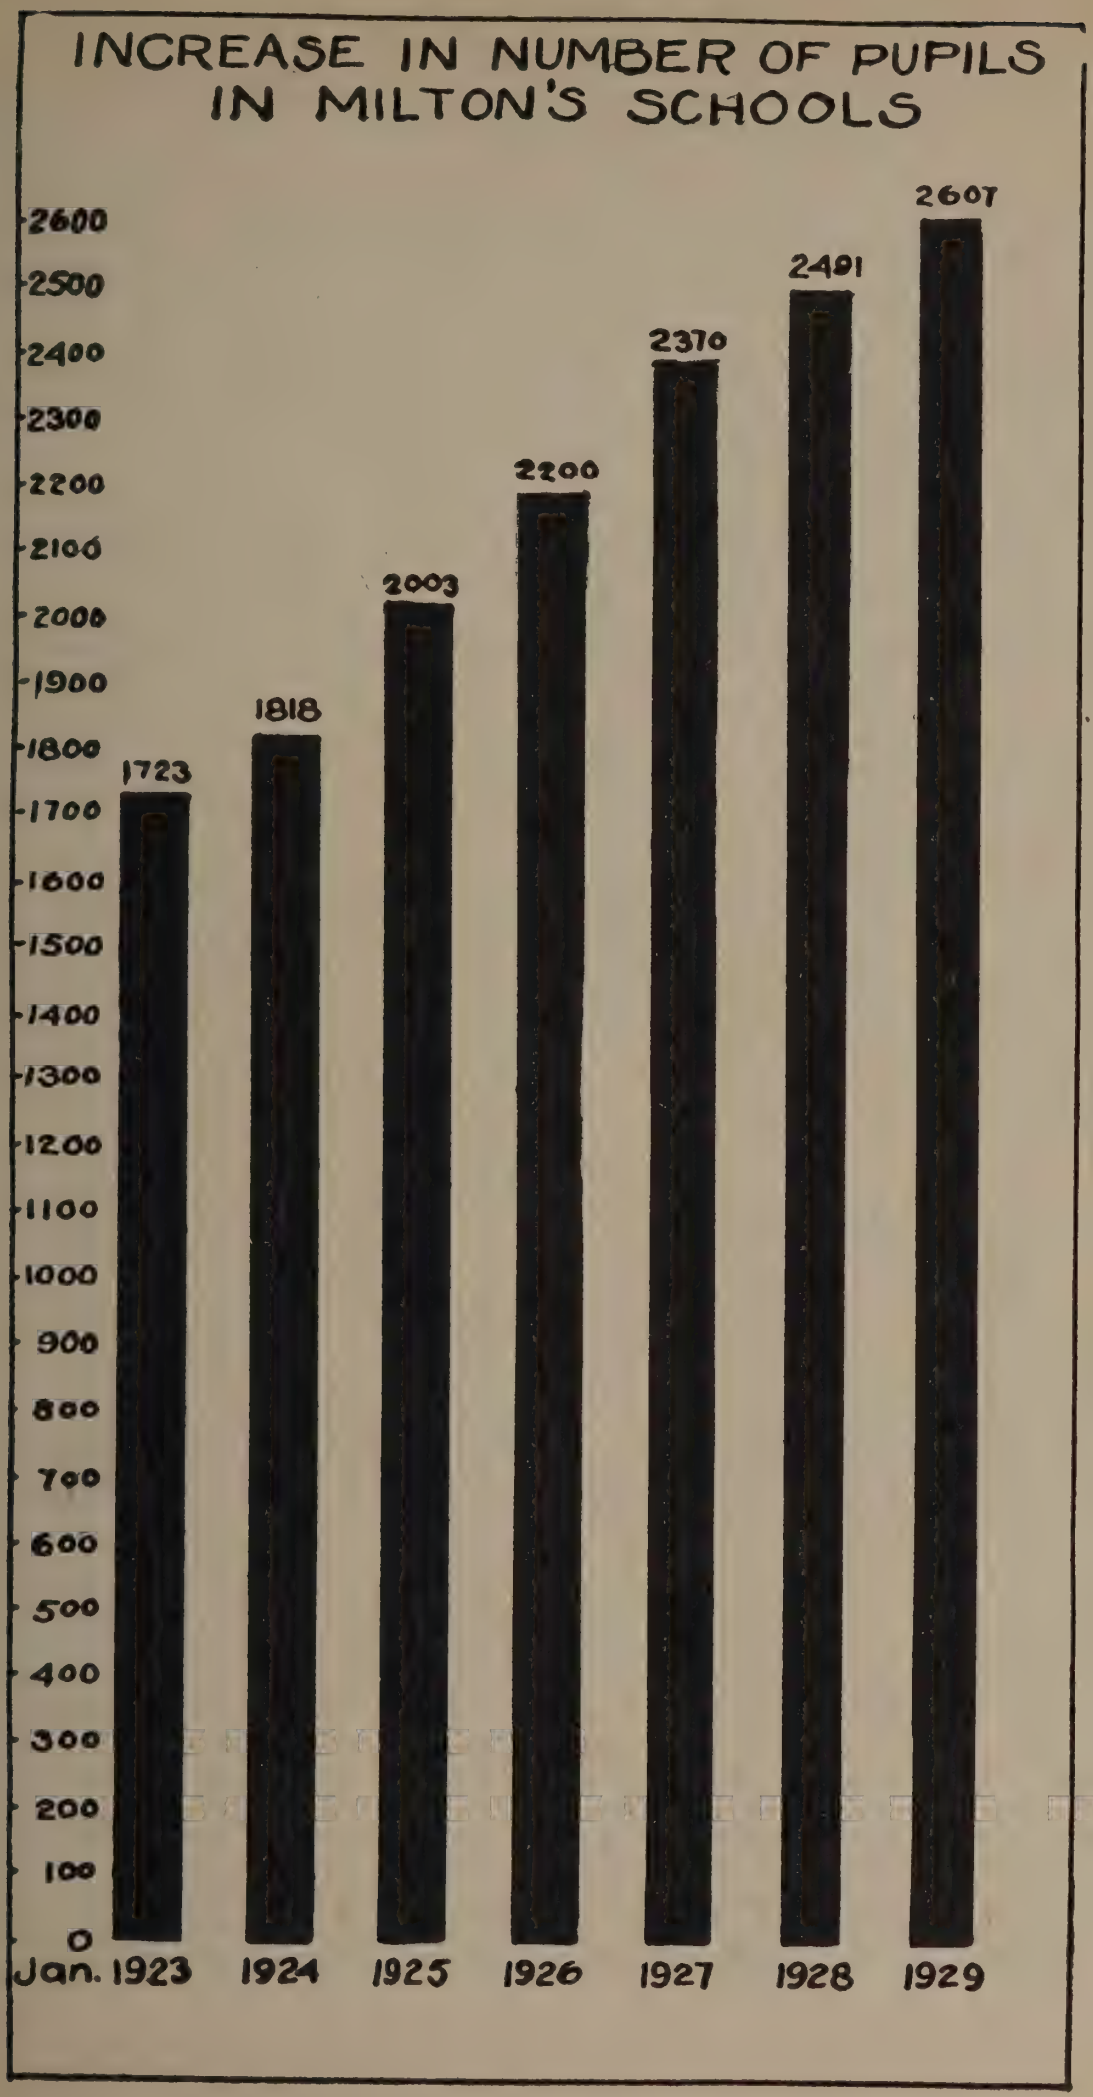

A year ago I indicated that the largest increase in school enrollment was in the Mattapan district, but that there were rooms available at the Vose and Glover Schools to relieve overcrowded conditions at the Tucker School until a new building on Edgehill Road could be provided to relieve the pressure in East Milton. This year the largest increase below the seventh grade has been in the Vose School. Thirty-five pupils over last year's enrollment have made it necessary to open another room. This reduces the space available for pupils from the Mattapan district. In the Tucker School there are twenty-two pupils more than there were a year ago.

The Tucker School was built to accommodate five hundred fifty pupils. There are now six hundred sixty enrolled. Over half of the rooms have in them more than the number for which they were planned. Rooms constructed for special work are used for regular classrooms. One hundred fifteen pupils in the present enrollment live east of Blue Hills Parkway and Brook Road.

In order to meet the needs of the increasing number of children without a special town meeting, part time school program and hurried construction, it is important that the next step be taken in the building program at the next annual Town Meeting. For this purpose an article has been inserted in the warrant:

> To see if the Town will vote to authorize the appointment of a committee which shall have the authority to consider the need for additional schoolhouse accommodations in the Mattapan district and to procure plans, specifications and approximate estimates for an elementary school building on the schoolhouse site on Eliot Street, and that the sum of $3,000 be appropriated to defray the expenses of such committee, said committee to report to the Town at the Annual Town Meeting in March, 1930.

With favorable action on the part of the Town in line with the building program recommended, I believe the need of school accommodations for the growing school population will be met for elementary pupils before that for high school pupils becomes acute.

Maintenance of School Plant

The estimated value of public school property as it appears in the school returns to the State Department of Education for the last school year is $1,319,850. The amount expended for the upkeep of this whole physical equipment is less than one half of one percent of the estimated value.

The maintenance program is planned to take care of most of the necessary repairs during the summer months. Emergency repairs and those which might be done more economically at other times are disposed of when most expedient.

A heater to maintain about nine hundred gallons of hot water for kitchen use and for the shower baths was installed in the boiler room of the High and Junior High School building.

A worn out steam heater at the Belcher School was replaced by a new one.

At the Glover School the problem of coal gas and insufficient heat made it necessary to replace both furnaces. One was put in during the month of December. A contract was let for the other to be installed in the week following the close of school on February 15.

At the Vose School the sanitary equipment, which was worn out by thirty years of service, was removed and modern fixtures were installed. The lunchroom service was transferred from the third floor to the ground floor and some new equipment provided which was made necessary by the larger number to be served.

Numerous small repairs constantly use up both money and time and yet are necessary to keep our plant in condition to meet the requirements of the program of instruction.

Transportation

It has long been the policy of the School Committee to provide transportation to pupils below the eighth grade for whom the distance to school or the hazardous nature of the highway might be a hardship.

For five years this was carried on by two school busses, and by two transportation companies. At the close of the last school year the need to replace worn out equipment led to an investigation of comparative costs and standards of service. This prepared the way for a contract with the Brush Hill Transportation Company to handle all bus transportation of school children from all but the east part of the Town. The service has been satisfactory, the cost no greater, and the need of outlay for new equipment has been removed.

In response to requests of parents, matrons have been placed on the buses to care for children going to and from school.

Educational Service

There is much written and spoken concerning the number of teachers without positions. Because of this condition some apply the economic law of supply and demand in relation to cost and arrive at the conclusion that teachers may be employed at low salaries. Such a deduction is unsound in that it overlooks the basic principles that control the selection of candidates to be recommended by the superintendent and the fixing of salaries.

When a vacancy occurs there come through many channels of communication large numbers of applications from those who are graduates of normal schools or colleges without other teaching experience, from those who have been out of teaching a year or more for various reasons, and from those who failed of re-election in a former position.

In these groups there are some who probably will become successful teachers under supervision. In a town system of schools with no supervisor of teachers, however, it is generally unwise to employ from these groups and subject our children to a year or more of inferior instruction which will leave a lasting influence upon their development.

The factors that are considered in employment of teachers and fixing their salaries are professional training, experience, and personality The increased number of those who would teach has made it possible to raise the standard of qualifications for employment. No parent will say that a teacher is too well qualified in these respects to influence the development of his children to live in the increasingly complex conditions of the future.

The following quotation is from the Annual Report of the School Committee of the Town of Milton for the year ending March 2, 1846:

> "And while we earnestly recommend the continuance of such liberal appropriations from year to year, as have been made in time past, for the support of our public schools; and such as will enable us to command the services of good, compe-

tent and faithful instructors, most earnestly would we exhort all concerned, as our public schools advance, to continually increasing care and vigilance in procuring the very best teachers we can obtain.

Let no teachers be sought after — let none be employed, but such as are properly qualified, by thorough intellectual and moral culture, to have the charge, education, and training of our children. Too much importance cannot be attached to the selection of our teachers. Let us be satisfied with none but those who understand and love their employment — with none but those who will execute the high and responsible duties of their calling, not as hirelings, but as faithful and successful instructors of our children."

There is not an over-supply of professionally trained successful teachers. There are applicants for teaching positions today who may be masters of the technique of teaching facts to children, but who lack the ability to discover and lead out to development their latent possibilities of character and powers of thinking to meet new situations and awaken in them a consciousness of what they may become and do.

The great teachers of the past are remembered not because they taught some particular grade or subject or book, but because they left a lasting uplifting influence upon the lives of their pupils.

There is a close relation between personal and professional success. A satisfying life filled with appreciation of worthwhile things outside the school will react favorably in the classroom. We are working to maintain teaching conditions such that superior teachers may be retained in Milton.

The revised salary schedule which went into effect at the beginning of the school year in September will reduce the annual turnover and make it possible to attract competent teachers to fill vacancies. Its effect will be far reaching in the quality of instruction in our schools.

Professional Improvement of Teachers

The activities of Milton teachers for professional and cultural advancement are indicated in part by the number who have taken accredited courses or traveled during the past year.

Sixty teachers have taken accredited courses either during the school year or in the summer or both. Seventeen teachers have traveled extensively in this country. Six traveled abroad during the summer vacation.

CLARENCE M. HUNT

Appreciation of more than a quarter century of unselfish service for the boys and girls of Milton and the loss which all feel who knew Mr. Hunt is expressed in the resolution which was voted by the School Committee at the regular meeting on April 2, 1928.

Resolved: That it is with a sense of profound sorrow that the School Committee of Milton makes official record of the removal by death of the name of Clarence M. Hunt from our staff of honored teachers.

For more than twenty-six years Mr. Hunt had served the Milton schools. While his official designation during these many years was that of director of manual training, nevertheless he had long combined with the technical and exacting duties of that position a more intimate and sympathetic relationship with the pupils of the High school, arising from his personal supervision and counsel in matters of attendance, vocational guidance, and employment.

A former Superintendent of the Milton schools has written of Mr. Hunt that his school was his life. This was unqualifiedly true of him. He looked upon his life work as a high calling; to it he gave his all and in its service he died.

Not long before his death he said to the one most dear to him: "If I had my life to to live over, do you know what I would do? Just what I have been doing, working with boys and girls."

Surely he deserved the commendation contained in the words of Carlyle: "Blessed is the man who has found his work. Let him ask no other blessedness. He has a work, a life purpose, he has found it and will follow it." Mr. Hunt early found his work, followed it faithfully throughout many years, was indeed blest in its performance while he lived, and, ceasing from his labors, leaves a heritage of loving memory to those whose privilege it was to work under his guidance as pupils, during high school days, and to those also who were closely associated with him as co-workers in carrying out the program of education in our public schools of Milton.

HEALTH

The public schools are actively interested in the health of boys and girls as a matter of education. Aside from inherited constitution and natural defenses of the body, good health is the outcome of healthful living. It can be acquired or conserved by performances of numberless specific acts, or it can be destroyed by other specific acts or neglect. One learns to live healthfully by living healthfully. It follows then that the fundamental method is simply practicing healthful living from day to day.

But a child is not born with a knowledge of health rules nor with a tendency of his own accord to develop a healthful mode of living. If left to his own impulses and wishes he chooses the easiest way and lives in disregard of the laws of health. It becomes then a problem of training and instruction.

School failures are often traceable to very common physical causes which are so obvious as to escape attention. It is the purpose of the school to find out the physical condition of each child, secure the aid of parents and family physician, and guide him in the formation of health habits, the acquisition of right attitudes and ideals and equip him with practical information about healthful living.

The following comment of Dr. Chester L. Glenn, who has just become associated with our schools as School Physician, is of interest particularly to parents.

"In forecasting the health of the school child of tomorrow it would seem that especial emphasis must be placed on the pre-school child of today. He must be made 'fit for the first day of school' if he is to develop normally both physically and mentally. It is in this pre-school age that defects are for the most part of a remediable nature and need not necessarily hamper a child's progress.

"The system of education is based on seeing and hearing, and any child partially or totally defective in these two senses is at a distinct disadvantage in the class-room where he is taught by the same methods used in teaching children who have no such defects. A child who is a mouth-breather and is subject to chronic colds cannot concentrate as successfully as a healthy schoolmate with the same mentality. A child with abscessed teeth, often aching, to say nothing of the poisoning of his whole system by the absorption of pus, is not free to learn as rapidly as his intelligence would permit. An undernourished child subject to fatigue is a victim of inefficiency and lack of thoroughness. Most of these defects fortunately are remediable, but even more fortunately most of these defects are preventable. The family doctor holds the key, he is the personal friend, he lives in the same community and has the same interests at heart. What he recommends is the result of well founded belief in the efficiency of such a measure. He will observe progress or lack of progress and can judge the course of treatment. He will vaccinate against small-pox, and immunize against typhoid fever and diphtheria. He will help to make the child free to gain before he begins school.

"What of the child who is still underweight on entering school? This type of child together with the pale, nervous child, and those who are kept out of school with frequent colds, may be admitted to the fresh air room in the new school on Edgehill Road, which will be ready for occupancy in September, 1929. Here they will receive the life giving properties of sunshine, and their physical condition will improve. Perhaps in this school children convalescing from serious illnesses who would of necessity be kept at home for a long period of time, may find a quicker avenue of recovery and return to the class-room. Here they may regain their lost appetites and weight. If a disease is checked in time the tissues will tend to recover.

"In future years let the watchword be 'prevention,' and the proof of the pudding, so to speak, will be in the primary class-room report."

The school's health service is made more effective through the work of the School Nurse, Miss Barbara Robinson. Her activities are set forth in her annual report as follows:

"During the year of 1927–1928 the work of the school nurse was confined chiefly to follow-up work concerning the health of the school children. This included also obtaining histories of the nine hundred children who were examined in the State Tuberculosis Clinic held here in March, 1928.

"In the fall, the teeth of all the children were examined by the school dentist and each child was given a physical examination by the school doctors. These examinations were checked up on the health cards and a report was sent to the parent or guardian of each child with a request that any physical defect be corrected as soon as possible.

"In cases where the need was most urgent a home visit was made to make the request more emphatic. In some instances, where there was a definite financial problem, provision was made for removal of tonsils and adenoids.

"Many requests for the school dentist were made. As his time is limited to two

mornings a week these cases are all investigated and accepted or rejected according to the income, expenses and number in the family.

"The so-called problem children in the schools or the children who are one or more years retarded in their work, for no apparent reason other than inability mentally to keep up, were given a mental examination, and histories were taken of all these children concerning their heritage, infancy and characteristics.

"Eyes and ears were given the routine examination and those showing a marked defect were checked up with the family.

"One week was given over to the State Clinic while they were examining. Since receiving their reports the ninety-six children who were ten per cent or more underweight, suspects or contacts have had their weight taken each month and recorded.

"This fall we were very fortunate in acquiring an audiometer for testing the hearing. In November we tested the hearing of nearly a thousand pupils. Out of this number fifty proved to have some defect in one ear or the other, and in a few the hearing of both ears was impaired. Reports were sent to the parents of these pupils. Also reports were sent to fifty-seven parents as a result of the eye test. While it is impossible to follow up all the cases, the outstanding ones will be checked up.

"In the spring some time was devoted to rounding up boys and girls who were eligible for summer camp. Those whom it was thought would derive most benefit from it were selected and with the aid of the Social Service funds several of the Milton boys and girls enjoyed two or more weeks in the country.

"The mornings have been given over mostly to emergency calls in the various schools of the system. Any child who appears in school physically unfit is sent to the emergency room and the nurse is called to pass on his condition before he is allowed to return to his classroom. If he is really ill, he is taken home. Any accident occurring on the school grounds is handled by the school nurse, if not of a severe nature, in which case, either the school physician is summoned or the child is taken home.

"Any child returning from an illness is, in many cases, seen by the nurse before he is allowed to go back to his classes.

"School work and social work go hand in hand. While the problem is not so great as it is in some cities or towns, still Milton is not free from it. Sometimes it means only securing temporary aid, as shoes or coats, and in other cases a much more vital problem may present itself. These are cared for by the nurse if possible. If not, they are referred to the proper authorities."

LIVING PICTURES FROM THE OLD MASTERS

To some people "Art" immediately suggests a beautiful painting, a rare bit of sculpture, or a symphony by one of the old masters. Yet were one to simply read about these works of art, like "The Angelus" or read an account of the playing of Beethoven's Fifth Symphony, these would still leave the people unmoved. In all of us, however, is a hidden well of feeling, which if the right spring is touched, will flood to the surface in waves of admiration. An instinctive appreciation of the best in a masterpiece comes to the person who really looks at it.

Books with pictures are always more interesting than those with only the text. Children love pictures and pictures can best be taught by living reproductions.

Therefore, it was with a two-fold purpose that we began work upon an art program that was to include a group of paintings of the old masters. In the elementary grades we use Carpenter's Graded Course in Picture Study and it was here that we found our material. Paintings were chosen from each one of these books.

The first purpose was to familiarize the students with the works of the old masters. This was accomplished by a preliminary study of the artist's life and the story of the painting. This purpose was furthered by copying the original backgrounds by the students and a detailed study of the costumes. The second purpose was that of giving not only to High school students but also to the grade children a deep and lasting appreciation of the old masters by really seeing them in life size.

Thus the Art Department, with a capital A, which was perhaps a little apart from the daily rush of school life, gave to the students and faculties the Living Pictures from the Old Masters. A photograph of one of them, "Pilgrims Going to Church" by Boughton is given in this report.

The Orchestra and Glee Club of the school furnished appropriate music to go with each picture. We were very fortunate to have the Orchestra instructor, who is so responsive to art, and the Supervisor of Music, under whose direction the choristers rendered vocal numbers, to make it appealing to hear as well as to see.

L. T. WETHERBEE,
Art Supervisor.

REPORT OF SCHOOL DENTIST

To the Superintendent of Schools:

I am glad to submit the following report to your department covering the work accomplished at the School Dental Clinic for the year 1927–1928.

At the beginning of the school year, with the assistance of the school nurse, I made a complete dental examination of all the pupils and recorded the same on the health cards.

It has been the policy of the school clinic to see that all the dental work needed for the grade pupils was taken care of before any extensive work was done on the High or Junior High school pupils, except for the emergency cases. This year the same ideas being carried out and enlarged by the addition of having every child in the lower grades receive a Dental Certificate. It would be a fine idea if some small banner or award could be made to the pupils of the room or rooms securing 100% of these dental certificates.

Actual results accomplished in the dental clinic in detail follow:

Number of days at clinic	62
Number of children seen	350
Number of applications made	438
Prophylaxis	153
Amalgam fillings	181
Extractions	211
Cement fillings	98
Root canal fillings	8
Temporary fillings	18

During the year two meetings of School Dental workers were held. The first in May at the Massachusetts State Dental Society and the second in November at the Bridgewater Normal School, both of which I attended.

Respectfully yours,

WILBER H. MORRILL, D.D.S.

January 18, 1929

Conclusion

In the preceding paragraphs I have set forth what appears to me to be the aim towards which our efforts for the boys and girls are tending, and the policies followed in our business management and educational service as they appear in the subjects treated. I believe public school education in Milton is progressing along well established lines of development. Costs have not been extravagant in comparison with the standards set by other towns and those which have long obtained in Milton. There is an opportunity for more intensive study and work tending toward the fuller development of those pupils with capacities above or below those who comprise the main stream of so-called normal children.

The cheerful response with which suggestions are received and new lines of endeavor are undertaken by all associated with me for the interests of the children, from your Committee throughout the school system, make my work as Superintendent one of pleasurable satisfaction.

Respectfully submitted,

HORACE F. TURNER,
Superintendent of Schools.

January 22, 1929

REPORT OF THE PRINCIPAL OF HIGH AND JUNIOR HIGH SCHOOLS

My dear Mr. Turner:

The following report is submitted after sixteen months of work in the junior and senior high schools of Milton.

The enrollment of pupils within the schools has not increased with rapidity during the past year. There has been a gradual growth in each class which could be absorbed without noticeable disruption. All available rooms in the building have been assigned for class work. There is evidence to indicate that within two years the increased numbers of the student body will make the present accommodations inadequate.

Since September nineteen hundred and twenty-seven two teachers have been added to the faculty. Seven were replaced. Death called one. Marriage was chosen by another. Sabbatical leave was granted to a third. A neighboring school system attracted one more. Three teachers changed their occupations. The turn-over of the teaching personnel during one and one half years has dwindled to fourteen per cent. The changes for next year ought not to exceed ten per cent.

The program of studies proposed in the last annual report was made effective in September. In order to complete the work already begun minor changes will be needed next year. The substitution of a required course in occupational information in place of various electives has proved satisfactory. In grade eight the pupils should be inducted to the opportunities of the elective system. A general language course should be presented that will introduce the foreign languages offered to them later.

The curricular changes in the senior high school recommended in the last report have been in operation for the past four months. These changes have obviated some chronic difficulties. The yearly credit requirement has been raised from eighteen to twenty-one. I think this increase has not overburdened any pupil. It has placed the requirement of credits at Milton on a par with the leading schools.

Educators usually recognize that the selection of content and methods within subjects is of greater import than the selection of subjects. The teachers of Milton are on the last lap of a two-year cycle during which courses of study in each subject of every department are in the process of development or revision. A survey was made last year to reveal in tangible form the various contents that are being taught and the diverse methods used. The first four months of the present school year have been a period for discussion, criticism, comparison, and evaluation. The selection of material and the choice of procedures as they have been presented have been open targets. There is so much that could profitably be taught in Milton that relative and social values must very largely determine selection. The survival of the fittest theory must be applied to education in a course of study revision. The content and methods which score best in an open competitive probe should be retained or accepted. Such scrutiny produces closer co-ordination among teachers and firmer confidence in their objectives. There is no intention to stagnate initiative among classroom teachers but to establish guide lines to assist teachers in holding to the chosen course. During the next six months the findings and judgments of the research committees will be summarized and published. At the close of the school year a complete set of the courses of study will be filed at the office of the superintendent of schools. These findings should be construed always as tentative decisions. They ought to be subjected frequently to constructive criticism.

It is very desirable for the welfare of pupils that they be classified into homogeneous groups. The Stanford Achievement Test was given to the pupils of grade seven. Pupils were divided into seven groups with educational age as a basis for selection. After a month of school a few pupils who appeared to be improperly grouped were retested in order to ascertain sufficient cause for replacement. All divisions are guided by the same general outline. However, those divisions of which the educational ages are advanced are expected to carry a broader course. The uniform program of studies in grade seven facilitated the grouping. There is evidence to indicate that the grouping has assisted to improve the scholastic accomplishment in grade seven.

In the upper grades an attempt is made to carry out the same plan. However, the elective system automatically classifies pupils into curricular groups. Within groups

pupils are divided into sections based on records from the previous year. A study of the selection of curricula by pupils strongly suggests that this automatic classification correlates closely with mental ability. The degree of correlation increases as the pupils advance. Of course pupils and parents frequently insist on the more exacting curricula regardless of indicated ability to succeed. These pupils usually fail. Retardation in the more stringent curricula ordinarily forces pupils to a suitable selection of subjects. Retardation in the less difficult curriculum hastens elimination.

The need of homogeneous grouping or classification according to mental ability is obvious from the results of intelligence tests given this year. In grade nine the span of intelligence quotients extends from seventy-six to one hundred thirty-nine. This condition not only means that some children in grade nine have acquired already nearly one hundred per cent more knowledge than others, but it also means that the mental power of some children is nearly twofold that of other children in the same grade. In reality an intelligence quotient indicates the rate of learning of a child. Inasmuch as pupils of low intelligence quotients are approaching their mental limit the disparity in ability will increase as the pupils progress in school. There are other qualities and attributes which the school is trying to encourage which offset or supplement mental limitations.

Knowledge of a pupil's rate learning and proximity to mental saturation point is helpful to guidance of a pupil with reference to his curricular choices and his selection of an occupation. An intelligence quotient also helps a teacher to judge if a child does work commensurate with his ability.

The results of the Stanford Achievement Tests given to grade seven corroborate in plainer terms the need of segregating groups on a basis of standard educational achievement. In grade seven the span of educational ages extends from ten years four months to sixteen years six months. Even in grade seven some pupils are educationally six years older than others.

A battery of standard subject tests has been given throughout both high schools. Efforts have been concentrated upon English and mathematics first because of the intrinsic tool value of these subjects and second because of the belief that there was urgent need for their improvement in Milton. The purpose of these tests was to improve the use of fundamentals among the pupils. The tests gave each child an opportunity to compete against his previous score. The capitalization tests indicated that our school was slightly below the nationwide median in grades seven and eight. In the upper four grades we were above the national median. In punctuation the tests indicated that grades seven, eight, nine, and ten were slightly below the nationwide median, whereas grades eleven and twelve were above. In sentence structure the medians were favorable to Milton in all six grades. Two complicating factors ought to be considered with these results. Doubtless the tests were given and scores standardized only in progressive and socially favored communities. The leading Milton groups were always far above the median. The Providence language usage test was given in all six grades. A comparison with Providence was possible only in grades seven and eight in which Milton led by a small margin. However, doubtless Milton is a more favored social community than Providence and should have an advantage in language usage.

Social life within the school has been expanded to include a larger number of pupils. Participation in extra-curricular activity is advocated primarily for opportunities afforded for social experience. Afternoon parties have been instituted for grades seven and eight. Dances for grade nine pupils have been continued. A girls' club in the junior high school has been very active. In the senior high school the Girls' League has ably supplemented parties sponsored by various classes.

Since the recommendation in the last annual report for more men teachers in the junior high school one man has been added to the faculty. The program of the school has been adjusted so that all men in the building are associated with both junior and senior high school boys. There are twelve men teachers in the building. Seven men have junior high school boys in classes. In grade seven all boys have at least eight periods of class work each week with men instructors. One half of these boys have a man teacher in thirteen periods each week. In grade eight the boys have men from four to eight periods each week. In grade nine men teachers instruct all boys five periods. Some boys in the practical arts group have men teachers fifteen periods.

Nearly two decades ago with rare foresight the school committee of Milton established an advisory bureau. It required a part of the time of one teacher. The director's duties were auxiliary to the primary work of the instructor. The work of the bureau has developed steadily. The growth of the school and the increasing complexity of life have caused the adoption of a guidance program which entails a full-time director and assistance from many other teachers. The grouping of grade seven according to

ability and an introduction to the vastness of occupational opportunity constitute the beginning of the guidance program. The assembling of personal, scholastic, and physical data relative to each child; group and individual conferences to guide pupils relative to their educational and employment opportunities; encouragement for the poor in confidence, pressure for the poor in spirit,—these and many other duties constitute the functions of this special office. The director makes a definite attempt to discover and adjust problem cases, which perhaps ought not to be, nevertheless do exist in every school. The present director was chosen from our own faculty. He has admirably grasped the problem in Milton. There is no attempt to compel youth to make choices which seem wise to the director. Guidance purposes require that youth make choices with adequate knowledge of educational and personal qualifications and evidence of the advantages and disadvantages of an occupation.

Participation in sports has become more extensive, due to the larger number of men teachers who are actively engaged in the program of mass competition. Tennis, football, basketball, track, and baseball have attracted a large percentage of the boys. Our facilities are taxed to capacity by groups wishing to participate. A board track at the rear of the building would be very useful in the winter for a large number of boys who prefer competition out of doors.

The spirit or morale of a school seems intangible and illusive, yet it is exceedingly important. To re-establish confidence in place of confusion, and to supplant lawlessness with morale based on sound principles require careful planning and firmness. There is no recognized measure one can apply to gauge the spirit of a school. A cross section of the opinions of the faculty would lead one to believe that the morale of the school has improved markedly. The number of pupils who do not appear willing to adjust themselves to conditions necessary for the common good has decreased ninety per cent. Moreover, the cases of social maladjustment in school this year are not as flagrant as those of last year. A larger proportion of the pupils appear to have serious purposes. Records show that pupils are applying themselves more assiduously to their mental progress.

I am deeply appreciative of the happy spirit which pervades the corps accountable for the leadership of Milton's boys and girls.

Respectively submitted,

GEORGE C. MARSDEN,
Principal, High and Junior High Schools.

January 18, 1929

REPORTS OF ATTENDANCE OFFICERS

To the Superintendent of Schools:

I present herein my report as Attendance Officer for the year 1928.

Number of cases investigated	34
Number of different pupils	19
Number of visits to schools	19
Number of visits to homes of pupils	40
Truants	17
Number kept from school by parents	2
Absent on account of sickness in family	2
Absent on account of sickness	6
Moved from town	1
Illegally employed	2
Absent for want of suitable clothing	1
Prosecuted in Court	3

Respectfully submitted,

TIMOTHY McDERMOTT.

December 18, 1928

To the Superintendent of Schools:

I hereby submit my report as Attendance Officer for the year ending December 31, 1928.

Number of notices received	28
Number of pupils kept by parents	10
Number kept on account of sickness	13
Number kept on account of clothing	2
Number of truants	3

Respectfully submitted,

HENRY F. BRIERLY.

January 9, 1929

APPENDIX

SPECIAL REPORTS

AND

STATISTICS

QUOTATIONS FROM RULES AND REGULATIONS OF THE SCHOOL COMMITTEE

1. Admission to Kindergarten and to First Grade

SECTION 45. Children who will be five years old before January 1 of the following year may be admitted to the kindergarten during the month of September. Children who will be six years of age before January 1 of the following year may be admitted to the first grade during the month of September. Provided further that children mentally above the age requirement limit be admitted to school during the first month of the school year, or later if their residence in Milton began after the beginning of the school year.

2. Tuition Pupils

SECTION 69. Tuition fees at the rate of $125 (One Hundred Twenty-five Dollars) per year in the High School, $100 (One Hundred Dollars) per year in the Junior High School, and $75 (Seventy-five Dollars) per year in the elementary schools shall be paid by non-resident pupils to the Town Treasurer at the beginning of each term. Pupils whose term bills have not been paid at the end of the second week from the time the bills have been rendered shall be required to discontinue their attendance at school.

3. No-School Signal

SECTION 61. The signal 2-2 sounded four times on the fire alarm at—

7.15 means no school sessions for all schools for entire day.

7.30 means no school sessions for all schools below the Junior High School for the entire day.

11.40 means no afternoon session for all schools below the Junior High School. This signal will not be sounded if the 7.15 or the 7.30 signal has been sounded. The session at the Vose School will not be affected by this signal.

The 7.15 signal will rarely be sounded, as it includes the closing of the High and Junior High Schools.

The widely varying conditions in the several parts of Milton make it difficult to reach decisions equally fair to all interests. Parents are, therefore, expected to exercise discretion in regard to their own children.

HIGH SCHOOL LECTURES

1928

January 6
Speaker—Mr. Arthur Merritt
Subject—Life's Adventure

January 13
Speaker—Mr. Kenneth D. Johnson
Subject—J. M. Barrie

January 20
Speaker—Miss S. Elizabeth Pope, Bridgewater Normal School
Subject—Opportunities in Education

January 27
Speaker—Mr. Carl Schrader
Subject—Physical Manhood
Speaker—Dean Elizabeth Savage, Framingham Normal School
Subject—The Teaching Profession

SEVENTH ANNUAL CONCERT
SENIOR AND JUNIOR ORCHESTRAS OF THE MILTON HIGH SCHOOL

School Auditorium
Friday, June 1, 1928
8:10 o'clock

Conductor, Russell A. Cook

PROGRAM

I. Chorale from the Cantata, "Sleepers, Wake!" . . *Johann Sebastian Bach*
"Now let every tongue adore Thee"
Senior and Junior Orchestras

II. Capriccio in A major . . . . . *Josef Haydn*
Senior Orchestra

III. Russian Folk Songs arranged for orchestra . . . . *Russian*
Senior Orchestra

IV. Waltz — "The Blue Danube" . . . . . *Johann Strauss*
Senior Orchestra

V. Impromptu . . . . . *Schubert*
Senior Orchestra

VI. Excerpts from the Gilbert and Sullivan Operas . . *Sir Arthur Sullivan*
Senior Orchestra

Intermission

VII. Album fur die Jugend, Opus 68 . . . . . *Robert Schumann*
a. Soldiers' March
b. The Happy Farmer
Junior Orchestra

VIII. Gavotte from "Iphigenie en Aulide" . . . . *Christoph Gluck*
Senior Orchestra

IX. Country Dance . . . . . *Ludwig von Beethoven*
Senior Orchestra

X. Menuet from "Concerto in F major" . . . *George Frideric Handel*
Senior Orchestra

XI. Norwegian Dance . . . . . *Edward Grieg*
Senior Orchestra

XII. Overture — "Schauspiel" . . . . . *Christian Bach*
Senior Orchestra

ELEMENTARY SCHOOL INSTRUMENTAL CONCERT

High School Assembly Hall
Friday, May 4, 1928
8:00 P. M.

GARABED K. YEREMIAN, Instructor of Violin
BERNADETTE A. GIGUERE, Instructor of Clarinet

PROGRAM

My Country 'Tis of Thee — A Norwegian Folk-Dance
Regent's Square — America the Beautiful

COMBINED VIOLIN CLASS

Quartet—Marching Song . . . . . *W. F. Ambrosio*
NANCY FORBES and ALICE MACKAY . . . . . First Violins
JAMES BONNEY and EDWARD MURRAY . . . . Second Violins
RICHARD KANE and NATHAN ELLIS . . . . . Third Violins
EILEEN CASEY and AGNES KELLEY . . . . . Fourth Violins

BELCHER SCHOOL SECOND YEAR VIOLIN CLASS

Minuet in G Major . . . . . *Johann Sebastian Bach*
JAMES TROY—First Violin — CHARLES TUBMAN—Third Violin
HENRICK HENDRICKSON—Second Violin — RALPH GIFFORD—Fourth Violin

VOSE AND TUCKER SCHOOLS SECOND YEAR VIOLIN CLASS

CLARINET SOLOS

Reverie—H. Klose . . . . . *Burton Reed*
Spring . . . . . *Constance Whittier*
Summer Breezes . . . . . *Robert McCoy*
Barcarolle from Tales of Hoffman—Offenbach . . . . *Daniel Duggan*

VIOLIN SOLOS

Premiere Valse—A. Von Ahn Carce . . . . . *Albert Cronin*
Cradle Song—E. G. Rendiel . . . . . *Irving Ford*
March in D Major—Johann Sebastian Bach . . . . *Donald Barnaby*
Intermezzo Valse—Carl Wilhelm Kern . . . . . *Thomas Burke*
Lullaby—F. Bloch . . . . . *Myrtle Klehm*
Evening Shadows—Henry Tolhurst . . . . . *Doris Carter*
Marche Orientale—Albert Stoessel . . . . . *Catherine Blackwood*

Quartet—Rondino—Fritz Kreisler (on a Theme by Beethoven)
BARBARA ALBRET—First Violin — MARY LANE—Third Violin
GRACE FORD—Second Violin — RUTH PHILIP—Fourth Violin

VIOLIN SOLOS

Ave Maria—Johann Sebastian Bach . . . . . *Ruth Philip*
Adoration—Felix Browski . . . . . *Mary Lane*
Souvenir—Franz Didla . . . . . *Grace Ford*
Concerto E Minor—Allegro Moderato—Pietro Nardini . . *Barbara Albret*

FIFTY-EIGHTH GRADUATION EXERCISES
MILTON HIGH SCHOOL

Class of 1928

Auditorium
Thursday Evening, June Twenty-First
Eight O'clock

PROGRAM

War March of the Priests from "Athalia" . . . . . *Mendelssohn*
High School Orchestra

Invocation
Rev. A. B. Webber

Address of Welcome
Harold Bisbee

Pilgrims' Chorus from "Tannhauser" . . . . . *Wagner*
High School Glee Club

Address
Rev. Garfield Morgan

Impromptu . . . . . *Schubert*
High School Orchestra

Presentation of Class Gift
Leonard McKay
President of the Class

Awards
Margaret May Ward History Prize to Harold Leslie Bisbee
Washington and Franklin History Medal to Harold Leslie Bisbee
Hiram Tuell Citizenship Prize to Lee Vincent Kennedy
Henrietta T. Hallowell Citizenship Prize to Honora Teresa Quigley

Presentation of Diplomas
Mr. Harold B. Garland
Chairman of the School Committee

Conquest of the Air from "Andante of The Fifth Symphony" . *Tschaikowsky*
High School Glee Club

March from "Die Meistersinger von Nurnberg" . . . . . *Wagner*
High School Orchestra

STATISTICS OF CLASS OF 1928, MILTON HIGH SCHOOL

Total number of pupils in class of 1928—103

	Boys	Girls	Total
Colleges	11	6	17
Normal Schools	2	3	5
Other higher institutions	8	12	20
Graduate course, Milton High School	2	4	6
Total in schools or colleges	23	25	48
In business positions	28	24	52
At home	1	2	3
	52	51	103

The wide distribution of our students of this class in higher institutions may be seen from the following list:

Harvard University	1	Chandler Secretarial School	4
Northeastern University	1	Katherine Gibbs Secretarial School	1
Boston University	2	Williston Seminary	1
University of Maine	1	Chauncy Hall	1
University of Vermont	1	Hotchkiss Preparatory	1
Massachusetts Institute of Tech.	3	Bridgewater Normal School	2
Dartmouth College	1	N. E. Conservatory of Music	1
Barnard College	1	Keene Normal School	2
Emmanuel College	1	Boston School of Physical Education	1
Massachusetts Agricultural College	1	Sargent School	1
Radcliffe College	1	Clara Hilt School of Dressmaking	1
Simmons College	1	Vesper George	3
Massachusetts College of Pharmacy	1	Naval Aviation School—Kansas	1
Suffolk Law School	1	Faulkner Hospital	1
Wentworth Institute	2	Framingham Normal School	1
Burdett College	1	P. G. Course, Milton High School	6
At home	3	Working	52

During the year 1928, many requests for pupils' service have been received. These have been for assistance in positions as follows:

Assisting Mothers	Table Service
General Housework	Stenography
Clerical Work	Insurance
Dental Clinic	

Whole number in class of 1928	103
Whole number in class of 1928 at work	52
Number placed by help of Advisory Bureau	10

TOWN OF MILTON

93rd

ANNUAL REPORT

1929

NORFOLK PRESS
Hyde Park, Mass.
1930

REPORT OF TOWN ACCOUNTANT

Milton, Mass., January 15, 1930

To the Honorable Board of Selectmen:

In accordance with the Revised By-Laws of the Town of Milton, and General Laws, Chapters 41 and 44, the books and accounts of all officers and committees intrusted with the expenditures of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending December 31, 1929, have been examined and found correct.

In only two cases when bills were submitted for payment did I refuse to place them on the Treasurer's Warrant. The School Department submitted bills payable to the Milton High School Athletic Association for services of officials at games played between the school teams of the Town of Milton and teams from other municipalities and as this is not a purpose for which the School Department is authorized to expend public money I was forced to return these bills to them. The Sewer Department submitted several bills pertaining to the East Milton sewer and drain job, for which there was a specific appropriation, requesting that they be charged against the general sewer construction account, but as this could not be done I returned the bills to the Sewer Department requesting that they be held until such time as the town in town meeting takes some action regarding their payment.

Respectfully submitted,

MARY A. BERNI,
Town Accountant.

REVISED BY-LAWS

TOWN OF MILTON, MARCH 2, 1902

Adopted by the Town and approved by the Superior Court May 20, 1902

The amendments to Chapters 2, 3, 4, 7, 8, and 10, adopted by the Town March 2, 1914, March 13 and September 1, 1915, March 11, 1922, March 14, 1925, March 13, 1926, March 12, 1927, March 10, 1928, June 13, 1928, were approved by the Attorney-General, December 10, 1914, May 8 and September 22, 1915, April 6 and July 19, 1922, March 26, 1925, March 18, 1926, April 20, June 21, 1927, June 11, 1928, September 24, 1928, June 1, 1929

Chapters 12 and 13, adopted by the Town July 10, 1922, were approved July 11 and 21, 1922

The amendment to Chapter 12, adopted by the Town March 13, 1926, was approved March 17, 1926

CHAPTER 1

General Provisions

Section 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

Sect. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the Town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

Sect. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

Sect. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

Sect. 5. In all the By-Laws of the Town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The word public way shall include any highway, town way, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; the owner or occupant of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land: words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word person may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

Sect. 6. All fines and penalties for the violation of any By-Laws shall, when received, inure to the use of the Town, and be paid into the Town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the Town.

Sect. 7. Whoever violates any of the provisions of the By-Laws of the Town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

Sect. 8. Whoever shall refuse or neglect to obey any order of any Town officer or board of Town officers, issued under any of the By-Laws of the Town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

Sect. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the Town shall be commenced within six months from such breach.

Sect. 10. Any or all of the By-Laws of the Town may be repealed or amended, or other By-Laws may be adopted, at any Town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2

Town Meetings

Section 1. The warrants for all Town meetings shall be directed to the constables of the Town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the Town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the Town at least four days, before the day of such meeting.

Sect. 2. The annual meeting for the election of Town officers shall be held upon the first Saturday of March, the polls to be open at fifteen minutes before six o'clock in the forenoon, and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all said officers to be voted for on official ballots. At any time after said four o'clock a vote may be passed to close the polls in not less than ten minutes.

Sect. 3. All business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall be considered at an adjournment of said meeting to the following Saturday at one-thirty o'clock in the afternoon.

Sect. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

Sect. 5. Upon taking the question, the sense of the meeting shall be taken by the voices of the town meeting members and the Moderator shall first announce the vote as it appears to him by the sound.

If the Moderator is unable to decide by the sound of the voices or if his announcement made thereupon is doubted by seven town meeting members arising in their places for that purpose, the Moderator shall request the town meeting members to be seated, and shall appoint tellers; the question then shall be distinctly stated, and those in the affirmative and negative respectively shall be requested to rise and stand in their places until they are counted by the tellers, who shall report their count to the Moderator.

If the vote is further doubted and twenty-five town meeting members arise in their places and ask for a division of the meeting by the taking of the yeas and nays, then the roll of the meeting shall be called in alphabetical order and no town meeting member shall be allowed to vote after the vote is declared.

Sect. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

Sect. 7. When a question is before the meeting, the following motions, viz.:—

to adjourn,
to lay on the table,
for the previous question,
to postpone to a time certain,
to commit, (or recommit) or refer,
to amend or substitute,

shall have precedence in the order in which they are placed in this section; provided however, no article in the warrant shall be finally disposed of by a vote to lay upon table, to indefinitely postpone, or to take no action thereunder.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

Sect. 8. After the declaration of the vote for Town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the Town meeting of the ensuing year.

CHAPTER 3

The Warrant Committee

Section 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

Sect. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the Town, the subject-matter of which is generally included in the warrants for its Town meetings; and the officers of the Town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the Town or its citizens.

Sect. 3. The Warrant Committee shall consider the various articles in the warrants for all the Town Meetings held during the period for which they were appointed including the various articles in the warrant for the annual Town Meeting next after their appointment; they shall also consider all questions submitted to the voters of the Town at any meeting, including State elections under any act or resolve of the Legislature and proposed amendments to the Constitution; and they shall report in print before all such meetings their estimates and recommendations for the action of the Town.

On or before January first of each year each board, committee or officer of the Town shall file with the Selectmen, who shall transmit the same to the Warrant Committee, a statement in detail of the appropriation or appropriations recommended by such board, committee or officer for the work under its or his charge for the ensuing year.

The Warrant Committee shall include in its report of recommendations for the annual Town Meeting a statement setting forth the total appropriations so requested, the appropriations recommended, and the total as such appropriations requested and recommended, and an estimate of the tax rate for the ensuing year if such recommendations are apopted.

CHAPTER 4

The Town Finances and Property

Section 1. The financial year shall begin with the first day of March.

Sect. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the Town, a detailed report of all money received into and paid out of the Town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the Town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, except the poll tax list, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and fund of the public library and the cemetery to be furnished by the Trustees respectively, and a statement of all other funds belonging to the Town or held for the benefit of its inhabitants; also statements of the liabilities of the Town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the Town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the Town.

Sect. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the Collector on or before the first day of August in each year.

Sect. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

Sect. 5. No person being an officer of the Town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the Town.

Sect. 6. The Selectmen, being duly authorized by vote of the Town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the Town, and to give promissory notes therefor in behalf of the Town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

Sect. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the Town, and all unexpended balances of such grants shall be stated in the annual report.

Sect. 8. The Selectmen shall keep full accounts in respect to the several separate appropriations and the drafts made against each and shall not approve any draft which does not state specifically the appropriation against which it is drawn, whether general or special.

Sect. 9. The Warrant Committee shall send to the Selectmen and to the Auditors certified copies of all votes whereby transfers are made out of the Reserve Fund for extraordinary or unforeseen expenditures.

Sect. 10. No board, committee, or officer of the Town shall commit the Town to any expenditure or liability which would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been

exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the Town at a meeting of the voters, shall have acted in the matter.

Sect. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the Town either by the Selectmen or other Town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the Town.

Sect. 12. The Selectmen shall have full authority as agents of the Town to institute and prosecute suits in the name of the Town, and to appear and defent suits brought against, unless it is otherwise specially ordered by a vote of the Town.

Sect. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the Town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the Town, unless the Town shall otherwise vote in any special case.

Sect. 14. The Selectmen shall appoint a Town Accountant, who shall perform the duties prescribed by law. At the close of each fiscal year he shall cause an audit of the accounts of the Town to be made under the supervision of the Director of Accounts, as provided by Section 35 of Chapter 44 of the General Laws.

Sect. 15. Whenever damages may be recovered against the Town under General Laws, Chapter 79, entitled "Eminent Domain" and acts in amendment thereof and in addition thereto, the Board of Selectmen, unless otherwise provided by vote of the Town, may exercise in the name and behalf of the Town all the powers granted in Section 39 of said Chapter relative to settlement of damages, assumption of betterments, offers of settlement, and other matters in said section contained.

CHAPTER 5

The Cemetery

Section 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and new member be elected at each annual meeting of the Town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual Town meeting, when a Trustee shall be elected for the unexpired term.

Sect. 2. Citizens of Milton who are heads of families and have been residents of the Town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the Town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

Sect. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of not less than fifty cents a square foot, but only to those who are in some way connected with Milton people.

Sect. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such land marks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

Sect. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any perperson to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

Sect. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

Sect. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

Sect. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such Tomb, carefully remove its contents to a lot prepared for the purpose and erect over the remains a suitable memorial stone.

Sect. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.
2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection wiith military memorial services.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.
6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6

Police Regulations

Section 1. No person shall move or assist in moving any building, over any way which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

Sect. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

Sect. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

Sect. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this Town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

Sect. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public way unless the same be broken into small pieces and spread evenly.

Sect. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 7 Whoever shall suffer any horse or grazing beast, or swine, to run at large in the Town, or feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 9. No person shall dig up or obstruct any portion of any way which the Town is obliged to keep in repair without the permit, in writing of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the Town for all expenses and damages which, or for which, the Town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

Sect. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

Sect. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

Sect. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

Sect. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or

any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the Town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

Sect. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

Sect. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

Sect. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any sign board of the Town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

Sect. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

Sect. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

Sect. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

Sect. 22. No person shall distribute papers, circulars or advertisements through the Town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

Sect. 23. No person shall fire, discharge, explode or set off any gun, firearm, torpedo, firecracker or fireworks in such manner as to frighten any horse, or disturb the peace or quiet of any neighborhood.

Sect. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

Sect. 25. No person shall own or keep a dog which by barking, biting,

howling or in any other manner is disturbing the peace or quiet of any neighborhood.

Sect. 26. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the Town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the Town; and they may provide that such collectors shall display badges upon their persons; or upon their vehicles, or upon both, when engaged in collcting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

Sect. 27. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

Prosecutions and Penalties.

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the Town may be made by any constable or police officer of the Town.

CHAPTER 7

The Construction and Inspection of Buildings

Section 1. This Chapter shall constitute and be known as the Building Code and may be cited as such. It provides, in conjunction with Chapter 635, Acts of 1912, known as the "Tenement House Act", for all matters concerning the construction, equipment, alteration, repair, demolition or moving of buildings or structures erected or to be erected in the Town of Milton.

Sect. 2. Whenever the word "Inspector" occurs in this Chapter it means the Inspector of Buildings.

Sect. 3. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within the Town at any reasonable hour.

Sect. 4. In this Chapter the following terms shall have the meanings respectively assigned to them:

First Class Buildings: A first class building shall consist of fireproof material throughout, with floors constructed of iron, steel or reinforced concrete beams, filled in between with terra cotta or other masonry arches or with concrete or reinforced concrete slabs. Wood may be used only for under and upper floors, windows and door frames, sashes, doors, interior finish, handrails for stairs, necessary sleepers bedded in cement, and for isolated furrings bedded in motar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Buildings: Second class buildings shall include all buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete, concrete blocks or other equally substantial and fireproof material.

Third Class Buildings: Third class buildings shall include all buildings not of the first or second class.

Thickness of Wall: The minimum thickness of such wall.

Grade: Average grade of the ground immediately adjoining a building.

Cellar: A story more than one-half below the average grade of the ground immediately adjoining a building.

Wooden Frame Building: Any building of which an external wall is constructed wholly or partly of wood. Wood frames covered with metal wire lath and plaster or brick shall be deemed to be wood structures.

Reinforced Concrete: By the term "reinforced concrete" is meant an approved concrete mixture reinforced by steel of any shape so combined that the steel takes up the tensile stress and assists in the resistance to shear.

Story: That part of a building between the top of any floor beams and the top of the floor or roof beams next above.

Permits

Sect. 5. Before the erection, construction or alteration of any building or part of any building, structure or part of any structure, wall, or any platform, or flooring to be used for standing or seating purposes, is commenced, the owner or lessee, or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration shall, except for ordinary repairs, submit to the Inspector a detailed description of the location, purpose and construction of the proposed structure or work on proper blanks to be furnished by the Inspector, and full and complete copies of the plans of such proposed work, and such structural detailed drawings as the Inspector may require.

Such plans and detailed drawings shall be furnished in dulicate and, if approved by the Inspector, one set shall be kept at the building during the progress of the work, open to the inspection of the Inspector or his representative. The other shall be kept on file in the office of the Inspector.

The Inspector may require an applicant for a permit to submit with the plans of a building or other structure detailed drawings and calculations of any portions thereof subjected to unusual stresses, or of complicated construction, or for a steel frame or reinforced construction, or of any type of construction not particularly described in this chapter.

Nothing in this section shall be construed to prevent the Inspector from granting his approval of the erection of any part of a building or structure where the general plans and detailed descriptions have been filed for the same, before the entire detailed plans have been submitted.

Sect. 6. It shall be the duty of the Inspector to approve or reject any plans filed with him pursuant to the provisions of this chapter within a reasonable time and within ten (10) days in any event, and no work shall be commenced until a permit is issued.

Sect. 7. Upon approval of plans the Inspector shall issue a permit. The permit shall be void unless work is commenced within three (3) months from the date thereof.

Sect. 8. No building shall be lathed nor shall any metal ceiling, plaster board or other covering be put un until the Inspector has been notified that the building is ready for such work, and until he has given written consent thereto.

Sect. 9. If a proposed building or structure is of a size or character not provided for by this chapter, plans and specifications of such building or structure shall be submitted to the Inspector and referred by him, with his recommendations thereon, to the Board of Selectmen for approval.

Construction

Sect. 10. The Inspector shall examine all buildings in the course of erection or alteration as frequently as is necessary, to see that the Law and the By-Laws of the Town are complied with.

Sect. 11. Every portion of every building or other structure in process of construction, alteration, repair or removal and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

Sect. 12. All masonry below the finished grade shall be laid up in mortar no poorer than one part Portland cement and three parts sand.

All masonry above grade shall be laid up in mortar no poorer than one part Portland cement, one part lime, and six parts sand.

Sect. 13. Every building or structure hereafter erected shall have a masonry foundation resting upon the solid ground, piles, or other durable structure. Said foundation shall be securely and properly built, and shall be of such thickness as to properly sustain the weight it is intended to support; provided however, that the Inspector may in his discretion, permit the use of other materials for foundations of buildings not over one and and one-half stories high.

Sect. 14. The underpinning above grade, if of concrete, shall be not less than ten (10) inches in thickness; if of brick, not less than twelve (12) inches in thickness; if of stone, not less than sixteen (16) inches in thickness, and shall be laid in cement mortar, as prescribed in Section 12.

Sect. 15. All foundation walls and pier footings shall be laid at least three (3) inches below cellar bottom and not less than three (3) feet six (6) inches below any adjoining surface exposed to frost.

Sect. 16. All piers shall be built of stone, good hard burnt brick laid in mortar, or reinforced concrete. Isolated brick piers shall not exceed in height ten (10) times their horizontal dimensions and, if of reinforced concrete, fifteen (15) times their least horizontal dimensions, which shall not be less than twelve (12) inches. Cement filled iron columns may be substituted for piers if of suitable size to carry the superimposed load. Such columns shall have cast iron caps and bases and shall rest on footings of masonry, stone, or concrete which shall be at least twelve (12) inches in each dimension.

Sect. 17. For buildings other than frame, where the walls are of brick or solid concrete, the minimum thickness in inches of all exterior and dividing walls carrying the loads of floors and roofs and including foundation walls for the same shall be not less than specified in the following table:

Height.	Foundation	Basement.	Stories					
			1	2	3	4	5	6
1 story . .	16	12	8					
2 stories . .	16	12	12	8				
3 stories . .	20	16	12	12	8			
4 stories . .	20	16	16	12	12	8		
5 stories . .	20	16	16	16	12	12	8	
6 stories .	24	20	16	16	16	12	12	8

The height of stories for the thickness of walls given shall not exceed:

First Story	17 feet
Second Story	15 feet
Third Story	13 feet
Fourth and Upper Stories	12 feet

and if any story exceeds the foregoing heights, it shall be counted as one additional story for each twelve feet in height or fraction thereof and the thickness of the walls not diminished from the thickness of the lower portion of such story.

If stone is used in place of brick or solid concrete, the thickness of walls shall be made four (4) inches thicker than above specified.

In external walls of the thickness specified in this section, the area of openings for windows, doors, flues, etc., shall not exceed 50 per cent of the gross area. In case the width of such openings exceeds one-half the length of the wall, the thickness of piers between openings shall be increased so as to maintain an area of at least fifty (50) per cent of the gross area required by the specified thickness; provided, however, that in the upper half of any vertical portion of the wall required to be of constant thickness a smaller addition may be made to the thickness of piers, if the stresses allowed by this code are not exceeded. Curtain walls of brick or concrete between piers, where carried to the piers by arches or lintels at each story, shall be not less than eight (8) inches in thickness.

Sect. 18. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

Sect. 19. In reckoning the thickness of walls, no allowance for ashlar shall be made unless it is at least eight (8) inches thick, in which case the excess over four (4) inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four (4) inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

Sect. 20. Reinforced concrete construction will be accepted for buildings of the first class, and must be designed in accordance with the recommendations of the Joint Committee of the American Society of Civil Engineers, or American Society for Testing Materials, and all materials used in the construction must conform to the requirements of the standard specifications of the American Society for Testing Materials.

The Building Inspector shall have authority to require tests to be made of all materials used in the construction. Such tests shall conform to the requirements as approved by the American Society for Testing Materials.

Only stone or gravel concrete shall be allowed in the construction of reinforced concrete buildings, except that slag or cinder concrete may be used for fireproofing purposes and for floors or roofs where the superimposed load does not exceed fifty (50) pounds per square foot, and the spacing between supports does not exceed six (6) feet.

The allowable unit stresses shall not exceed those recommended by the Joint Committee above mentioned.

Before issuing permit for the construction of reinforced concrete buildings, the Inspector of Buildings shall require the owner to submit a complete set of working drawings and details of the proposed construction with the approval of some well-known consulting engineer written upon each sheet of the drawing, and the cost of such approved drawings shall be paid by the owner.

Sect. 21. The studding in outside walls shall be at least two (2) by four (4) inches in size and spaced not over sixteen (16) inches on centers.

Studs next door and window openings shall be at least three (3) inches by four (4) inches and shall be mortised into sills and girts.

Openings in outside walls shall be trussed if the Inspector so requires.

Sect. 22. Every wooden building hereafter erected or altered shall have all parts of sufficient strength to carry the weight of the super-structure; shall be built with sills, posts, girts, studs and plates all properly framed, braced and secured together by mortising, strapping or halving, to the satisfaction of the Inspector.

The posts and girts shall be not less than four (4) inches in size except intermediate posts, which shall be not less than four (4) inches by eight (8) inches in size. Studs in interior partitions shall be placed not more than twenty (20) inches on centers. Plates shall be not less than four (4) inches by four (4) inches in size, but may be two (2) inches by four (4) inches doubled. Sills shall be not less than four (4) inches by six (6) inches in size.

Sect. 23. The studding of main or carrying partitions shall be not less than two (2) by four (4) inches in size, and shall rest on a sole piece of

hard pine two (2) by four (4) inches. All openings in main partitions of more than thirty-six (36) inches shall be trussed and have studs doubled at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding and two (2) inches thick, at least once in height.

Partitions over twelve (12) feet in height shall be bridged at least once in every six (6) feet.

When carrying partitions rest directly over each other, the studs shall run down between the floor beams and rest on the header of the partition below.

Headers of carrying partitions shall be at least two (2) inches by four (4) inches in size, doubled and of hard pine.

Sect. 23A. All wooden header beams more than four (4) feet long used in any building shall be framed together and pinned or hung to the trimmer beams in stirrupirons. When it is not practicable to frame or secure the ends of tail beams into header beams, the ends of the tail beams shall be hung to the header beams by stirrup-irons.

Sect. 24. All wooden beams of floors or flat roofs shall be properly bridged with cross bridging at least one (1) inch by three (3) inches in size, and the distance between bridging or between bridging and walls shall not exceed eight (8) feet.

Sect. 25. No part of any floor timber shall be within two (2) inches of any chimney; no studding or furring shall be within one (1) inch of any chimney; and no timbers or woodwork shall be within two (2) inches of the back wall of any fireplace. The header beam, carrying the tail beams of a floor and supporting the trimmer arch in front of a fireplace, shall be not less than eighteen (18) inches from the finished chimney breast.

Sect. 26. Every wooden beam, except header beams, shall rest four (4) inches in the wall at each end, or upon a girder or columns as authorized by this chapter, unless the wall is properly corbelled out of four (4) inches, in which case the brickwork or corbelling shall extend to the top of the floor beams.

Sect. 27. The ends of all wooden beams of floors where they rest on brick walls, and the ends of all wooden roof beams in parapeted walls, shall be cut to a bevel three (3) inches in their depth.

Sect. 28. No cutting of timbers for any purpose shall be done so as to reduce the strength of the supporting parts below that required by the provisions of this chapter. No floor, timber, header or trimmer beam of any building shall be cut into more than two (2) inches in depth for piping without a permit from the Inspector. Holes for electric wires through wooden beams, girders or floor beams shall not be located more than one (1) inch from the neutral axis thereof.

Sect. 29. Every second and third class building hereafter built shall have in each story all vertical space in the exterior walls, and carrying partitions thoroughly stopped with fireproof materials not less than four (4) inches in height. These steps may be omitted on approval of the Inspector in cases where the studding is to remain open and uncovered. In every building used solely as a mill or factory there shall be a fireproof stop between the upper and under floor. This fire stop may, however, be omitted if the floor boards are at least two (2) inches thick and splined or tongued together and the space between the timbers of the floor open and uncovered.

Sect. 30. All floors shall be of sufficient strength to bear the weight imposed thereon and of sufficient strength in all parts to safely bear (in addition to the weight of the material of which the floor is composed), upon every square foot of its surface not less than the weights named below for the specified purposes for which such floors are respectively used or designed to be used:

Dwelling houses and hotels [except public rooms having a floor area of over five hundred (500) square feet and corridors], fifty (50) pounds; unfinished attics used for storage purposes only, thirty (30) pounds; school-

houses, except corridors and assembly halls, sixty (60) pounds; stairs, landings, platforms, fire escapes, office floors, places of public assembly and public buildings having permanent seats, seventy-five (75) pounds; stables, private garages and the portions of public garages not containing machinery, seventy-five (75) pounds; corridors of hotels, fo public buildings and of schoolhouses and rooms in hotels exceeding five hundred (500) square feet in area, one hundred (100) pounds; retail stores and buildings for light manufacturing purposes, one hundred and twenty-five (125) pounds; places of public assembly and public buildings having movable seats, dance halls and gymnasuims, two hundred (200) pounds; warehouses and buildings for heavy manufacturing purposes, two hundred and fifty (125) pounds; places of public assembly and public buildings having movable seats, dance halls and gymnasiums, two hundred (200) pounds:. Loads not included in the above classification shall be determined by the inspector.

Sect. 31. The pressure upon brick masonry in walls or piers, of which the thickness or least dimension is more than one-sixth of the height, when lime mortar is used, shall not exceed eight (8) tons per square foot; with lime and cement mortar, twelve (12) tons per square foot; with cement mortar, eighteen (18) tons per square foot. When the thickness or least dimension is between one-sixth and one-twelfth the height, and lime mortar is used, the pressure shall not exceed seven (7) tons per square foot; lime and cement mortar, ten (10) tons per square foot; with cement mortar, fifteen (15) tons per square foot.

On first class stone work laid in cement, pressure shall not exceed: on sandstone, thirty (30) tons square foot; on marble or limestone, forty (40) tons per square foot; on granite, sixty (60) tons per square foot.

Hollow blocks of trre cotta or concrete when used for bearing walls shall have not more than fifty (50) per cent of cellular space. Concrete blocks shall not be used in construction until they have attained the age of twenty-eight days, or developed the strength required in this section. All blocks shall be laid in Portand cement mortar.

The compressive strenght of building blocks shall in all cases be calculated upon the gross area of the bedding faces, no account being taken of the cellular spaces. The average ultimate compressive strength for terra cotta blocks laid with cells vertical shall be not less than twelve hundred (1,200) pounds per square inch; the average for concrete blocks laid with cells vertical shall be not less than eight hundred (800) pounds per square inch. Concrete blocks shall be not less than thirty-six (36) days old when tested. The average strength of the blocks as here given shall be obtained by testing ten blocks of average quality.

The allowable working stress of hollow building blocks shall not exceed one hundred (100) pounds per square inch of gross area for terra cotta blocks, or seventy-five (75) pounds per square inch of gross area for concrete blocks. If a wall be built of blocks with the cells horizontal, the allowable working stress shall not exceed thirty (30) pounds per square inch of gross area.

The maximum stress in pounds per square inch in woodwork shall not

	Long-leaved Yellow Pine, Oak & Locust	Other Woods
Direct tension on compression or fibre stress .	1,500	1,000
Direct compression side grain	500	300
Shear across fiber	1,200	800
Shear with fiber	150	100
Short columns	1,000	700

JQ Columns may be used with a length not exceeding forty (40) times the least dimension. The unit strain for lengths up to tne (10) times the least dimensions shall be as given in the above table, with a reduction of one hundred (100) pounds per square inch for every increase of ten in the ratio of length to least dimension.

The maximum stress in tension in cast iron, or tensile fiber stress in case of beams, shall not exceed three thousand (3,000) pounds per square inch. The maximum compression fiber stresses in beams shall not exceed sixteen thousand (16,000) pounds per square inch. Cast iron columns may be used with a length not exceeding twenty (20) times their external diameter. The unit stress for lengths up to three (3) times their diameter shall not exceed elevn thousand (11,000) pounds pr square inch, with a reduction of five hundred (500) pounds per square inch for every increase of 3 in the ratio of length to least diameter.

In rolled steel the maximum stresses shall not exceed the following:

Tension and fiber stress, 16,000 pounds per square inch; compression in columns, 13,000 pounds per square inch.

In rolled steel the maximum stresses shall not exceed the following:

Tension and fibre sstress, 16,000 pounds per square inch; compression in columns, 13,000 pounds per square inch

Columns may be used with a ratio of length (1) to least radius of gyration (r) not exceeding 16, being expressed in feet and the r in inches. The unit stress allowed shall be 13,000 pounds per square inch for 1-r from 2 to 4; 12,000 from 4 to 6; with a decrease of 1,000 pounds for each succeeding increase of 2 in the ratio of 1 to r.

Shear in rivets, 10,000 pounds per square inch; shear in rough bolts, 9,000 pounds per square inch; shear in web (stiffened), 8,000 pounds per square inch in short pieces, or compressive bearing on rough bolts, 15,000 pounds per square inch.

The maximum stresses in wrough iron shall not exceed seventy-five (75) per cent of those allowed in rolled steel.

Materials not specifically mentioned above shall not be allowed to carry stresses exceeding one-quarter the stresses which would caus fracture or cracks in specimens of such material of average quality under similar conditions of loading. In cases of doubt of the strength of such materials, the owner may be required to make such tests as the Inspector shall deem necessary to determine the strength, said tests to be made in the presence of the Inspector or his authorized representative.

Sect 32 Frame buildings veneered on the outside with four (4) inches of brick or stone work shall have such brick or stone work supported on a foundation of masonry, and bearing on rivets, 18,000 pounds per square inch; shall be properly anchored to the frame structure. The height of any usch veneer shall not exceed twenty-five (25) feet abovve the solid masonry.

Sect 33. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot

Sect 34 No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air No smoke pipe shall pass through any wood floor No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized idon ventilated thimbles at least twelve (12) inches larger in diameter extending through the partition and eight (8) inches larger than the pipe. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

Sect. 35. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is

protected by a metal shield; the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

Sect. 36. All walls, ceilings and partitions inclosing drying-rooms, when not made of fireproof material, shall be wire lathed and plastered, or covered with metal, tile or other hard, incombustible material.

Sect. 36A. No portion of any building of third class construction to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall be hereafter erected, enlarged, altered, or placed nearer than four (4) feet to the line of any adjacent lot or to any other building of the first or second class; or nearer than eight (8) feet to any portion of any other building of the third class on the same lot, unless fireproof masonry walls, with openings protected as required by Section 36, are built next to the said lot or other building, such walls to be of thickness provided under Section 17.

Sect. 37. In first or second class buildings all openings in walls within four (4) feet of adjoining property lines shall be protected by metal shutters or by metal sash, frames and wire glass.

Sect. 38. Every building of the third class hereafter erected to form a block of two or more buildings shall have a wall of brick, or Portland cement concrete, or other equally substantial and approved fireproof material between adjoining buildings, completely separating same. Such walls to be of thickness specified in Section 17, carried to under side of roof boarding.

Sect. 38A. Every dwelling to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall have at least two independent means of egress.

Electric Wiring and Fixtures

Sect. 39. All wires, appliances and apparatus in the interior of a public building or on private premises, which are intended for the transmission of electricity and to be connected with an outside circuit, shall be made and at all times kept safe, and shall be placed, arranged, attached, changed and maintained by the person, firm or corporation owning or using the same, to the satisfaction of the Inspector of Wires appointed in accordance with the provisions of Chapter 337 of the Acts of the year 1899. The Inspector of Wires shall have access at all reasonable times to such wires, appliances and apparatus.

Before any person, firm or corporation shall arrange, fix, or essentially change any such wires, appliances and apparatus, the Inspector of Wires shall be notified and given full opportunity to inspect the said wires and their arrangement and fixtures before the same are covered or enclosed. Wires in the interior of buildings and on private premises shall not be connected with an outside circuit which crosses or runs along, over or under any street or way of the Town without written permission therefor having been first obtained from the Inspector of Wires.

Companies and contractors making any repairs on or installing any electric plants in the Town of Milton shall send a notice to the Inspector of Wires before the work is commenced.

All work and material must be supplied and installed in accordance with provisions of the National Electric code and any amendments or additions thereto.

Gas Fixtures

Sect. 40. The burners of all gas fixtures shall be at least three (3) feet below any ceiling or woodwork, unless the same is properly protected by a shield, in which case the distance shall be not less than eighteen (18) inches. No gas bracket on any lath and plaster partition or woodwork shall be less than five (5) inches in length, measured from the burner to the plaster surface or woodwork.

Sect. 41. Gas pipes in any building or structure shall be installed in accordance with the rules and regulations prescribed by the company furnishing gas. All gas pipes shall be inspected and tested by the gas company before the pipes are covered, and a certificate of the same from the gas company shall be placed on file with the Inspector of Buildings by the owner of the building or his representative. The method of installation of the gas pipes shall be subject to the approval of the Inspector of Buildings.

Sect. 42. Every hot water boiler hereafter installed, to be used for heating purposes, shall be provided with a safety or relief valve of a size not less than that known commercially as one half (½) inch. Such valve shall be attached either directly to the boiler or to some pipe connected therewith at a point not more than one foot from the boiler.

Regulations Made By The Fire Engineers According To The Provisions Of Chapter 32, Section 46, Of The Revised Laws In Regard To Chimneys, Flues, Fireplaces And Heating Pipes

Sect. 43. All chimneys hereafter erected shall be built of brick, stone or other incombustible material.

Sect. 44. All chimneys hereafter erected, if walls are less than eight (8) inches thick, shall be lined on the inside with terra cotta or tile pipe, made smooth on the inside from two (2) feet below girder, or from the throat of the fireplace, if the flue starts from the latter, and carried up continuously to the top. The ends of all such lining pipes shall be made to fit close together, and the pipe shall be built in, as the flue or flues are carried up. The walls shall be at least four (4) inches thick. No parging mortar shall be used on the inside of any fireplace, chimney or flue. The firebacks of all fireplaces hereafter erected shall be not less than eight (8) inches in thickness if of solid brickwork not less than twelve (12) inches if of stone. When a grate is set in a fireplace, a lining of firebrick at least two (2) inches in thickness shall be added to the fireback, unless soapstone, tile or cast iron is used and filled solidly behind with fireproof material.

All chimneys shall extend at least three (3) feet above the highest point at which the chimney cuts the roof and at least six (6) inches above any roof surface within ten(10) feet in a horizontal line.

Sect 45 Imitation fireplaces inteneded for use with gas or electricity and not having a flue shall be constructed throughout, including the hearth, of fireproof material not less than two (2) inches thick.

Hearths of all fireplaces and chimney breasts where mantels are placed shall be supported by trimmer arches of brick, stone, burnt clay or concrete built of clay or concrete at least eighteen (18) inches in width measurd from the face of the finished chimney breast and not less than sixteen (16) inches longer than the width of the finished fireplace opening. Wooden centers under trimmer arches shall be removed before plastering the ceiling underneath. Hearths may be supported on steel cantilever beams built not less than sixteen (16) inches into the chimney.

Sect. 46. No chimney shall be supported by, started or built upon any woodwork.

In no case shall a chimney be corbelled out more than two-thirds the thickness of a wall to which it is attached, and in all such cases the corbellings shall consist of at least five course of brick. Where chimneys are

supported by piers, the piers shall start from the foundation on the same line with the chimney breast, and shall be not less than twelve (12) inches on the face, properly bonded into the walls. When a chimney is to be cut off below, in whole or in part, it shall be wholly supported by stone, concrete, brick, iron or steel.

All chimneys which become dangerous in any manner whatever shall be repaired or made safe, or taken down.

Sect. 47. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unlses such partition or ceiling is properly protected by incombustible material, when the distance shall not be less than one (1) foot.

Sect. 48. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not not than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galzanized iron ventilated thimbles at least twelve (12) inches ni diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipes. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

Sect. 49. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield, then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

CHAPTER 8

The Regulation and Inspection of Plumbing

Section 1. There shall be in the Town a department for the inspection of plumbing in accordance with the provisions of Chapter 103 of the Revised Laws.

Sect. 2. The word "Inspector" without further addition wherever used in this chapter means the Inspector of Plumbing.

Sect. 3. Every plumber before commencing work on any part of the drainage system in a building, except in the case of the repair of leaks, shall file at the office of the Inspector upon blanks provided for that purpose, a description of the proposed work. No such work shall be done in any building unless approved by the Inspector and after a permit is issued therefor. Permits to perform plumbing shall be issued only to master plumbers. Drawings of the proposed work shall be filed when required by the Inspector.

Sect. 4. No drainage, waste or ventiation pipes shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Insspector, within two (2) working days after receiving such notice, to inspect the same: and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

Sect. 5. All drainage, waste and ventilation pipes shall be subjected to the water test before the fixtures are set, said pipings and fixtures shall be subjected to pneumatic or other reliable test. All such tests shall be made in the presence of the Inspector.

cessible cleanout, and shall extend to a point ten(10) feet outside of the cellar wall. The pipe from the sewer or cesspool to within ten (10) feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least two (2) feet above the highest window on the roof. Every drain pipe, except a drain pipe from a building having but one sink, or but one sink with adjoining trays, shall have a suitable trapplaced with an accessible clean-out at a reasonable distance from the point where such drain pipe leaves the building. All changes in direction of soil pipes shall be made by Y branches or by curved pipes. No ventilation pipes on the outside of any building shall be less than two (2) inches in diameter.

Sect. 9. All joints in iron pipes, soil or vent pipes shall be made by thoroughly caulking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full sized wiped joint and caulking the ferrules to pipes which are of cast iron, or screwing them to pipes which are of wrought iron.

Sect. 10. Every water-closet, urinal, sink, basin, bath-tub, slop hopper, and every tray or set of four or less wash trays shall hav ea separate trap, placed as near the fixture as possible, except that when two sinks or two basins, or a sink and a set of four or less wash trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe.

All fixturs traps shall be protected from syphonage or air pressure by special vent pipes having a diameter not less than the diametre of the waste pipe at a point not lower than the seal of the trap in such manner as to make the vent pipe a continuation of or a Y branch from the waste pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent pipe unless the length of the waste pipe from the trap of said fixture to the said stack exceeds three (3) feet. Vent pipes for water-closets shall be of not less than two (2) inches bore

Sect. 6. The drainage and waste piping of every building shall be connected with the public sewer when such sewer is located in a street, way or other land adjacent to the lot upon which the building is located. if the sewer is within two hundred (200) feet of such building and is so lohundred (200) feet from the sewer or a sewer is not accessible, connec-cated as to take the sewerage therefrom. If the building is more than two tion may be made with a proper cesspool, provided a permit is granted therefor by the Board of Health.

Sect. 7. The soil pipe of every building shall be of sufficient size to receive and allow freely to pass, all that enters or should enter the same. All soil pipes shall be of extra heavy cast iron pipe. All drain and connecting ventilating pipes within th e building shall be of sufficient size, and made of cast iron with leaded and caulked joints, but galvanized wrought iron pipe may be used for vent purposes. All pipes shall be properly secured to walls and ceilings with wrought iron hangers. Waste pipes shall be of cast iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast iron recessed fittings. No soil pipe of any building shall be less than four (4) inches inside diameter, except by written permission of the Board of Health. No vent pipe shall bs less than one and a quarter (1¼) inches inside diameter.

Sect. 8. All drain pipes shall have a proper pitch, shall have an ac- and may be connected with the water-closet waste pipe below the level of the trap seal. Two or more vent pipes may be connected together or with a soil pipe, but such connection with a soil pipe shall be above the uppermost fixture coinnected with such soil pipe. Lead vent pipes may be used only where they are exposed to view.

Sect. 11. No drip or overflow pipes from safes under water-closets, urinals, or other fixtures, no overflow pipes from tanks or cisterns, no waste pipes from refrigerators or other receptacles in which food is stored, no

rain water conductors, and no steam exhaust pipes, or steam waste pipes shall be connected with any soil pipe. No openings shall be allowed in the soil or waste pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain soil or waste pipe.

Sect. 12. Every water-closet shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one and a quarter (1¼) inches inside diameter. Flushing valves attached directly to a water-closet may be used, but when used the method of installation shall conform in every particular to the requirements of the Inspector.

Sect. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

Sect. 14. No water-closet shall be enclosed with any woodwork.

Sect. 15. None of the provisions of the foregoing sections of this chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainge systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

Sect. 16. Every closed tank or boiler hereafter installed, which is to be used for the storage and supply of hot water, shall, if fed by direct pressure from any source outside of the building, have a safety or relief valve and a vacuum valve. Each valve shall be of a size not less than that known commercially as one-half (½) inch.

Sect. 17. Any person violating any of the provisions of Chapters numbered Seven and Eight shall be liable to a fine of not less than twenty (20) dollars nor more than one hundred (100) dollars for each offence, to be paid into the treasury of the Town of Milton.

Sect 18. Upon the approval of Chapters 7 and 8 by the Attorney-General of the Commonwealth and the publication as required by law, they shall go into effect, and all building laws heretofore adopted by the Town shall be thereby repealed, except that in cases where permits have been issued prior to the approval and publication as above provided, the laws then existing shall govern the work to be performed under said permits.

CHAPTER 9

Street Railways

Section 1. The annual report shall contain the following concerning the street railways in the Town and the street railway companies owning or operating the same, viz:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the Town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the Town.

Sect. 2. Whenever the Selectmen are of the opinion that additional accommodations for the traveling public are required upon any street railway in the Town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10

Town Ways

Section 1. Every way that shall be laid out for the acceptance of the Town as a town way shall be not less than fifty feet in width, provided, however, that this scetion shall not prevent the layout of any way, which, prior to the time when this amendment takes effect, shall have been duly approved by the Board of Survey. Provided, however. that upon written certification by the Board of Survey, in respect to the layout of a particular way, that the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but not less than forty feet in width.

Sect. 2. If an existing private way the fee of which is in the abutters shall be laid out for the acceptance of the Town as a town way, such way shall not be accepted unless and until the Selectmen shall have certified in writing that such way is well built, and as constructed it is equal to the average construction of existing highways of the Town; provided, however, that this section shall not apply to ways laid out subject to the provisions of law relating to the assessment of betterments.

Sect. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town

CHAPTER 11

Billboards

Section 1. No person or corporation shall erect or maintain a billboard sign or other outdoor advertising device, except as provided in Section 32 of Chapter 93 of General Laws, on any location within three hundred feet of any public park or playground or Metropolitan Park or Parkway, if within public view from any portion of such parks, playgrounds, or parkways; or within three hundred feet of any other public way and within public view from any portion of the same, if such billboard, sign or device exceeds five feet in height or eight feet in length, and no billboard, sign or device placed within three hundred feet of any such public way and within public view shall be nearer than fifty feet to any other such billboard, sign or device; or at the corner of any public ways and within the radius of one hundred fifty feet from the point where the center lines of such ways interesect; or in any place unless the lowest portion of such billboard, sign or device is at least three feet from the ground, and the entire structure, including its braces and supports, is maintained in good repair, painted, and free from accumulation of rubbish and filth and from the pupæ, eggs and caterpillars of gypsy and brown-tail moths and other tree and shrub destroying pests; provided that this section shall not apply to signs or other devices which advertise or indicate either the person occupying the premises in question or the business transacted thereon, or advertise the property itself or any part thereof if for sale or to let.

CHAPTER 12

Use of Buildings

Section 1. Districts.—A residence district is hereby created in the Town of Milton to be known and designated as District A, the bounds of

which shall be as set forth in the Zoning Map hereinafter in this By-Law referred to, the said district comprising all territory within the corporate limits of the Town of Milton, excepting the districts marked B and C on said Zoning Map, which are bounded and described as follows:

District B.—Beginning at a point in the boundary line between Milton and Quincy at the junction of the northeasterly side line of Bryant Avenue, and said boundary line: thence running northwesterly along said northwesterly along said northeasterly boundary of Bryant Avenue to a point where the northwesterly side line of Martin Terraceextended northeasterly would intersect said line of Bryant Avenue; thence turning and running southwesterly along said extension of the northwesterly side line of Martin Terrace and said northwesterly side line itself to the end of said Martin Terrace at the land of L. A. Dame: thence turning to the right and running northwesterly along said land of L. A. Dame to the southeasterly side line of Boulevard Street: thence continuing in a northwesterly direction across said Boulevard Street to the intersection of the northwesterly side line of Boulevard Street with the southeasterly side line of Edge Hill Road; thence turning and running northeasterly and northerly along said southeasterly side line of Edge Hill Road and continuing northerly in the same line across Adams Street to the easterly boundary line of land of the New York, New Haven and Hartford Railroad Company: thence turning and running northwesterly along said easterly boundary line to a point where the southeasterly side line of Wood Street extended southwesterly would intersect said easterly boundary line: thence turning and running northeasterly along said southeasterly side line of Wood Street to a point distant 200 feet northeasterly from the northeasterly side line of Granite Avenue: thence turning at right angles and running southeasterly in line parallel with the northeasterly side line of Granite Avenue and 200 feet distant therefrom to a point distant 200 feet northerly from the northerly line of Adams Street: thence turning and running easterly in a line parallel with said northerly side line of Adams Street and distant 200 feet therefrom to the westerly side line of Church Street: thence turning and running southerly along the westerly side line fo Church Street to a point where the westerly side line extended intersects the southerly side line of Adams Street: thence turning and running westerly to the westerly side line of Mechanic Street: thence turning and running southerly along the westerly side line of Mechanic Street 100 feet: thence turning to the right and running westerly on line parallel with the southerly side line of Adams Street and 100 feet distant therefrom to a point 100 feet northeasterly from the northeasterly side line of Granite Avenue: thence turning and running southeasterly in a line parallel with the northeasterly side line of Granite Avenue and 100 feet distant therefrom to the boundary line between Milton and Quincy: thence turning and running southwesterly along said boundray line to the point of beginning.

District C.—Beginning at a point in the boundary line between Milton and Boston at the Neponset River, said point being at the interesection of the southerly boundary of land of the New England Telephone and Telegraph Company extended easterly and said boundary line between Milton and Boston: thence running westerly along said extension of the southerly boundary line of the New England Telephone and Telegraph Company and said southerly boundary line itself, to the easterly side line of Adams Street; thence continuing in hte same general westerly direction across Street and Canton Avenue to a point 100 feet distant westerly from the westerly side of High Street extended: thence turning and running parallel with the westerly side line of High Street and distant westerly 100 feet therefrom to the northerly side line of Eliot Street: thence turning and running westerly along said northerly side line of Eliot Street to Pine Tree Brook: thence turning and running along the center line of said Brook southerly and southwesterly to the southwesterly boundary of land of the Town of Milton used for a Police Station: thence turning and running northwesterly along the southwesterly boundary and southwesterly

line extended across Central Avenue to land of Octavia L. Horne: thence utrning and running in a general northerly direction along the westerly boundary line of land of said Octavia L. Horne, and said westerly boundary line extended to the northerly side line of Eliot Street: thence turning and running westerly along said northerly side line of Eliot Street to the westerly boundary of land now or formerly of the National Biscuit Company: thence turning and running northerly along said westerly boundary produced across land of the New York, New Haven and Hartford Railroad Company to boundary line between Boston and Milton at the Neponset River: thence turning and running in a general easterly and southerly direction along said boundary between Boston and Milton to the point of the beginning.

Sect. 2. Zoning Map.—(a) The Zoning Map prepared by C. Frederick Joy, Jr. Civil Engineer, dated June 23, 1922, bearing the signatures of the Board of Selectmen and showing the boundaries of Districts A, B, and C, is declared to be a part of this By-Law.

(b) Where a boundary line divides a lot in a single ownership at the time of the adoption of this By-Law, the regulations as to District A shall not apply provided the lot does not extend more than twenty-five feet within the boundary line of said District A.

Sect. 3. Residence Purposes.—In District A, except as herein otherwise provided, no building shall be used, and no building shall be erected or altered which is intended or designed to be used for a store or shop, or for manufacturing or commercial purposes, or any other purpose except for one or more of the following:

(a) A dwelling for one or more families.

(b) A hotel or a lodging or boarding house.

(c) A club other than a club the chief activity of which is a service customarily carried on as a business.

(d) A church, school or academy.

(e) Other purposes which are not particular industries, trades, manufacturing or commercil purposes.

(f) A railroad passenger station.

(g) A farm, truck garden, nursery or greenhouse.

(h) An accessory purpose customarily incident to the above purposes and not detrimental to the use of other property in the district for the above purposes, including a private garage for not more than two automobiles. An accessory purpose shall not include an advertising sign except a real estate sign advertising for sale or rent the property on which it is placed, but may include a sign not over one square foot in area, bearing a name and the designation of any authorized occupation, and being such a sign as is customary on any building used for the purposes permitted by this section of this By-Law.

(i) A garage for more than two automobiles, or a telephone exchange or transforming station, provided in each case that after a public hearing, fourteen days' notice of which shall be given, in such manner as the Selectmen shall rule that such use in a building or buildings located, designed and constructed as described by them in their ruling, will not be seriously detrimental to the use of other property in the district for the purpose specified in the proceeding paragraphs of the section, and provided that the use is confiend to a building or buildings conforming to the description of said ruling.

Sect. 3A. Location fo Buildings in District A.—After this section shall be duly adopted by the Town and become effective pursuant to law, in District A,

1. Set-back: No part of a building except steps, and eaves not exceeding 18" wide, shal be builtwithin 15 feet of the sideline of the street on which it fronts, provide that no bulding need be set back ore than the average of the set-back af the buildngs on the lot next thereto on either

side, a vacant lot or a lot occupied by a building set back more than 15 feet being considered as occupied by a building set back 15 feet, and provided further than on a lot less than 100 feet deep of record in the Registry of Deeds at time this section becomes effective no building need be set back more than 15 per cent of the depth of the lot, and provided that in such cases exceptions shall be permissible as in the case of buildings to which the 15 foot setback applies.

2. Rear Yards: No part of the building except steps, and eaves not exceeding 18" wide shall be built within 25 feet or a distance equal to one-quarter of the mean depth of the lot, whichever is the less, from the rear line line, provided that for each foot that the building sets back from the front line in addition to the requirements in the preceding paragraph its distance from the rear lot line may be reduced one foot, but in no case under this provision to less than 20 feet, excepting that buildings of accessory use as defined in Section 3, paragraph (h) may be built within said twenty-five foot or lesser strip.

3. Side Yards: No part of the building except steps chimneys, and eaves not exceeding 18" wide, and buildings of accessory use as defined in Section 3, paragraph (h) shalll be built within 8 feet a side line on a lot or street, provieded that the widthe of one side yard may be reduced one foot for each foot that the width of the other side yard is increased, but no side yard shall be reduced to less than six feet, and provided further that on no lot of record in Registry of Deeds at the time this section becomes effective, shall the buildable width, with the same permissible exceptions, be reduced to less than 25 feet.

4. Garages: No part of a garage, unless contained within the body of the house, shall be built within 40 feet, or a distance equal to 40 per cent of the mean depth of the lot, whichever is the less, from the front line of the lot, or within 15 feet of a street line forming the side line of a corner lot.

5. Area: No dwelling, exclusive of piazzas, eaves, and steps, shall occupy more than one-third of the lot on which it is place, and no builing feet may be occupied subject, however, to the requirements contained in it is placed, except that on corner lot an addititional area of 400 square other than a dwelling shall occupy more than one-half of the lot on which all other paragraphs of this section.

6. No lot shall be so reduced in area that the dimensions of the open spaces thereon shall be smaller than herein prescribed.

7. No building shall be built within 16 feet of any other building on the same lot excepting buildings of accessory use as defined in Section 3, paragraph (h).

Sect. 3B. Single Family Dwellings.—After this section shall be duly adopted by the Town and shall become eflective pursuant to law, no dwelling shall be erected in Districe A which is intended or designed to be other than a single family detached dwelling, and no building shall be altered so as to be or become a dwelling other than a single family detached dwelling, and no building erected or altered in violation hereof, shall be used as a dwelling provided, however, that a building may be used, erected or altered which is intended or designed to be used as a dwelling for not more than two families on any lot if, at the time this section becomes effective—

1. It is between two lots on which are buildings designed for occupation by two or more families each, located on the same side of the street and less than 100 feet apart, or if

2. The majority of all the frontage on the same street as the lot on a street or streets in substantially direct continuation thereof and within 300 feet of the site of the proposed building is occupied by building designed for two or more families each or side yard adjacent thereto, no such side yard to exceed 10 feet width, all frontage between buildings designed for two or more families and less than 100 feet apart being considered as occupied by buildings for two families.

Sect. 3C. Validity.—The invalidity of Section 3A or Section 3B, or any provision of said Sections, shall not affect the validity of any other Section or provision of said Sections, and said Sections shall affect the provisions of Chapter 12 in force when this amendment becomes effective only so far as said Sections are inconsistent therewith and valid.

Sect. 3D. So much of this amendment as is approved by the Attorney General shall go into effect upon its publication, or notice by delivery, as required by law.

Sect. 4. Existing Buildings.—Any building or part of a building in District A which at the time of adoption of this By-Law is being used for a purpose forbidden in said District may continue to be used for the same purpose or for a purpose not substantially different in character. Any such building or part of a building and any addition thereto made by permission of the Selectmen as hereinafter provided may be structurally altered or added to at any time provided the alterations or additions do not substantially enlarge the part of the building used for such purpose; and any such building or part of a building or such addition which is partially or wholly destroyed by fire or other casualty may be repaired or replaced by a structure of substantially the same size and character and used for the purpose for which it was formerly used or for a purpose not substantially different in character.

Any such building may be added to or enlarge at any time and such addition or enlargement used for the purpose for which the original building may lawfully be used under the provisions of the foregoing paragraph of this section provided in each case that after a public hearing, of which fourteen days' notice shall be given in such manner as the Selectmen may decide, the Selectmen shall determine that such addition or enlargement and the use to be made thereof will not to any substantial extent be more detrimental to the use of other property in the district for the purposes permitted in Section 3 than the building to which such addition or enlargement is to be made or the use then lawfully made thereof, and shall issue a permit therefor. Each such permit issued by the Selectmen shall specify the size and character of the addition or enlargement and no such addition or enlargement shall be constructed or used for any purpose forbidden in District A which is not constructed in accordance with the terms of such permit.

Sect. 5. Incidental Use of Residential Builldings.—Any building in District A designed solely for residential purposes, and used primarily and principally for residential purposes, may be used incidentally for a purpose forbidden in said District, provided, in each case, that after a public hearing, of which fourteen days' notice shall be given in such manner as the Selectmen may decide, the Selectmen shall determine that the use of such building is incidental only, within the meaning hereof, and that such incidental use will not be detrimental to the use of other property in the distritc for the purposes permitted in Section 3, and shall issue a permit therefor.

Sect. 6. Enforcement.—Whoever violates any of the provisions of this By-Law shall be punished by a fine of not more than twenty dollars for each violation. Upon any well founded information from any citizen that this By-Law is being violated or upon his own initiative, the Inspector of Buildings shall take immediate steps to enforce the By-Law.

Sect. 7. Validity.—The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision hereof.

Sect. 8. The provisions of this By-Law shall be construed as being additional to and not as limiting or lessening to any extent whatsoever the requirements of Chapters 7 and 8 of the Revised By-Laws of the Town.

Sect. 9. So much of this By-Law as is approved by the Attorney-General shall go into effect upon its publication, or notice by delivery, as required by law.

CHAPTER 13

Planning Board

A Board consisting of five members is hereby created and established, to be known as the Planning Board. At the annual town meeting to be hald in March, 1923, there shall be elected one member of such Board to sedve for one year, two members to serve for two years and two members to serve for three years, and thereafter there shall be elected at the annual meeting in each year one or two members of such Board to flll the places of members whose terms of office epire in such year. The members of such Board shall serve without pay.

The Board shall perform the the duties prscribed by Sections 70 and 71 of Chapter 41 of the General Laws. It shall be the duty of the Board also to consider and advise upon municipal improvements in regard to which th advice of the Board, at any time, may be asked by any officials of the Town. The Board may upon its own initiative make to any official or officials of the Town such recommendations in regard to municipal improvements as the Board may from time to time think proper or expedient.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON

March 19, 1866. Voted to establish a high school, according to the provisions of Section 2 of Chapter 38 of the General Statutes. (Repealed, 1898, Chapter 496, Section 36)

March 2, 1874. Voted, To accept provisions of Chapter 265 of the Acts of 1873, relative to public landing places is the town of Milton. (Special Act.)

March 4, 1878. Voted, To accept the provisions of Section 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers. (General Laws, Chapter 48, Section 45.)

March 3, 1879. Voted, To accept the provisions of Section 21 of Chapter 38 of the General Statues, relative to the election of School Committee. (General Laws, Chapter 41, Section 1.)

December 8, 1879. Voted, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children. (Repealed, 1919, Chapter 363, Section 16.)

March 5, 1883. Voted, To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children. (Repealed, 1898, Chapter 496, Section 36.)

March 7, 1881. Voted To accept the act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners." (General Laws, Chapter 41, Section 1.)

March 3, 1890. Voted, To accept the first nine sections of Chapter 51 of the Public Statutes, said Chapter being entitled, "Of Betterments, and other Assessments on Account of the Cost of Public Improvements." (General Laws, Chapter 80.)

February 12, 1891. Voted, To accept the act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882. (General Laws, Chapter 45, Sections 1 to 11.)

March 2, 1891. Voted, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of town officers. (Repealed 1893, Chapter 417, Section 345.)

February 3, 1894. Voted, That the town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of 1893, relative to the election of a separate Board of Assessors. (General Laws, Chapter 41, Section 1.)

November 28, 1894. Voted, To accept the provisions of Chapter 324 of the Acts of 1894, entitled an "Act Relative to the Reservation of Spaces in Public Ways." (General Laws, Chapter 82, Section 34.)

March 4, 1895. Voted, That the town hereby accepts the provisions of Chapter 309 of the Acts of 1885, authorizing towns to license groves to be used for picnics and other lawful amusements. (General Laws, Chapter 140, Sections 188 to 190.)

March 4, 1895. Voted, To accept the provisions of Section 272 of Chapter 417 of the Acts of 1893, relative to the election of Sewer Commissioners. (General Laws, Chapter 41, Section 1.)

March 4, 1895. Voted, To accept the provisions of Chapter 462 of the Acts of 1893, relative to the establishment of a building line on Public Ways. (Repealed, Acts of 1917, Chapter 344, Part 8, Section 1.)

March 4, 1895. Voted, To accept the provisions of Chapter 218 of the Acts of 1894 as amended by Chapter 473 of that same year, relative to the election of Boards of Health in towns. (General Laws, Chapter 41, Section 1.)

March 4, 1895. Voted, To accept the provisions of Sections 20 and 21 of Chapter 50 of the Public Statutes relative to the establishment and grading of sidewalks by the Selectmen. (General Laws, Chapter 83, Section 25.)

March 4, 1895. Voted, To accept the provision of Chapter 304 of the Acts of 1895, authorizing the town of Milton to construct one or more systems of sewerage. (Special Act.)

March 1, 1897. Voted, To accept the provisions of Chapter 101 of the Public Statutes, relative to the suppression of common nuisances. (General Laws, Chapter 139.)

March 7, 1898. Voted, To accept the provisions of Section 11 of Chapter 481 of the Acts of 1894, relative to the regulations and inspection of buildings. (General Laws, Chapter 143, Section 3.)

March 5, 1900. Voted, To accept the provisions of Chapter 344 of the Acts of 1899, relative to eight-hour day for town employees. (General Laws, Chapter 149, Section 31.)

REPORT OF THE LEGISLATIVE COMMITTEE

For The Year Ending December 31, 1928

Mr. L. B. Kent has acted for us in examining all bills filed in the Legislature and has reported to the Committee such bills as he thought might affect the Town of Milton. The Committee has also examined the bills as they were printed. Bills which seemed to require possible action were reported to the Selectmen with the recommendations of the Committee, so that the Selectmen might in their discretion instruct the legislative counsel to represent the Town.

Respectfully submitted,

LINCOLN BRYANT,
Chairman for the Committee.

Voted, That the above report be accepted and placed on file.

Article 11. To see what sum of money the Town will vote to appropriate to be expended by the Selectmen for the celebration of the Fourth Day of July, 1929.

Voted, That the sum of $500 be appropriated to be expended by the Selectmen for the celebration of the Fourth Day of July, 1929.

PROTECTION OF PERSONS AND PROPERTY

Article 12. To see what sum of money the Town will vote to appropriate for the Protection of Persons and Property the present year:

Voted, That the following sums be appropriated under this article:

4.	Wire Department		8,725.00
5.	Tree Warden Department:		
	Public Work	$8,500	
	Private Work	3,500	12,000.00
6.	Moth Department:		
	Public Work	$6,000	
	Private Work	4,000	10,000.00
7.	Street Lighting		25,508.25
8.	Additional Lights		1,000.00
9.	Building Inspector		3,000.00
10.	Sealer of Weights and Measures		500.00

Article 13. To see if the Town will vote to authorize the Moderator to apppoint a Committee of three citizens to study the needs of the Town Departments in regard to office space; to appropriate money for the use of said committee and act on anything relative thereto.

Voted, That the Moderator is hereby authorized and instructed to appoint a committee of three citizens who shall study the needs of the Town Departments in regard to office space, prepare plans and specifications as deemed necessary and report in writing to the Selectmen not later than December 1, 1929, and that the sum of $1,500 be appropriated for the use of said committee.

COMMITTEE APPOINTED

William B. Thurber
G. Frank Kemp
Arthur W. Rice

Article 14. To see if the Town will vote to construct a fireproof vault in the office of the Town Clerk and Tax Collector in accordance with the plans approved by the Commissioner of Public Records and appropriate money for the same and act on anything relating thereto.

Voted, That the Town do not so vote.

Article 15. To see what sum of money the Town will appropriate for Traffic Signals to be used on public ways, and act on anything relating thereto.

Voted, That the sum of $11,000 be appropriated, and that the money be expended by the Selectmen.

HEALTH AND SANITATION

Article 16. To see what sum of money the Town will vote to appropriate for Health and Sanitation the present year.

Voted, That the following sums be appropriated under this article:

1.	Health—General	$7,750.00
2.	Dental Dispensary for Schools	750.00
3.	Inspector of Animals	300.00
4.	Vital Statistics	750.00
5.	Sewer Maintenance	3,500.00
6.	Maintenance and Repairs of Norfolk County Hospital	8,646.94

Article 17. To see what sum of money the Town will appropriate for the disposal of garbage, ashes and other refuse and offal, and to see if the Town will authorize the Board of Health to make a contract therefor for a term of years.

Voted, That the Board of Health be and hereby is authorized to make a contract for the disposal of garbage, ashes and other refuse and offal, for a term of not more than three years, and that the sum of $21,560 be appropriated for the above purposes the current year.

Article 18. To see what sum of money the Town will vote to raise and appropriate for the construction of a garage or shelter for town automobiles on the property owned by the Town adjacent to the Thacher Building, to be used by the Water and Engineering Department, and act on anything relating thereto.

Voted, That the Board of Water Commissioners be authorized to build a garage on the property owned by the Town adjacent to the Thacher Building, to be used by the Water and Engineering Department, and that they be authorized to expend $6,500 from the unexpended balance of the Water Maintenance Account for said purpose.

Article 19. To see what sum of money the Town will vote to appropriate for the Water Department the present year, to be expended by the Board of Water Commissioners, and act on anything relating thereto.

Voted, That the sum of $122.000 be appropriated for the use of the Water Department the present year, to be expended by the Water Commissioners pursuant to the provisions of Acts of 1895, Chapter 304, and acts in amendment thereof and in addition thereto, said sum to include Metropolitan Water Assessment, the sum of $25,000 for the retirement of "Town of Milton Water Loan" bonds due in 1929, and $15,192 for the payment of interest on bonds and notes outstanding in "Town of Milton Water Loans"; and that the balance in the water maintenance account as of December 31, 1928, after deducting $6,500 for the building of a garage, be appropriated for Water Department purposes.

Article 20. To see what sum of money the Town will vote to expend for the construction of sewers for sanitary purposes, and for sewage disposal and to raise and appropriate money for the same.

Voted, That the Town appropriate the sum of $40,000 for the construction of sewers for sanitary purposes and for sewage disposal; and that to meet said appropriation there be raised in the tax levy of the current year the sum of $9,000, and that the Treasurer with the approval of the Selectmen be and hereby is authorized to borrow the sum of $31,000 and to issue bonds or notes of the Town therefor, said bonds or notes to bear on their faces the words "Town of Milton Sewer Loan, 1929" and to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twelve years from the date of the first bond or note or such earlier dates as the Treasurer or Selectmen may determine. Each bond shall be in coupon form and shall be subject to registration as to principal and may be exchanged in compliance with the statutory provisions for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticated certificate of the First National Bank of Boston thereon.

(Unanimous Vote)

HIGHWAYS

Article 21. To see what sum of money the Town will vote to appropriate for the Street Department the present year.

Voted, That the following sums be appropriated under this article:

1.	General Expense	$80,000.00
2.	Permanent Construction	17,250.00
3.	Sidewalks	8,000 00
4.	Work upon Public Ways for which parties other than the Town shall be responsible	4,000.00

Article 22. To see what sum of money the Town will appropriate for the drainage of public streets the ensuing year.

Voted, That tht sum of $8,500 be appropriated.

Article 23. To see what sum of money the Town will vote for the care and maintenance of Granite Avenue Bridge over the Neponset River, under Chapter 58, General Acts of 1915.

Voted, That the sum of $7206.70 be appropriated.

Article 24. To see if the Town will vote to accept Reservation Road as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate money for the same, and act on anything relating thereto.

Voted, To accept Reservation Road as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate the sum of $7,500 for the construction of said way.

Article 25. To see if the Town will vote to accept Plymouth Avenue as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate money for the same, and act on anything relating thereto.

Voted, To accept Plymouth Avenue as a town way as laid out by the Selectmen under the laws authorizing the assessment of betterments, and to appropriate the sum of $12,000 for the construction of said way.

Article 26. To see if the Town will vote to accept Laurel Road as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate money for the same, and act on anything relating thereto.

Voted, To accept Laurel Road as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate the sum of $6,250 for the construction of said way.

Article 27. To see if the Town will vote to accept Breck Street as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate money for the same, and act on anything relating thereto.

Voted, To accept Breck Street as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate the sum of $3,500 for the construction of said way.

Article 28. To see if the Town will vote to accept Viola Street as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate money for the same, and act on anything relating thereto.

Voted, To accept Viola Street as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate the sum of $2,000 for the construction of said way.

Article 29. To see if the Town will vote to accept Bassett Street as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate money for the same, and act on anything relating thereto.

Voted. To accept Bassett Street as a town way as laid out by the Selectmen under laws authorizing the assessment of betterments, and to appropriate the sum of $4,400 for the construction of said way.

Article 30. To see if the Town will vote to elect at its next annual meeting three Road Commissioners, one to serve for one year, one for two years and one for three years, and at each annual meeting thereafter to elect one Road Commissioner for three years as provided in Section 63 of Chapter 41 of the General Laws.

Voted, That the Town do not so vote.

Voted, That the report of the Committee be accepted and the committee discharged.

Article 31. To see if the Town will accept the relocation and alteration of Brush Hill Road at the junction with Blue Hill Avenue, as laid out by the Selectmen, and to appropriate money therefor, and act on anything relating thereto.

Voted, To accept the relocation and alteration of Brush Hill Road at the junction with Blue Hill Avenue, as laid out by the Selectmen, and to appropriate the sum of $1,100 for the construction of said way as relocated and altered.

Article 32. To see if the Town will accept the relocation and alteration of Artwill Street at its junction with Reedsdale Road, as laid out by the Selectmen, and to appropriate money for the same, and act on anything relating thereto.

Voted, To accept the relocation and alteration of Artwill Street at its junction with Reedsdale Road, as laid out by the Selectmen.

Article 33. To see what sum of money the Town will appropriate for the construction of the junction of Elm Street and Canton Avenue as relocated and altered by the Selectmen and accepted by vote of the Town at the annual town meeting in March, 1928, and act on anything relating thereto.

Voted, That the sum of $450 be appropriated for the construction of the junction of Elm Street and Canton Avenue as relocated and altered by the Selectmen and accepted by the vote of the Town at the annual town meeting in March, 1928.

Article 34. To see what sum of money the Town will appropriate for the payment of amounts due the County of Norfolk on account of expense and damages paid by the County in connection with the layout of Granite Avenue, and for the payment of other damages in connection with the same.

Voted, That the sum of $11,799.53 be appropriated for the payment of amounts due the County of Norfolk on account of expenses and damages paid by the County in connection with the layout of Granite Avenue, and for the payment of other damages in connection with the same.

Article 35. To see what sum of money the Town will appropriate for the completion of the construction of Granite Avenue, and act on anything relating thereto.

Voted, That the sum of $6,500 be appropriated.

Article 36. To see what sum of money the Town will vote to raise and appropriate for the reconstruction and repair of Randolph Avenue in conjunction with the Commonwealth of Massachusetts and/or the County of Norfolk, and to see if the Town will authorize the Board of Selectmen in its name and behalf to enter into all necessary and proper contracts, in connection with the same, with said Commonwealth and/or said County, and with corporations and persons, and act on anything relating thereto.

Voted, That the Town appropriate no money and that no authority for action be given the Selectmen.

Article 37. To see if the Town will vote to revoke the reservation of a certain part of the special space for the use of street railways heretofore reserved by the Town under authority of the Acts of 1895, Chapter 121, said part being described as follows:

> All that part of space reserved as aforesaid in Randolph Avenue, commencing at the boundary line between the city of Quincy and the town of Milton and running about 4500 feet and terminating on the westerly side line of Randolph Avenue at land of the Commonwealth of Massachusetts.

and act on anything thereto.

Voted, That the Town do not so vote.

Article 38. To see what sum of money the Town will appropriate for the construction of, and payment of damages in connection with, Bassett Street, as laid out by the Selectmen and accepted by the vote of the Town at the annual meeting in March, 1928, and act on anything relating thereto.

Voted, To appropriate $3,900 for the construction of, and payment of damages in connection with, Bassett Street as laid out by the Selectmen and accepted by the vote of the Town at the annual meeting in March, 1928.

Article 39. To see if the Town will vote to authorize the Board of Park Commissioners to sell and convey at private sale, in the name and behalf of the Town, at such price and under such terms and conditions as the Park Commissioners may determine the whole or any part of a certain parcel of land on Blue Hill Avenue, the same having been acquired by the Town for the purposes of a gravel pit and, later, having been held for

playground purposes, and being bounded and described as follows, and to act on anything relating thereto.

Commencing at a stone bound in the County Commissioners' line forming the southeasterly boundary of Blue Hill Avenue, set at land now or formerly of Bridget Will, thence running southerly along said land of Will 104.05 feet to a point; thence running northwesterly to said County Commissioners' line and forming an angle of 90 degrees therewith, 85 feet; thence running northeasterly along said County Commissioners' line, 60 feet to the point of beginning.

Containing 2,550 square feet more or less.

Voted, That the Board of Park Commissioners be and hereby is authorized to sell and convey at private sale, in the name and behalf of the Town, at such price and under such terms and conditions as the Park Commissioners may determine, the whole or any part of a certain parcel of land on Blue Hill Avenue, the same having been acquired by the Town for the purposes of a gravel pit, and, later, having been held for playground purposes, and being bounded and described as follows:

Commencing at a stone bound in the County Commissioners' line forming the southeasterly boundary of Blue Hill Avenue, set at land now or formerly of Bridget Will, thence running southerly along said land of Will 104.05 feet to a point; thence running northwesterly to said County Commissioners' line and forming an angle of 90 degrees therewith, 85 feet; thence running northeasterly along said County Commissioners' line, 60 feet to the point of beginning.

Containing 2550 square feet more or less.

Article 40. To see if the Town will authorize the Selectmen to sell and convey in the name and behalf of the Town, at such price and upon such terms as they may determine, a certain parcel of land in the Town, bounded and described as follows:

A parcel of land on the west side of Hudson Street, being Lot No. 135, bounded as follows: On the east by Hudson Street; on the south by Lot No. 134; on the west by Lot No. 127; on the north by Lot No. 136.

All shown on Plan No. 12 in the Assessors' Office.

The same having been acquired by the Town at sale for non-payment of taxes, the right of redemption having been foreclosed, and act on anything relating thereto.

Voted, That the Board of Selectmen be and hereby is authorized to sell and convey in the name and behalf of the Town, at such price and upon such terms as they may determine, a certain parcel of land in the Town bounded and described as follows:

A parcel of land on the west side of Hudson Street, being Lot No. 135, bounded as follows:

On the east by Hudson Street; on the south by Lot No. 134; on the west by Lot No. 127; on the north by Lot No. 136;

All shown on Plan No. 12 in the Assessors' Office.

The same having been acquired by the Town at sale for non-payment of taxes, the right of redemption having been foreclosed.

Article 41. To see if the Town will vote to authorize the Board of Selectmen to sell and convey on behalf of the Town, at such price and upon such terms as they may determine, a certain parcel of land purchased by the Town at a tax sale for non-payment of taxes, bounded and described as follows:

A certain parcel of land situated in Milton and bounded: Southerly by the Quincy line; westerly by land now or formerly of Edward Baker and land now or formerly of John F. Beatty and Joseph P. and Martin Lomasney; northerly by land now or formerly of said Betty and said Lomasney; easterly by land now or formerly of said Beatty and said Lomasney and by land now or formerly of Lillian Davis and Edith Karp.

Containing 4.2 acres and being quarry land off Quarry Street.

and act on anything relating thereto.

Voted, That the Board of Selectmen be and hereby is authorized to sell and convey on behalf of the Town, at such price and upon such terms as they may determine, a certain parcel of land purchased by the Town at a tax sale for non-payment of taxes, bounded and described as follows:

A certain parcel of land situated in Milton and bounded: Southerly by the Quincy line; westerly by land now or formerly of Edward Baker and land now or formerly of John F. Beatty and Joseph P. and Martin Lomasney; northerly by land or formerly of said Beatty and said Lomasney; easterly by land now or formerly of sair Beatty and said Lomasney and by land now or formerly of Lillian Davis and Edith Karp.

Containing 4.3 acres and being quarry land off Quarry Street.

Article 42. To see if the Town will vote to authorize the Board of Selectmen, in its name and behalf to sell and convey at public auction or private sale, a certain parcel of land formerly used as a gravel pit, bounded and described as follows:

A parcel of land in the Town of Milton, bounded: Northwesterly by Blue Hill Avenue; northeasterly by the land now or formerly of Wallace C. Tucker; Southeasterly by land now or formerly of Clara S. McCully; southwesterly by a passage and by land now or formerly of Martin Gibbons.

Containing 843 square feet more or less.

and act on anything relating thereto.

Voted, That the Town do not so vote.

Article 43. To see if the Town will vote to accept as a gift, a certain parcel of land bounded and described as follows:

Northeasterly on land now or formerly of New York, New Haven and Hartford Railroad Company, 15 feet; southeasterly on Lot B shown on the plan hereinafter referred to, 56.98 feet; southwesterly on Cliff Road, 15.16 feet; northwesterly on Lot A shown on said plan, 56.83 feet.

Containing 843 square feet more or less. Said lot is shown on a plan entitled, "Town of Milton—Plan of Land at the End of Cliff Road," dated December 4, 1928, by Forrest J. Maynard, Town Engineer.

and act on anything relating thereto.

Voted, To accept as a gift, a certain parcel of land bounded and described as follows:

Northeasterly on land now or formerly of the New York, New Haven and Hartford Railroad Company, 15 feet; southeasterly on Lot B shown on the plan hereinafter referred to, 56.98 feet; southwesterly on Cliff Road, 15.16 feet; northwesterly on Lot A shown on said plan, 56 83 feet.

Containing 843 square feet more or less.

Said lot is shown on a plan entitled, "Town of Milton—Plan of Land at the End of Cliff Road," dated December 4, 1928, by Forrest J. Maynard, Town Engineer,

and that the Selectmen be and hereby are authorized to act for the Town in connection with same.

Article 44. To see if the Town will vote to amend Chapter 10 of the Revised By-Laws, in Section 1 thereof, by striking out said section and substituting substantially the following:

> Section 1. No way shall be laid out for the acceptance of the Town as a town way, less than fifty feet in width, excepting, that upon written certification by the Board of Survey, in respect to the layout of a particular way, that the reuirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but not less than forty feet in width, and provided that this section shall not prevent the layout of any way which, prior to July 9, 1927, was duly approved by the Board of Survey, or the layout of a way not less than 30 feet in width over a private way which, prior to July 9, 1927, was constructed and open to public travel (or prior to March 3, 1913, was constructed and open to public travel,)

and act on anything relating thereto.

Voted, That Chapter 10 of the Revised By-Laws be and hereby is amended by striking out Section 1 thereof and substituting the following:

> Section 1. No way shall be laid out by the Town as a town way less than fifty feet in width, excepting that upon written certification by the Board of Survey, in respect to the layout of a certain way, that the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but no less than 40 feet in width, and provided that this to July 9, 1927, was duly approved by the Board of Survey, and further provided that if the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, then this section shall not prevent the layout of any way not less than thirty feet in width, over a private way which, prior to March 3, 1919, was constructed and open to public use.

PUBLIC WELFARE

Article 45. To see what sum of money the Town will vote to appropriate for the Public Welfare Department the present year.

Voted, That the sum of $13,000 be appropriated for the present year and $526.02 be appropriated for unpaid bills of 1928.

Article 46. To see if the Town will authorize the Selectmen to let or lease for not more than five years, or such time as the Selectmen may determine, the building known as the men's house, and land surrounding and appurtenant thereto, located on the Town Farm property off Canton Avenue, Milton, Massachusetts, and act on anything relating thereto.

Voted, That the Selectmen be and hereby are authorized to let or lease for not more than five years, the building known as the men's house and the land surrounding and appurtenant thereto, located on the Town Farm property off Canton Avenue, Milton, the proceeds thereof, after payment of expenses in connection with the same, to be for the benefit of the poor of Milton as the Selectmen shall judge best, in accordance with the terms of the will of William Stoughton, formerly of Boston, deceased.

Soldiers' Benefits

Article 47. To see what sum of money the Town will vote to appropriate for Soldiers' Relief the present year.
Voted, That the sum of $2,000 be appropriated.

Article 48. To see what sum of money the Town will vote to appropriate for State Aid and Military Aid under Chapter 200, General Acts of 1919, the present year.
Voted, That the sum of $800 be appropriated.

Article 49. To see what sum of money the Town will vote to appropriate to be expended by the Huntington Frothingham Wolcott Post No. 102, G. A. R., on Memorial Day.
Voted, That the sum of $400 be appropriated.

Schools and Libraries

Article 50. To see what sum of money the Town will vote to appropriate for the support of the Schools the present year.
Voted, That the sum of $277,000 be appropriated for the present year and $118.50 be appropriated for unpaid bills of 1928.

Article 51. To see what sum of money the Town will vote to appropriate for Vocational Education under the provisions of General Laws, Chapter 74, and act on anything relating thereto.
Voted, That the sum of $1,000 be appropriated for the present year and $291.47 be appropriated for unpaid bills of 1928.

Article 52. To see if the Town will vote to accept the provisions of Section 44 of Chapter 32 of the General Laws relating to municipal pension for school janitors, and act on anything relating thereto.
Voted to accept the provisions of Section 44 of Chapter 32 of the General Laws relating to municipal pension for school janitors.

Article 53. To see if the Town will vote to authorize the appointment of a committee which shall have authority to consider the need for additional schoolhouse accommodations in the Mattapan district and to procure plans, specifications, and approximate estimates for an elementary school building on the schoolhouse site on Eliot Street, and that the sum of $3,000 (Three Thousand Dollars) be appropriated to defray the expenses of such committee, said committee to report to the Selectmen in writing not later than December 1, 1929.
Voted, That the Moderator be authorized and instructed to appoint a committee which shall have authority to consider the need for additional schoolhouse accommodations in the Mattapan district and to procure plans, specifications and approximate estimates for an elementary school building on the schoolhouse site on Eliot Street, and that the sum of $3,000 (Three Thousand Dollars) be appropriated to defray the expenses of such committee, said committee to report to the Selectmen in writing not later than December 1, 1929.

COMMITTEE APPOINTED

Charles M. Rogerson
William F. Dugan
Howard E. Murphy
Eliot T. Putnam
Arthur W. Vose.

It was unanimously requested that the Committee when selecting a name for this school consider the name of "Nathaniel H. Stone" as being an appropriate one.

Article 54. To see what sum the Town will raise and appropriate for completing the construction of the school building on Edge Hill Road and for original equipment and furnishings of said school building, and act on anything relating thereto.

Voted, That the Committee appointed by the Moderator pursuant to the vote of the Town at its Annual Town Meeting held in March 1928, and continued as a committee by vote of the Town at its Special Meeting held June 13, 1928, for the purpose of erecting the school building on Edge Hill Road, be further continued as a committee for the purpose of equipping said school and grading land and playgrounds appurtenant thereto and that the sum of $37,000 be appropriated for said purposes to be expended by said committee; that $8,802.21 be raised in the tax levy of the current year; that $2,588.65 be transferred from the unexpended balance of the New Tucker School Account; that $11.94 be transferred from the unexpended balance of the High School Addition account; that $597 20 be transferred from the unexpended balance of the War Memorial Account; and that the Treasurer be and hereby is authorized in the name and behalf of the Town to borrow a sum not exceeding $25,000 for said purposes and to issue bonds of the Town not exceeding said sum. Said bonds shall bear on their face the words "Town of Milton School Loan", and shall be payable as required by Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than five years from their date. They shall be sold at not less than the par value thereof from time to time by the Treasurer. Each bond shall be in coupon form, subject to registration as to principal, and may be exchanged in compliance with the statutory provisions for a registered certificate representing an equivalent obligation for the principal and interest. The coupon bonds shall not be obligatory without the authenticating certificate of the First National Bank of Boston thereon.

(Unanimous Vote)

Article 55. To see what sum of money the Town will vote to appropriate for the Public Library the present year.

Voted, That the sum of $20,500 be appropriated.

Article 56. To see if the Town will vote to erect and equip a branch library building in the Mattapan district, and to determine how the money therefor shall be raised and to act on anything relating thereto.

Voted, That the Trustees of the Library be and hereby are authorized to erect and equip a branch library on the town land at 101 Blue Hills Parkway, substantially in accordance with plans formulated by them at the request of the Town at the Annual Town Meeting held March 17, 1928, being plans made by Eliot T Putnam, Architect, dated December 14, 1928; and that the sum of $40,000 b appropriated for this purpose.

REPORT REGARDING LIBRARY BRANCHES AT MATTAPAN AND EAST MILTON

Pursuant to the vote of the Town at the annual meeting in March 1928, the Trustees of the Milton Public Library have proceeded to formulate plans for the possible development of the Mattapan and East Milton branches of the Library.

The branch in Mattapan at present occupies the Kidder House on a site which, together with the building, has recently been acquired by the Town by gift from the Kidder House Association. The site is well suited for a new branch library building, being conveniently located and of ample size. The present building is believed by the Trustees to be inadequate. It is not advisable to go to any considerable expense to repair or to reconstruct it.

The branch in East Mliton is now located in rented quarters. The rooms are small and inconvenient, and this rapidly growing section of the Town needs better accommodation. The Trustees have viewed and considered several sites in East Milton. The Town now owns land on Adams Street, a part of the site of the old schoolhouse. Other locations have certain advantages over this. The Trustees do not feel that they are ready yet to make a definite recommendation for this branch and desire more time for consideration.

Tentative plans have been prepared for a branch library building suitable for the site in Mattapan and an estimate of the cost of the building has been made.

The cost as so estimated is $40,000 complete with the equipment and the necessary grading, etc.

The plans have been studied carefully with reference to the particular needs of the Town, and of the district for which the building is designed, and comparisons have been made with other communities which have met with the same problem. The Trustees believe that a library built from these plans would be most desirable for the present use and capable of being extended if necessary for any future growth of the Town in the district.

As the generous gift to the Town has made the site available without cost for the Mattapan branch, the Trustees recommend that a building be erected thereon in accordance with the plans and at a cost as noted above. The Trustees believe that such a building is much needed if the work of the Library in Mattapan is to be extended or maintained. They feel also that a building in East Milton, which is equally needed, should be erected in the near future.

Trustees of the Milton Public Library.

NATHANIEL T. KIDDER,
Chairman.

The above report was read by Mr. Kidder and accepted and placed on file.

Recreation and Unclassified

Article 57. To see what sum of money the Town will vote to appropriate for the general uses of the Board of Parw Commissioners the present year.

Voted, That the sum of $5,510 be appropriated.

Article 58. To see if the Town will vote to acquire the land hereinafter described, offered to the Town as a gift, for the purposes of a playground and, or recreation center, and appropriate such sum as may be necessary to meet the expense of taking title to said land and marking the boundaries of the same, and act on anything relating thereto. Said land is bounded and described as fololws:

> Northerly by Maple Street, 15.13 feet; northeasterly by land now or formerly of Martin, 238.07 feet; southeasterly by land now or formerly of Frederick A. Gaskins, 77.88 feet; southwesterly by said land now or formerly of Gaskins, 36.79 feet; northwesterly by other land of James S Russell, 155.10 feet; southwesterly by said land of Russell in two courses, 41.68 feet and 83.02 feet.
>
> Containing 9,942 square feet more or less and being shown on a plan entitled, "Plan of Land in Milton, Mass.", by Aspinwall & Lincoln, Civil Engineers, dated December 5, 1928, on file in the Office of the Park Commissioners.

Voted, That the Town do not so vote.

Article 59. To see what sum of money the Town will vote to appropriate for Pensions and Annuities the present year.

Voted, That the following sums be appropriated:

1.	Police and Firemen, Section 85, Chapter 32, General Laws	$ 4,200 00
2.	Annuity, Chapter 16, Special Acts of 1919	300 00
3.	Police and Firemen's Widows, Pensions, Section 88, Chapter 32, General Laws	1,200 00
4.	Laborers' Pensions, Section 77, Chapter 32, General Laws	6,066 96
5.	School Teachers' Pensions, Section 42, Chapter 32, General Laws	925 00
6.	Pensions, Chapter 9, Special Acts of 1925	1,000 00

Enterprises and Cemeteries

Article 60. To see what sum of money the Town will vote to appropriate for the improvement of the Cemetery the present year.

Voted, That the sum of $17,700 be appropriated.

Article 61. To see if the Town will authorize the Trustees of the Cemetery to secure plans and construct a building in the cemetery grounds to be used for storage of tools and equipment, and locker rooms for employees, and to raise and appropriate money for the same, and act on anything relating thereto.

Voted, That the Trustees of the Cemetery be and hereby are authorized to secure plans and construct a building in the cemetery grounds to be used for storage of tools and equipment, and locker rooms for employees, and that the sum of $10,000 be appropriated for said purpose.

Interest and Maturing Debt

Article 62. To see what sum of money the Town will vote to appropriate for Interest and Maturing Debt the present year.

1. Interest

   Voted, That the sum of $46,767.50 be appropriated.

2. Maturing Debt

Voted, That the sum of $87,000 be appropriated and to meet said appropriation, there be raised in the tax levy of the current year the sum of $84,879.45 and that the sum of $2,120.55 be appropriated out of the Premium on Bond Account.

Article 63. To see if the Town will vote to authorize the Moderator to appoint a committee of citizens which shall consider the needs, present and future, of the Town in respect to aviation requirements, and report to the Warrant Committee, with recommendations, on or before December 1, 1929.

Voted, That the Moderator be and hereby is authorized and instructed to appoint a committee of citizens which shall consider the needs, present and future, of the Town in respect to aviation requirements, and report to the Warrant Committee, with recommendations, on or before December 1, 1929.

Committee Appointed

Harold W. Pierce
John E. Berry
Thomas F. White

Article 64. To see what action the Town will take upon the reports of the committees aappointed under Articles 58 and 59 of the Warrant for the annual town meeting held in March, 1928, for the following purposes, respectively: to consider the regulation of future real estate developments in the Town, and to consider the advisability of revising the building laws of the Town; and act on anything relating thereto and appropriate money in connection therewith.

Voted, That the two committees appointed under articles 58 and 59 of the warrant for the annual town meting held in March 1928, be consolidated into a single committee of five, composed of the same five citizens appointed on said committees, who shall consider the regulation of future real estate developments in the Town, the policy of laying out highways and assessment of Betterments thereon and the advisability of revising the building laws of the Town, and report to the Board of Selectmen not later than December 1, 1929, and that the appropriations of $600.00 made at said meeting held in March 1928 be continued for the use of said committee. Oscar W. Haussermann was appointed to fill vacancy caused by resignation of Edward C. Bradlee.

Article 65. To see if the Town will vote to amend Chapter 4 of the Revised By-Laws, in Section 2 thereof, by striking out from said section the words "a list of all taxes assessed", and act on anything relating there-

Voted, That Chapter 4, Section 2 of the Revised By-Laws be hereby is amended by adding in the 10th line thereof, after the word "assessed," the words, "Except the," Poll Tax list so that Section 2 will read as follows:

> Section 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the Town, a detailed report of all money received into and paid out of the Town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the Town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, except the poll tax list, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the Trustees respectively, and a statement of all other funds belonging to the Town or held for the benefit of its inhabitants; also statements of the liabilities of the Town on bonds, notes, certificates of indebtedness or otherwise, and of the total money paid the Town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as maybe required by the By-Laws of the Town

APPROVED BY THE ATTORNEY GENERAL JUNE 1, 1929

Article 66. To see what sum of money the Town will vote to appropriate for a readjustment of the taxable property values by the Board of Assessors during the present year.

Voted, That the Town do not so vote.

Article 67. To see if the Town will vote to accept an act authorizing the City of Boston and the Town of Milton to reimburse Thomas Gordon for money paid by him for expense of defending a certain action and in satisfaction of a certain execution therein.

Voted, That the Town so vote.

Article 68. To see what sum of money the Town will vote to appropriate to reimbures Thomas Gordon for money paid by him for expense of defending, and if satisfaction of an execution issued in, an action brought against him to recover damages for a certain act done in the performance of his duties as an employee of the Granite Avenue Bridge Commission.

Voted, That the sum of $746.15 be appropriated.

And you are directed to warn said innabitants qualified as aforesaid to meet at the times and places and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days at least before said second of March, and leaving printed copies thereof at the dwelling houses of said Town at least four days before said date.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk, on or before said second of March, next.

Given under our hands at Milton, the fourteenth day of February, nineteen hundred and twenty-nine.

JOSIAH BABCOCK,
FREDERICK A. GASKINS,
KENNETH D. JOHNSON,
Selectmen of Milton.

Commonwealth of Massachusetts, Norfolk, ss.

Milton, February 25, 1929.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON.
Constable of Milton.

March 9, 1929 at 6:30 P. M.

Voted, That the Meeting be dissolved.

The foregoing meeting was opened March 2, 1929, at 5:45 A. M., by the Wardens in the several precincts.

Attest:
G. FRANK KEMP,
Town Clerk.

DEPARTMENT REPORTS

REPORT OF SELECTMEN

Milton, Mass., Dec. 31, 1929.

To the Citizens of Milton:

Your Board of Selectmen respectfully submits the following report for the year 1929:

As a result of the annual election held on the first Saturday in March, Messrs. Josiah Babcock, Kenneth D. Johnson and Norton Wigglesworth were elected Selectmen for one year. Both Messrs. Babcock and Johnson are serving their sixth successive terms and Mr. Wigglesworth his second term. The Board organized with Mr. Johnson serving as Chairman and Mr. Wigglesworth as Secretary.

Appointments

The Board made very few changes in the matter of appointments during the year with the exception of Insurance Adviser to which office Frank R. Forde was appointed, and of Superintendent of the Highway Department to which Forrest J. Maynard was appointed as of April 1st. The other appointments made by the Board will be found elsewhere in this annual report of the town.

Licenses

Questions involving the interpretation and administration of the Zoning By-Law have continued to occupy the attention of the Board. There have been eleven public hearings on applications filed for variances of the existing by-law and additions to existing commercial properties. Public hearings were held on three applications involving rather prominent commercial properties located in various parts of the town that are legally styled as "non-conformers" by reason of the fact that they are located in the residential district but are allowed to continue their respective commercial operations because they were in the residential district at the time the Zoning By-Law was enacted. The applications before the Board in all three of these cases called for material additions which the Board felt, if allowed, would substantially change the character of the neighborhood and derogate from the original intent and purpose of the Zoning By-Law. In view of this conclusion these applications were all denied. In one case the Board granted a garage location where the lot line, due to the irregular shape of the lot made it impossible for the owner to locate his garage in accordance with the provisions of the Zoning By-Law. In another case, the Board allowed a variation to provide for the conduct of a riding stable in the Blue Hills section of the town. An effort to vary the Zoning By-Law so as to permit the erection of a two-family house on a vacant lot, which did not come within the provisions of the Zoning By-Law, was denied. Considerable discussion and correspondence has taken place in connection with the construction of a greenhouse on Blue Hill Avenue in the residential district. Under the provisions of Chapter 12, Section 3, Paragraph (g), this type of business is permitted but not for retail purposes. It is the intention of the Board to see that this section is legally enforced until such time as it is changed by the citizens of the town. The Water and Engineering Departments sought permission to erect a ten-car garage for municipal purposes on land owned by the town in the vicinity of the Thacher Building. The Selectmen could see no good reason for varying the terms of the Zoning By-Law in this case and as a result denied the application.

Permits to install gasoline tanks have been granted during the year, one in the commercial zone and one in the residential district on application of a "non-conformer."

The Board has granted an additional license for motor bus transportation to the Eastern Massachusetts Street Railway Company, the details of which are considered under the heading of "Public Transportation" in this report. The usual applications for peddlars' licenses, junk collectors' licenses, victuallers' licenses, antique shop licenses, permission to purchase and carry revolvers, to parade on public highways, to move buildings over the public highways, to conduct intelligence offices, and many other similar activities have demanded the Board's attention throughout the year.

Law

The town has not been involved in any particular legal actions during the past year. The Board has received whatever legal advice has been necessary on all questions from Town Counsel Lincoln Bryant, who has been retained on the same basis as in the past few years.

The long drawn-out litigation involved in the suit of the General Outdoor Advertising Company against the Department of Public Works of Massachusetts has not yet been concluded, although final arguments have been made by Counsel representing both sides before the Master who was assigned to hear this case. No doubt it will have an early hearing before the Supreme Judicial Court and it is anticipated that a final decision will be reached during 1930.

Felix Rackemann, having recovered sufficiently from injuries which he suffered in the latter part of 1926, has resumed his duties as Legislative Counsel and has been of assistance to the Board in matters pertaining to legislation.

Highways

Snow: With the exception of rather unusual conditions in the latter part of February and in the early part of December, there have been no particular difficulties in the removal of snow and ice during the year. The equipment now owned by the town for carrying on this work has required some small replacements and would certainly be materially assisted by the purchase of a heavy type of truck that could be used not only during the time of year when there is no snow and ice, but to great advantage during the winter months.

Maintenance: Under the superintendence of Mr. Maynard, the Board has made an effort to maintain the public highways throughout the town so as to provide a safe and comfortable means of travel so essential to the convenience and well-being, not only of our citizens, but of others who make use of our highways. We have spent more money than ever before in resurfacing certain highways that were beyond the stage where further patching and minor repairs could be of any real value. In this connection we call your attention to the work that has been done on Highland Street, Brook Road, between Brush Hill Road and Blue Hill Avenue, Lincoln Street, Brook Hill Road, and Squantum Street. These jobs can in no sense be described as permanent construction, but we feel that they will give a satisfactory return on the money invested in constructing them to their present condition. Other jobs of reconstruction along this line have been done on Canton Avenue, Randolph Avenue, Grafton Avenue, Huntington Road, and in a few other sections of the town.

Street oiling has been characterized by the use of a larger quantity of oil, in many cases of a heavier grade than ever used before, and in the use of more pea-stone to take the place of sand that has usually been applied for this work. Excellent illustrations of the result gained can be seen in the present surface on Walnut Street, Spafford Road, Clapp Street and Valley Road.

The Board had an oppropriation of $10,000.00 less than the previous year and with the same personnel, with the exception of two or three changes, and with the same equipment, with the exception that it was all a year older, wa sable to complete the year without the necessity of a transfer from the Reserve Fund. At the same time, the year was concluded with all bills paid and no material and supplies delivered in 1929 to be paid for in 1930. However, if an emergency had arisen during the past year this appropriation would not have been adequate and therefore we recommend an increase for 1930 of this account.

Permanent Construction: At the annual meeting in March the sum of $17,250.00 was appropriated for this item, and with the exception of a small balance, all of this amount was expended in rebuilding Thacher Street from Blue Hills Parkway to Breck Street. This work was done by Simpson Brothers, the same firm of contractors that did the job on Adams Street, East Milton, in 1928. Because of the successful results gained from the Adams Street job, a similar type of work was done on Thacher Street.

For the coming year the Board has recommended a much larger sum of money for permanent construction, emphasizing the necessity of doing this work on Canton Avenue from the Parkway to Atherton Street and on Eliot Street and Central Avenue from Morton Road to Brook Road. This second stretch of highway is made necessary by the abandonment of the street car line, formerly operated by the Eastern Massachusetts Street Railway Company in conjunction with its East Milton to Milton Lower Mills Route. During the past year the work on Canton Avenue has been anticipated by reason of the construction of an underground storm water drainage system which leaves simply the matter of reconstructing the street in order to provide us with a first class highway over this important route.

Randolph Avenue: As a result of the excessive cost of reconstructing Randolph Avenue from the Quincy line to Highland Street as estimated a year ago, making the town's share something over $90,000.00, the Town Meeting, on recommendation of the Selectmen, voted to take no action during the past year. However, early in the year the Board, realizing the importance of planning for this work, requested Jesse B. Baxter, a former member of the State Department of Public Works, to act as special representative of the Board in working out a new plan for the construction of this highway. As a result of the work that has been done during the year, the Board has received a communication from the Department of Public Works informing it that if the Town of Milton will appropriate $35,000.00 the State will build this highway in 1930. The County Commissioners for Norfolk County have also agreed to contribute an amount not exceeding $30,000.00 towards the cost of this construction. Together with this good news the Board has been informed that the Eastern Massachusetts Street Railway Company is planning to abandon its Brockton to Mattapan car line and to substitute a bus line, thus eliminating the additional expense which would have to be borne by the town for relocating the tracks of this company along the route proposed for reconstruction. In other words, what looked like a job that would cost the town over $90,000.00 in March of 1929, has now been reduced to a cost to voted unanimously to recommend an appropriation for this amount as Milton's contribution to this very necessary highway reconstruction program.

Other Road Work: During the past year the Boston Consolidated Gas Company has been engaged in rather extensive operations throughout the town in connection with the strengthening and extension of its underground service. One of the most important jobs in this connection was the laying of an 18 inch pipe on Squantum Street from the Quincy line to Granite Avenue. As a result of negotiations with this company, the Board

received an allowance from the company of $3,000.00 to repair the damage done to that particular highway as a result of the laying of this new main. With this amount and with nothing additional expended by the town, our Highway Department succeeded in resurfacing the entire length of Squantum Street from Granite Avenue to the Quincy line with the exception of a few hundred feet bordering the Wollaston Golf Club property.

Sidewalks

With the $8,000.00 appropriated for permanent sidewalks, we have laid granolithic walks on the east side of Granite Avenue from Adams Street to Sqantum Street and on the north side of Canton Avenue from Thacher Street to Elm Street. For many years the permanent sidewalk originally laid on Eliot Street has been broken up and, in spite of attempts to repair it, has been particularly dangerous for pedestrians. This year the Board relaid this sidewalk for the entire length of Eliot Street from Blue Hills Parkway to Central Avenue at a cost of $4,000.00 none of which could be assessed back to the abutters in view of the fact that this constituted the reconstruction of an existing permanent sidewalk. All of the sidewalk work during the year described in this report has been done by contract after the receipt of competitive bids presented by a number of reputable contractors engaged in this type of work.

The one big sidewalk job anticipated and recommended by the Board for 1930 is the construction of a granolithic walk on the west side of Thacher Street from Blue Hills Parkway to Lincoln Street. The present sidewalk facilities on this highway are not only inadequate but entirely unsatisfactory. The invitation to the pedestrian to walk on the present smooth surface of the travel way creates a danger that can only be eliminated by the construction of such a sidewalk as is proposed in this recommendation. We also are impressed with the gradual increase in population that is taking place in the south section of the town along Hillside Street and have included in our recommendations for 1930 an appropriation for the construction of a gravel sidewalk on one side of Hillside Street from Randolph Avenue to Harland Street.

Drainage

The amount appropriated for storm water and surface drainage as part of the program which must necessarily be spread over a period of years has produced most beneficial results. The one big single item has been the laying of underground drainage on Canton Avenue between the Parkway and Atherton Street. Other work has been done in the Thacher Street district and particular attention was paid to the problem on Eliot Circle where a new line has been laid eliminating what has for many years been a very bad condition.

Without proper drainage facilities it is impossible to maintain existing highways or to plan on the construction or reconstruction of other public ways. One of the fundamentals in road construction is proper drainage. The town has made serious mistakes in the past for not recognizing the importance of this fact. We are, therefore, recommending an extensive drainage program for 1930 the details of which are outlined in the reports submitted by Mr. Maynard.

Street Widenings and Corners

No extensive street widening program was before us during the year but we have completed the work started in 1928 in connection with the relocation and widening of the corner at Randolph Avenue and Adams Street. We have also carried out the desires of the town as voted at

the annual meeting in relocating and widening the corners at Elm Street and Canton Avenue and at Blue Hill Avenue and Brush Hill Road in the Blue Hill section of the town.

For 1930 we recommend the widening of Edge Hill Road between Adams Street and Boulevard Street and the relocation and widening of corners at Adams Street and Edge Hill Road, at Adams Street and Hollis Street, at Adams Street and Brook Road, and at Thacher Street and Warren Avenue.

Due to the generosity and co-operation of the Turner estate and of William J. Creedon, the Board was able to effect a marked improvement at the corner of Thacher Street and Lincoln Street during the past year.

Bridges and Guard-Rails

Due to the condition of the Granite Avenue Bridge it was necessary for the town during the past year to participate in an extraordinary expense involving the repair of that bridge. This work was done under supervision of the Division of Bridges of the Department of Public Works of the City of Boston and has been highly commended by those who are familiar with the former condition of this bridge. Our own Highway Department has been engaged in the necessary repairs and reconstruction of bridges and guard-rails on Thacher Street, Pleasant Street and on Adams Street.

Betterment Construction

During the past year, as a result of votes at the annual Town Meeting, seven ways, formerly private ways, have been constructed under the Betterment Act as town ways. The three most expensive of these jobs have been done by private contract involving the largest amount of money ever expended by the town for this purpose under private contract. The remaining four ways have been constructed by our Highway Department. This work was all completed early in November and the bills as assessed against the abutters were delivered before the close of the year. The Board is more strongly convinced than ever that in spite of the apparent unimportance of many of these streets from the point of view of heavy traffic that it is essential that they be constructed of stone material rather than of gravel. The maintenance of a gravel road begins the day that its construction is completed. Although the initial expense involved in the construction of a gravel way may be less than that involved in the construction of a stone road, we consider it poor economy to build any more gravel roads because of the cost involved in their maintenance.

For 1930 the Board has voted to lay out and has recommended appropriations amounting to over $98,000.00 for the construction of 15 new private ways as town ways under the Betterment Act. Although this is an unusual amount of money we feel that it will not be duplicated in any one year in the near future and that if the town will accept our recommendation that it will do much to satisfy the urgent demand of our citizens who live on these private ways. It is well to bear in mind that under the present policy adopted by the Board only one-third of the total cost is actually paid for by the town. If our citizens are willing to contribute two-thirds of the cost of building these new streets we are unable to see any good reason why the town should not cooperate with them thereby receiving an improvement that is not only a benefit to the particular citizens living on the new streets but is of a general benefit to the town as a whole.

Street Lighting

With the usual appropriation of $1000.00 for additional street lights, the Board has had installed on Granite Avenue from Adams Street to Squantum Street nine of the new lights commonly known as the Arc lamp type.

This area was never properly lighted and with the additional width of the street and its continued importance as a main artery it was necessary to replace the old street lighting system with the modern one. In addition to this, new street lights have been placed in various parts of the town, adding to the convenience and safety of our citizens. For 1930 we are requesting another appropriation of $1,000.00 for this item and have in mind particularly the improvement of the street lighting in the neighborhood of the Town Hall and Thacher Building.

Milton has been particularly fortunate in its choice of a World War Memorial. Visitors to the town comment most enthusiastically on the beautifully artistic and symbolic monument that was dedicated some years ago on the Town Hall lot. Believing that the beauty of this Memorial can be more greatly enhanced during the hours when there is no daylight, we are recommending that the town appropriate the sum of $600.00 to improve the lighting facilities of this Memorial. This recommendation is based on a study which has been furnished to us by engineers of the Edison Company and we believe that the results gained from this improvement will be a particular satisfaction to the citizens of the town.

Traffic Signals

For the first time in its history the town has been equipped with a uniform system of automatic traffic signals. This has been made necessary not only on account of the increased traffic hazard but because of the program now carried on under the supervision of the Department of Public Works of the State. At eight intersections throughout the town, under the supervision of our Highway Department, traffic lights have been installed both on the pre-timed and manual system. At the intersections of Granite Avenue and Squantum Street and of Blue Hill Avenue, Dollar Lane, and Milton Street electro-matic traffic signals have been installed. We have introduced a self-directing traffic control that has more or less revolutionized the whole question of traffic signals. Milton was the first municipality in Massachusetts to install this type of traffic control. Since its installation in our town it has been installed in practically all of the neighboring communities as well as throughout the state. We have found it to work most satisfactorily and have been particularly pleased with the servicing and maintenance furnished by the company that owns the equipment which is rented to the town at a pre-determined monthly rental. During the latter part of the year another company has come forward with a new type of traffic control and has requested the privilege of installing it entirely at the company's expense at the intersection of Canton Avenue, Highland Street and Thacher Street. This we have permitted on the understanding that at the end of a six month's trial period we can either buy the equipment outright or order it removed from our highways. It will be necessary for us to install some sort of traffic control at this particular intersection during the coming year, so we believe it advisable to try out this new system under the basis outlined above.

Although the existing traffic signals have only been in operation for a few months, we have noted a marked decrease in the number of accidents at many of the intersections where they have been installed. We will be in a better position to ascertain their real value when they have been in operation for a longer time. Blue Hill Avenue continues to furnish us with the largest number of accidents of any highway in the town. Just what the final solution will be in an attempt to reduce the accidents on this way to a minimum we are not yet ready to say, but we are sure that the installation of the two traffic signals now in operation at the intersection of Brook Road and Blue Hill Avenue and at Milton Street, Dollar Lane, and Blue Hill Avenue have done much to increase safe travel. It has been particularly gratifying to receive a communi-

cation from Maxwell Halsey, the official of the State Department of Public Works in charge of traffic signals, to the effect that Milton's traffic signal system "is a 100% perfect." We have amended the traffic rules and regulations so as to provide for penalties against the operators of motor vehicles who fail to observe these new signals. We are also recommending that the town take necessary steps to make Blue Hill Avenue and Granite Avenue from the Boston line to Adams Street "through ways" as provided for in recent legislation. In addition to this important traffic signal work, we have located warning signs and signals in other parts of the town based on the reports of accidents and recommendations of our citizens.

Change of Street Names

The confusion caused by similarity in street names has been apparent for some time and complaints have been received not only from our citizens but particularly from the postal authorities. As a result the Board made a study of this matter during the past year and following public hearings changed the names of many of the existing private ways, details of which changes may be found in the report of our Town Engineer.

Board of Survey

The development of large tracts of land in the town during the past year has not been as extensive as in previous years. As a result the Selectmen, sitting as the Board of Survey, have been called upon to approve layouts of new streets in only a few cases. The one large development has been in connection with what is commonly known as the Bass Farm on Squantum Street. This area of twelve or more acres is now in the process of development and the four new streets necessary for this development were carefully studied by the Board before its approval of their layout. Because this has been a rather uneventful year in this respect is no reason to believe that the coming year and successive years will be the same. All thoughtful citizens must realize that the great area of undeveloped land in the town is bound to be opened for real estate development with a very short time. How to make this development progress along lines that will best correspond with the general improvement of the town is a most serious problem and calls for particular consideration on the part of the officials responsible. We have read with considerable interest the report of the committee which has been studying the regulation of future real estate developments during the past two years and commend to our citizens a sincere and thoughtful consideration of the recommendations contained in the report of this committee.

Public Transportation

During the past year three distinct changes have taken place in connection with public transportation in the town. The first one is the successful conclusion of the efforts made to secure through transportation by means of motor buses from East Milton to the Ashmont Terminal of the Rapid Transit Line. The obsolete system that prevailed along this line up to the Fall of this year was most unsatisfactory and in no way gave our citizens any of the benefits that we expected on account of the extension of the subway system to Ashmont. As a result of special legislation, which was supported unanimously by the Selectmen and in no uncertain terms by our citizens, the Eastern Massachusetts Street Railway Company early in October put into effect a through system of transportation that has been a boon to all of our citizens who use this means of transportation. We would be ungrateful indeed if we did not

at this time express our appreciation to the officers of the East Milton Improvement Association for their efforts in cooperating with us in producing this result.

Early in the year the Eastern Massachusetts Street Railway Company informed us of its intention to abandon the street car line which it has operated for many years over the route from East Milton to Milton Lower Mills and to substitute in its place a bus line along this same route. Following a public hearing the Board granted permission to this company to operate buses and as a result another bus line has been added to this type of existing transportation facilities.

Near the end of the year the town witnessed a most unusual development of the Metropolitan Transportation System when the rapid transit line from the Ashmont Terminal to Mattapan Square, over the old Shawmut Branch road-bed, was put into operation. This improvement completes the extension of the Cambridge to Dorchester tunnel system and as a result many of our citizens are provided with a system of transportation that is equalled by very few communities surrounding Boston. Of course with these changes in transportation there will at first be many difficulties and unpleasant readjustments, but we believe that all of these improvements will eventually be recognized as most beneficial for the town as a whole. The Selectmen are constantly in touch with the diverse problems arising out of these improvements and will do everything possible to eliminate whatever difficulties that do now exist.

Town Engineer

This department has established itself more firmly than ever during the past year and has been of particular value and assistance to all departments of the town. In reviewing the work of the department as outlined in the report of Town Engineer Maynard, it is almost impossible to understand how the town could ever have gone along satisfactorily without any Engineering Department. We commend to our citizens the details of this department as contained in the report of Mr. Maynard.

Police Department

Officer Francis T. Hanna died suddenly in September and as a result both the department and the town lost a most valuable public servant. The vacancy caused by his death has not yet been filled since we have not received from the Civil Service Commission a list of eligible candidates.

The traffic signal system which has been installed has been turned over to the Police Department to be operated under its control.

As a result of an investigation conducted by the Board, conclusive evidence has been revealed of the deplorable condition of our Police Signal System. Due to the age and obsolete condition of this system, we have learned that seldom a day passes when there is not some breakdown, thereby depriving this department of an accurate and speedy means of necessary communication. We have had a complete study made by the Gamewell Company, and as a result do recommend a special appropriation of $37,900.00 for the purpose of restoring this system to a standard of real usefulness.

The affairs of the police of the department have been conducted in a very satisfactory manner during the past year. We recommend that in the coming year a new ambulance be added to the equipment and that an appropriation be made to provide for the installation of a teletype. This teletype is part of the modern police equipment already installed in most of the surrounding communities and will do much to increase the efficiency of our local department. The increased appropriation provided for by the town in respect to ammunition is now producing the results anticipated by the Board when a recommendation for such an appro-

priation was originally made. We believe in this now even more than we did heretofore and trust that an increased amount will be provided to furnish the members of the department with ammunition necessary for continued intensive practice.

In spite of the increased amount of crime reports which are constantly before us in the daily papers, Milton has been particularly free from any serious crimes during the past year. It is natural for us to believe that this condition has been due largely to the efficiency of our department and the sincere purpose on the part of its members to provide the town with real protection.

Fire Department

Now that the Fire Department is more or less under the control of the Selectmen, we have acquainted ourselves more than ever with the details of this department. Chief J. Harry Holmes and the members of this department have given us excellent service during the year. The rules and regulations of the department have been completely revised so as to bring them up to date in view of the fact that the town voted to eliminate the Board of Fire Engineers. We recommend that an appropriation be made to purchase a new piece of apparatus to replace a worn-out automobile which is used in responding to telephone calls for small fires. With the increase in population in the town we believe it advisable to call attention to the necessity of doing something toward eliminating the large number of dump fires that constantly require the attention of this department. Some method should be devised to force the owners of private property, which is used for public dumping, so to control their property that the fires so ofen occurring thereon will not be a public menace and cause for public inconvenience.

Thacher Building and Town Hall

Nothing of particular importance has occurred in connection with the affairs of these two departments during the past year which have been so ably taken care of by Superintendent James Sangster. A modern wire fence has been constructed at the expense of the town on the property line between the Thacher Building lot and land owned by the Tildon Estate. Serious consideration must be given to necessary repairs in the Town Hall and we recommend that an additional appropriation be made to provide for these repairs.

Insurance

Under the direction of Frank R. Forde, who was appointed Insurance Adviser, all matters pertaining to town insurance have received expert attention.

Miscellaneous

Voting Precincts: In view of the apparent congestion at the polls in precincts II and IV, the Board has considered the advisability of revising the voting precinct lines and establishing two new precincts, making a total of six in place of the four existing precincts. A public hearing was held on this matter and since no great public interest was displayed by the citizens, we have felt that it would be advisable to postpone any action in this matter at least for another year.

Fourth of July: The Board appointed Demeron L. Deane, Ralph Freethy and Charles E. Cross as a citizens' committee to conduct the Fourth of July celebration. These citizens performed their task in a very satisfactory manner considering the small amount of money available and

presented to the town a program along the lines of previous years. We do not believe that $500.00 is a sufficient amount for the proper observance of this important holiday and recommend that unless the town is willing to increase the appropriation to the sum of $1000.00 that no money be appropriated for this purpose.

Armistice Day: For the past two years the Board has seen fit to spend $100.00 each year out of its own account for the observance of Armistice Day under the direction of the local Post of the American Legion. We believe that there should be an official appropriation by the town for this purpose and recommend the sum of $200.00. No holiday means more to those of us who are now living than Armistice Day. Now that it is a legal holiday, established by State Legislation, and since its meaning is such a definite one to all of our citizens, we feel that its observance should receive official recognition by the town.

Tercentenary Celebration: The year 1930 marks the 300th anniversary of the founding of Massachusetts Bay Colony. Milton, together with all other municipalities in the State, is planning for some official observance of this historical event. By way of preparing for our participation in the general program, we requested the Milton Historical Society to make a study of this matter and as a result of the cooperation given us by this society, we appointed Arthur H. Tucker, Chairman of the Milton Tercentenary Committee. Mr. Tucker and the members of his committee have prepared definite recommendations for action on the part of the town and we join with him and his committee in recommending that their suggestions be unanimously adopted.

In surveying the affairs of the Board of Selectmen during the past year, we are particularly impressed with the harmony that has existed on the Board in connection with the conduct of the various problems occupying the attention of the Selectmen. With the exception of two matters, there has been a unanimity that is most unusual and that should be called to the attention of our citizens. We are bound to recognize that this result is due largely to the cooperation and assistance that we have received from other town officials and employees. After all, no problem involving the conduct of our local municipal affairs should arise, except on rare occasions, that cannot be settled in a harmonious and satisfactory fashion. May we, therefore, at this time, express to our fellow officials and those who have worked with us, our sincere appreciation for their generous and helpful assistance and co-operation.

Because of the many inquiries that are directed to the Selectmen on matters over which they have absolutely no control, may we again call to the attention of our citizens the very important fact that under our present system of municipal government here in Milton the Board of Selectmen is only one of many boards, all of which are independently elected by the citizens to perform duties specifically outlined in the General Laws of the Commonwealth and in the By-Laws of the town. Town government as we enjoy it here is free from centralization. It is often difficult for those of our citizens who have been accustomed to live under a city form of government to realize this difference in municipal affairs. We believe that in spite of the increasing growth of our town and the additional problems that confront us that the present form of government is the best known form available.

KENNETH D. JOHNSON,
JOSIAH BABCOCK,
NORTON WIGGLESWORTH,
Selectmen of Milton.

REPORT OF TOWN ENGINEER

Milton, Mass., Dec. 31, 1929.

To the Honorable Board of Selectmen:

The annual report of the Engineering Department for the year ending December 31, 1929, is respectfully submitted.

The engineering force consisted of the Town Engineer, two field parties and a draughtsman until March, when a third survey party was added. An increase in our appropriation was granted for this party in order to hurry the work on the town survey and to supply the Assessors with plans. Two field parties have been at work the greater part of the year on the town survey and the third party has supplied lines, grades and survey plans for bettermen streets.

Town Survey

The new survey party, consisting of an engineer and two helpers, started in the area known as the Columbine section and worked towards East Milton. This work required the running out and locating of all street lines, taking in all the existing road bounds, lot lines and buildings. The data for this work was taken from town records and from records at the Registry of Deeds in Dedham.

Because of the extremely dry weather during the summer, this work has progressed very satisfactorily. The area bounded by the Neponset River, Unquity Brook, Brook Road and Ridge Road has been completed. The original survey party employed on this work has finished the East Milton section, thus completing all the area bounding on the Boston-Milton line. While engaged on this work, this party ran out that part of the line between Milton and Quincy, starting at the established corner designated at M. Q. 5, located on what is known as Corliss Ledge, and running through to a corner located in Beal Street designated as M. Q. 4, a distance of 9723 feet. The boundary stone at M. Q. 4 has been removed. To reproduce this corner, data was obtained from the Engineer's Office of the Harbor and Land Commission at the State House and then checked by our coordination. This has changed that portion of the town line between M. Q. 4 and M. Q. 5. At the present time the old witness markers and road stones are used as the town line and one of these stones has proved to be 34.70 feet at right angles to the true line. The new plan will make quite a difference with the assessing of areas along this boundary line.

We have definitely located that part of the Milton-Quincy boundary from Beal Street to the Neponset River. Many permanent points have been established along these lines so that no difficulty will be met in reproducing any part of this boundary line in the future. Bounds have been set on each side of the streets intersecting said boundary lines. This work has required great care and accuracy.

This field work has been recently completed and is now being plotted on our big section maps.

Bettermen Streets

The streets constructed under the Bettermen Act this year are as follows:

Name	From	To	Length	Width
Antwerp Street	Squantum Street	Wood Street	1020	40
Bassett Street	Church Street	Granite Avenue	740	40
Breck Street	Thacher Street	Clapp Street	395	40
Laurel Road	Thacher Street	West Street	580	40
Plymouth Ave.	Edge Hil Road	Quincy Line	1455	75
Reservation Road	Brook Road	Edge Hill Road	800	40
Viola St.	Thacher Street	Brook Rd. Playground	276	40
			5266	

Plymouth Avenue, Reservation Road and Laurel Road were awarded to E. C. Sargent, the lowest bidder, by the Board of Selectmen. The other streets constructed under the Betterment Act were done by town labor.

Detailed plans and estimates have been prepared for the Board of Selectmen for the acceptance of the following streets:

Street	From	To	Length	Width	Sq.Yds.	Est.Cost
Avalon Rd.	Eliot St.	Lancaster Lane.	880	40	2426	$8215.29
Cedar Ter. St.	Squantum St.	Hope Ave.	900	40	2500	9509.75
Churchill St.	Blue Hill Ave.	Blue Hills Pkwy.	915	30	2070	6564.20
Elton Rd.	Fullers Lane	Private Land...	415	40	1150	3716.00
Garden St.	Edge Hill Rd.	Warner Rd. ...	910	40	2500	8929.00
Governors Rd.	Edge Hill Rd.	Warner Rd. ...	930	40	2580	9689.37
Governors Rd.	Brook Rd.	Edge Hill Rd. ..	783	40	2100	7821.74
Hazel St.	Pleasant St.	Private land...	570	40	1560	5659.55
Howard St.	Washington St.	Private land...	297	30	670	1867.70
Lawrence Rd.	Pleasant St.	Elton Rd.	270	40	830	3353.85
Meredith Cir.	Reedsdale Rd.	Reedsdale Rd..	1362	46	4600	14080.57
Virginia St.	Hawthorn Rd.	Fairfax Rd. ...	293	40	820	2775.95
Verndale Rd.	Blue Hills Pkwy.	Lothrop Ave. ..	358	40	840	2424.60
Westbourne Rd.	Otis St.	Private land ..	284	40	780	2901.00
Wood St.	Granite Ave.	Private land ..	1160	40	3233	10597.58
		Totals	10327	—	28659	$98106.15

These new streets have required special study in regard to drainage. Satisfactory drainage involves the area adjoining and should be so constructed as to accommodate surrounding territory in future extensions. Only the drain laid within the betterment street should be charged to that street. Therefore, if these streets are accepted, it will be necessary to increase our regular drainage appropriation.

Drainage

Drainage studies have been made of the low land in the vicinity of Brook Road. The water shed of this area contains 895 acres. Included in this section is a part of Milton Hill, all the area east of Highland Street, all the area (400 feet more or less) south of Pleasant Street and Edge Hill Road and as far east as Otis Street. This area can be drained and ground water lowered several feet by digging an open trench beginning at the lower side of the culvert at Otis Street. Assuming a maximum rainfall of 1½ inches in an hour and 60 percent of this volume to be cared for, it would require a culvert opening of about 20 square feet.

From this point the trench should be continued on a gradient of .40 of 1 percent to a point opposite Brook Road in the Brook Pond, so-called, thence on the northerly side of Brook Road to a point at Churchills Lane. This grade line is established to protect the town against other public utilitity companies who might from time to time plan to lay pipes or duct lines underground, thus obstructing the future drainage of this area. This proposed drain would also relieve the flood conditions which now exist during the wet season. (Note: See enclosed map of this area.) The greater part of this could be an open trench, and I recommend that this work be done as necessity requires.

I have recommended the installation of a drain on the upper half of Adams Street from Barnard Avenue to Churchills Lane, a distance of 1868 linear feet, as a beginning of the drainage program of this street. The storm water now flows on the street surface to an outlet at Barnard Avenue and through an existing pipe line to a ditch at Brook Road. The storm water gathers in such volume on this street during a heavy storm that it scours out the gutters to a dangerous depth to vehicles and overflows to private land. The drainage of the lower end of this hill going north from Centre Street should be installed the following year. After this work is completed the street will require a new surface.

Following is a list of drainage installed during the year:

	Length, in feet	Size of inches	Number of Basins	Number of Manholes
	200	10		
Bassett Street	80	8	5	1
Breck Street	130	8	2	0
	240	10		
Brook Hill Road	20	8	2	0
	300	15		
Canton Avenue	960	12	0	5
Capen Street	24	8	2	1
Centre Street	63	8	0	0
Curtis Road	163	8	0	1
Eliot Circle	195	8	0	1
Granite Avenue	18	8	2	2
Highland Street	66	8	1	0
	582	10		
Laurel Road	72	8	6	1
Lincoln Street	40	8	2	0
Norway Road			1	0
	1034	10		
Plymouth Avenue	245	8	8	5
Projecta Road	531	12	0	0
Reservation Road	687	8	6	2
Smith Road	88	8	1	0
	156	12		
	755	10		
Thacher Street	370	8	21	6
Walnut Street			1	
Warren Ave. at Playground	82	8	0	1
Totals	7101		60	26

Permanent Construction

Lines and grades were furnished for the drainage, curbing and the resurfacing of Thacher Street from Brook Road to Breck Street, a distance of 2900 feet. This work was done by contract, and awarded to Simpson Brothers Corporation of Boston by the Board of Selectmen.

This road surface is the same as that laid on Adams Street, East Milton, the previous year.

Lines and grades were furnished for all the work done on the construction and widening of the easterly side of Granite Avenue between Wood Street and Squantum Street.

Board of Survey

The Board of Survey accepted as private ways the following named streets:

Name	From	To	Feet	Width
Augusta Rd.	Squantum St.	Pillon Road	352	40
Dexter Street	Prince St.	260 feet north	260	40
Guilford Rd.	Granite Ave.	Granite Avenue	1171	40
Hurlcroft Rd.	Squantum St.	Private land	917	50
McKinnon Ave.	Pleasant St.	Private land	412	40
Nash St.	St. Agatha Rd.	Private land	185	40–60
Pillion Rd.	Adams St.	Hurlcroft Road	970	40
Prince St.	Blue Hill Ave.	240 feet east	240	40
Stanton Rd.	Fairbanks Rd.	Magnolia Road	335	40
Taft Rd.	Hurlcroft Rd.	Pillon Road	322	40
Trout Brook Ave.	Robbins St.	Private land	325	50
			5489 feet	
			1039 miles	

These streets were checked as to lines and grades with special attention given to the problem of future drainage.

Street bounds have been set in all new streets and placed on old accepted streets where no accepted boundary point existed before. These points are of great benefit to the abuttor and simplify the work for other town departments and for public utility companies.

Permanent bounds set on the following streets:

Adams Street	1
Brackett Street	1
Ballou Street	2
Breck Street	2
Bassett Street	6
Brush Hill Road	1
Eaton Street	2
Fullers Lane	1
Granite Avenue	3
Laurel Road	2
Plymouth Avenue	6
Pine Tree Brook taking	7
Pilgrim Road	1
Reservation Road	3
Sheldon Street	2
Sunnyside Road	2
Thacher Street	1
Victory Avenue	2
TOTAL	45

Sidewalks

Following is a list of sidewalks built during the year:

Location	Length	Granolithic Sq. Ft. of 4 inch	Granolithic Sq. Ft. of 6 inch	Tar Concrete
Canton Ave., Thacher St. to Elm St.	675	3220	409	.....
Edge Hill Rd., opposite Garden St.	147	676	...	.....
Edge Hill Rd., near Plymouth Ave.	37	150	...	.....
Eliot St., Blue Hills Pkwy. to Central Ave.	5548	...	...	25740
Granite Ave., Adams St. to Squantum St.	1940	10738	1586	.....
Lincoln St., at Thacher St.	45	330	...	.....
Plymouth Ave., at Edge Hill Rd.	70	460	...	.....
Reservation Rd., at Edge Hill Rd.	66	428	...	.....
Waldeck Rd., at Edge Hill Rd.	88	548	...	.....
TOTALS	8616	16550	1995	25740

Total area of walks—44,285 square feet.

Eliot Street walk was maintenance work and was relaid with a sheet asphalt over the old tar concrete.

Curbing laid during 1929 is as follows:

Location	—Curbing— Circular	Straight	Granite blocks
Antwerp Street	134.	30.	....
Bassett Street	72.3	20.	....
Blue Hill Avenue	6.5	8.	....
Breck Street	88.	20.	....
Brush Hill Road	82.8	205.	....
Edge Hill Road	...	...	88.
Elm Street	134.	20.	60.4
Granite Avenue	190.8	50.	....
Kahler Avenue	56.5	24.	....
Laurel Road	139.2	52.	....
Lincoln Street	82.	26.	....
Plymouth Avenue	88.4	20.	370.6
Reservation Road	91.5	20.	....
Viola Street	25.0	20.	....
Total linear feet	1191.	515.	519.

Change of Street Names

Because of a duplication of street names, which led to confusion and delay, the Board of Selectmen requested that these streets be listed and new names suggested.

The following is a list of these streets:

Curtis Road	changed to	Alden Road
Elm Street	changed to	Clay Street
Pleasant Terrace	changed to	Orchard Road
Randolph Terrace	changed to	Brewster Road
Rockwell Street	changed to	Dexter Street
Thacher Terrace	changed to	Chilton Park
Oak View Street	changed to	Essex Road
Winthrop Road	changed to	Clark Road
Dyer Road	changed to	Audubon Road
Milton Avenue	changed to	Bradford Road
Columbia Street	changed to	Ferncroft Road
Pine Road	changed to	Standish Road
Pine Street	changed to	Conway Road

House Numbers

This office now has a complete set of house numbering plans and has issued 159 numbers to house owners during the year.

Permits

We have issued 226 street permits for all kinds of street occupancy.

Milton Cemetery

A survey was made of the entire area in the vicinity of the Soldiers' Lot, between Centre Street and the new locker building. A map was made showing all the old deeded lots. Of the remaining area, several hundred new lots were plotted and numbered.

Other work for this department consisted of staking out and giving grades for new roadways.

Police Department

A plan showing all police and fire alarm boxes has been made and supplied to the Police and Fire Departments.

Several plans of fatal accidents which have occurred on our streets have been made. The plan showing the location of all accidents reported by the police has been kept up to date.

Traffic Signals

The entire force was busy several days making a traffic count at the intersections where signals have been installed. This work was required by the Traffic Engineer of the Department of Public Works at the State House, Boston, to secure for the town a permit to install and operate stop and go signals. Since the installation of the signals, all underground cables which connect the lamps have been located and plotted on our record maps.

Details of the financial statement of this department will be found in the report of the Town Accountant.

I wish to express publicly my appreciation of the faithful services of the engineering force and to thank the Selectmen for their courtesy and cooperation.

Respectfully submitted,

FORREST J. MAYNARD,
Town Engineer.

REPORT OF ASSESSOR OF TAXES

December 31, 1929.

To the Citizens of the Town of Milton, Massachusetts:

The Assessors of Taxes herewith submit their report for the year 1929. At the annual election of Town Officers for the year 1929, Robert Bowie was elected for the three year term.

On March 7, 1929, the Board organized as follows: William W. Churchill, Chairman; George S. Murray, Secretary. On May 7th, Miss Dorothy L. Maxwell was appointed Clerk of the Board, to succeed Wallace C. Tucker, whose resignation the Board regretted receiving after his eighteen years in the Town's service. Miss Bertha M. Johnson was appointed Secretary to the Board.

The new Motor Vehicle excise law, which eliminates the old system of assessing registered automobiles as personal property, went into effect on January 1, 1929. The introduction of this law has increased the work of the Board to a very large extent, this increase being due, in part, to the additional number of bills to be sent out, but principally to the adjustments which are required to be made on cars traded or sold, and the resulting increased correspondence. Due to the extra billing necessitated by the Motor Vehicle excise law, the billing machine which was purchased last year has been in use for an even greater length of time than last year. It has proved entirely satisfactory, and much time and labor have been saved since its installation; without it, it is doubtful if this year's work could have been accomplished on time without the lengthy employment of at least two additional people. The approximate number of bills sent out during the year is as follows: Poll taxes, 4600; real and personal taxes, 4900; excise taxes, 5900.

In submitting a somewhat more lengthy report this year than has ordinarily been the custom, the Assessors feel that the citizens will be interested in a general discussion of the tax system now existing in Massachusetts, to the end that they may have a clearer idea of the place which local taxation occupies in the whole tax system, and a better understanding of the necessities of its administration. The rising cost of municipal activities, not only in Milton but throughout the Commonwealth, and, for that matter, throughout the Nation, makes the subject of Town expenditures and Town taxation one of serious concern to all residents of the Town. Local taxes, as assessed by this Board, effect every land owner and rent-payer in Milton, as also every person owning personal property on which he is assessed, and every person registering an automobile which is ordinarily garaged in Milton.

The Assessors seriously strive to distribute fairly the taxes which must be levied. They feel that their obligation to the tax-payers of the Town is to see that the tax is equitably distributed and that everyone pays his proper and just share, no more and no less than is his fair amount. Their every effort is to achieve this result. The Assessors have nothing to do with the appropriation of money except insofar as their interest as citizens carries them into discussions of the problems before the Town. Their sole official duty is to levy taxes to the extent necessary to provide the funds required to meet the obligations resulting from appropriations at the annual Town Meetings. This report will seek to give a general

explanation of the circumstances which surround the determination of our local taxes.

According to the 1925 census, Massachusetts had 4,144,205 inhabitants and these annually contributed in direct taxes to the support of the Government of the United States, of the Commonwealth of Massachusetts, of its 14 counties, of its 316 towns and 39 cities, and in addition, paid special taxes for the support of districts called fire, water, light, and improvement districts, which are established in certain communities and paid for by the residents of those communities benefited thereby. The largest is the Metropolitan District, which includes Boston and certain nearby cities and towns including Milton, and there are about 62 smaller districts in other parts of the State. The district tax is levied and collected in the same manner and at the same time as other local taxes, except that the Metropolitan District taxes are levied and collected by the Commonwealth. Other special taxes are assessed against and through the local governments in certain sections of the Commonwealth to cover deficits in the operation of street cars, elevated trains, and subways.

Taxes in Massachusetts may be divided roughly into two general classifications: those collected by the local municipalities and those collected by the State. Taxes assessed and collected locally in Milton constitute taxes upon real estate and tangible personal property, the motor vehicle excise tax, and the poll tax. Taxes collected by the Commonwealth of Massachusetts include the income tax, the corporation excise tax, the stock transfer tax, the legacy tax, the estate tax, and the gasoline tax. Of the receipts from these various taxes, the income tax revenue, and by far the greater part of the corporation excise revenue, are distributed to the cities and towns of the Commonwealth and are credited by the cities and towns against their local expenses. The income the Town receives from this distribution tends to materially reduce local taxes on real estate and personal estate. The larger portion of the cost of maintaining the Milton town government is for the support of the public schools, the highway department, the police, fire, water, and sewerage departments, and the smaller portion is for the maintenance of the large number of additional necessary town activities. During the past year Milton paid a county tax of $40,801.34. The larger portion of the cost of maintaining the government of the county is for the maintenance of the county courts, the building and maintenance of county court houses, registries of deeds and of probate, jails, county roads and bridges, and schools, and the smaller portion for various necessary county activities. During the past year the Town of Milton paid a State tax of $41,310.00. The larger portion of the cost of maintaining the State government is for the building and maintenance of institutions for the retention and care of those suffering from mental diseases, the feeble-minded, the indigent, the drug addicts, the felons and the misdemeanant, and sufferers from tuberculosis, the building and maintenance of roads and bridges, the development of harbors and public lands and their maintenance, the diffusion of education, the building and maintenance of normal and trade schools, the maintenance of a State militia and a State police force, the care and protection of industrial workers, the care and protection of the public health, the supervision of public service activities, the maintenance of the judiciary, and the expense of the General Court. The smaller portion is for many State-wide activities. That portion of the expense of maintaining the government of the Commonwealth of Massachusetts which is not met by taxes, levied by the State and kept entirely for its own use, is assessed upon the cities and towns on a basis of valuation, measured by their ability to pay, and falling as a direct tax upon local real estate and tangible personal property.

The cities and towns of the Commonwealth, for the purpose of meeting their regular expenses and obligations incurred by issuing loans for permanent improvement, use the revenue they obtain from minor sources, such as fees and fines, and polls, and the larger amounts of revenue they

receive from the Commonwealth for taxes collected from business corporations, incomes, and public service corporations; and for the major portion they levy an assessment through the elective or appointed Board of Assessors, as the case may be, usually three in number, upon all the real estate and tangible personal property, excluding merchandise owned by a foreign or domestic corporation, and taxing only the machinery of corporations used in the conduct of the business, as well as their real estate. An exception is that class of property expressly exempted by reason of its public, charitable, religious, or educational nature, and also (since 1929) the excise on registered motor vehicles. Forest lands are taxed by special provision of law to encourage forestation: vessels engaged in interstate or foreign carrying trade, or commercial fishing (provided certain tax returns are made), are taxed on a different basis from other tangible personal property. Taxes are levied in each year as of April 1st, except in the case of the recent motor vehicle excise tax, which is levied at such times and as frequently as the Assessors find desirable.

When the time to determine the tax rate arrives, the Assessors, having been notified by the proper town officials, of the amount of money appropriated at the annual Town Meeting, and of the provisions, if any, made for meeting any portion of such appropriations, by adding the State and County Tax, and any other sum required by law to be raised by taxation, determine the total amount which must be provided for; and by deducting from this amount the amount certified to them by the Commissioner of Corporations and Taxation as the estimated receipts which the Town will receive from the corporation excise and income tax revenue, and by also deducting the amount to be raised by the tax on polls and by the motor vehicle excise, and by deducting estimated receipts such as fines, fees, and various departmental receipts, such as those from the water department, various trust funds, and so forth, determine the amount which must be raised by the direct Town tax on real estate and tangible personal property. They then determine the tax rate per $1000 of valuation by dividing the amount thus to be raised by the total Town valuation, both real and personal, as shown below:

1929 Expenditures

State Tax	$41,310.00	
County Tax	40,801.34	
State Highway Tax	2,985.69	
Fire Prevention Tax	235.76

When a taxpayer in the Town of Milton pays a bill from the Tax Collector for taxes due the Town of Milton, he pays a direct tax for Town, State, and County expenses, but inasmuch as the receipts from the State are much in excess of the actual State and County taxes, the tax bill received from the Town represents a direct tax for purely local expenditures. Individuals also pay a tax to the State based upon taxable income, which tax, after deducting the expenses of collection, is distributed by the Commonwealth to the cities and towns for their general uses, to reduce the tax on real estate and tangible personal property, and is used as one of the Town's receipts, as already explained. For the year 1929, for instance, the Town of Milton paid a State tax of $41,310.00, and a County tax of $40,801.34, and used as estimated receipts from the State, as the Town's share in the income tax and corporation excise tax, $113,390.26, a net gain above the State and County taxes of $31,278.92, which was used in reducing the amount to be raised on real estate and tangible personal property.

The rate at which the various taxes collected by the State is imposed is fixed by statute. The amount received by the State, therefore, varies to the extent that corporations' income for the preceding year varies, to the extent that individual incomes vary, in the amount that property held by corporations varies, to the extent that the number of transactions covered by the stock transfer tax varies, and so on and so forth. Inasmuch as the income received by the State from its various taxes varies, to a similar extent the income received by the Town from the State also varies. To all intents, therefore, the local tax on real estate and tangible personal property provides the only elastic and changeable feature of our tax system. That is to say, whatever revenue of State, county, city and town is not provided by the taxes other than the real estate and personal property tax must come from these two sources.

Therefore, when all that is receivable from all other sources has been computed, the balance that has been appropriated by the town, whatever that amount may be, must be raised by a tax on real estate and personal estate. For the most part, the increase in municipal expenditures has been so rapid that the growth in receipts from other taxes has not proved adequate to meet the increase. The result, therefore, is that the burden upon real estate and tangible personal property increases as expenditures increase.

In 1917 real estate bore 60 per cent of the burden of direct taxation, incomes bore 10.16 per cent, and the business corporations, through the excise, 5.91 per cent. In 1928 real estate paid 65 per cent of the direct taxes; the taxes on incomes produced 8.73 per cent (in a year marked for a large return from the income tax), and the business corporation excise produced only 5 per cent of the total revenue from direct taxation. The total receipts of direct taxation increased from $123,400,156 in 1917 to $272,365,842 in 1928, over 120 per cent. These figures merely bear out the general impression that real estate bears a tremendous proportion of the total tax burden. Although efforts are being constantly made, year after year, to devise ways and means for relieving the tax burden placed upon real estate, and to distribute it over other classes of property, on the very face of the figures just shown, it seems extremely improbable, even with the most heroic efforts that might be made by the Legislature, that the tax on real estate will be substantially reduced.

The Assessors' duty to the community becomes obvious, then, when it is realized that real estate must be responsible for paying such a large proportion of the money that must be raised to pay for municipal activities. Every effort and care should be exerted to see that the tax is properly, fairly, and equitably distributed over all those who are liable for the real estate tax; and the Assessors, of course, in addition to the real estate tax are similarly concerned with the personal property tax.

The administration of the local tax problem in the various cities and towns of the Commonwealth, is a very different matter from the administration of State taxes. The State taxes are levied and collected by the Commissioner of Corporations and Taxation, and the whole procedure is subject to a uniform administration. Each town is a sub-division of the Commonwealth, and no matter how small a local taxing unit it, each such unit must have its full quota of Assessors, Collectors of Taxes, and equipment for the assessment and collection of the taxes. Of course, in the smaller town, the equipment is comparatively primitive, and proceedings comparatively informal. It is unfortunate that it can be truly said that in the great majority of communities real estate assessments are haphazard and inaccurate. It seems particularly unfortunate that this should be true with respect to that part of the total annual revenue produced which provides over 60 per cent of all the taxes assessed for municipal expenditures. The real fundamental of taxation on real estate and taxable tangible personal property in Massachusetts is that the property shall be assessed for its "full and fair cash value." (General Laws: Chapter 59, Section 38.) The casual, traditional methods commonly employed do not permit assessed valuations to follow changes in value either promptly or accurately. Tangible personal property for all practical purposes is valued at a very nominal figure in most communities. Why do these conditions exist? It is not because of any intentional neglect or any inability on the part of the Assessors, but rather because of the failure on the part of the various municipalities to provide means for the use of modern methods of valuation, and to bring to the assistance of the assessors such simple mechanical aids as are ordinarily used in every-day business practice, such as a careful recording of the pertinent and necessary facts concerning various properties on which taxes are based. The administration of the assessors' office in any particular city or town is, of course, a matter of evolution that has taken place over the years since the establishment of the town, and the methods in use, for the most part, have just simply grown.

There seems to be a pronounced reluctance which denies to this all important field of municipal activity the least of modern devices, while at the same time other activities revel in the ultra modern, and even approach a close acquaintance with the futuristic. Is it the fear of facing the facts and possible revelation that the valuation foundation will not wisely support the expenditure structure; or is it selfish contentment in the tax one now pays, and the reluctance to risk any investigation, however praiseworthy, because, perhaps, it might mean a higher individual tax? Is a policy of laissez faire defensible when facts point out the necessity of a thorough study of the very foundation of our present tax system? We think not.

Milton has been particularly fortunate during the past number of years to have had a continuity of administration in the Assessors' office by reason of the fact that there has been little change in the personnel of the Board of Assessors from year to year. This has tended toward a uniform administration of the affairs of the Board. With the rapid changes in the development of real estate which has taken place and is taking place in Milton, the difficulties of properly valuing real estate have grown from year to year, and the point has now been reached where the effective administration of the office is seriously hampered by the lack of proper records. When the town had merely a few hundred buildings, and the Assessors could practically visualize in their own minds each and every parcel and building, a record of the assessed valuation, as determined by some previous board, was quite sufficient for the purposes of the office. With the growth of the town to the point where Milton now has some four-thousand-odd dwellings, the complexity of the problem has increased greatly. It is impossible for the assessors to carry in their minds the details of each particular piece of property. At present, the only record which is maintained in the office are figures on a card which say that so-and-so's land and buildings are assessed at such-and-such a figure. The figure for buildings, except for such particular adjustments as may have been subsequently made, are valuations placed on the buildings the first year they were assessed.

An example of the inadequacy of the present records and their failure to portray the facts was disclosed by a careful study of the taxable property of the public utilities and business zone real estate in the Town of Milton, as undertaken by the Board in 1928. The New England Telephone & Telegraph Company is a very substantial taxpayer; its personal property valuation for purposes of local taxation is provided for us by the Commissioner of Corporations and Taxation, and was $528,400 in 1927. The personal property valuations of the Edison Electric illuminating Company of Boston and the Boston Consolidated Gas Company are determined locally. The records in the office for 1927 merely showed assessed values at $250,000 and $210,000, respectively. A study of the properties and an establishment of the facts enabled us to increase the valuations to $550,000 and $560,000, without objection of the companies. The increase in revenue that year and each year since, and which will continue for the years to come, was approximately $18,000. A profitable survey! During the same year a survey was made of the real estate throughout the Town which had been set apart under the Zoning Laws as business locations. The result was an increase in valuation of about $150,000, again practically without objection, and with an annual increase in revenue of about $4000. In all an annual increase in revenue in that and future years in excess of $20,000.

This example is given not merely to show what was accomplished in increased revenue, for that will not always follow, but to show the loss which has resulted from inadequate methods and improper records, and the benefits to be derived from an accurate recording and examination of the facts. From the standpoint of equitable taxation, all other taxpayers in the Town, including the New England Telephone & Telegraph Company, were suffering from the previous low valuations, because they,

in the general tax rate, had to contribute toward the deficiency resulting from those low valuations. Had the situation been reversed, and the utility and business zone valuations referred to been reduced, the unfair burden which the utilities and business property would have previously been carrying would have been equalized. From the Assessors' standpoint, and therefore from the standpoint of all the citizens of the Town, this latter result should be equally desirable. Equitable distribution of the tax levy knows no favorites!

As the expenses of the town increase, and the tax rate increases, the question more and more arises, to what extent have the Assessors, with the means which have been placed at their disposal by the Town, been enabled to properly establish valuations, so that everyone may pay his just share of the Town taxes, but, at the same time, pay no more and no less than his fair share. It has been the case in many communities that when the tax rate has risen to the range of $35 to $40 per thousand, a serious survey has been made of all the facts in the particular community and an effort made to modernize the methods under which taxes are assessed.

The Board of Assessors of the Town of Milton feel that the time has now come when a building survey and a comprehensive study of the whole town should be made to guarantee that the valuations used now and the valuations to be used in the future are fairly and properly established. The Assessors recommended such a general plan to the Town in 1929, but apparently a misunderstanding as to its intentions developed, so that the Town did not feel free to follow the Assessors' recommendations, the first year it was presented. The situation is no different this year, except that the Town is one year nearer to the time when such action must be taken. A municipality with a valuation in excess of thirty million dollars, and an income by taxation on real estate, personal property, motor vehicle excise, and polls in excess of one million dollars annually, cannot afford to be careless or haphazard in the methods it employs. It seems to the Board of Assessors that the citizens of the Town should not be content with anything except the very best methods available to determine the taxes of each and every individual. A variation of one thousand dollars, in the determination of the full and fair cash value, means that the particular individual who is over- or under-assessed, pays $25 to $35 more or less in taxes than he should, depending upon the tax rate for the particular year.

Some well-intentioned and otherwise usually well-opinioned people seem to think that the tax rate should be between $25 and $35 per thousand, and that the Assessors should so arrange valuations as to achieve that end. There are others who feel that a tax rate of $50 to $60 per thousand would be desirable for the results which a high tax rate brings. However desirable either of these results might be, the fact remains that the law says that valuations shall be placed at the "full and fair cash value." If this is properly done, the tax rate is clearly a simple mathematical problem of determining what the tax rate should be, based upon the full and fair cash value of all the taxable property in the Town, in order to raise the amount of money for the appropriations of the annual Town Meeting. Thus, as a practical matter, the Assessors should have no concern about what the tax rate is to be. Their full concern should be, what is the full and fair cash value of each and every particular parcel in the Town, so that every person is fairly treated, and an equitable distribution of the tax levy is made!

If the Assessors adopt this particular attitude, their duty becomes that of seeing that all citizens receive fair treatment, rather than seeing to it that some people are favored and others are oppressed. The "tax rate" is frequently made to be other than a truth-teller by the studied effort of some Assessors to determine deliberately the value of some properties in excess of the full and fair cash value, and determine the value of other properties below the full and fair cash value, and thus benefit one tax-

payer to the disadvantage of another. The citizens of Milton can at least rest easy in their own minds that the Board of Assessors of this Town is doing its best, with the facilities which the Town provides, to avoid such a condition.

The administration of the Assessors' office has been characterized by conservatism and by moderate expenditures in the administration of their duties. In addition to the three Assessors, there are employed by the Board two persons who are full-time employees of the office. The work of the past year has increased, due to the motor vehicle excise tax and the problems effecting its administration, so that the work of the department is of such volume that, in addition to these two people, it is necessary at times to hire additional assistance. The volume of the work has increased at such a rate that it will very soon be necessary to have at least one additional person. The physical facilities of the office are seriously deficient to the extent that the office space is wholly inadequate, and that the vault space and facilities for keeping records are equally improper. If the Town acts upon the suggestions of one of its Citizens' Committees and builds proper Town office facilities, this defect will of course be remedied in the near future. The most serious difficulty in the proper administration of the Assessors' duties comes from the lack of sufficient records concerning the characteristics of buildings in the Town. This difficulty can only be corrected by a building survey. It is hoped that the realization of this necessity will impress itself upon the minds of the Warrant Committee and Town Meeting members, so that they, in their wisdom, will see fit to take such steps as the Assessors recommended.

There are two ways of providing for a building survey. First, the Board of Assessors could be provided with an appropriation sufficient to hire extra personnel, working under their direction, to make an accurate survey of the buildings in the Town, and record the facts properly for future use; or, secondly, the Board of Assessors could be made up, instead of as at present by a part-time Board, of a Board which would be a full-time, full-pay Board. This would hardly seem necessary, however, in a town the size of the Town of Milton. If the necessary information, which could be readily obtained as the result of a building survey, were properly recorded and classified, the work of the office could be properly administered, with the regular organization, by a part-time Board of Assessors. It seems to us that the administration resulting from a part-time Board, be it this particular Board or any other Board that the Town may choose to elect, would result in a higher type of service than might be obtained by a full-time, ful-pay Board in which the incentive for office might be the salary it carried. Were the Board a full-time Board, its first duties and its first efforts should be directed in the direction of a careful re-examination of every parcel taxed in the Town.

There is no doubt, as a practical matter, that a popular prejudice exists toward making any changes, for fear that it may effect the particular pocket-books of the particular individuals. There are those who are satisfied with conditions as they exist, and who point out the fact that in the years past the administration of the office has been satisfactory, and that the Town should be content to drift as it has for years. Fortunately for the Town, however, the administration of the various departments of the Town of Milton is in the hands of individuals who are interested in the past to the extent that it provides lessons and experiences for the future. If the present situation is such that the sort of administration which has been "perfectly satisfactory" in the past is no longer suited to conditions as they exist at present and promise to be in the future, the Assessors would indeed be derelict in their duty if they did not point out to the Town the necessities of their office, and not only the desirability but the urgency of making certain administrative changes to guarantee the avoidance of disturbing conditions in the future. Such changes as are necessary are purely administrative, and merely require

a sufficiently large appropriation to accomplish them.

The Assessors are charged under their oath of office neither to over-value nor under-value any property subject to taxation. This they cannot keep, however, if they have not sufficient facts before them to intelligently determine valuations. If the Assessors knew what the result of a building survey in the Town would be, it would be entirely unnecessary to make such a survey. Of far greater interest and far greater necessity is the uniformly fair determination of values, rather than any desire to arrive at higher or lower valuations, for the sake of creating a higher or lower tax rate. The really important result to be achieved, in addition to the guarantee of as equitable tax distribution as is humanly possible, is the assurance that would result from a modern, accurate knowledge of the valuation of the Town. With such figures available, the citizens, the Town Meeting members, the Warrant Committee, and Town officials could all consider the matter of Town expenditures with the firm conviction that they were acting on facts, rather than a figure which has been the legacy of the accumulation of years. For it is Town expenditures in relation to actual capacity to pay, rather than tax rates, which determine the soundness of the Town's financial activities.

This general subject of a re-examination of valuations which have existed for many years, and a re-survey of buildings in a particular municipality, has been the subject of discussion and action in many cities and towns throughout the Commonwealth. Just recently the Town of Natick has entered upon a building survey such as that which this Board of Assessors suggested for the Town of Milton last year. One of the Assessors of Natick has recently had occasion to make a public statement concerning their experiences, and it might be interesting to set forth in this report some of the general considerations which confront them; not so much as an example in detail of what should be done in Milton or any other town, but as an example of what a particular town is doing to meet its particular problems.

The tax rate of the Town of Natick has been, for some time, substantially in excess of $40 per thousand, and it is this tax rate, coupled with other possible conditions, which finally forced the Town to engage in a building survey in order that it might intelligently appropriate money at its annual Town Meeting, and raise the money necessary for such appropriations by a fair and proper tax distribution. It is hoped that the Town of Milton will not wait until a tax rate of $35 to $40 per thousand is forced upon it, before it accepts the Assessors' recommendation and gives serious consideration to this problem. The tendency for rapid growth in the municipal expenditures makes the Assessors' duties more important every year, and places upon the Assessors of each municipality the obligation to make certain of their valuations. A study made for the purpose of examining and improving the conditions such as existed in Natick, and which now exist in Milton, requires one to recognize the many qualifications which surround the term "valuation." As Mr. Lucey of Natick has recently said, "Value of real estate admits of many qualifications. We have the terms of replacement value, sound value, depreciated book value, fair sale value, and assessed value. The tax accountant considers his book value cost less an arbitrary amount of depreciation. The insurance man considers replacement less an accrued physical depreciation. The real estate man thinks in terms of fair sale value, or whatever the traffic will bear; the banker, in terms of forced sale value, and we also have the buyer's value and the seller's value. We have the sentimental value, and above all we have the great majority of real estate holders, whose property is not for sale.

"The valuation of real estate for taxation purposes is en entirely different matter. The calling of the Assessor is a dual one. He has to place his value, and he must also determine the equal distribution of all his values, which is even more important, for, after all is said and done, a tax value, to a great extent, must be a matter of equalization.

"He is not to place a value on one parcel or several parcels of a pos-

sible different character, like the tax accountant, insurance adjuster, the realtor, or the investment banker or broker—his is the whole works, and he must dovetail his land and building values into the best possible final results as a complete taxable whole. This is a difficult problem of economics and must be met head-on and with determination by all Assessors, to a greater degree than ever before, in order to meet the exigencies that keep crowding upon us. If two-thirds of all the taxable property in Massachusetts is in real estate, and the burden of additional cost of government is being passed more and more on this class of property, the load is bound to create greater unrest, even discord, and every municipality will have to 'clean house.'

"Experience teaches us that we cannot expect relief from lower expenditures. We then will have to do the 'house-cleaning' and organize our real estate values for the purpose of taxation."

It is rather interesting to read Mr. Lucey's words in December, 1929, for the first time, when the Milton Board of Assessors find that they so closely correspond with the ideas which they had and recommendations which they made to the annual Milton Town Meeting in March, 1929.

"The honesty and integrity of our Massachusetts Assessors are beyond question. They are among the most important public officials in the State. . . . They try to accomplish the impossible and do not take the public into their confidence and say to them, 'We are but three men with but a small clerical force at our command. The exacting daily duties of our office take up so much of our time we cannot have personal contact with every parcel of real estate every year. We must have a true value of the whole as of April 1st, in one year, or we have no modern value, and we have not an equalization, which is the crying need in our communities, and which will do more than anything else to free the tax-payer from the dissatisfaction which possesses him.' The experience in our Massachusetts cities, and I believe it would apply also in our larger towns, is that it takes from five to seven years to carefully assess the territory. What a change, then, is continually taking place in each sector every fifth or seventh year. It is but a staggered valuation, and the general result is indefensible. It is difficult under these circumstances to have a true value and impossible to have an equitable one.

"Take the books of the Assessor in Massachusetts today. How have the new buildings been reconciled with the old—for example, take an average, good, six-room house. In 1910 this could be produced at $500 per room. In 1928 this cost $1000 per room. Today's cost is approximately $900 per room (December, 1929).

"It has been impossible in our (the Assessors of Massachusetts) work on values, of course, to follow the values of the dollar, which was par in 1900, 85c in 1913, 45c in 1918, and 60c in 1929, taking the year of 1900 as a basis.

"How many cities and towns in Massachusetts have reconciled this six-room $3000 house of 1910 with the same house of 1928 at $6000? What applies to this house in like manner applies to all buildings. We are about satisfied that there is to be no change in price in the present conditions as to building materials and a tendency to slight labor increases. The time is now ripe for the modernization of the assessing of real estate, and a solution presents itself—a practical, scientific overhauling and re-valuation of all land and buildings, based on a certain standard of value at the same time. The standard being static, it can become flexible as a whole, or in each section, or in each block, and you have solved your most perplexing problem, that of equalization.

"By this flexibility I mean that you establish a base value throughout, then if a block or a section fades or brightens, a percentage applied will produce the equilibrium. The base once established, it is only necessary to check as from a chart, and it can remain subject, at all times, to your regulation. . . .

"The first start should be made in land valuations. There are a number

of systems of land valuation embodying scientific rules and formulæ. Among these are the Hoffman, Somers, Cambridge, Buffalo, Cleveland, and many others of more or less prominence. All of these rules have their genesis in the principle that the first foot back of the street front has the greatest value and that each receding foot is worth slightly less than the one in front of it. The original rule was an adoption of the language of Judge Hoffman, in an opinion in which he stated that the value of ratio between 0 and 100 feet of depth might be expressed in terms of value by a curve which would show two-thirds of the total to be in the first 50 feet back of the street. This tenet of value has been repeatedly affirmed by the court in succeeding years and has been generally adopted throughout the country.

"Some years ago we adopted the Cambridge system. . . . Having obtained from the formulæ of whatever system is adopted and the coefficient applied to the area, the next step is to place the square-foot-price on the lot. Now, if every parcel and plot of land was sold each year, the results would represent a good opinion of land values. But few sales are made, however, compared with the whole, and these cannot serve as a basis to determine accurate values. The laws of various states have attempted to establish values predicated on a price a willing buyer would pay a willing seller, but I think it is fair to say that a large proportion of sales of land is made for either speculation or the necessity of the buyer. Neither of these can be called a fair market value.

"I contend the seller makes the price, also that a change in price of different lots does not necessarily effect the relative value of the lots in the same block. The unit of value, whether it be foot, lot, or acre, should be not as difficult as the next step—the valuation of the buildings, or let me say, the improvements on the land. Now the valuation of land is ordinarily static. Land seldom depreciates, when it does the reason can be easily traced; land cannot be duplicated. Improvements on land can be duplicated, and this makes physical and functional depreciation of buildings. The manner of arriving at land values has been thoroughly modernized by the use of standardized methods, using either the front foot or the depth curve coefficient determined, and only the square foot unit of value to be obtained, but the standardization of improvements on land has not yet been reached, but during the past two years much progress has been made in scientific appraisals for the purpose of taxation, and the replacement method seems to be the keystone of modern valuation. It is the standard for appraisals for insurance and commercial purposes.

"The depreciation element then comes into the picture and rounds out a sound value. The physical depreciation is not difficult, as it only applies to age and condition, but the functional depreciation is the determining factor that calls for the Assessors' skill, his more particular, peculiar knowledge of local conditions that makes it imperative that he, and he alone, can arrive at a real taxable sound value.

"Let us take up for a moment this functional depreciation. By and large it is nothing more than our old friend obsolescence. It can be covered in three words—Type, Location, Lack of Utilities. It is most apparent in factories and old business blocks, old houses too large in square or cubic contents for the ordinary family, with high ceilings and large attics, freak interiors, French roofs, old plumbing and heating facilities, etc. Lack of utilities is a serious cause of functional depreciation, as are buildings in wrong locations for the purpose for which they were erected. In some cases, whole communities may have to be depreciated for reasons obvious to the Assessor; so while it is possible to standardize building values in relation to replacement, and to a certain extent their physical depreciation, it would not be feasible to do so as to functional depreciation. This, with sales and earning capacity, should be three points on which the Assessor should supplement the physical sound value and arrive at his taxable valuation. . . .

"I find that, as a rule, Assessors are too prone to place too much emphasis on sales values, which are becoming every day of questionable importance as a value element. New mercantile buildings and houses without number seem to be bought on a margin, so to speak, when we see two or three mortagages covering property we are sure is beyond the cost, or a payment of $500 down on a $10,000 or a $12,000 house, and the registry piling up the records with foreclosures. A scientific appraisal would bring to the Assessor the sound value. . . ."

The preceding remarks are of interest as showing that one particular town has gone beyond the point of merely listening to the Assessors' recommendations and is actually doing something about the condition which confronts it. Natick is not alone in this activity, for many other towns are following the methods and practice necessary to arrive at the general condition of equalization. Of course, there are those who say, "It can't be done," but no reasonable man will seriously contend that careful, uniform, accurate methods, supplimented by seasoned judgment, will not fairly arrive at valuations more equitable than the same seasoned judgment would produce based on mere visual observation of a particular building, unsupported by other facts.

It seems to us that the Assessors, like the officials administering duties of any other department in the Town, have an obligation to the citizens in addition to that of doing the current work of the particular department, and that is to give the benefit of their advice and experience to the Town and point out the way in which our steps are leading us, and recommend such action as may be necessary to protect the interests of the Town in the years to come. It is not enough to do the work of the office from month to month and year to year merely for the sake of disposing of this year's work. In the long run, it is probably much more important to take advantage of the experiences of previous years and of the present time, and use that experience to lay down plans and procedure for the future. In recommending to the Town last year the necessity of a building survey and a study of the valuations throughout the Town, the Assessors acted in line with what they thought was their duty in pointing out to the Town Meeting the situation that confronts Milton. Milton has for many years been fortunate in the quality of service which has been rendered by its various departments.

The Assessors now specifically recommend, as they did last year, to the Warrant Committee and Town Meeting members the desirability and necessity of appropriating for the use of the Board of Assessors a sum of money sufficient to conduct a building survey, in order that the Assessors may be properly equipped with information such that they, in their use of their own power and judgment, and theirs alone, may determine values on which taxes shall be based. It will be regrettable if the Town fails to take advantage of the experience and recommendations which are set forth herein, and waits until such time as an alarmingly high tax rate forces it to take, hastily, the action which a reasonable consideration of the facts dictates as being necessary now.

The usual statistical information published annually at this time is appended hereto.

Respectfully submitted,

WILLIAM W. CHURCHILL,
GEORGE S. MURRAY,
ROBERT BOWIE,
Assessors of Milton.

The population of the Town, as computed by the Assessors for the year ending April 1, 1929, was 15,503.

Other statistics are as follows:

Number of dogs	990
Number of horses assessed	66
Number of cows assessed	317
Number of sheep assessed	30
Number of swine assessed	28
Number of fowl assessed	1250
Number of persons liable for military duty	2780
Number of dwelling houses assessed	3477
Number of acres assessed	6218

1929 Taxes, In Addition to Those on Real and Personal Estate

4545 polls @ $2.00 (April levy)	$9,070.00
31 polls & $2.00 (December levy)	62.00
Local sewer tax and interest	17,748.14
Local sidewalk tax and interest	612.14
Local street betterment tax and interest	4,159.75
Local moth tax	164.75
Real estate tax (December levy)	98.69
	$31,915.47

Total of All Taxes Assessed

Real and persanal taxes (April levy)	$951,814.35
All additional taxes	31,915.47
	$983,729.82

REPORT OF THE BIRD WARDEN

Milton, Mass., December 31, 1929.

To the Citizens of the Town of Milton:

I beg to submit to you my report as Bird Warden for the year 1929.

There was no appropriation and there are no accounts to be submitted.

There is very little change to report during the past year, of the birdlife observed within the town. The scarcity of both varieties of Cuckoos which I noted in 1928, I believe continued in 1929. These birds are considered very valuable on account of the destruction they do to several of the insect pests. The number of Starlings appears to be about the same as during the previous year, and where they are numerous I believe they have the unfortunate effect of driving away various species of the native birds which we should have with us. I urge the shooting of Starlings where colonies are established, in such localities that shot guns can be safely used. Citizens wishing to assist in this matter should consult the Chief of Police in regard to the town regulations covering the use of guns for this purpose.

I believe that the English Sparrows have held about the same, or slightly diminished since 1928.

Of course, as the town fills up with population the woodland birds and rarier varieties of roadside birds are steadily diminishiing, owing to the clearing away of their natural shelters and food.

A number of citizens in the town are carrying on the practice successfully of feeding stations during the winter, and they seem to derive much pleasure in watching the birds, especially during the stormy weather when they come in numbers to the stations.

Respectfully submitted,
RALPH E FORBES,
Bird Warden.

REPORT OF TRUSTEES OF CEMETERY

Milton, Mass., January 14, 1930.

To the Citizens of Milton:

The Trustees report as follows for the year 1929:—

There were 164 interments in the Cemetery during the year, 101 of which were from out of town.

Forty-three new lots were finished.

Thirty-eight lots were taken by residents of the town.

Four single graves were sold to residents.

Twenty-seven lots and 1 single grave were placed under Perpetual Care during the year.

Sixty-eight foundations for monuments and markers were made during the year.

Seventeen lots were regraded and reseeded.

The Cemetery Building, for which money was appropriated by the Town at the March meeting, has been completed, and now makes available, adequate storage facilities, good quarters for the workmen and rest rooms for visitors to the Cemetery.

A two-inch main laid from Center Street to supply water to the new building, supplies also that section about the Soldiers' Lot, where it was much needed. The main will be continued as development of the cemetery may require.

PERCY E. SHELDON,
REGINALD L. ROBBINS,
THOMAS K. CUMMINS,
ASAPH CHURCHILL,
WILLIAM P. WOLCOTT,
THOMAS W. POND, Superintendent

REPORT OF THE FIRE DEPARTMENR

Milton, Mass., January 3, 1930.

To the Honorable Board of Selectmen,

Milton, Massachusetts.

Gentlemen:

I herewith submit my report for the Fire Department for the year 1929.

Alarms

There have been 303 alarms received as follows:
131 bell alarms, 172 telephone calls, 26 calls to Boston, 1 call to Canton.
Boston apparatus has responded 36 times to Milton.

Alarms each month:

January	12	July	27
February	6	August	23
March	47	September	23
April	40	October	43
May	24	November	23
June	20	December	15

Classification

Automobiles	34	Dwelling	29	Lumber	1
Boy's hut	3	False	13	Needless	16
Brush	39	Garage	4	Rubbish	12
Chimney	10	Grass	64	Shed	4
Church	1	Green House	1	Station Platform	1
Drug Store	1	Hay Stack	3	Tar kettle & truck	3
Dump	17	Hen House	1	Tree	4

Other Calls

Accident, House filled with smoke. Rescue animals. Release children from locked room. Assist people to get into locked house.

Figures on Property at Risk

Value	$525,000 00	Net Loss	$350 00
Fire Loss	44,461 90	Per Capita Loss	2 85
Insurance paid	44,111 90		

Work Performed

Feet of Hose laid	24,150	Feet of Ladder raised	869
Gallons of Chemicals used	1,992½	Miles travelled	1,640.4

Permits Issued

Out of door fires	744	Explosives	55
Inflammable fluids	4	Fireworks	6
Oil Burners	72		

Inspections

133 inspections of Oil burners and tanks.
260 inspections of stores.
Regular inspections of all Garages and Filling Stations.

Personnel

The force remains the same as last year with one exception, one callman has resigned.

Charles H. Bowman, for many years Captain of Engine No. 1, resigned from the department as of April 1st. He was a callman for forty-five years and during all of that time he was a conscientious, sincere, real, and true fireman. He left the department with the best wishes of all.

Apparatus

All of the LaFrance apparatus has been given an inspection by the LaFrance engineer, and all necessary repairs were made. A new set of Pneumatic tires have been applied to the Pump Engine.

The Oldsmobile, ten years old August 1929, has come to some extensive repairs and it is impossible to get any parts whatever for it. The model was done away with in 1924, and all parts were junked in 1927. I have asked for an appropriation to purchase a new truck to replace this piece of apparatus.

Fire Alarm

Three new fire alarm boxes have been installed this year, replacing three old type boxes.

Discipline

The discipline in the Department continues as usual, of the best.

Recommendations

Following my recommednations of last year, I have asked for an appropriation to cover the salary of two more permanent men to be stationed at East Milton. In the lase five years the value of buildings erected has advanced over $1,750,000.00 and nothing has been done to keep pace with this growth. One more man on each shift will be a start in the right direction of giving East Milton the fire protection it should have.

I wish to extend my sincere thanks to the Honorable Board of Selectmen for their assistance throughout the year.

I wish to thank the Police Department for their cooperation during the year, their help at fires has been very much appreciated.

At this time it gives me great pleasurse to extend my sincere thanks to the Officers and Men of this department for their earnest cooperation in carrying on the good work.

Respectfully submitted,
J. HARRY HOLMES,
Chief of Department.

REPORT OF LICENSING COMMISSION ON GARARES

Milton, Mass., December 31, 1929.

To the Honorable Board of Selectmen, Milton, Mass.

Gentlemen: The Licensing Commission for One and Two Car Private Garages respectfully submits the following report for the year ending December 31, 1929.

Fifty hearings were held and two hundred twenty (220) licenses were issued. Inspections were made on all locations and garages.

Respectfully submitted,

J. HARRY HOLMES, Chairman,
JOSEPH H. DUFFY,
G. E. BURT.

REPORT OF TREE WARDEN

December 31, 1929.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Tree Warden Department of this town, for the past year.

Trimming

There has been very little damage to the trees from storms during the past year, much less than during the three or four previous years. The Department has trimmed about eleven miles of street trees.

Planting

This year we have planted 122 new trees.

Insects

The insect pests were about the same as last year.

Saw Mill

We have not sawed as much wood as last year, but there has been a better sale of wood and lumber so that the mill shows a profit above expenses.

Plans for Next Year

We believe that the policy of tree planting should be continued and we hope to be able to plant about 100 trees next year.

Appendix A.

Trees planted:	
Norway Maples	122
Trees removed:	
American Elms	7

Maples	9
Ash	6
	22

Appendix B. (General Account)

Appropriation for public work	$8,500 00
Expenditures	8,434 66
Balance reverting to Treasurer	$65 34

Appendix C. (Private Account)

Appropriation		$3,500 00
Expenditures		3,084 20
Balance reverting to Treasurer		$415 80
Receipts from private work		$3,152 82
Total reverting to Treasurer		$3,568 62
Receipts	$3,152 82	
Less Expenditures	3,084 20	
	$ 68 62	
Profit from private work		

Saw Mill Account

CREDITS—		
13,580 feet of lumber sawed at $10 per 1000	$135.80	
Receipts from cord wood	216.00	
Receipts from lumber sold	96.10	
Receipts from sawdust	21.00	
		$468.90
EXPENSES—		
Cost of Electricity	$46.94	
Cost of Labor	88.50	
Cost of sawing cord wood	45.00	
		180.44
Credit Balance		$288.46

Respectfully submitted,

RALPH E. FORBES,
Tree Warden.

REPORT OF MOTH SUPERINTENDENT

December 31, 1929.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Moth Department of this town, for the past year.

Suppression Work

The amount of creosoting done this year was somewhat more than the previous year. The infestation of Gypsy Moths is somewhat different this year from that which appeared last year, in that the crowded colonies of nests are more scarce and the isolated nests more numerous. The significance of this is that it takes more time to destroy them, and isolated nests are more apt to be missed.

The Brown-tail Moth has apparently disappeared from the town.

Equipment

We have had to do some repair work on the buildings during the past year, but they are now in excellent condition. The equipment is also in good condition.

Appendix A

Inventory of property of Moth and Tree Warden Department:

One 1926 3½-ton G. M. C. truck with sprayer and platform body	$3,200.00
One 1913 Packard truck	50.00
One 1-ton G. M. C. truck	100.00
One 1-ton Ford truck, 1928	600.00
One Nash Coupe, 1928	680.00
Two Sprayer tanks and Pumps	500.00
Tools of all kinds (including field supplies)	600.00
Office Equipment	250.00
Buildings (including sawmille)	10,500.00
Hose	250.00
TOTAL	$16,730.00

Appendix B. (Gerneral Account

Appropriation	$6,000.00
Expenditures	5,576.56
Balance reverting to Treasurer	$423.44

Appendix C. (Private Account)

Appropriation		$4,000.00
Expenditures		2,509.16
Balance reverting to Treasurer		$1,490.84
Receipts from private work		2,517.60
Total reverting to Treasurer		$4,008.44
Receipts	$2,517.60	
Less expenditures	2,509.16	

$8.44 Profit from private work

Respectfully submitted,

RALPH E. FORBES,
Local Moth Superintendent.

REPORT OF THE BOARD OF HEALTH

Milton, Mass., December 31, 1929.

To the Citizens of Milton:

The number of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1929	1928	1927
Anterior Poliomyelitis	1	1	7
Chicken Pox	38	59	73
Diphtheria	—	4	6
German Measles	3	9	7
Lobar Pneumonia	16	15	13
Measles	35	336	88
Mumps	5	6	205
Scarlet Fever	40	52	44
Tuberculosis (Pulmonary)	10	13	7
Tuberculosis (all other forms)	2	—	4
Whooping Cough	48	65	57
Influenza	44	—	1
Dog Bite	10	5	12
Typhoid Fever	—	1	1
Para-Typhoid Fever	—	—	1
Ophthalmia Neonatorum	—	2	—
Septic Sore Throat	3	—	—

The Board organized March 20, 1929. Mr. Philip Y. DeNormandie was elected Chairman and Mr. Hervey King, Secretary. The following appointments were made: Agent, Dr. Paul W. Kimball; Inspector of Milk, Dr. Paul W. Kimball; Deputy Inspector of Milk, S. R. Ramsdell; Inspector of Plumbing, L. E. Young; Deputy Plumbing Inspector, B. F. Murray; Agent for Issuing Burial Permits, G. F. Kemp; General Contractor, A. B. Snow; Inspector of Slaughtering, P. W. Kimball; Caretaker of Contagious Hospital, John Dexter. The contract for collecting ashes and garbage was awarded to S. G. Craig.

In order to aid in the prevention of diphtheria, the Board furnished during the month of December, the Cchick test and prophylactic treatment against diphtheria. Approximately 180 persons were given the Schick test to determine whether or not they were immune to diphtheria. This included a number who had previously been given the prophylactic treatment to determine if they had acquired permanent immunity.

Following the Schick test 194 persons were given the prophylactic course of three treatments. The Board of Health again wishes to express its appreciation of the co-operation of the School Department in this effort.

One hundred and sixty-seven permits for connecting houses with the common sewer have been issued during the past year.

During the summer the Board of Health had a survey of all the health activities in the Town made by the American Public Health Association which specializes in this form of work. This survey covered activities now carried on by the Board of Health, the School Department and the private agencies. The result of the survey was a recommendation which was concurred in by the State Department of Health that certain further activities should be undertaken and that every effort should be made to coordinate all the health activities in the Town whether public or

private in order that the most effective service to the people of the Town might be rendered at the least cost.

The increase in the number of tuberculosis cases in the Town and the consequent number of people coming in contact with these cases, renders it imperative that these cases should be more closely followed and more adequately supervised in order to prevent so far as possible the spread of this disease and to reduce the morbidity resulting therefrom.

The increase of population in the Town of recent years has made it evident that the Board was not adequately prepared to cope with the contagious disease problem in providing proper supervision of quarantine and instructive work preventing spread of contagious diseases.

The Board has given careful consideration to the results of this study of the health activities of the Town and after consulting with the State Department of Health has made certain recommendations to the Warrant Committee for appropriations for additional service to be rendered to the Town.

The Board has, this year, continued its practice of having all known cases of tuberculosis in the Town followed up by a competent nurse to be sure that the cases are receiving proper care and that proper hygienic measures are being taken with respect to those coming in contact with these cases.

Respectfully submitted,

PHILIP Y. DeNORMANDIE, Chairman,
PAUL R. WITHINGTON, M.D.,
HERVEY W. KING, Secretary,
Board of Health of Milton.

REPORT OF COLLECTION OF ASHES AND GARBAGE

December 31, 1929.

To the Board of Health:

I herewith submit my report for the year ending December 31, 1929. There have been collected 591 truck loads and 4187 double loads of ashes and 359 cords of garbage.

Respectfully submitted,

SAMUEL G. CRAIG.

REPORT OF GENERAL CONTRACTOR

Milton, Mass., January 8, 1930.

To the Board of Health:

Gentlemen: I herewith submit my report for the year ending Dec. 31, 1929.

Cesspools cleaned	41
Vaults cleaned	5
Dead animals buried	7

Respectfully submitted,

ALVAH B. SNOW.

REPORT OF INSPECTOR OF MILK

Milton, Mass., Dec. 31, 1929.

To the Board of Health:

Gentlemen: During the year 1929 there were issued 54 licenses to sell milk or cream and 11 dealers were registered to sell oleomargarine. Forty-eight of the licenses cover the sale of milk and cream which has been pasteurized and five are for the sale of milk and cream from cows that have been tuberculin tested and maintained in accordance with the State and Federal regulations. The milk has been quite satisfactory both from the standpoint of chemical composition and of cleanliness.

Respectfully submitted,

PAUL W. KIMBALL,
Inspector.
SHERMAN R. RAMSDELL,
Deputy Inspector.

REPORT OF INSPECTOR OF PLUMBING

Milton, Mass., January 1, 1930.

To the Honorable Board of Health:

Gentlemen: Herewith I submit annual report of the Department of Inspection of Plumbing for the year 1929.

Month	Permits	Valuation As Per Applications
January	29	$14,360.00
February	14	9,735.00
March	17	6,400.00
April	29	11,360.00
May	20	9,121.00
June	25	17,700.00
July	31	17,050.00
August	30	10,486.00
September	20	8,379.00
October	32	17,610.00
November	20	9,305.00
December	10	5,090.00
	277	$136,596.00

Respectfully submitted,

LORENZO E. YOUNG,

Inspector of Plumbing.

REPORT OF INSPECTOR OF SLAUGHTERING

Milton, Mass., December 31, 1929.

To the Board of Health:

Gentlemen: No animals were passed for food during the year 1929.

Respectfully submitted,

PAUL W. KIMBALL,

Inspector of Slaughtering.

REPORT OF INSPECTOR OF ANIMALS

January 1, 1930.

To the Honorable Board of Selectmen:

Gentlemen: I herewith submit my annual report for the year ending December 31, 1929.

I visited and inspected 46 barns and premises where cattle are kept and found satisfactory conditions pertaining to the sanitary requirements and health of the animals.

Physical examination was given to 309 cows and eight bulls for infectious diseases.

Interstate shipment of cattle has been complied with according to State regulations.

Eight barns and premises were inspected for proper disinfection following the removal of cattle reacting to the tuberculin test.

There were 17 dogs quarantined for rabies, four of which developed the disease.

Respectfully submitted,

ROBERT H. SEWELL,
Inspector of Animals.

REPORT OF INSPECTOR OF BUILDINGS

January 3, 1930.

To the Honorable Board of Selectmen:
Gentlemen:

I herewith submit my report for the Building Department for the year endisg December 31, 1929.

Month	Permits for new Dwellings	Permits for Alterations	Permits for Garages	Permits other buildings	Valuation
January	6	2	8	3	$50,832 00
February	10	4	10	1	62,145 00
March	14	5	12	5	130,455 00
April	15	10	28	7	128,621 00
May	24	14	22	1	168,585 00
June	12	14	20	2	148,075 00
July	7	17	30	6	86,175 00
August	10	13	17	1	93,325 00
September	19	12	25	1	143,790 00
October	11	23	28	1	105,630 00
November	10	5	14	1	89,718 00
December	6	5	9	5	70,670 00
Totals	144	124	223	34	$1,278,021 00

Making valuation as per applications $1,278,021.

Respectfully submitted

G. E. BURT,
Inspector of Buildings.

REPORT OF SUPERINTENDENT OF WIRES

January 3, 1930.

To the Honorable Board of Selectmen.

Gentlemen:

I herewith present the report of the Wire Department for the year ending December 31, 1929.

This department has supervision of the Fire and Police Signal System, inspection of all buildings equipped with electric light service, and all poles and wires on town streets.

Interior Wiring

	1928	1929
Certificates issued for light and power	274	315
Number of inspections	675	812
Number of incandescent lights wired for	7,686	8,003
Number of motors installed	29	29
Total horsepower	51 11/12	49
Number of electric heaters and ranges installed	28	3
Total watts	16,550	11,000

Radio

All outside antenna wires must be protected by a lightning arrester.

Anyone wishing a copy of rules concerning Radio Installation may have same by notifying the Wire Department.

Fire and Police Signal System—(overhead and underground)

Have replaced arms on poles reset by different companies in town.

Emergency calls 230.

For the maintenance of the Wire Department I have requested an appropriation of Nine Thouand, Five Hundred and Twenty-five Dollars and Sixty-eight Cents ($9,525.68).

Respectfully submitted,

E. E. CHOATE,
Superintendent of Wires.

REPORT OF THE PARK COMMISSIONERS

Milton, Mass., December 31, 1929.

To the Citizens of the Town of Milton:

The Park Commissioners herewith present their report for the year ending December 31, 1929.

The general program of the department has not varied from that of former years except in the increase of facilities and expenditures due to the ever-increasing population of the town:

The personnel of the department was as fallows:

Superintendent	John L. Kelly
Playground Director. . .	Aaron H. Yeaton
Assistants	Miss Alice Cody
	Miss Barbara Kemp
	Miss Helen Kelly

The principle work and labors of the department have been spent upon the grounds of the Brook Road Playground in an endeavor to furnish the High School with a plant which will meet the growing demand of an ever-increasing enrollment.

The school program of some years ago upon the athletic field was towards the perfection of a small group of boys in some particular endeavor such as a baseball nine or football team. In those times small spaces were ample and one baseball diamond and football oval filled the need. Today all this is changed. Children entering the High School today have a well-thought-out program with class teams and other activities enrolling every fit entrant. This, of course, makes additional play space urgent.

Milton has an excellent plant at Brook Road, but it is too small. Acquisition of more ground for athletic field space is strongly urged by your Park Commissioners.

The highway department co-operated with us in furnishing filling for the south end of the grounds at Brook Road in an effort to grade an unsightly spot.

The track, which was re-surfaced in the autumn of 1928, gave excellent service and was much appreciated by the high school track team.

The usual playground activities were carried on during the months of July and August upon these grounds and Hollingsworth Field.

Concrete steps were erected from Brook Road down to the entrance of the field house and some grading was accomplished which, it is hoped, will be finished in the early spring of 1930.

The work of clearing the swamp upon the grounds of the Hollingsworth Field was advanced this summer and it is hoped that this place will be more satisfactory as a skating pond for this coming winter.

A sidewalk was constructed of amesite upon the Crane Field at East Milton and has proven a very desirable short cut to the square and railway station.

We ask for an appropriation of $5400 for the carrying out of our program for the year of 1930.

Respectfully submitted,

WILLIAM G. RODD,
THEODORE D. SHAPLEIGH,
GEORGE OWEN, JR.,
Board of Park Commissioners.

REPORT OF POLICE DEPARTMENT

Milton, Mass., January 10, 1930.

To the Honorable Board of Selectmen:

Gentlemen: I herewith submit the report of the Police Department for the year ending December 31, 1929.

Solicitors driven out of town	11
Warrants served for arrest	22
Amount of property reported stolen	$14,850.10
Amount of stolen property recovered	12,388.25

Crime

Several houses were entered during the year and in some cases the criminals were caught and sentenced.

On March 30th and December 16th, the manager of the Economy Grocery Store, 15 Pleasant Street, claimed that he was held up and robbed in his store. Both holdups were similar.

A dangerous pipe bomb was found on Randolph Avenue and after investigating with authorities of this State, Maine and New York, there was not adequate evidence to convict the suspects.

Two houses were raided for liquor and the owners were arrested and prosecuted.

I have recommended the purchase of a Teletype machine which would transmit simultaneously reports of crime and matters of importance to and from this and other police departments.

Traffic

After receiving and accepting the report of the Safety Committee, the Selectmen had automatic signal lights installed at what were considered the most dangerous intersections in the Town. They have helped to reduce accidents and expedite traffic and the public appreciate their usefulness.

Motorcycle Officer James J. Dalton gave safety talks in the schools.

Through the co-operation of the Superintendent and the Principals, a Safety Patrol was established in all of the grammar schools. It is comprised of several boys from each school who have been instructed in safety and traffic rules and detailed at intersections near their respective school.

Motor Service

A new Ford and motorcycle were purchased during the year. I have recommended the purchase of another Ford and motorcycle. The combination ambulance and patrol has been in constant use since 1923 and severely criticized for its uncomfortable and rough-riding quality. Its use as an ambulance is about ended and I have recommended that it be kept as a patrol and a new ambulance purchased.

Police Signal System

The wires and cables leading to the signal desk in the station have proved to be very defective. Some of them are 25 years old and should be replaced. At the request of the Selectmen, I have submitted figures obtained from The Gamewell Company for the installation of new wires, cables and boxes.

The Force

During the year, death removed from this Department, Francis T. Hanna, a faithful and efficient officer. The vacancy has not been filled owing to the Civil Service list not being available.

The discipline of the Department has been good in general. A few members were reprimanded for violation of the rules.

Numerous requests have been received from citizens for officers for various duties but I have been unable to comply with them. I have recommended that another patrolman be added to the force.

Commendations

I was pleasde to receive letters from the Selectmen commending Motorcycle Officer James J. Dalton for performing meritorious service in the arrest of five desperate men and Anna Healy, Clerk of the Department, for her alertness in effecting the capture of a habitual criminal.

Revolver Practice

The members of the Department have done considerable practice and are showing marked improvement. Officer John P. Driscoll won the shoot this year and the second leg of the Silver Cup. I have recommended that the appropriation for ammunition be increased.

Conclusion

My thanks are due and tendered to the Court and its officers, the Honorable Board of Selectmen for their advice and assistasce and to the other Town departments and citizens for their co-operation and information. I deeply appreciate the excellent services rendered by the members of this Department.

Respectfully submitted,
JAMES R. TRAVERS,
Chief of Poliice.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Milton, Mass., December 31, 1929.

Honorable Board of Selectmen.
Gentlemen:

I herewith submit my report for the year ending December 31, 1929:

Number of Scales, Weights and Measures sealed	1,017
Number condemned	7
Number found incorrect and adjusted	25
Number of inspections	124
Number of weighings	204

Respectfully submitted,

JAMES SANGSTER,
Sealer of Weights and Measures.

ANNUAL REPORT OF THE MILTON BOARD OF PUBLIC WELFARE

January 14, 1930.

To the Citizens of Milton:

In Governor Allen's inaugural address he spoke of the extent of mental disease in this Commonwealth. It is interesting to notice that two of the families aided by our town are in need of this aid because of insanity. Also there are two families that are dependent because the fathers of both are in the Norfolk County Tuberculosis Hospital and the mothers have several small children. In these four families, preventive work done some years ago might have made unnecessary these large sums of money that must be expended for reilef at present. Such preventive work is being done in Milton by the School Department, through the Fresh Air Class in the Collicot School and the work of the School Nurse, through the Red Cross Committee of the Milton Woman's Club in providing extra milk for under-nourished children and through the Milton Social Service League in the work of fhe Visiting Nurses, the Baby and Nutrition Clinics. All this helps more than we can realize in building strong bodies and healthy minds for the future.

Among the receipts of the Department is one of particular interest. The sum of $669.00 was paid to the Town Treasurer as reimbursement for board in the home at the Town Farm over five years ago.

There are at present five aged people in the home at the Town Farm. They are there because they have no other home. The policy of the Board is to aid those who need it in their own homes or with relatives when possible, but when there is no other place, it is a deep satisfaction to us to know that we have a home that belongs to us all as citizens of Milton where it is the self-respect-thing to go. We all owe a great debt to Mr. and Mrs. Dexter for the efficient way in which it is managed. We urge the townspeople to visit their Town Farm, for we are sure they will be proud of it. There is a great need throughout the state of more homes for the aged and we in this town are most fortunate that we can make such comfortable provision for our own people.

It would be impossible to over-estimate the value of the service that is being rendered to Milton by Albert Rounseville, the Agent of the Board. His knowledge of legal and court matters is combined with a rare and unfailing sympathy for anyone in trouble or difficulty and the privilege that we have of laying our problems before him and listening to his wise counsel is one that money cannot repay. It is necessary to have the large amount of investigating and clerical work and record keeping done by paid workers and it will be much easier to maintain this at the standard that we approve when we have an office where our files can be kept and our records consulted. All the members of the Board give their service of course without salary.

Respectfully submitted,

HORACE N. PLUMMER, Chairman,
HUGH McCUE, Secretary

REPORT OF TRUSTEES OF MILTON PUBLIC LIBRARY

January 9, 1930.

To the Citizens of the Town of Milton:

In order to understand the work of the Library the Librarian's report must be read.

The new building for the branch at Mattapan, voted in March, 1929, was dedicated on 12 November and opened for the delivery of books on the following day. The figures show that this building is appreciated: it has great possibilities of ever-increasing usefulness. There are many to thank for the accomplishment of this building and this acknowledgment seems but meager. The jump in circulation and the increase in registrations are most heartening

The use of the East Milton Branch keeps on increasing but is more and more hampered by the inadequate space. We hope that the offer of land will be accepted at the coming March meeting, and that an appropriation will be made to erect the building to house this branch as comfortably as the one at Mattapan.

A most gratifying increase is that in the use of the Library and its branches for reference work. Practically no private library can maintain a large reference collection and keep it up to date. The Trustees feel that a good reference collection, readily open to the public and especially to the teachers and pupils of the schools, is the Public Library's first duty. To facilitate this use convenient quarters are necessary. Instruction in the use of the books is furnished by the Librarian as her report shows.

We note that 4500 notices of books overdue have been sent out. While it is true that the Town gets back a few cents on each book overdue, it should be borne in mind that each day a book is detained is depriving some other reader of a chance to get the book he wants to read. A quick turnover of the books makes for less need of extra copies and less expense.

When the main Library was built room was left for a third stack. This third stack has now been added with the income of the Channing Fund. Other special needs have been met from time to time from the income of that fund, but now the Trustees have voted to devote its future income to the purchase of books. By this decision the annual appropriation by the Town may be somewhat reduced, although pressing needs as they arise will have to be met or the system will suffer.

The Chevrolet truck is proving economical in its use for the branches.

Mr. Edward L. Pierce, a son of one of the first Board of Trustees, has given the Library the official notification sent his father by the Town Clerk. Jason Reed, of the Town's action 1 March, 1869, when a committee of eight was appointed to consider the establishment of a Public Library in this Town. For this and other gifts and acts of good will the Trustees are most grateful.

Respectfully submitted,
NATHANIEL T. KIDDER, Chairman,
FRANK E. LANE, Treasurer,
ARTHUR S. PIER, Secretary,

ARTHUR H. TUCKER,
Trustees of the Milton Public Library.

REPORT OF THE LIBRARIAN

January 9, 1930.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1929.

The chief event of the year has been the building of the new Mattapan Branch. Forty thousand dollars was appropriated for this at the March meeting in 1929 and building, according to plans made by Mr. Eliot T. Putnam, began as soon as the old Kidder House could be moved. Its doors were closed on April 30 while the house made its journey to the rear of the lot, but opened again on May 4 for business. We were often without heat and sometimes without lights. Lanterns were used on several occasions to help in the search for books, and boys and girls took encyclopaedias out on the piazza to get the last ray of daylight. On May 14 we were again connected with the electric current and from then until November 9, when we moved in our new quarters, the old building served the public of Mattapan.

On Saturday, November 9, a group of Boy Scouts, led by Arnold Kenseth, moved the books to the new shelves and at six o'clock on that night, Kidder House which had housed the Branch since 1911, was closed. We had many willing helpers while moving and settling, and we are grateful to Milton Small, Philip McCarthy, Eleanor Timmins and Grace McLaughlin for their assistance.

The new building, which had been beautiffully decorated by the Milton Garden Club, was dedicated on the evening of November 12, with appropriate exercises. The keys were presented by Mr. Nathaniel T. Kidder, chairman of the Board of Trustees, to Mr. Kenneth D. Johnson, chairman of the Board of Selectmen, who accepted them in behalf of the town and returned them to Mr. Kidder. Dr. Frank E. Wheatley, President of the Milton Park Improvement Association, then spoke briefly and the exercises closed by the presentation, by Mrs. A. B. Cooper, of a standard flag, the gift of the Huntington F. Wolcott Relief Corps. The flag was carried in by Mr. Francis H. Kemp. In presenting the flag, Mrs. Cooper said that flags for the outdoor pole were to be given in the near future and they have since been gratefully received. After the formal exercises, refreshments were served by the Milton Park Improvement Association to the three hundred or more people who attended.

The building was opened to the public on the following afternoon. From moment the doors opened until they closed at six, an eager crowd of children and older people filled the room and during the first three hours, 339 books were circulated. To Master Philip McCarthy goes the honor of taking out the first book. There had been a loss in circulation from January 1 to November 9 of 592. At the end of November, this loss had been made up and there was a net gain of 689. The total circulation for the year has been 31,174, a gain of 2,048. 1325 of this was in December. In addition to the large number of books circulated since the dedication, 107 new borrowers' cards have been issued, 55 to children and 52 to adults, a proportion which shows that the Branch is appreciated equally by both old and young.

I can best sum up what the use of the Branch has been during its seven weeks of existence by quoting from Miss Hills' report:

"The circulation from November 13 to December 31 has been 6841 with a daily average of 208.8. 104 7 of this has been juvenile and 104.1 adult. This is closer than it has ever been before. In the past the adult was double the juvenile as there had never been room enough to have a large collection for the children without cutting down the number for grown

ups. Many new books have been added, the greatest number being for the children as they were needed most. It has been found necessary to restrict the youngsters to only one new book at a time. It is quite hard for them to choose sometimes which book is wanted as they want them all. There were three full shelves of new nevels for the adult readers on the opening day.

The people seem to enjoy their new library very much. The children come in the afternoon, take off their coats and make themselves at home until dark. In the evening older people come, fathers and mothers, sometimes with their children, and the older boys and girls come to do their studying. There hasn't been an evening that someone hasn't been writing at one or more of the tables. One evening there were four teachers and two college students doing refernce work at the same time. The new Encyclopedia Brittanica has been much appreciated, and is in constant use. Books on philosophy, religion and social sciences that seldom went out from the old building circulate from the new. Ten volumes of Shakespeare went out in one day.

Not a day goes by that someone does not speak of the beauty of the new building or the attractiveness of the interior, or how lovely it looks lighted at night, and what a fine 'job' the trustees did when they got the chance."

Miss Dora W. Hills has been in charge of the Mattapan Branch since 1913, during which time the circulation has doubled. The personal thought, the individual attention and the interest which Miss Hills has put into her work has contributed much to the success of this Branch. All who visit it are glad that at last she has a building which is beautiful in its proportions, dignified and restful in its decorations and furnishings, and practical and convenient to work in.

Mr. Frank H. Hills has taken care of Kidder House from 1913 until it closed. We take this opportunity to voice our appreciation of tnese sixteen years of faithful service.

The circulation from the East Milton Branch has been 28,959, a gain of 1094 over 1928. The important event so far as this Branch is concerned is the offer by Mr. Nathaniel T. Kidder of a gift to the town of land between Edge Hill Road and Hollis Street, on which to build a branch building for this section of the town. It is our earnest hope that the town will, at its annual meeting in March 1930, appropriate money so that East Milton may have as beautiful a building as that just completed in Mattapan.

The work at Russell Reading Room continues quietly and varies little from year to year. More boys and girls than usual have used it for reference work. The circulation for the year has been 4168.

There has been a gain of 1902 in the Children's Room. 10,892 books have been circulated from the schools, the largest number ever issued through these channels. New forms have been printed to be used by the teachers when ordering deposits. Because of their uniformity, it has been much easier to fill class room requests. We are greatly handicapped in our work with the schools by lack of books. Particularly do we need primers and readers for the first three grades. During the last two years we have had many gifts of these from our townspeople, but many more could be used. We shall be grateful indeed for any future gifts along this line that may come to us.

During the summer the picture collection was revised and six hundred new pictures mounted. Much work still remains to be done but we have made a fair beginning toward revising this valuable tool.

During Good Book Week, children wrote reports on their favorite book. An interesting collection of papers was turned in. The year ends with a Travel Club in progress, for which the children are reading with enthusiasm.

The usual instruction was given to the ninth grade pupils of the High School. These classes came as we were moving books into the new stack, so we were unable to give the lesson on the arrangement of books on the

shelves. We consequently did not ask these boys and girls to take the regular examination.

We have been so absorbed and interested in the completion of the Mattapan Branch that we have almost lost sight of the fact that this has been the busiest year in the history of the library.

Following is a brief summary of some of the work done:

136,450 books were circulated through the system, a gain of 7,307 over 1928, and a per capita of 8.8 by the 1929 town census.
949 books were sent to the bindery.
3,071 books were catalogued and prepared for circulation.
7,200 books were sent on deposit to the Branches.
600 new pictures were mounted.
1,783 pictures were circulated.
211 High School pupils were instructed in the use of the library.
4,500 overdue notices were sent out.
12,000 volumes were moved and re-arranged after the erection of the new stack.

For ten years the shelving space in the Central Library has been growing more and more crowded. During the last few years it has been impossible to put books back in many sections with any degree of accuracy owing to the over-crowded shelves. This year we have added a third stack which at once relieved the congestion. This work was paid for from the accumulated income of the Channing Fund, which the Trustees have been holding for this purpose.

A Chevrolet truck was bought in March and was first used on April 1. It has cost us $132.45 to run and house it for nine months. During a corresponding period last year our various deliveries cost $302. In addition to a saving of money we have had the convenience of having a car to use at all times.

As in the past, members of the staff have taken courses for professional advancement and the library has been represented at the winter and spring meetings of the Massachusetts Library Club.

There have been many gifts, the outstanding one being Mr. Kidder's offer of land in East Milton, already spoken of. Mr. Edward L. Pierce, of Princeton, New Jersey, has given the original certificate of Town Clerk, Jason Reed, dated March 1, 1869, relative to establishing a public library in Milton. Two tiles, from the fireplace of the Coats Mansion which stood near the Central Library, were a gift from the estate of the late Arthur W. Sias, a former resident of Milton. The townspeople have been unusually generous in their gifts of books, magazines and flowers and a complete list of donors is appended to this report.

I feel that with the erection of a new stack, the purchase of a new truck, the completion of the Mattapan Branch and the largest circulation in the history of the library, the year has been an eventful and succesful one.

That such an amount of work has been accomplished is due to a cheerful and willing staff and to the friendly supervision of the Trustees who have given unstintingly of their time.

Respectfully submitted,

CARRIE S. ALLEN,
Librarian.

APPENDIX I
Art Room Exhibits

Portraits and pastels by Mary Neal Richardson; Lincoln and Washington exhibit, loaned by Miss Mary Bowditch Forbes; work of Vesper George

Art School; paintings by Milton artists; oils by May Austin Klaus; airplane views of Milton, loaned by Town Engineer; handicraft work by members of Milton Woman's Club; oils by W. H. Partridge; oils by Ernest E. Perry and Courtland Butler.

Glass Case and Kidder Hall Exhibits

Paper dolls in the costumes of various countries, designed and made by Miss Esther B. Trull; teapots and boxes from China, loaned by Miss J. Dorothy Gordon; three small model gardens from Massachusetts Horticultural Centennial Show, loaned by Mrs. Bernard W. Trafford; billboard menace exhibit under auspices of Milton Garden Club; hand made jewelry made by Miss Beatrice Crossman; Japanese objects, loaned by Miss Hester Cunningham; antique daggers and rapiers, loaned by Miss Rosamound Lamb; old-fashion plates, loaned by Miss Rosamund Lamb; toy animals, loaned by Miss Margaret Bigelow; and an exhibit of small objects, loaned by various towns people.

Gifts

Mr. W. Newton Harlow, Mr. Nathaniel T. Kidder, Mrs. J. Malcolm Forbes, Mr. Sumner E. Spencer, Mrs. Walter T. Harrison, Miss Mildred Gordon, Miss Anne D. Beck, Blue Hill Meteorological Observatory, Dr. Vincent Y. Bowditch, Mrs Christine T. Calderwood, Mrs. Harriet Tuell, Mr. James F. Ballard, Mrs. Andrew H. Ward, Mrs. W. L. W. Field, Mrs. J. A. Jeffries, Miss Faith Ward, Mrs. Charles C. Copeland, Miss Harriet Whittier, Milton Garden Club, Miss Frances McCarthy, Mrs. Ernest W. Bowditch, Mr. Roger Wolcott, Miss Mary Marks, Mrs. Robert Saltonstall, Mrs. A. B. Smith, Mrs. Philip Y. DeNormandie, Edward and Francis Cutter, Mrs. Horatio A. Lamb, Dr. Mary A. Heard, Warland Wight, Jr., Miss Cora Cummins, Mr Frederick T. Fuller, Mrs. Margaret MacFarlane, Mr. A. H. Durell, Columbine Book Club, Mrs. Holden McGinley, Mr. Henry A. Blanchard, Miss Helen Jacques, Hon. Richard B. Wigglesworth, Mr. Philip P. Chase, Mrs. Charles W. Lillie, Dr. M. V. Pierce, Mrs. Edward C. Bradlee, Dr Frank E. Wheatley, Mrs. Geoffrey G. Whitney, Mrs. Nathaniel M. Safford, Mrs. S. Huntington Wolcott, Mrs. Walter S. Hinchman, Mrs. James S. Russell, Mrs. Bernard W. Trafford.

REPORT OF SEWER COMMISSIONERS

The Board of Sewer Commissioners makes the following report of operations of the Sewer Department during the year ending December 31, 1929:

General

Population by the Assessors' census of 1929	15,503
Estimated length of streets of the town (miles)	83.15
Percentage of length provided with sewers	32
Method of disposal	Metropolitan system For Sewage and

Collection Mains

	For Sewage	Surface Water
Linear feet of pipe (measured)	146,786.4	700 (storm overflow)
Linear feet extended during the year:		
By town	8,549.9	
By private parties	170.9	
Number of manholes	699	
Number of inverted siphons	1	
Number of storm overflows	1	
Number of emergency overflows	1	
Number of automatic pumping stations	1	
Linear feet of force-main (12 in.)	960.6	
Number of gate chambers on force-main	1	

House Connections

Number made during the year	164
Number of stoppages coming to the notice of the department	14

Discharge of Sewers

Estimated population using sewer system	11,365
Number of buildings connected	2,178

Financial

Total cost of collection mains to December 31, 1929, (including the East Milton sewer and drain through Babcock Park District	$514,895.92
Bonded debt at date (including East Milton sewer and drain bonds)	$150,000.00
Average rate of interest on bonds	4.103%

For details of sewer construction and maintenance accounts, reference is made to the Financial Report compiled by the Town Accountant, as shown elsewhere.

The sewer extension made during the year were as follows:

By the Town: Bassett Street, 601.8 feet; Libby Road, 205.0 feet: Governors Road, 308.6 feet; Church Street, 270.3 feet; Antwerp Street, 1184.7 feet; Easement, Pleasant Street to Edge Hill Road, 1202.4 feet; Saint Agatha's Road, 295.6 feet; Adams Street, Libby Road to Reservation Road, 567.3 feet; Reservation Road, 609.4 feet; Harold Street, 668.2 feet; Revere Street, 577.6 feet; Hudson Street, 450.0 feet; Meagher Avenue, 773.0 feet; Fairlawn Avenue, 200.0 feet; Rowe Street, 486.0 feet; Edge Hill Road, 150.0 feet.

By private parties: Woodward Court, 170.9 feet.

J. W. ROLLINS, Chairman,
FRED Y. MARSHALL,
STANLEY CUNNINGHAM,
Sewer Commissioners.

REPORT OF HIGHWAY DEPARTMENT

Milton, Mass., December 31, 1929.

To the Honorable Board of Selectmen:

The report of the Highway Department for the year 1929 is respectfully submitted.

On April 1st, when I assumed charge of the street work, there were forty-two men employed and we still have that same number on the payroll.

Many of the streets in Milton are subjected to very heavy traffic. Where adequate drainage has not been provided, the heavy rains and the freezing sleet and snow break down the surface very quickly. Where the wear is great and the road in very poor condition, it would seem economy to tear up the old road and build one designed to resist these conditions. This can only be done where there is plenty of money to do with, so the most satisfactory and emonomic methods of reconditioning these roads must be studied.

The first move was to make out a working program for the general highway work. Highland Street, Brook Road, Squantum Street, and Lincoln Street required immediate attention because they were throughways carrying heavy traffic and in places were nearly impassable.

Highland Street

We began with Highland Street, which is about a mile in length. About two-thirds of it had to have a new wearing surface, due to the fact that it had gone beyond repair. We first deepened and enlarged the ditches on either side of the road, dug cross drains and conducted the water to the new side drains, thus intercepting the ground water which formerly flowed into the road. While this was being done, the surface of the road was broken up and prepared for stone and was later penetrated with asphalt. The remaining third of the street, after being patched, was given a coat of heavy asphalt covered with stone chips, which made a light-wearing surface. I recommend that the remaining third of this street be retreaded with stone next year.

Squantum Street

Squantum Street was treated much in the same manner as Highland Street. No permanent construction was advisable from Adams Street to Granite Avenue because it will be necessary for the Sewer Department to open this road in another year to complete work done this past year in the vicinity of Granite Avenue. Vacant land abutting this street, now in the process of development, will also require street openings.

That part of Squantum Street from Granite Avenue to a point about 200 feet beyond Denmark Avenue is a retread surface. This portion of the street was broken up by the Boston Consolidated Gas Company when they installed one of their gas mains. They agreed to meet our expenses to an amount not exceeding $3000.00. This gave the Town a fair road at no expense to the taxpayer, and kept our Town labor employed.

Brook Road

Brook Road from Brush Hill Road to Blue Hill Avenue, a distance of 848 feet, was rebuilt and constructed according to engineers' lines and grades.

Lincoln Street

Lincoln Street, 853 feet long, was in the poorest condition of any public street in town. It was necessary to use the excavator to sub-grade this road before a wearing surface could be laid. The drainage was improved by the addition of two catch basins. All this work was done to lines and grades and should give many years of service.

Brook Hill Road

At the request of the Selectmen, Brook Hill Road was added to the list of roads to be resurfaced. Before resurfacing, about two hundred and sixty feet of drain was laid and two catch basins installed. This road was resurfaced from Canton Avenue to West Side Road, a distance of 643 feet.

Streets Resurfaced During 1929

	Length	Width	Total Sq. Yds.	Total Cost	Cost per Sq. Yd.
Highland Street					
Canton Ave. to Reed St.	3,935.0	17.4	7,590.0	$3,215.18	0.4236
Brook Road					
Blue Hill Ave. to Brush Hill Rd.	848.	22.50	2,218.0	1,140.90	0.5144
Squantum Street					
Adams St. to Granite Ave.	1,635.3	22.8	4,135.54	1,988.85	0.481
Lincoln Street					
Brook Rd. to Thacher St.	853.	19.0) 22.0)	2,030.8	1,439.03	0.7086
Brook Hill Road					
Canton Ave to near West Side Rd.	643.5	23.8	1,822.32	1,046.03	0.574
***Squantum Street**					
Granite Ave. to Denmark Ave.	1,431.10	22.	3,750.		
Total	9,345.9		2,154.66	$8,829.99	

*Work paid for by Boston Consolidated Gas. Co.

Thacher Street

Thacher Street came under the permanent construction appropriation and was done by contract, being awarded to Simpson Brothers Corporation of Boston by the Board of Selectmen. After drainage was installed by the town, a vulcanized sheet asphalt surface was laid.

Betterment Streets

The betterment streets built by the Highway Department are Viola Street, Breck Street, Bassett Street and Antwerpt Street. These streets are built just as the other betterment streets have been built. First adequate drainage, then eight to ten inches of gravel base with four inches of broken stone wearing surface rolled and penetrated with asphalt, and on either side of the road a four-foot tree lawn and a four-foot sidewalk.

The gutters and shoulders of many of the highways were in a dangerous condition. These have been repaired, some with gravel and others with broken stone rolled and penetrated.

Granite Avenue

Granite Avenue on the easterly side from Squantum Street to Wood Street was widened. This work required the use of a steam shovel and the excavated material was used on Squantum Street in the vicinity of Denmark Avenue to fill in and straighten the road. Retaining walls, steps and driveways were built as planned.

The Keystone excavator, under the control of the Water Department, has been used frequently by the Highway Department. It is through the cooperation of the Superintendent of the Water Department in planning the season's work that it was always available when needed.

Street Oiling

For oiling, I have used the heavier type of oil because it is more durable and adds to the wearing surface of the road by keeping the water out.

Sixty-five per cent and 96% asphale has been used as conditions have required. The two grades of asphalt are used extensively by road builders and are applied hot. The 65% asphalt is the lighter and is used mostly on gravel surfaced roads because it will penetrate the worn, loosened surface and leaves a fairly smooth water-proof surface. The drying process takes four or five days and one application of asphalt will last a year or more. The 96% asphalt is a much heavier grade and wears best on a smooth, hard surfaced road. This treatment is followed immediately by an application of stone chips.

The 96% asphalt was used on a part of Brush Hill Road, on the upper end of Thacher Street, on a part of Brook Road and on the streets approaching the Town Hall.

The only tar used was on Adams Street and Centre Street. These roads were originally tar.

Drainage

The following is a list of drainage installed this year by town labor:

Location	Length in feet	Size in inches	No. of basins	No. of manholes
Bassett Street	200.	10		
	80.	8	5	1
Breck Street	130.	8	2	0
	240.	10		
Brook Hill Road	20.	8	2	0
	300.	15		
Canton Avenue	960.	12	0	5
Capen Street	24.	8	2	1
Centre Street	63.	8	0	0
Curtis Road	163.	8	0	1
Eliot Circle	195.	8	0	1
Granite Avenue	18.	8	2	2
Highland Street	66.	8	1	0
Lincoln Street	40.	8	2	0
Norway Road			1	0
Projecta Road	531.	12	0	0
Smith Road	88.	8	1	0
	156.	12		
	755.	10		
Thacher Street	370.	8	21	6
Walnut Street			1	
Warren Ave. at Playground	82.	8	0	1
Total	4,481.		40	18

1260 feet of the Canton Avenue drain was laid this year up to December 31st. About 400 feet of this line and the catch basins remain to be done.

Traffic Signals

After the March Town Meeting the work of installing the traffic control signals was started. The Highway Department did all the excavating and concrete work in connection with this installation. All the money for

traffic signals, excepting equipment, has gone to town labor, this amount being $1,799.31.

The following is a list of intersections controlled by "Stop" and "Go" signals:

Blue Hill Avenue at Dollar Lane and Milton Street	Electromatic signal
Blue Hill Avenue at Brook Road	Pretimed signal
Brook Road at Central Avenue and Reedsdale Road	Pretimed & manual signal
Brook Road at Randolph Avenue	Pretimed signal
Brook Road at Centre Street	Pretimed signal
Randolph Avenue at Centre Street	Pretimed signal
Reedsdale Road at Canton Avenue and Centre Street	Pretimed signal
Granite Avenue at Squantum Street	Electromatic signal
Granite Avenue at Adams Street (rebuilt signal)	Manual control

At two of the intersections; namely, Blue Hill Avenue at Dollar Lane and Milton Street and at Granite Avenue at Squantum Street, the type known as Electromatic Vehicle Actuated Signals have been installed. This type of signal was chosen for these two intersections because they are most efficient and are particularly adapted to handle traffic at these points. This signal allows a continuous stream of traffic unless a vehicle actually wishes to cross. The vehicle is permitted to cross at the first gap that occurs in the continuous stream. The signal apparatus could not be purchased but is rented on a monthly payment plan and has been paid for out of the signal appropriation. The poles and signal heads were purchased by the town and installed by town labor.

At the present time there is being installed at the intersection of Canton Avenue, Highland Street Thacher Street a magnetic signal having a semi-actuated control. This signal is being installed on trial at the expense of the Crouse Hinds Company of Boston and at the end of a stated period its purchase will be optional.

Mr. Maxwell Halsey, Traffic Engineer for the Department of Public Works, ordered the signal in East Milton changed. This had been installed before we began to install the control system under the supervision of the State. To meet the standard code for signals, it was necessary to install an entire new unit with the four lenses in one, putting the red at the top and the green arrow at the bottom. Because of this unforeseen demand, the signal appropriation was exceeded to the amount of $338.67.

Equipment

Most of the equipment is in very poor condition. There are five trucks, a five-ton White which is seven years old, a three and one-half ton truck which is five years old and three small ton trucks. Two of these small trucks have very little value. Therefore, I am asking for an appropriation for one ton truck and for one large truck to replace the five-ton White.

Steam Rollers. The town owns three steam rollers as follows:

1 tandem, built in 1916, weight about 6 tons
1 maintenance, built in 1914, weight about 10 tons
1 maintenance, built about 1916, weight about 12 tons.

The first two machines have passed their day of usefulness. The Highway Department needs the use of two rollers most of the year. Therefore, I recommend trading in the two old machines and purchasing one new gasoline road roller and am asking for an additonal appropriation for this purpose.

New Sheds

Much of the equipment, such as wagons and snow ploughs, has to be stored out in the yard and is exposed to the elements. I recommend an appropriation to build additional sheds for the purpose of storage.

On April 1st there were seven horses owned by the town. These were used for general work on highways and for ploughing snow. Three of the poorest of these animals were sold. This winter we have the use of three horses belonging to local contractors in exchange for their board.

Private Work Account

I have not been allowed to charge the private work account for street repairs where openings have been made by the Water or Sewer Departments because of the wording of the Article for this appropriation.

Details of the financial statement will be found in the report of the Town Accountant.

Before closing my report, I wish to thank the Selectmen and all officials of the town for their courtesy and cooperation. I also wish to express my gratitude to the foreman, sub-foremen and the employes of the Highway department for their excellent services.

Respectfully submitted,
FORREST J. MAYNARD,
Superintendent.

REPORT OF BOARD OF WATER COMMISSIONERS FOR 1929

Milton, Massachusetts,
January 16, 1930.

To the Citizens of the Town of Milton:

The Board of Water Commissioners submits to you herewith its Annual Report for 1929.

As in our two previous reports, we refer you to our report dated January 16, 1926, for a detailed discussion of the Department's problems.

Financial Report for the Calendar Year 1929

1. 1929 Operations

Operating Receipts	$113,758 06	
Operating Expenses	57,331 71	
Net Operating Revenue		$56,426 35
Interest	$ 15,138 87	
Bond Retirement	25,000 00	
Total Fixed Charges		40,138 87
Balance for Property Retirement & Surplus		16,287 48
Retirement Reserve Transfer		10,000 00
Balance for Surplus		*$6,287 48

*In accordance with the terms of the "Enabling Act" under which your Commissioners operate, this sum should not be less than $10,000.00.

The information in the following table compares the conditions of 1902 and the past six years.

	Number of Fire Hydrants in Use	Number of Meters in Service	Miles of Main in Use	Cubic Feet of Water Purchased	Population April 1, by Assessors
1902	266	1000	35	15,873,600	7,100
1924	467	2659	60	26,277,400	11,950
1925	496	2976	64	29,471,800	12,779
1926	515	3174	67	34,234,400	14,259
1927	541	3317	70	34,322,900	14,813
1928	561	3482	72	36,205,900	15,508
1929	578	3670	74	41,384,000	15,503

At the close of 1929, eighteen persons were regularly employed by the Department, which continues to be conducted economically and efficiently.

2. 1929 Business

A tabulation titled "Statement of Earnings, Expenses, Construction Expenditures, Etc." will be found in the pages immediately following this report. This tabulation shows clearly the results of the Water Department operation for the last six years and includes an estimate for 1930.

Total Earnings satisfactorily increased over 1928 results in the principal sources of revenue.

After deduction of Operating Expenses, Taxes, Interest and Bond Retirement Charges and transfer to Retirement Reserve, the Balance for Surplus amounted to $6,287.48. While this balance was larger by $6,029.37 than that for 1928, closer study of the tabulation reveals the following:

(1) Increased Earnings because of the dry summer and an increase in the minimum charge for water supply;

(2) An increase of $1,938.97 in the cost of water purchased from the Metropolitan District Commission;

(3) A slight increase in Operating and Maintenance Expenses exclusive of cost of water;

(4) An increase of $5,639.56 in Interest and Bond Retirement charges; and

(5) A charge of $10,000 to further build up the Retirement Reserve against which property when retired from service as no longer useful to the Department, will be charged at its original cost.

It will be noted with interest that the Earnings increased $13,365.95 over those for 1928 while the Operating Expenses, other than the cost of water, increased only $108.05 above those for the past year.

3. 1929 Construction

The necessary extensions and reinforcements to the system and additions to equipment of the Department have been completed at a total cost of $43,301.42. This figure is $12,670.75 less than was spent in 1928 and is less than the 1927 expenditures by $28,406.79.

4. Financing for 1930

Largely because the necessary reinforcement of the system of water mains, on which $200,293.54 has been spent in the last six years, has not as yet been completed, it is necessary to provide the Dpartment with additional funds for continuing these essential extensions to the system, for which purpose about $60,000 will be required.

5. Water Rates

Careful administration and operation of the Department enabled your Commissioners to meet all charges without any changes in rates until March, 1928, when a reasonable increase in the hydrant rental was granted; but as was indicated in our report last year, additional revenues are necessary because of the cost of strengthening and enlarging the system of mains and the continued increased in cost of water purchased, largely due to the cost of the Swift River project now being built under the direction of the Metropolitan District Commission. Therefore, as of June 30, 1929, the quarterly minimum charge was increased from $2.50 to $3.00, leaving however, the charge for water used in excess of the first 1,000 cubic feet per quarter at the same rate as formerly, namely, 25 cents per hundred cubic feet.

This increase of but $2.00 per consumer per year in the cost of water is moderate under the circumstances. Whether or not a further increase in water rates will be necessary, your Commissioners cannot now foretell because this will be governed by conditions largely beyond their control including.

(1) The increase in the cost of water secured from the Metropolitan District Commission.

(2) The investment which your Commissioners will be called upon to make in the water main system for its reinforcement and improvement.

As to the extensions to serve new territory, your Commissioners expect they will be more nearly self-supporting than in the past because the yearly guarantee on main extensions has been increased from 6 to 8% of the cost thereof and the period covered by the guarantee lengthened.

6. Shelter for Automobile Equipment

At the March 1929 meeting the Department was authorized to construct a suitable garage on property adjacent to the Thacher Building for use of the Water and Engineering departments. Your Commissioners were pusuccessful in securing the necessary authority to construct this garage and it was therefore not built.

The need still exists for such a building and the matter will again be brought to the attention of the Town at its next meeting.

Articles have been introduced in the Town Warrant to clothe your Commissioners with the necessary authority to conduct the usual operations of the Department to provide for hydrant rental, additional finance and a shelter for mechanical equipment.

Respectfully submitted,

MARCY L. SPERRY,
EDWARD L. HURD,
EDWARD E. FORD,

Board of Water Commissioners.

STATEMENT OF FINANCIAL CONDITION OF THE WATER DEPARTMENT ON DECEMBER 31, 1929

ASSETS

What the Department Owned

(1) Plant $915,900 98

This includes all of the water works property belonging to the town which is being operated by the Water Department. It consists of street mains; services; meters for measuring water used; gates for the control of water supply, and hydrants for fire protection; general equipment, such as, mechanical excavator, air compressor, Leadite equipment, pipe machines, forges, etc., used in construction work; automobiles and trucks; and office equipment, such as vault, counter, typewriters, adding machine, desks, filing cabinets, etc.

(2) Cash 39,445 70

The amount held by the Town Treasurer to the credit of the Water Department, subject to withdrawal only by warrants of the Commissioners, plus a small cash fund which is maintained in the office of the Department for defraying minor expenses.

(3) Savings Bank Deposits 15,100 55

These deposits are made by consumers whose homes are in new territory. The money is held in the Milton Savings Bank as a guarantee to the Water Department of an adequate return on the investment made to give such consumers water service.

(4) Accounts Receivable 33,440 10

The amount owed to the Water Department by residents and others for water supplied, service installations, or for miscellaneous items.

(5) Materials and Supplies 17,517 45

The value of supplies, such as iron pipe, pipe fittings, valves, repair parts, etc., on hand.

Total Assets $1,021,404 78

LIABILITIES

What the Department Owed

The Department accounts for money used to provide for your water system as follows:

(6) Bonds Outstanding $366,000 00

The Department is responsible for the property represented by these bonds as shown below:

Date	Rate	Issued	Retired	Outstanding
1902 . . .	3½ %	$312,000	$282,000	$ 30,000
1924 . . .	4 %	50,000	10,000	40,000
1925 . . .	4¼ %	25,000	5,000	20,000
1926 . . .	4 %	50,000	8,000	42,000
1927 . . .	4 %	85,000	9,000	76,000
1928 . . .	3¾ %	70,000	3,000	67,000
1928 . . .	4 %	95,000	4,000	91,000
		$687,000	$321,000	$366,000

The property represented by the bonds retired is included in the next two items:

(7)	Town of Milton ..... The total net money provided by direct appropriation by the Town for extensions to the system.	$240,025 30
(8)	Milton Water Works ..... Represents original capital investment plus subsequent increases as Water Loan Bonds are retired through Water Department earnings.	293,693 70
(9)	Consumers' Guarantee on Main Extensions ..... The guarantees appearing in the assets (Item 3) as pledged by consumers in new territory are held only as a trust, and therefore cannot be used for Department purposes unless forfeited. To offset this item, which must be accounted for in the statement of assets, there must be again shown a like amount as a liability for which the Department is responsible to those who have pledged it.	15,100 55
(10)	Sale of Water—Minimum Advance ..... Advance payment of minimum charges made by the consumers credited to this account are being reduced as the water is used.	10,872 11
(11)	Interest Accrued ..... This is interest accrued on bonds outstanding.	2,525 20
(12)	Reserve for bond retirement ..... Certain water loan bonds become due and payable each year. These payments are now being made from the earnings of the Department, and this amount represents that portion of $25,000 of bonds payable in 1930 which is applicable to the bonds payable in 1930 which is applicable to the year 1929.	10,583 33
(13)	Reserve for inventory adjustment ..... This account has been set aside to provide for adjustment o finventory, when it is depleted through loss, deterioration or damage, or when its market value is less than its inventory value.	297 81
(14)	Reserve for property retirement ..... Amount set aside from surplus to build up a reserve against which will be charged the original cost less salvage of property retired from service due to having become worn out in service, obsolescence, or for other causes. This amount includes $10,000, which was transferred from surplus in 1929.	16,158 84
(15)	Suspense—Contributions for extensions ..... Where a part of the cost of main extensions is advanced by outside parties the amount advanced is placed in this account temporarily. It will eventually be returned or credited to party advancing it.	221 89
(16)	Surplus ..... The book value of the Department's property exceeds its obligations by the amount of this surplus.	65,926 05
Total Liabilities		$1,021,404 78

REPORTS OF SPECIAL COMMITTEE

December 1, 1929

To the Board of Selectmen of the Town of Milton:

Dear Sirs:

At the town meeting held in March 1929 the two committees appointed by the Moderator under Articles 58 and 59 of the 1928 Warrant were consolidated into a single committee originally composed of the following membership: James S. Russell, Chairman, James F. Ballard, Edward C. Bradlee, Stanley Cunningham, and Frank A. Stout. Mr. Edward C. Bradlee subsequently resigned from the committee and in June 1929 Mr. Oscar W. Haussermann was appointed to fill the vacancy caused thereby.

The committee has been appointed to consider three matters, namely:

(1) The regulation of future real estate developments;
(2) The advisability of revising the building laws of the town; and
(3) The policy of laying out highways and assessments of betterments thereon.

In view of the fact that the above three matters are not parts of one general subject, the committee has found it necessary to study each matter separately and to report separately thereon.

The three reports on the above matters respectively are annexed hereto.

Respectfully submitted,

JAMES S. RUSSELL, Chairman,
JAMES F. BALLARD,
STANLEY CUNNINGHAM,
OSCAR W. HAUSSERMANN,
FRANK A. STOUT.

Report of Committee Appointed by the Moderator of the Town of Milton to Consider the Regulation of Future Real Estate Developments in the Town

FOREWORD

We assume that back of the article in the warrant ordering the appointment of this committee were (1) a recognition of the fact that although existing laws and by-laws may protect the town against **some**, they do not protect the town against **all**, of the major features of undesirable real estate developments; and (2) a fear that with the extension of rapid transit facilities between Boston and Milton there will come real estate developments, which although within the law as the law now stands, will, nevertheless, materially hurt the town.

The population of Milton will grow. Growth means additional private spaces. These future houses, structures, streets, and new public open spaces. These future houses, structures, streets, and open space will for the most part develop on what are now the undeveloped areas of the town.

A general desire exists that this certain future growth will be coordinated and harmonious, and that the new streets will all be properly located, constructed and equipped, and the entire process of future development will be consistent with the present high standards and residential character of Milton. Some citizens hope and believe that such a development will result naturally without additional regulation. Others are convinced that such a result requires additional regulation.

Because of the many-sided nature of the problem and the sphinx-like state of the Massachusetts Constitution in so far as its express provisions go and the illusory nature of existing statutes pertaining to some aspects of the problem, few citizens have had the time to develop a mental picture of the problem as a whole and of the defects and loop-holes in the laws that now exist and of the possible constitutionality or unconstitutionality of such regulations as have already been suggested.

However, interest, discussion and cerebration (possibly in the order named) have been developed among the people of the town regarding the planning problem. This is a necessary and important first step. The next step inevitably will be the development of a working consensus among the voting majority of the citizens. When such a consensus arrives the town will act.

The committee believes there is danger to the town in non-action. It also believes there is danger in postponing the plugging up of the holes that exist in supposedly protective legislation now on the statute books and in the town's by-laws.

The purpose of this report is **first** to bring home to the citizens the principal ways in which real estate developments can be detrimental to Milton and the extent to which existing statutes and by-laws protect or fail to protect the town against such detriments; and **second**, to show what steps can be taken this year without severely disturbing the present status quo, toward trying to obtain additional legislation aimed (a) to handle in a manner both constitutional and economical the prevention of buildings athwart previously mapped out streets or open spaces; and (b) to enable the town to establish, and in the manner to be indicated, to enforce, reasonable standards as to materials in, and type of construction of, future private ways that will be opened to public travel; and **third**, to point out what must be done ultimately if the town actually desires a legally protected town plan aimed to assure coordinated and harmonious development of present undeveloped areas.

I. PRINCIPAL EVILS OF SO-CALLED UNDESIRABLE REAL ESTATE DEVELOPMENTS; AND EXTENT TO WHICH EXISTING STATUTES AND BY-LAWS PROTECT OR FAIL TO PROTECT TOWN AGAINST THEM.

Individuals treating the problem of protecting and controlling future development of the town often forget that there are at least seven general evils to combat and are likely to focus on one particular evil as though it embraced the entire problem. Regulations protect only to the extent that they cover the situation as a whole in all its aspects.

Generally speaking, the evils that are the attributes of so-called undesirable, detrimental or improper real estate developments usually take one or more of the following forms:

1. The use to which the structures thereon are to be put conflicts with the general character of the immediate neighborhood or of the town as a whole.
2. The type of construction is below reasonable standards of construction and/or the houses are too near the front or side lines of the lots on which they rest.
3. The development though conforming to zoning by-laws and building regulations is, from the qualitative or architectural or aesthetic standpoint, materially below the standard of the immediate neighborhood.
4. The private plan of the development may either omit, or contain improper provisions for installation in streets and roadways of such facilities as sewer, water pipes, etc.
5. The private plan places houses or other structures athwart streets or ways or open places planned for that area by public boards.
6. The streets or ways either (a) are of improper width, or (b) are not in conformity with the direction and location of future streets as planned by public authority, or with streets already laid out and in use in the general vicinity, or, (c) are so closely gridironed as to result necessarily in exceedingly small lots and houses below the standard of the community.
7. The construction by the developer of the streets or roadways in the development may be below reasonable standards because of inadequate foundation, improper surfacing and faulty or non-existent means of drainage.

In regard to the first two evils above mentioned, the committee believes that existing permissive legislation and the zoning by-laws and building regulations thereunder constitute a system of legal protection against these two evils adequate for the needs of the town. It is believed that the existing state statutes are broad enough to permit such amendments of our zoning by-laws and building regulations in the future as the town may reasonably require.

In regard to the third evil above-mentioned, it is obvious that society has not yet reached the stage where sufficient consensus has been developed as to what is good taste, good architecture and aesthetics, to afford any common standard upon which to base regulations aimed directly or solely at the occasional architectural monstrosity or the development that by general verdict is undesirable solely because unattractive.

In two Chicago suburbs the restriction as to architectural standards is that—

> "Every building shall be so designed and constructed as to be suitable from the architectural standpoint in its environment."

The committee obviously for the reason above stated, to say nothing of

the doubtful constitutionality of any such restriction in Massachusetts, makes no recommendation pertaining to this particular evil.

As already stated, a real estate development may be detrimental to the settlers thereon, or to the neighborhood, or to the town as a whole, because

(4) The private plan of the development may omit, or contain improper, provisions for installation in streets and roadways of such facilities as sewer, water pipes, etc.

When a developer voluntarily builds first-rate streets and at his own expense installs the above facilities therein and then dedicates the streets to the town, the situation is so Utopian that good citizens yearn for a law that would force developers to do the same handsome thing involuntarily, as a condition of approval of their plan by public boards.

No way exists, the committee believes, under the Massachusetts constitution legally to force the developer to equip at his own expense his own private ways with the facilities above mentioned.

To facilitate following ensuing comment in regard to the fifth and sixth evils, we re-state them here. We pointed out above that a real estate development may be detrimental or undesirable because

(5) The private plan places houses or other structures athwart streets or ways or open places planned for that area by public boards;

or because

(6) The streets or ways either are (a) of improper width or grade, or (b) are not in conformity with the diirection and location of future streets as planned by public authority, or with streets already laid out and in use in the general vicinity, or (c) are so closely gridironed as to result necessarily in exceedingly small lots and houses below the standard of community;

An eminent authority on the legal aspects of city planning has written:

"The dangers to a city plan which has no enforceable legal protection are twofold.

In the first place, owners may erect on the site of the proposed streets buildings of such a substantial character that if, when the streets are finally established as public streets, the owners must be paid damages for the destruction of the buildings, the cost to the city will be prohibitive and the plan must be abandoned.

In the first place, if owners of tracts of vacant land who open it up for development are permitted to lay out their roadways without regard to the city plan, it will be impracticable to carry out the city plan in that neighborhood and the city plan must be abandoned, even if no structurres happen to lie in the roadbeds of the streets projected on the city plan, because two inconsistent street systems, each sufficent in itself, cannot well co-exist in the same territory."

How far has existing legislation in Massachusetts gone to enable a town to protect itself against the two evils last mentioned? The complete expression of the Massachusetts legislature on the matter is found in Section 70-81 of Chapter 41 of the General Laws,—these sections embracing the so-called Planning Board Act and the Board of Survey Act.

In Section 70 of Chapter 41 of General Laws it is provided that "every town having a population of more than ten thousand .... shall .... create a Planning Board, which shall make careful studies of the resources, possibilities and needs of the town .... and maks plans for the development of the municipality."

Section 72 adds that "towns may make .... by-laws for carrying out the purposes of Section seventy".

Section 73 provides that in town accepting the Board of Survey Act, "the selectmen shall constitute a board of survey".

Section 74 states "no person shall open a private way for public use without first submitting to said board suitable plans thereof in accordance with such rules and regulations as the board may prescribe, ... After hearing the board may alter such plans, and may determine where such ways shall be located and the width and grades thereof . . . . . and thereafter no way in the territory to which the plans relate shall be laid out or constructed except in accordance therewith."

Section 75 provides that the Board of Survey "may . . . . from time to time cause plans to be made to such territory or sections of lands in the town as the Board of Survey . . . may deem necessary, showing thereon the location of such ways, whether already laid out or not, as, in the opinion of the board, the interest of the public may or will require in such territory, showing clearly the direction, width or grades of each way". (Then follow provisions re-hearing and filing of adopted plans.)

Section 77 adds that "if any person shall open for public travel any way, the location, diection, width, grades . . . . of which have not been permanently approved by the boardd of survey, ... neither the town nor any public authority shall place any public sewer, drain, water pipe, or light in, or do any public construction work of any kind, or make any repairs, on such private way."

Section 78 forbids the register of deeds to record plans not endorsed by the Board of Survey.

The decision of the Massachusetts Supreme Court in the case of **Board of Survey of Lexington vs. Suburman Land Company** ((235 Mass. 108) makes it clear that no penalties, remedies or restrictions can be imposed upon non-conforming developers other than those expressly set forth in the above sections. In this particular case dealing with a similar statute, the court held that the statute did not entitle the town to an injunction to restrain a developer from laying out non-conforming streets. The Court said:

> "The statute contains specific consequences in the nature of penalties by restricting the rights of owners in the event of violation of the statute. The consequences imposed by a statute of such a character are commonly regarded as exclusive and no general relief against violation of its terms is conferred upon public officers by implication. Such a statute, reaching out into a new domain, usually covers the whole field and states fully and exclusively the duties, obligations, powers and remedies thereby created . . . . It is customary for the Legislature in statutes of this general nature, to confer the right to relief in equity by express terms, when its purpose is that such relief shall be afforded. That rule is recognized . . . . There is nothing in this case which calls for a relaxation of that rule."

Commenting upon the kind of penalty which the Board of Survey Act imposes upon non-conforming developers, our town counsel has written:

> "The only penalty for failing to present plans as required by the statute is that if the plans are not presented and approved ways cannot be laid out by the town, and neither the town nor other public authority can place any public sewer, drain water pipe or light in, or do any public construction work of any kind, or make any repairs on the way. **This provision does not prevent an owner from laying out his ways in any manner he sees fit, but he cannot get public improvements if he does not choose to come into line.**
>
> The penalty has proved very effective and, so far as I know, it is not subject to any constitutional objection."

By way of summary of the Board of Survey Act, and of the Sections pertaining to Planning Boards, we give below the salient matters covered and the things not covered thereby:

(a) A comprehensive town plan covering all undeveloped

areas, as well as developed areas, may be drawn up by Board of Survey, or by the Planning Board.

(b) A developer cannot get his private plan recorded in the registry of deeds, and cannot get sewers, water pipes, drains, or light or public construction work in or on his private ways, if the streets or ways do not conform to the width, grades, direction, and location approved by the Board of Survey, or established by the Board of Survey on any public plan of its own extending over the developer's tract.

(c) No penalty in the nature of a fine is imposed on non-conforming developers and no right of injunction is given to the town to prevent the developer from laying out non-conforming ways.

(d) The sections fail absolutely to cover, either expressly or impliedly, the situation where a land owner, after the Board of Survey has adopted a plan, places houses or other structures athwart streets or ways provided for by the adopted plan over the owner's land.

(e) No power is given to the Board of Survey to force the developer so to construct his streets as to meet reasonable standards in regard to foundation, surfacing and drainage. (But see later discussion on this point.)

Finally, real estate development may harm the town or citizens of a given neighborhood, or purchasers of lots or houses on the development, because

(7) The construction by the developer of the streets or roadways in the development may be below reasonable standards because of inadequate foundation, improper surfacing, and faulty or non-existent means of drainage;

Does the Board of Survey Act give to the Milton Board of Survey the power to make and enforce rules and regulations whereby the private developer would be obliged so to construct his roadways as to meet reasonable standards in respect to foundation, surfacing and drainage?

While the letter of the law affords some ground for rebate on this question, it seems to be the general opinion that no such power is given by the Act as it now stands.

Moreover, in the Lexington case above mentioned, the court, as we have seen, has clearly indicated an attitude against enlarging the powers of the Board of Survey through liberal construction or implication.

> "Such a statute" said the court, "reaching out into a new domain, usually covers the whole field and states fully and exclusively the duties, obligations, powers and remedies thereby created."

In the following sentence of the court in the same case there is at least a hint as to the scope of the "rules and regulations" which a board of survey may impose:

> "The bill does not allege that the plans were rejected because of failure to conform to the mechanical requirements of the rules and regulations, as to kind of cloth on which made, size, scale, or other details."

We give here an interesting letter from our town counsel pertaining to this matter:

> "———— One of the matters which has been most talked about in recent years has been the practice of certain developers to lay out their land upon improperly constructed streets, and I believe this to be one of the things which your Committee has particularly in mind.
>
> We now have a statute on the books establishing a board of survey, which has been generally accepted as a valid act

and has been before the Supreme Court in at least one case, and perhaps more.

It is familiar to you that this act provides that 'no person shall open a private way for public use without first submitting to the board suitable plans thereof, in accordance with such rules and regulations as the board may prescribe.' There is no special statement as to what rules and regulations may be adopted, except that in cities the plans submitted must be shown the profile of the way and the method of drainage of the adjoining or contiguous territory. Whether the language of the act would enable the town boards to make rules and regulations relative to the method of construction of the way, I think is doubtful and, so far as I know, the town boards have not attempted to do this. The act, however, might be amended either so as to apply to the entire Commonwealth or so as to apply to Milton alone, to make the provision clear that boards of survey could, among their rules and regulations, include regulations as to the construction of the way. If this could be done, it seems to me that one of the particular problems of your Committee would be met.

The above would be somewhat new and nobody could give absolute assurance that the Supreme Court might not say that it is going too far, but at the present writing I should consider it a valid provision."

II. RECOMMENDATIIONS INVOLVING IMMEDIATE ACTION

As already stated, comprehension of the general task of protecting and controlling future real estate developments involves consideration of not one, but seven, general problems.

The committee has appointed out in Part I of this report that sufficient permissive legislation exists to enable the town through zoning by-laws and building regulations adequately to protect itself in regard to the first two of the seven general problems already listed.

As to the third problem, the committee has stated in Part I that in its opinion there is no practical or constitutional way in which the town can directly impose upon developers qualitative or architectural or aesthetic standards aimed directly and solely at appearance.

As to the fourth problem, the committee has stated that in its opinion there is no contitutional way in which developers may be forced to turn over to the town gratis private ways completely installed, at the developer's expense, with such facilities as sewer, water pipes, etc.

We come now to the last three problems listed in Part I, namely:

Preventing after-built structures athwart previously planned streets or open spaces (Item 5 in Part I).

Forcing developers to construct streets in conformity with sound standards as to foundation, surfacing and drainage. (Item 7 in Part 1).

Forcing developers to conform their private roadways as to width, grade, location and direction to the layouts of the town authorities (Item 6 in Part I).

The committee indicated in Part I of this report that, in regard to these three matters, our town under existing laws either has no protection at all or has seriously inadequate protection.

At present there is no protection at all against the private land owner building on his land structures across proposed streets, ways or open spaces previously planned or mapped out by town authorities.

"The most simple and direct method of dealing with the situation in such a case would be for the municipality to take by eminent domain the location of the proposed streets before it is too late but not to prepare

streets for travel until they are needed. This plan, however, is impracticable because too expensive."

The committee believes that a method exists which is practical and constitutional for handling the situation. This method is embraced in the so-called Nichols bill, a copy of which is annexed hereto. The committee has been informed that, under the sponsorship of the Massachusetts Federation of Planning Boards, the Nichols bill, in substantially the form of the annexed copy will be introduced in the legislature this year. Substantially the same bill, we understand, was passed three times by the lower house of the Massachusetts General Court but each time failed by a small margin to pass the Senate.

In substance this bill provides that after a way or open space on private land is mapped out on a duly adopted plan of the Board of Survey or the Planning Board of a town the owner of the land is deprived of the right of thereafter placing buildings or other structures athwart such way or open space. It allows the owner, however, within one year after such plan has been adopted, to sue for compensation or damages resulting from the instant deprivation of the right to place, in the future, structures across such way or open space.

Th passage of this bill the committee believes would give to any plan of future ways that may be adopted by the board of survey or planning board one kind of real protection now lacking. The committee therefore recommends that the town at the next town meeting pass a vote approving the Nichols bill.

We come now to a second specific recommendation of the committee.

As the law stands, the town has no power to establish and enforce standards in respect to the foundation, surfacing and drainage of private ways which the developer may care to open for public travel. What materials, if any, shall go into private ways and how such ways shall be constructed are matters which at present the private developer alone determines. No power exists in the Planning Board or Board of Survey to prevent the developer's opening up for public use the flimsiest sort of private way.

As already stated, the Board of Survey Act provides that no person shall open a private way for public travel without first submitting to the board of survey suitable plans thereof in accordance with such rules and regulations as the board may prescribe.

Our town counsel states: "There is no special statement as to what rules and regulations may be adopted, . . . Whether the language of the act would enable the town boards to make rules and regulations relative to the method of construction of the way, I think is doubtful and, so far as I know, the town boards have not attempted to do this. The act, however, might be amended either so as to apply to the entire Commonwealth or so as to apply to Milton alone, to make the provision clear that boards of survey could, among their rules and regulations, include regulations as to the construction of the way. If this could be done, it seems to me that one of the particular problems of your committee would be met. The above would be somewhat new and nobody could give absolute assurance that the Supreme Court might not say that it is going too far, but at the present writing I should consider it a valid provision."

Following the foregoing suggestion of Mr. Bryant the committee has prepared with the assistance of Mr. Bryant a bill which the committee has designated the Bryant bill. This bill provides for amendments of certain sections of the Board of Survey Act in so far as the Act pertains to the town of Milton. The aim of these amendments is to broaden the scope of the "rules and regulations" which the board of survey may make so as to enable the board to make rules and regulations not only as to width, grade, location and direction of new ways but also as to "drainage and materials and method of construction."

The Bryant bill leaves the Board of Survey Act unchanged as to the nature of the penalty imposed on nonconforming developers. That is to say, if a developer after the passage of the Bryant bill, opened a private way

which was not in accord with the board of survey's rules and regulations as to width, grade, direction and location **and also** as to drainage, materials and method of construction, the penalty in such case would be, as now provided in the Board of Survey Act, as follows: Neither the town nor any public board could lay out such way nor could the town or any public board place any public sewer, drain, water pipe or light in, or do any public construction work or make any repairs on such way.

The committee recommends that the town at the next town meeting vote approval of the Bryant bill.

III. RECOMMENDATION OF CONTINUATION OF STUDY OF TOWN PLANNING

The eloquence of the committee's silence up to this point in its report in regard to the comprehensive Platting bill submitted to the town at three public hearings has probably been noted. We have available for any interseted persons copies of that bill and also copies of a much deleted Platting bill prepared after the last public hearing.

The committee has decided not to recommend action this year on this Platting bill in either its original or its revised form. This decision of the committee is based upon three considerations:

(1) The citizens have not yet had sufficient time to make up their minds as to whether they desire to delegate to a public body the extensive power given in the bill to the Platting Commission therein provided for; and

(2) The lawyers in and out of the town who have considered the bill appear to be too far apart on the constitutional questions raised by the bill to warrant an immediate attempt to obtain its passage by the legislature.

(3) A material part of the added protection which the committee believes the town needs and which was provided for in the Platting bill can be obtained through the passage of the Nichols bill and of the Bryant bill.

The committee believes that the passage of the Nichols bill and the Bryant bill will do much to prevent two specific evils incident to improper real estate developments.

The committee is convinced, however, that more than the Nichols and Bryant bills will be needed to assure the town of the coordinated and harmonious development which we believe an overwhelming majority of the citizens desire.

The situation, even with the Nichols and the Bryant bills on the statute books, will still fall short of that contemplated by a platting bill with its platting commission, its master plan and its provisions aimed at discouraging detrimental development.

The town will still lack the positive and inspiring standard of a comprehensive town plan to guide present and future boards of survey and planning boards in the exercise of such powers as they may have over separate or successive real estate developments.

The committee believes that a continuation of the study, through a carefully selected committee, of the general matter of town planning and of the legal problems involved therein is greatly to the interests of the town.

Rapid transit between Boston and Milton has come. A more rapid growth of Milton's population is certain in the next few years. The extensive unbuilt areas of the town more than ever before hold the keen attention of developers and prospective settlers. Shall the future growth of the town be haphazard or shall it be in accordance with a comprehensively conceived plan? If the citizens believe comprehensive town planning will be to their interests, they soon will be seeking that which a typical platting bill affords.

The committee accordingly recommends that the next town meeting pass a vote instructing the Moderator to appoint a committee to consider the matter of obtaining for Milton a town plan legally protected to the extent permitted by the Massachusetts Constitution.

Respectfully submitted,

JAMES S. RUSSELL, Chairman,
JAMES F. BALLARD,
STANLEY CUNNINGHAM,
OSCAR W. HAUSSERMANN,
FRANK A. STOUT,

Committee.

REPORT
of
COMMITTEE APPOINTED BY THE MODERATOR OF THE TOWN OF MILTON TO CONSIDER THE ADVISABILITY OF REVISING THE BUILDING REGULATIONS OF THE TOWN

The building regulations of the town, including regulations as to construction, electric wiring and fixtures, gas fixtures and plumbing are set forth in Chapters 7 and 8 of the by-laws of the town.

The first inquiries of the committee appointed to consider the advisability of revising these regulations took somewhat the following form:

> It is revision or is it enforcement of these regulations that the town needs?
>
> Or, does the town need both revision and better enforcement?

The committee has concluded that the regulations contained in Chapters 7 and 8 of the by-laws are enforced as well and as uniformly as can reasonably be expected, considering the amount of new building in Milton during the past few years and the very limited personnel and the modest appropriations which the town has afforded the departments in charge of inspection.

In connection with the precise question of whether the regulations contained in Chapters 7 and 8 of the by-laws should be amended, the committee has been fortunate in obtaining remarkable assistance of those citizens of the town best fitted to deal with the question. A special meeting was held in the small Town Hall on September 16, 1929. The committee invited to that meeting builders, architects, engineers and public officials likely to have an intelligent interest in the matter of revising the regulations in question. The attendance at this meeting while not large was fairly representative of the groups above mentioned.

At the meeting of September 16th those present were invited to state their views as to what specific regulations should be amended and as to the nature of such amendments. At this meeting, although suggestions were made as to certain revisions of minor importance, the general sentiment expressed was to the effect that the present building laws were in the main satisfactory.

Following this meeting, the committee received a written report from Mr. Lorenzo E. Young, our Inspector of Plumbing, containing suggestions as to changes in, and additions to, the by-laws relating to plumbing. The committee also received from Mr. Joseph D. Leland of J. D. Leland & Company, Architects and Engineers, an able document of some 120 pages entitled "Proposed Building and Plumbing Laws of the Town of Milton" setting forth a complete building code for the town of Milton.

Mr. Stanley Cunningham, the engineer of our committee, and Mr. G. E. Burt, the building inspector, have reported to the committee that they are impressed by the merit of the Leland code and believe that the matter should be given careful study with a view toward its adoption in whole or in part by the town. Accompanying the submission of the code was the following letter from Mr. Leland:

> "I am handing you herewith a suggested building law for the Town of Milton which is the combined efforts of my partner, Mr. Temple, and myself. We have called in professional advice and have communicated with several authorities in connection with drawing up this proposed code.
>
> I regret that it is 120 pages, but this is partly due to the fact that it is typewritten double space, but in printed form the whole would make a small pamphlet.

We have been very conscientious in preparing this data for you and the Town, and in our opinion it would serve its purpose for many years and due to the fact that the Town is growing so rapidly and will grow on account of the rapid transit which is now in operation from Boston, is necessary and is looking toward the future.

I regret that I have been several monthhs in preparing this information for you, but when I once got started I felt that the only way to accomplish what you wanted, was to go into it thoroughly.

Sincerely hoping that you and the Town will be able to use this data, I remain

Very truly yours,

(Signed) JOS. D. LELAND"

The suggested revisions in the plumbing laws submitted by Mr. Young and the code submitted by Mr. Leland are annexed hereto as a part of this report.

We feel that our committee and the town have a real debt of gratitude to Mr. Leland and to Mr. Young for their able contributions to the study of the committee on this matter. The committee believes that the matter of considering the very exhaustive and carefully worked out Leland code and the Young revisions in the plumbing laws should be referred to a special committee of engineers, architects and builders and other technically trained and qualified to advise the town as to whether the Leland code and the Young revisions should be adopted by the town either in part or in their entirety.

The committee accordingly recommends that the town vote at the next town meeting to instruct the Moderator to appoint such a committee.

Respectfully submitted,

JAMES S. RUSSELL, Chairman,
JAMES F. BALLARD,
STANLEY CUNNINGHAM,
OSCAR W. HAUSSERMANN,
FRANK A. STOUT,

Committee.

REPORT
of
COMMITTEE APPOINTED IN MARCH 1929 BY CHARLES S. PIERCE, MODERATOR OF THE TOWN OF MILTON, TO CONSIDER THE POLICY OF LAYING OUT OF HIGHWAYS AND THE ASSESSMENTS OF BETTERMENTS THEREON.

For many years previous to 1925 town ways had been laid out by the Selectmen and presented to the town for acceptance under Chapter 10 of our by-laws which provides in Section 2 "if an existing private way, the fee of which is in the abutters shall be laid out for the acceptance of the town as a town way, such way shall not be accepted unless and until the Selectmen shall have certified in writing that such way is well built, and as constructed it is equal to the average construction of existing highways of the town".

The obvious intention of this by-law was to protect the town from being called upon to pay any of the original cost of making such private ways fit for acceptance.

In 1926 the town adopted the following addition to Section 2 of Chapter 10 of its by-laws: provided however, that this Section shall not apply to ways laid out subject to the provisions of law relating to the assessment of betterments".

Since 1925 all the ways laid out by the Selectmen for acceptance, or rejection, by the town have been under the betterment act and with the assessments of betterments fixed on the basis of two-thirds payable by the abutters and one-third by the town. This division of costs does not apply to permanent sidewalks where it is one-half on each.

No private way can come before the town for acceptance, or rejection, except by being laid out by the Selectmen; and they also have the power to decide on the division of betterment costs. The town is under no obligation to accept such ways however and has in the past used its discretion freely.

During the four-year period, 1926 to 1929 inclusive, the town accepted sixteen private ways as laid out by the Selectmen under the conditions described above. These sixteen came as follows: 1926—one, 1927—four, 1928—four, 1929—seven. The total length of the sixteen is 10,607 feet, almost exactly two miles.

The total cost of rebuilding after the town had accepted them was $38,424, or about $42,000 per mile. Of this the town paid its one-third on highways and one-half on permanent sidewalks, which came to $27,866.

For the year, 1930, the Selectmen have laid out fifteen ways and recommend an appropriation of $98,106 for rebuilding them. If accepted and this amount is voted the town's one-third will be just under $33,000. The other two-thirds being eventually collected from the abutters.

The combined length of these fifteen ways is 10,327 feet; not quite two miles.

The town has at present the following mileage of streets:

Town public ways	51.14 miles
Town private ways	26. miles
State ways	5.88 miles

Based on the costs of the past four years, i. e. about $42,000 per mile, it will take about $1,100,000 to fix up the twenty-six miles existing of private ways. One third of this is about $370,000.

This is a large sum, and as it is multiplied by the opening of more and more private ways may well prove an important factor in making taxation so burdensome as to force us to give up self government and seek financial relief by annexation to Boston.

This burden can be avoided by demanding that these private ways be up to our standard before being laid out by the Selectmen; or that if laid out under the betterment act the entire cost of bringing them to our standard to be met by the abutters.

Further relief in first cost of construction whether borne by abutters alone, or shared by the town, can be obtained by causing a less expensive type of road.

For instance: These sixteen streets of 1926 to 1929, totalling two miles cost $84,000 None of them are main lines. They all were built to develop and sell off the lots of land along them.
struction more costly and more permanent than most of our main thoroughfares enjoy?

Nor does it seem appropriate to use stone curbing on the corners of these side roads. Such curbing is expensive and only needed in busy places like Milton Village and East Milton. On suburban and country roads it is often dangerous as well as unsightly.

The Committee makes no recommendation as to the percentage of costs to be borne by the abutters and by the town in cases where private ways are accepted and laid out by the Selectmen under the Betterment Act. The State law throws the responsibility of deciding these percentages upon the Selectmen. The only action which the town can take in such cases is to approve or reject the layout of ways as submitted to it by its Selectmen. The Committee, however, does recommend that in constructing secondary streets the town seriously consider using a less expensive type of road than has been used during the past four years and which has cost about $42,000 a mile.

Respectfully submiitted,
JAMES S. RUSSELL, Chairman,
JAMES F. BALLARD,
STANLEY CUNNINGHAM,
OSCAR W. HAUSSERMANN,
FRANK A. STOUT.

HOUSE . . . . . NO. 688

By Mr. Ellenwood of Reading, petition of the Massachusetts Federation of Planning Boards for an amendment of the law protecting locations reserved for public ways. Mercantile affairs.

NICHOLS BILL

THE COMMONWEALTH OF MASSACHUSETTS

In the Year One Thousand Nine Hundred and Twenty-Nine

An Act further protecting Locations reserved for Public Ways.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Section 1. Chapter forty-one of the General Laws is hereby amended by striking out Section eighty and inserting in place thereof the three following new sections:—

Section 80. The city council of a city or a town at a town meeting may by vote provide that the location of all or part of the ways not already laid out as public ways or such portions thereof as are not included in existing public ways, which are shown on a plan prepared, approved and filed by the board of survey of such city or town under section seventy-five or by the planning board of such city or town, whether such board of survey or planning board was established by general or special law, or by the division of metropolitan planning, after such notices and hearings in all cases as

are required in the case of boards of survey by said section seventy-five, shall be reserved for the location of a public way. The city or town clerk shall within thirty days after such vote cause to be filed in the registry of deeds of the county or district in which such city or town is situated an attested copy of such plan and vote. Notice shall be given forthwith after the filing of copies of said plan and vote as aforesaid to the persons and in the manner provided in section eight of chapter seventy-nine.

A plan so filed in the registry of deeds may be changed by vote of the city council or the town to conform to a new plan prepared by the board of survey or the planning board or the division of metropolitan planning after like notices and hearings to those required in the case of an original plan and in such case the city or town clerk shall cause an attested copy of the new plan and vote to be filed and notice thereof to be given as herein provided in the case of an original plan and vote.

The city or town clerk shall transmit to the registry of deeds in which a plan is filed under this section a list of the names of the persons to whom notice has been given, and the register of deeds shall cause such names, with a reference to the plan against each, to be entered in the index of grantors in such registry, and unless the name of the owner of such land at the time of filing said plan or of his successor in title shall have been so entered in the index a purchaser for value of any land reserved under this section who has no actual notice that such land has been affected by such plan shall have the same rights as if no reservation had been established under this section.

Section 80A. If the location of a way, or any part thereof, which has been reserved under section eighty is laid out as a publiic way, or is included within the limits of an existing public way by proceedings for widening, altering or relocating such way, no damages shall be paid to or recovered by any person for damage in his property, caused by the laying out, widening, alteration or relocation of such way, in respect of buildings, structures or additions thereto or other improvements upon his land which shall have been constructed after the filing in the registry of deeds of an attested copy of the plan and vote reserving such location under section eighty. Any person whose property has been taken by the action of any city or town under section eighty may recover the damages thereby caused by filing a petition for the assessment of such damages under chapter seventy-nine against such city or town within one year from the filing of the attested copy of the vote and plan in the reegistry of deeds as provided in said section. The filing of a plan and vote under section eighty shall not be deemed a public improvement for which betterments may be assessed under chapter eighty; but any benefit to land with respect to which a petition for damages has been filed under this section arising from action by the city or town in which it is located under section eighty may be set off from the damages to such land awarded on such petition.

If notice has not been given to any person in the manner prescribed in section eight of chapter seventy-nine that a portion of his land has been reserved for the location of a public way within seven months from the filing of the attested copy of the vote and plan in the registry of deeds as provided in section eighty and if he has not filed within one year after such filing a petition under this section for the assessment of the damages caused by such reservation, he may file a petition for damages under this section at any time within sixty days after he receives actual notice of the inclusion of part of his land in the reservation of a location under section eighty.

Section 80B. If a petition for damages is filed against a city or town under section eighty-A, the city council or the selectmen may at any time before such petition is heard and not more than fifteen months after the recording of the plan amend the plan so that no part of petitioner's property will me included in the bad of a proposed way or may institute proceedings under chapter eighty A for the taking of the rights asserted by the petitioner, and in either case the petition shall be dismissed with costs

taxed in favor of the petitioner, which costs shall, in case the petition is dismissed on account of the amendment of the plan, include indemnity for the trouble and expense to which the petitioner has been put. The provisions of chapter eighty A shall,, so far as apt, be applicable to proceedings brought as aforesaid under this section.

Section 2. Said chapter forty-one is hereby further amended by striking out section eighty one and inserting in place thereof the following:—

Section 81. Sections seventy-three to eighty B, inclusive, shall not authorize a city or town to lay out or construct any way, which may be indicated on any plan, until such way has been laid out as a public way, in the manner provided by law, nor shall such sections render a city or town liable for damages, except as provided in sections eighty A and eighty B and for such damages as may be sustained under section seventy-six by reason of the making and filing of any new plan or by reason of any changes made in any plan already duly attested and filed and for such damages as may be sustained by reason of the acts of the board of survey, its officers and agents, under section seventy-nine. Any person injured in his property as aforesaid under section seventy-six or seventy-nine may recover the damages so caused under chapter seventy-nine.

"BRYANT BILL"
AN ACT TO ESTABLISH THE POWERS OF THE BOARD OF SURVEY IN THE TOWN OF MILTON

Chapter forty-one of the General Laws, in section seventy-four thereof, as applied to the board of survey of the town of Milton, is hereby amended by inserting in line four thereof, after the word "prescribe," the following: "In the town of Milton such plans shall be so prepared as to show the profiles of such way and the method of drainage of the adjacent or contiguous territory."

Section 2. The board of survey of the town of Milton shall have in addition to the powers granted to it under sections seventy-three to eighty-one, inclusive, of chapter forty-one of the General Laws, the power to alter plans submitted to said board under section seventy-four of said chapter, and in addition to the powers in said section granted, and subject to the provisions thereof, to determine the material and method of construction of Ways in the town of Milton shown on said plans, and shall indicate any modifications on said plans.

Section 3. The board of survey of the town of Milton shall have in addition to the powers granted to it in section seventy-five of chapter forty-one of the General Laws, the same powers as are granted in said section to boards of survey in cities, and plans of drainage shall be prepared under the direction of said board.

Section 4. Section seventy-seven of chapter forty-one of the General Laws as applied to the town of Milton, shall be modified by inserting in line eleven thereof after the words "width, grades," the words "material and method of construction"

Section 5. The board of survey in the town of Milton shall from time to time appoint a competent person to examine ways constructed in said town which are subject to the provisions of this act. Any person interested may make application to said board of survey for an examination of any ways so constructed, and if such ways as constructed comply with the provisions of the plans approved by the said board of survey, said board of survey shall certify such fact in writing and such certification shall be conlusive evidence of the compliance of said ways with said plans, and may be recorded in the registry of deeds for the county of Norfolk.

FUNDS HELD BY THE TOWN

Perpetual Care Fund

Amount held December 31, 1929 . . . . . $83,029.50

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15-18, of the Public Statutes.

Jason Reed Fund

Amount held December 31, 1929 . . . . . $2,626.67

The interest on this at the rate of 4½ per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. Reed Public Park Fund

Amount held December 31, 1929 . . . . . $6,206.30

Extract from the Will of Elizabeth T. L. Reed

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the "Jason Reed Fund," and the income thereof shall be applied to the preservation, care, improvement, or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

Mary L. Peabody Fund

Amount held December 31, 1929 . . . . . $5,177.50

The clause under which this bequest is given as follows: "To the Selectmen of the Town of Milton, Massachusetts, $5,000, to be invested and the income thereof to be distributed annually to the poor at Christmas."

Funds for Improvement of Cemetery

Dec. 31.	Sarah G. Vose Fund	$1,170.63	
	E. G. Tucker Fund	1,168.48	$2,339.11

Invested as follows:

Blue Hill National Bank, Savings Department	$1,170.63	
Blue Hill National Bank, Savings Department	1,168.48	2,339.11

"Herrick Fund," 45 shares common stock, Saco-Lowell Shops	
22 shares second preferred, Saco-Lowell Shops	
Blue Hill National Bank Savings Department	$5,000.00

William B. Weston Bequest

The $6,000 Hospital Fund left with the Massachusetts Hospital Life Insurance Company with accrued interest to December 31, 1929, amounts being added on that date for the past year.

The $15,000 Poor Fund left with Francis C. Welch, Trustee, is held in the Weston estate, the Boston Safe Deposit and Trust Company now being Trustees, no principal or interest having accrued.

REPORT

OF THE

SCHOOL COMMITTEE

AND THE

FIFTIETH ANNUAL REPORT

OF THE

SUPERINTENDENT OF SCHOOLS

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith as its main report the report of the Superintendent of Schools, to which it invites your careful attention.

The Committee acknowledges with pleasure the receipt of the following gifts to the several schools as indicated:

High School

Picture—Grand Canyon of Arizona—painted by Thomas Moran—Class of 1929.
United States Flag for Senior Room—Daughters of Veterans of Civil War, Emma Forbes Ware Tent.

Belcher School

Bulbs—Milton Garden Club.
$50—Belcher School Association.

Collicot School

Bulbs—Milton Garden Club.
$50—Vose School Association.

Vose School

Bust of Colonel Charles A. Lindbergh—Classes of 1923, 1929, and Grace Woodbury.
Bulbs—Milton Garden Club.

Glover School

Bulbs—Milton Garden Club.

Wadsworth School

Bulbs—Milton Garden Club.

Tucker School

Bulbs—Milton Garden Club.
Radiola—Tucker School Association.

After careful consideration of the estimated cost of maintaining the schools during the year 1930, your Committee recommends the appropriation of $313,390. (Harriet Whittier and Arthur W. Vose dissenting).

Respectfully submitted,

HAROLD B. GARLAND, Chairman,
ARTHUR W. VOSE, Secretary,
CHARLES C. GILMAN,
EDWIN F. WEBER,
GEORGE F. MOULTON,
HARRIET WHITTIER,

School Committee.

January 13, 1930.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Milton:

In public school education I believe we know where we are going and we are making good progress on the way. The aim and the policies which guide us toward its achievement were set forth in my annual report to you a year ago. A further interpretation of these at this time may aid in understanding my recommendations and what has been accomplished during the fiscal year 1929.

For every pupil in the schools so to develop his capacities that he may realize his best life, is the aim toward which all activities are directed.

The studies of the classroom, instead of being mere learning of facts as preparations for living in a community supposed to stand still, are used as means to help boys and girls to develop poise and balance among changing conditions of living.

The people of Milton are aware of the fact that the school population is steadily and rapidly increasing, since this condition has been brought to their attention in many ways during the past ten years or more. The full significance of the increase from year to year and its relations to the development of individual children has not been understood so readily, and yet that significance is of vital concern to each parent whose child is daily attending one of the schools.

Instead of a number of small schools we have a system of large schools. The child no longer knows all of the children in his school by name and personal characteristics, but finds himself one of a large community under the same roof, in which it is possible for him to know intimately only a small group into which he is placed by choice or circumstances.

In these changed surroundings it need not cause surprise if there is apparent in boys and girls an attitude which indicates a lack of willingness to accept personal responsibility, but on the other hand a readiness to take all of the privileges afforded by present day conditions. The principle of standardization for mass production taken from industries and forced into schools because of constantly increasing enrollment, if not the cause of this attitude, has provided a fertile field for its growth. Children are born into it and do not know the limitations experienced in the school days of the generation which is now judging them. Those in charge of their education are aware of this attitude which has come as a greater problem with larger schools.

The way out which affords most hope is the trend in education toward the individual child as the center. In the medium of the school his purposes and ambitions with their responsibilities may be given opportunity for development to the limit of his capacity under guidance of his teacher and public opinion of his school community so that he may realize his best life.

This trend in our school system is evident in the removal of grade restrictions for those whose abilities make it possible for them to progress more rapidly than would be possible in the traditional grades; vocational and educational guidance for pupils above the sixth grade; and the individual follow-up work in school health service.

This will have much to do with the question of whether a child comes to the end of his school experience aware of his talents, his interests aroused, with certain special abilities developed, and a wholesome outlook on life in general; or with an attitude of defense developed through days and years of failures and discouragement.

Health Education

Health education in Milton is at a stage of progress which calls for a clear-cut recognition of the policy in line with which its several activities are functioning.

In common with communities throughout the State we are pleased with the gradual increase in the span of life expectancy. The decrease in total number of deaths from all diseases since 1900 has been commonly understood to mean that one may expect to live a few years longer than he might have thirty years ago.

In this belief lies a danger. The chief factor in this remarkable decrease in death rate has been the reduction in infant mortality. The death rate of children under five years of age has fallen to a very gratifying degree. On the contrary that of men and women over forty-five years of age is increasing in a manner that compels general interest. Investigation shows that degenerative diseases, those which appear about middle age as the result of breaking down of tissues of the body affecting action of vital organs, are increasing. Most of these are the development of early defects and habits of living which are wearing down the natural resistance of the body over a period of years until the breaking point is reached.

Constructive defense lies in an awakened appreciation of the conditions and a long range program persistently carried on.

It is our policy in health education to work with all organizations and individual interests in Milton engaged in promotion of good health to secure removal of all remediable defects in children, to aid in building up bodily resistance to disease, and to help establish sound habits of living. It is our belief that the extent to which these are accomplished will determine in a large measure the continued good health of those who are passing through our schools.

The starting point of our health work is the physical examination by the school physician each year in school for all children, and follow-up by the school nurse to secure the aid of parents and family physicians. Through this means parents are provided with knowledge of the physical condition of their children and urged to take the necessary steps to make them physically fit for well-rounded living.

Physical education activities in the open-air, whenever possible, in the gymnasium and classrooms contribute to bodily health through muscular exercise.

A group of those children whose physical condition is such that they are not able to stand up under the regular school routine are given special care in the Fresh-Air Room. Treatment of children in this room differs from that afforded in the regular classroom in several ways. There is more direct outdoor air and sunlight. There are rest periods when the children are permitted to lie upon cots, each child having his own blanket. Midday meals of carefully selected and prepared food are provided at cost and children remain at the school. Pupils are weighed every week, since weight progress is one indication of physical improvement, and the result is recorded on large progress charts. Some additional attention is given by the school health service. Under this regimen pupils are able to continue their school studies while regaining normal health.

An indication of the results obtained in this group during the few months that the room has been in operation will be found in the reports of the School Physician and School Nurse.

REPORT OF SCHOOL PHYSICIAN

My dear Mr. Turner:

The work of the School Physician for the year 1929 has consisted of daily visits to each school, and the yearly physical examination of each boy in attendance in the school system. All girls are examined by the women physicians. The daily visits have required at least two hours, during which time he has cared for children sent to him with various illnesses. Some have been isolated because of contacts with other children who had contagious diseases, and others have been recommended to the care of their family physicians. The general health of the school children has been excellent, and it is believed that a minimum of time has been lost because of sickness.

These daily visits to the schools enable the school physician to detect "bad coughs, sore throats, etc.," in the early stages. Exclusion of the children so affected results in a minimum spreading of disease. Parents are urged to pay especial care and attention to sickness of their children in the early stages. Prompt detection of sickness and early instigation of treatment will shorten the length of the sickness and reduce the economic loss both to the child and the school system. When there is doubt as to the nature of the sickness the family physician should be called and his advice followed. If there is any question of a contagious disease being present, the child should not be sent to school without medical advice. To do so may spread the disease to scores of other children.

During the past year approximately 4700 children have been seen for special examination, of which number 83 have been excluded from school, or 1.8%. The cause of exclusion have been impetigo contagiosa (running sores on face and hands), pink eye, severe colds, sore throats, and contact with contagious disease. For the most part exclusion has been only for a day or two.

During the football season the School Physician was in attendance at all home games, and gave first aid treatments as required. No sport requires more care of its performers than does football. It is a rugged, hard-fought game, and injuries are bound to occur. By proper physical conditioning and examination, fitness to play is determined and injuries minimized.

This past year has seen the opening of the "sunshine, fresh-air room" at the new Collicot School. In this room sixteen pupils have been in attendance since September. They are the underweight children with poor appetites, who tire quickly, and who lack the vitality of other children. In the sunshine room these children are never forced to the fatigue point. Their tolerance for school work is easily determined, and proper rest periods given. The room is equipped with cots and blankets, and in seasonable weather these are placed on the balcony in the open air. It is extremely gratifying to note that all sixteen children have gained in weight, varying from one-half pound gain to a five and one-half pound gain. The average gain has been two and one-half pounds for a period of three and one-half months. On the basis of a normal gain of five to six pounds per year between the ages of six and twelve years, it can be seen that the results are most favorable. These children receive morning lunches and a hot noon-day meal at the school.

The local Board of Health has again this year immunized hundreds of children against dipththeria. The ravages of this dread disease are well known, and all parents are urged to cooperate in this movement to eradicate diphtheria from Milton.

Finally, last June saw the inauguration of the pre-school examination of children. At that time approximately one hundred fifty children about to enter school in September were examined for remediable defects. For the most part the defects consisted of dental caries, and enlarged, diseased tonsils and adenoids. This pre-school examinaton is of vital importance, and it is hoped that this coming year a large number may be examined before

the opening of school. Only by early recognition and prompt attention to the remediable defects can the health of the child be improved to the end that we may have one hundred per cent physically-fit first graders.

Yours truly,
CHESTER L. GLENN, M. D.,
School Physician

December 31, 1929.

REPORT OF SCHOOL NURSE

My dear Mr. Turner:

I should like to submit this annual report of health work in the schools of Milton as an appeal for more active cooperation of parents and friends rather than a mere statistical list of facts. The actual health work in itself really varies little from year to year. Always we are confronted with the question of the underweight child, the child handicapped by physical defects, and the child who is an emergency for the moment only,—incapacitated temporarily by some injury.

This last group is taken care of immediately of course and during the year comprises a goodly number. A superficial injury is cared for by the School Nurse or School Physician. If it proves to be of a more serious nature the child is taken home and the parents are advised to call in the family physician. There is little doubt that this group is given every attention at home and no effort is spared to put the child on his feet again.

But what about the child who goes about day after day apparently in good health, perhaps a little below par, a little tired and with a languishing appetite, not exactly in a robust condition and yet not ill? And again the child who is 10%, 15%, or 20% under weight? What are we doing? What are parents doing?

When the schools opened in September each child was given a thorough physical examination, and each child's teeth were examined by the school dentist. After these examinations had been completed the health card of each child was checked up. In any instance where a physical defect was marked as needing attention a report was sent home to the parents. Some of these reports receive immediate attention at home and are checked up with the family physician, which is, of course, all that is expected. We realize that doctors do not always agree on certain defects. If the family physician is consulted, of course his advice is to be followed.

Our concern lies chiefly with the child who is marked year after year on his physical record card as needing attention. Report after report is sent home and perhaps personal visits are made and still no action is taken. Each year this child's health becomes more of a handicap and his studies must necessarily suffer. Perhaps what started as a very small defect and might easily have been remedied in its early stages may develop into a defect of major importance. For instance, a child with diseased tonsils may apparently be in good condition but the poison may go through his system causing very serious difficulties and even affecting his heart. Our plea is for these childrren that they may be given the chance to face life physically fit.

Aside from the examinations given by the physicians and dentist this fall the ears and eyes of each child were examined. This year the ears of the children in all grades above the second and through Junior and Senior High Schools were examined with the audiometer. All children not passing the test the first time were retested under the most favorable conditions possible. Reports were sent home to the parents of those who still were unable to pass the test. The teachers were given a list of these children in order that they might have the advantage of a front seat and that what might result from inability to hear would not be attributed to inattention or dullness. Of the one thousand pupils who were examined in the

Junior and Senior High Schools thirty-seven were found to have defective hearing in one or both ears. We are hoping that parents who received these reports will see that their child is examined by a competent ear specialist. It may be simply that a little wax has gathered or it may be something of a far more serious nature.

We examined the eyes of all pupils in the Junior and Senior High Schools, which constituted the same number, and of this group fifty-one were found needing attention. Here again notices were sent home. The eyes of the pupils in the lower grades were examined as usual.

The underweight children also present a very definite problem. The large percentage included in this group calls for attention. In one large school alone over fifteen per cent of them are underweight, anywhere from five pounds to twenty pounds.

In the schools we are trying to impress upon the child the few simple habits of healthful living, such as:

1. Get plenty of sleep
2. Eat vegetables
3. Drink milk
4. Attend to body elimination
5. Play out of doors
6. Take a bath oftener than once a week
7. Brush teeth
8. Get plenty of exercise

These health rules are being correlated with other studies wherever it is possible. But is the child practicing these habits at home? Above all else is he getting the sleep that he needs?

Mid-morning milk is furnished in the schools. We feel that some benefit is derived through this channel, but no amount of milk will make up for loss of sleep.

Last spring we spent a considerable amount of time and thought in arranging for some of the boys and girls in Milton to be sent to camp for at least part of the summer. Many of the children who could not go otherwise, but who needed the change, enjoyed the camp life through the generosity of special organizations.

This year marks a new epoch in the health work of the schools through the organization of the Fresh-Air Room in the Collicot School. Here for the first time we have ideal surroundings for the child who needs a little extra care and supervision in his daily routine living,—a room in which sunshine and fresh air abound. At present there are sixteen children who are having every advantage this room can offer. Each child is furnished with a folding cot and, when the weather permits, the rest periods are taken on the balcony adjoining the room. The children remain in school until 2:45 P. M., under constant supervision. At noon they are served with a hot lunch. In the three months that this room has been in operation the average gain has been two and one-half pounds per child. The greatest gain that any one child has made is four and one-half pounds. In no instance has a child lost.

Our general aim is to teach the child how to be well and how to keep well,—to see that each child in the classroom is as near physically fit as is possible that he may be in perfect condition to grasp the academic facts which his teachers are trying to give him.

Through the pre-school clinics which we held last June and which we shall hold again this coming summer we hope to enter the child in school free from any remediable defects. In this way we feel that each child is having a fair and even start and also we feel very strongly that it will help solve the retardation problem.

We may discover certain defects through these yearly examinations and our teachers may present the health rules in ever so clear and attractive a manner, but all of our time and efforts are useless unless we have the interest and cooperation of the parents to the extent of remedying

these defects, and insisting that the child put into every day practice the knowledge that is learned in the classroom concerning his own personal health and ultimately the health of the community.

BARBARA ROBINSON,
School Nurse

December 31, 1929

Dental Service

The need for additional dental service has a direct relation to promotion of health among the children now in our schools and to the long range program for continued good health.

Heart disease is the leading cause of death among those causes which are increasing in the group of individuals over fifty years of age. From 1850, when statistics were first obtainable, the upward trend has been persistent. That defective teeth are a contributing cause of heart disease is a fact agreed upon by both dental and medical professions.

Education in care of teeth through removal of defects and establishing daily habits during school years will have far reaching effects in checking the upward trend in heart disease as well as of other diseases that are frequently caused by defective teeth.

With twenty-eight hundred children in the schools we are limited to the same amount of dental service as was provided for sixteen hundred when it was started eight years ago.

The School Nurse is assisting in dental service. Since it is generally recognized that there should be a nurse for every fifteen hundred pupils, it is evident that more than her full time is needed in her own field.

Employment of a dental hygienist has been recommended to the Board of Health as an economical way to bring up the dental service to meet the needs of increased enrollment in the schools. This has their unanimous approval and their budget has been increased to meet the cost of a program worked out in joint conference of the Board of Health, the State Department of Public Health, and the Superintendent of Schools.

Details of School Dental Clinic work are found in the report of the School Dentist.

Our school health program is intended to encourage removal of causes of the lack of good health, teach health information, and secure development of daily habits of living that will promote healthful living on the part of each child.

REPORT OF SCHOOL DENTIST

My dear Mr. Turner:

I am pleased to submit to you the following report relative to the Dental Clinic operated in the Vose School.

During the past school year the Dental Clinic was open for sixty-five days and 452 appointments were made for pupils during that time. There were 233 different pupils seen and corrections made on their teeth. Of that number one hundred twenty-six pupils were discharged as finished.

The following is a list covering the actual work accomplished at the Clinic:

Extractions	137
Prophylaxis	141
Amalgam Fillings	187
Cement Fillings	112
Root Canal Fillings	1
Temporary Fillings	11

A complete dental examination was made of the entire school population during September and October and the various notations were recorded on the health cards.

The Massachusetts Department of Public Health held a meeting at Bridgewater Normal School relative to Dental Hygiene problems in the public schools. The matter of getting more parents and children interested in the work was discussed, also ways of getting the younger school children as near one hundred per cent correct as possible. This goal may be attained in Milton only through educational, as well as corrective, measures.

Respectfully submitted,
WILBER H. MORRILL, D. D. S.
School Dentist.

December 26, 1929

REPORT OF PRINCIPAL OF HIGH AND JUNIOR HIGH SCHOOLS

My dear Mr. Turner:

The enrolment of the Junior and Senior High Schools of Milton has sustained a normal and wholesome growth during the past year. Happily the increase in numbers was foreseen. Preparations averted serious crowding. Special rooms were utilized for academic work.

	Enrolment December, 1928	Enrolment December, 1929
Grade VII. —	215	216
VIII. —	210	212
IX. —	186	209
X. —	162	194
XI. —	148	143
XII. —	98	108
P. G. —	8	3
Total —	1,027	1,081

There is reason to believe that improved transportation facilities will accelerate growth in the immediate future.

The increased enrolment required the addition of two teachers to the staff. Seven teachers resigned,—three were married, three moved to other positions, one retired.

The auditorium and gymnasiums are used daily after school. The auditorium is used many unassigned periods during the week for rehearsals and class projects. The small size of rooms in the latest addition to the building hampers the use of these rooms for normal or large classes.

Standard Tests

Research in activities of secondary schools has made such commendable progress in analyzing and standardizing achievement that schools which fail to utilize standard tests lack valuable information that can be made accessible.

The results of the use of tests and scales in many high schools prove that they contribute abundantly to efficiency. A school in which a testing program is operated judiciously is certain to be more potent than a school which has no objective scales to supplement the subjective observations and judgments of teachers.

Teachers are educational engineers. They should know the quality of their material before the stress of actual use. They should examine frequently and accurately to ascertain the effectiveness of their classroom pro-

cedures. At the close of each unit of work before pupils are released or transferred teachers should have meaningful comparisons of achievement.

A systematic program of standardized educational measurement has been installed at Milton High School. Intelligence tests have been given throughout the six upper grades. However, the major emphasis has been focused upon subject, diagnostic or analytical tests. The purpose of these tests has been to reveal specific inabilities in any phase of a subject in order to determine trial remedies and to analyze complex abilities into simpler abilities.

Mention was made in the report of last year concerning a battery of standard subject tests which was used. During the latter half of the school year following remedial instruction inventory tests of equal difficulty were given. The resulting medians of these are in the following table. Altho it is interesting to compare the Milton results with the figures from other communities, it is much more illuminating to note the progress made by the various divisions. It is exceedingly fascinating to follow the progress of an individual pupil through this testing procedure.

Tests under Roman numeral I were given in the Autumn. Tests under Roman numeral II were given the following Spring. The Language Usage Test was taken from Providence. The other tests have been given throughout the country. Wherever nationwide digits have been omitted no comparisons were available.

The program of standardized tests in English was continued in the Autumn of 1929. The phases chosen for composite analysis and remedial instruction were Grammar, Capitalization, Punctuation, Sentence Structure, and Vocabulary. The tabulations of the vocabulary tests have not been completed. The highest possible scores were Grammar 30, Capitalization 28, Punctuation 30, and Sentence Structure 24. Achievement follow-up tests of equivalent difficulty will be given during the latter half of this school year. Comparisons with nationwide medians are accessible.

Ability Grouping

An endeavor is made in our schools to section pupils into divisions of like educational attainment. Wide spans of educational or mental age are injurious. It is a grave injustice to place a pupil in a section in which the level of school work makes no demand on his real abilities. It is equally unfortunate to place pupils with low mentality with groups two or three years beyond them mentally. Occasionally it is possible to classify pupils in divisions according to demonstrated abilities in individual subjects. Ability grouping is a great boon to pupils. A bright pupil must keep busy in order to compete with his comrades. A slow pupil can understand the recitation and consequently is more interested. The joy of accomplishment is a great incentive. The satisfaction of succeeding as well as other members of the class builds self-reliance and morale.

Milton is one of a few communities which have an unusual proportion of college candidates. A comparison with certain larger communities concerning the number who take College Entrance Examination Board examinations discloses the disparity.

High Schools	1929 C. E. E. B Candidates	Population 1928
Everett	16	43,000
Fitchburg	9	45,000
Haverhill	18	49,000
Holyoke	19	60,000
Lawrence	19	93,000
Lowell	17	114,000
Malden	29	53,000
Quincy	27	67,000
Worcester	28	197,000
Milton	31	15,000

There is evidence to indicate that this condition will continue. There is a vital need for more college scholarships available for Milton High School pupils. Last June there were four excellent candidates for the Massachusetts Institute of Technology. There was only one scholarship. Next June another group of able deserving pupils will be candidates for the same institution. Every year there will be able, conscientious, well prepared college candidates who will need financial assistance.

It is generally recognized that carefully selected teachers of experience are an incomparable asset to any community. A Table indicating the teaching experience of the teachers in this building is presented.

No. of years of experience	No. of teachers with total experience	No of teachers with experience in Milton
25 years or more	7	3
20 to 24 years	3	4
15 to 19 years	6	1
10 to 14 years	10	6
5 to 9 years	18	6
4 years	2	4
3 years	4	4
2 years	—	6
1 year	—	7
0 year	—	9

The median of total teaching experience is 10 years
The median of Milton teaching experience is 4 years
The average of total teaching experience is 12 years
The average of Milton teaching experience is 7 years

Municipal subsidy of athletics has not been maintained since last January. An interpretation of the state auditors seemed to render such support illegal. The financial status of high school athletics is in a very precarious condition. There are heavy annual liabilities which must be paid. The one source of revenue is totally inadequate. Unless financial relief is accessible in the immediate future football and baseball as school sports will have to be abolished. It is impossible to conduct sports properly safe-guarded and in a dignified manner without revenue. Curtailment of national sports would be unfortunate. The whole program of extra-curricular activities offers to pupils the opportunity to invest their talents and abilities in school situations which are prototypes of life situations. In fact, academic classroom procedure is gradually changing to a type of activity that supplants artificiality with an atmosphere of reality in which children delight to work. The saturation point in extra-curricular activities will not be attained until every pupil is participating in a form of activity the primary function of which is to develop his moral qualities.

It is a pleasure to work among a corps of teachers who not only are imbued with professional spirit but are encouraged to improve professionally. It is a delight to have teachers accept the challenge of youth with vision, resourcefulness, and effectiveness which may be ascribed to close communion with progressive phases of education.

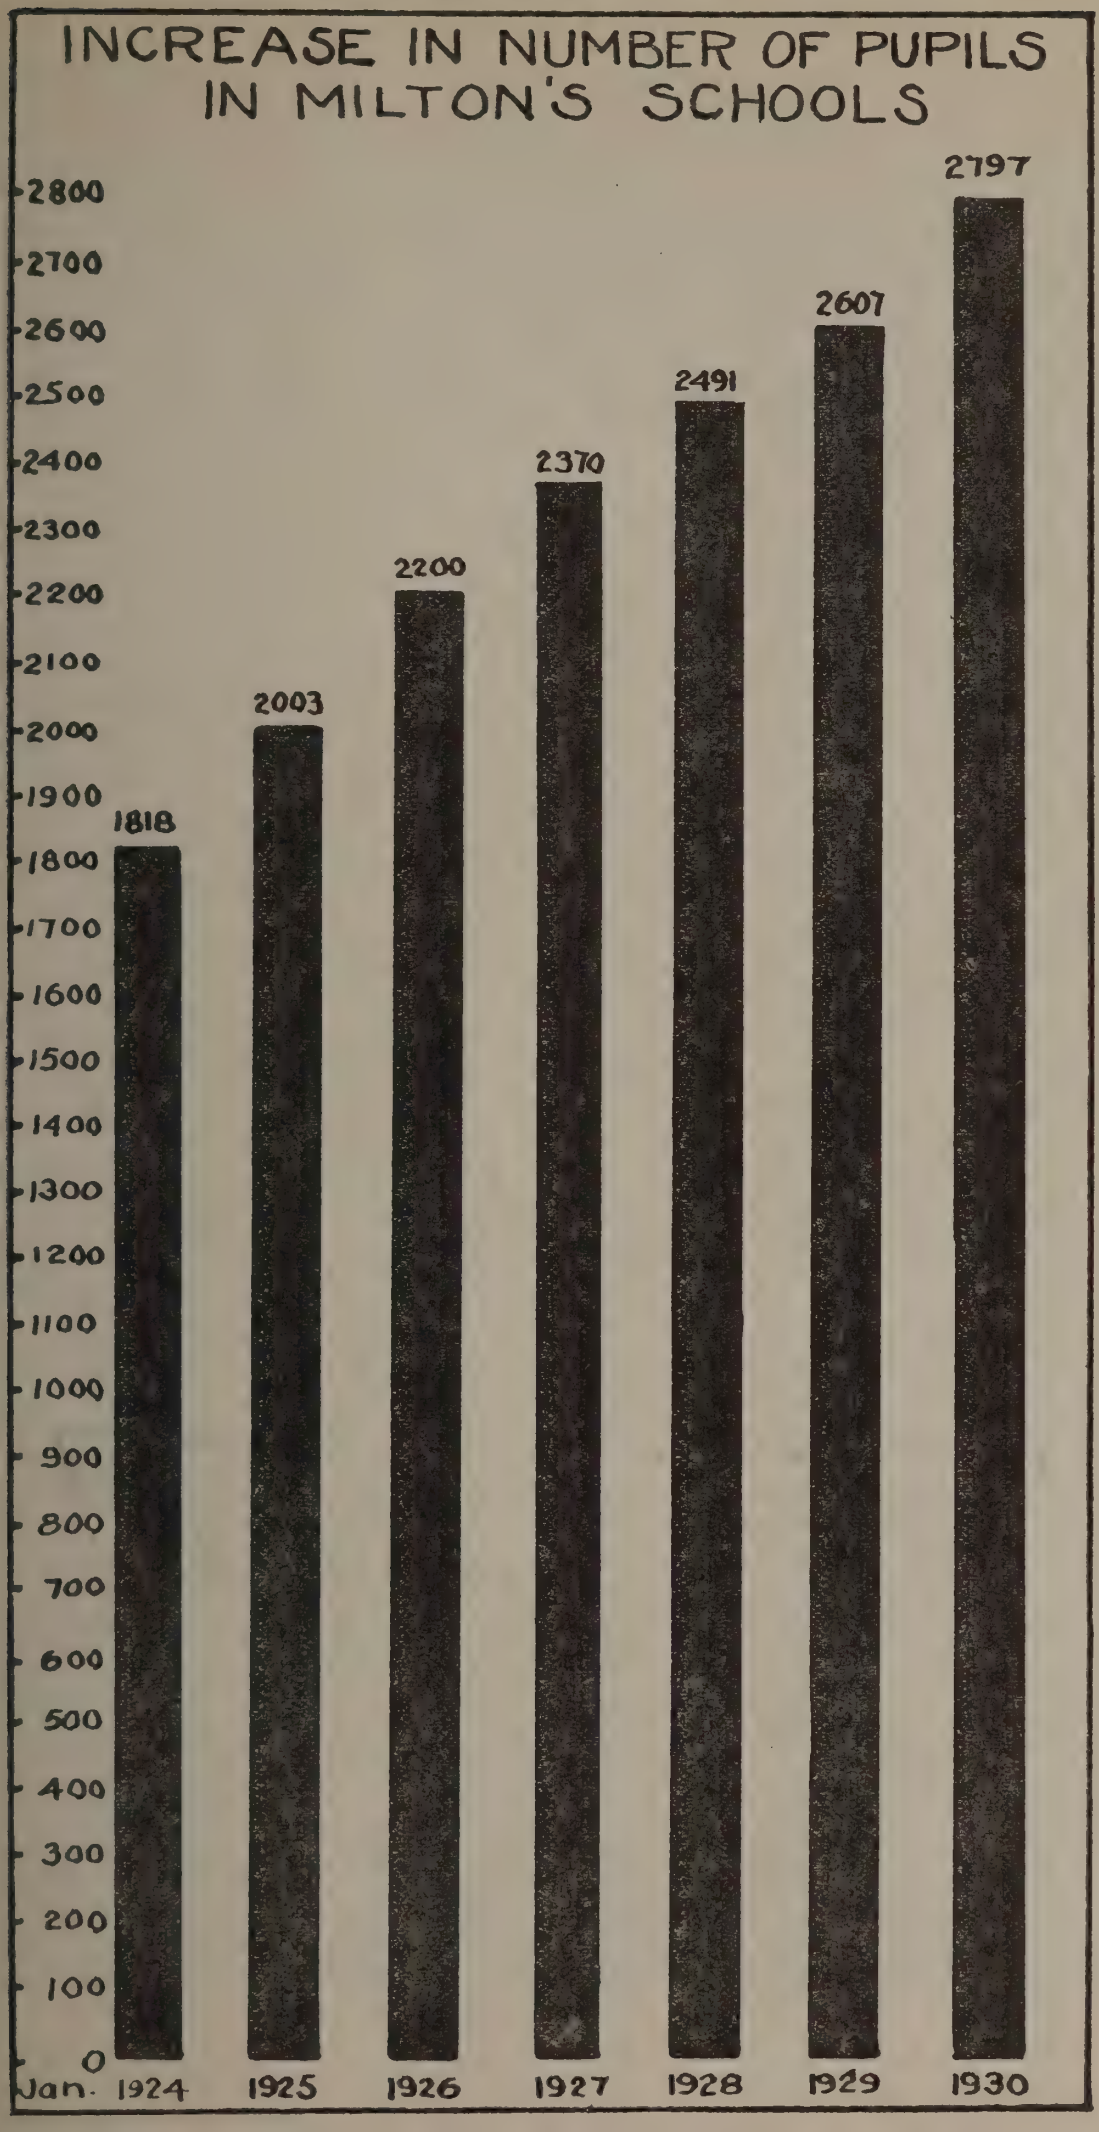

Respectfully submitted,
GEORGE C. MARSDEN.

School Costs

The composite of all for which the annual appropriation for support of schools is expended is the medium in which public school education takes place. It includes teachers, schoolrooms, equipment, supplies, janitors, and all of the influences with which a pupil comes in contact in the course of his school life.

A pupil absorbs impressions from this medium as surely as a photographic film registers the imprint of the objects, moving or still, to which it is exposed. That which he learns indirectly, frequently is of more importance in developing attitudes of character and wholesome living than what he learns from direct classroom teaching.

The standard of public school education in Milton is but another name for the degree to which this medium approaches the best for development of our boys and girls. Beyond efforts to eliminate waste through possible improvements in methods, I do not see how retrenchments can be made in school costs without lowering the standard.

There are forces operating which require an increase in the budget each year to maintain the same standard. The first is the steady increase in number of pupils. The addition to our system of one hundred and fifty to two hundred annually requires expenditure of more money for additional teachers, equipment, supplies, and other items of the budget. The second is the annual increase in salaries of teachers who are giving satisfactory service, until the maximum of the schedule adopted in 1928 is reached. The third is our constantly expanding school plant which requires greater expenditures for operation and upkeep.

Any material difference between the proposed budget and the annual appropriation for support of schools must eventually result in a change of policies and lowering of the standard of our public school education.

School Plant

A modern school requires from its building and equipment the satisfaction of the needs that arise from the school program of activities. Living conditions are changing; education for living is changing; the school is a growing and changing institution. Our school plant is not an end in itself, but one of the means for carrying out the program of education that the people of Milton want for their children. To allow our school program to congeal under pressure of an unchanging form of structural materials would be to forego the best that experience and research provide for educational progress.

It is imperative from the standpoint of wise expenditure of public funds that schoolhouse construction, when it is to be undertaken, shall adequately accommodate present school activities and not impede changes that are likely to occur.

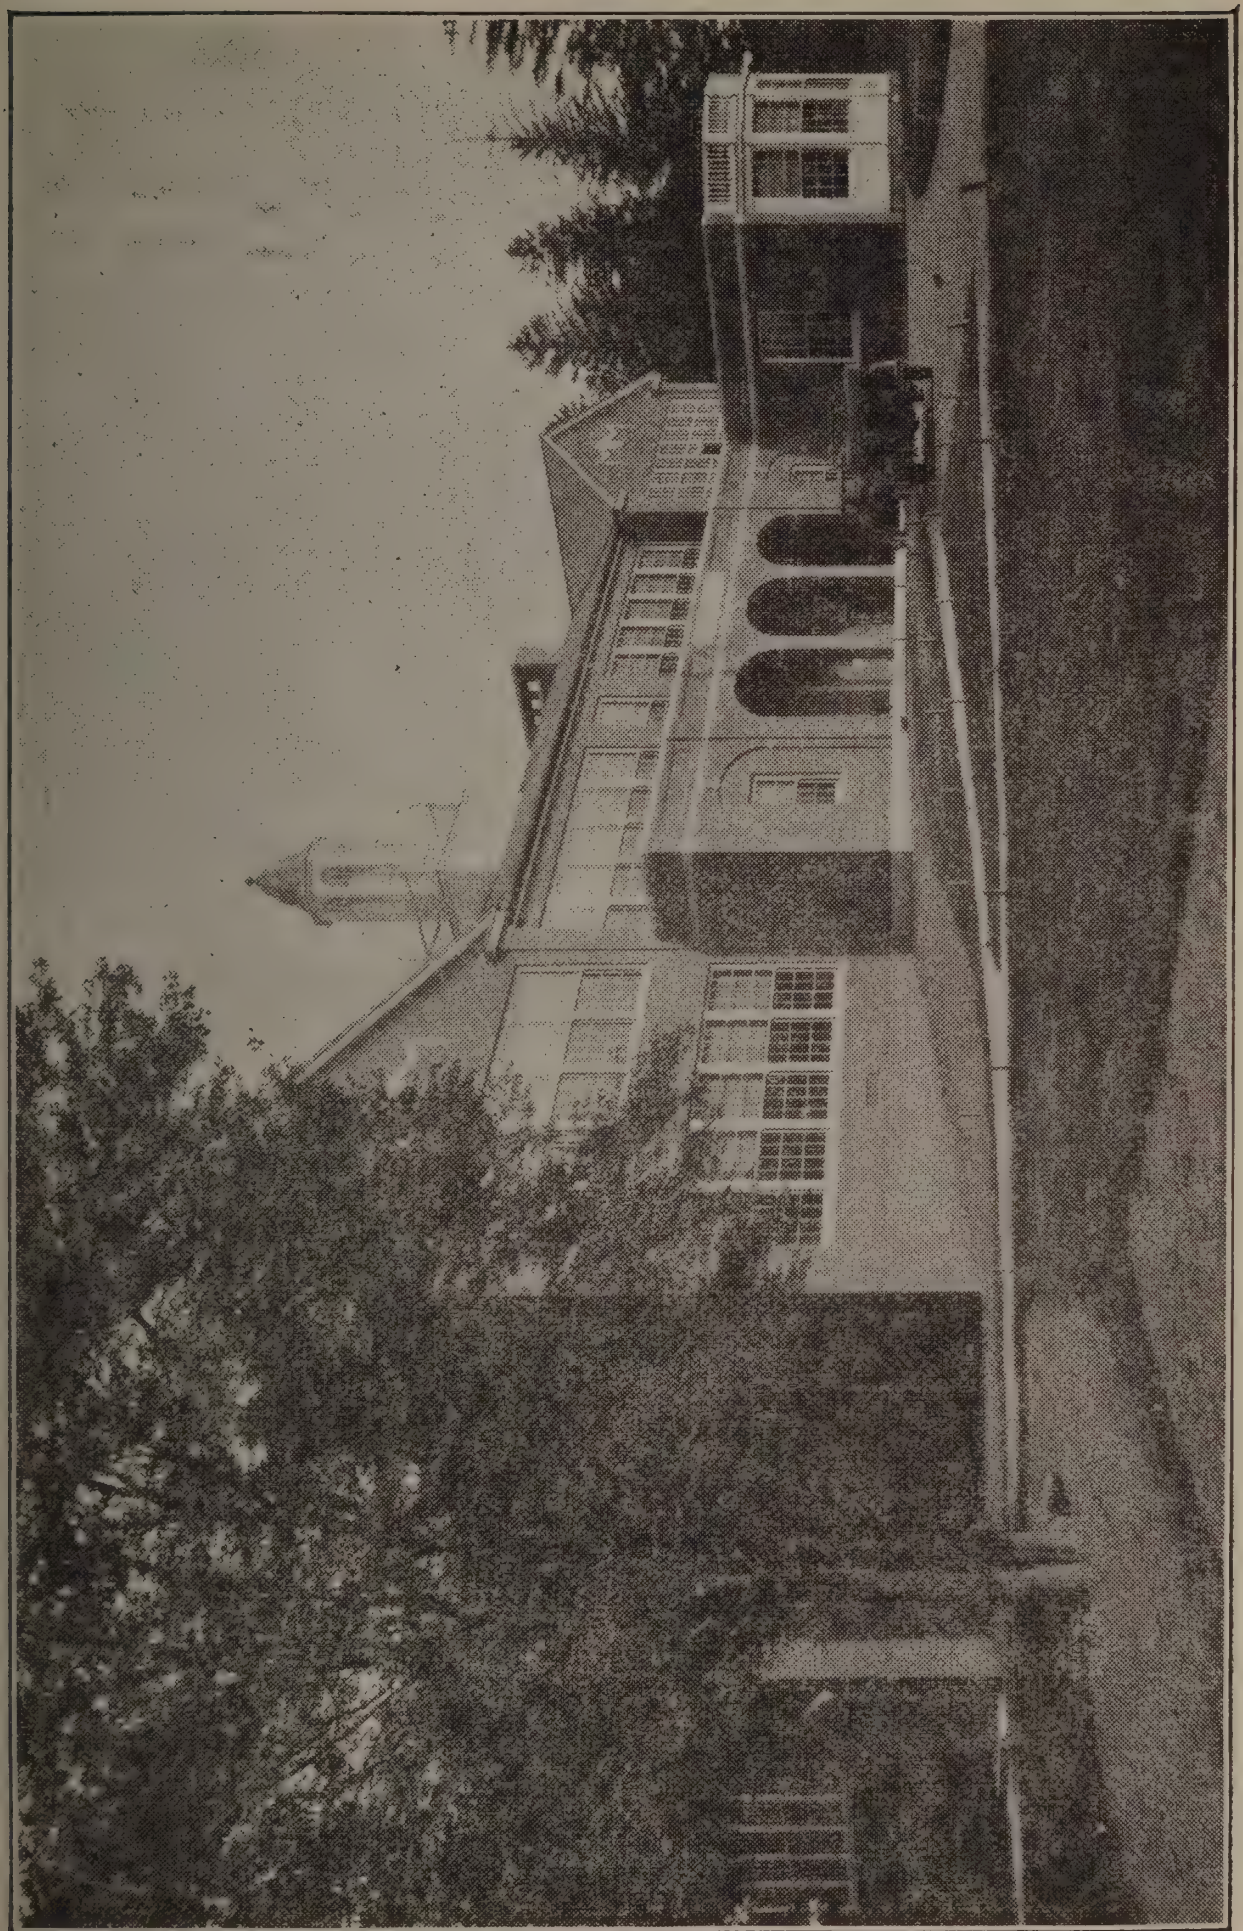

The new elementary school building on Edgehill Road, completed this year, reflects some of the changes that make for better educational service. These are apparent in provisions for safety of children, better lighting, heating, and ventilation, rooms and equipment for promotion of health, a gymnasium-auditorium for a wide range of activities, and adaptability of furniture and equipment to needs of children.

Description of the Collicot School

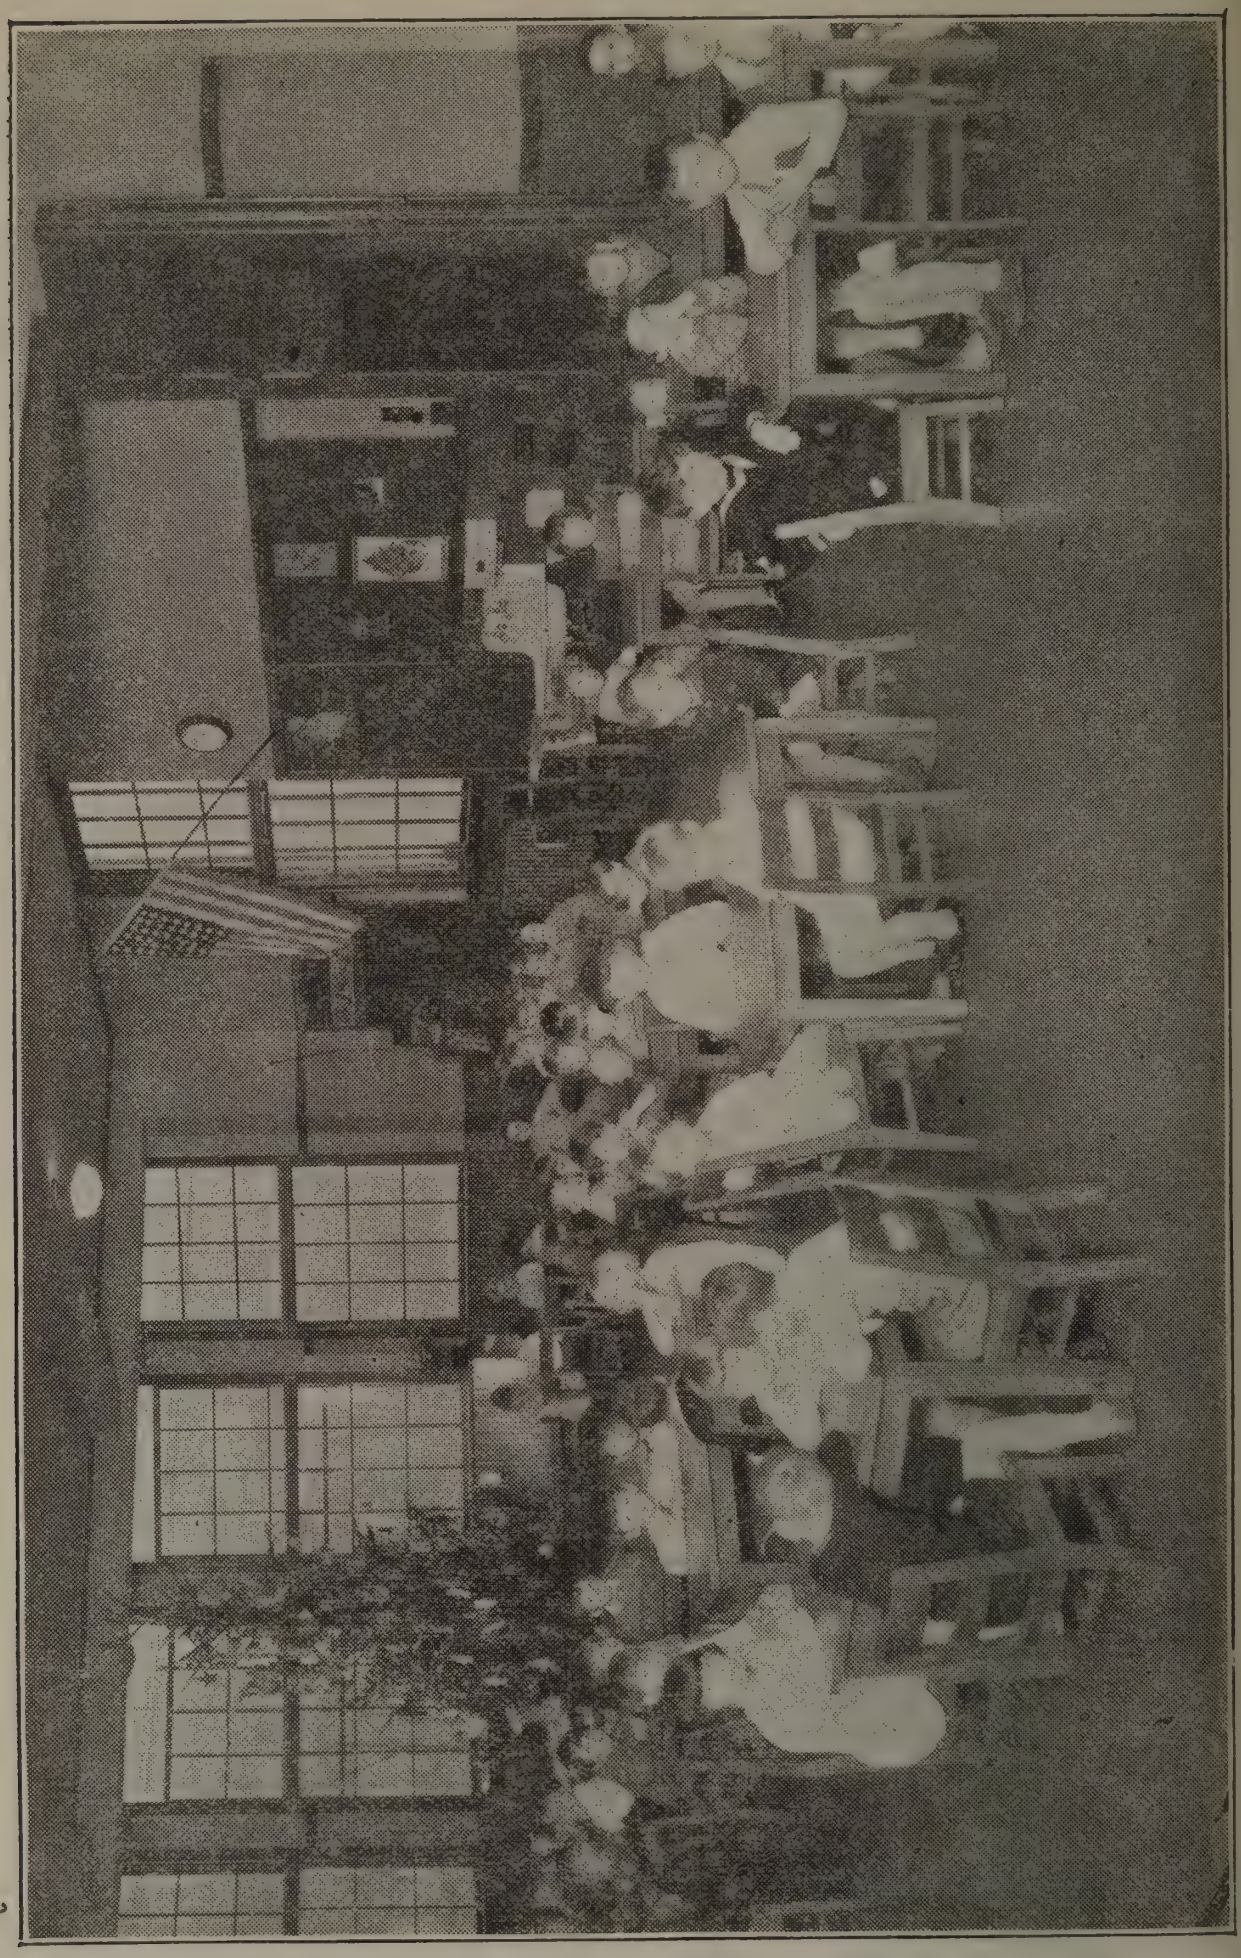

The following is taken from the description of the building by the Building Committee from the standpoint of construction.

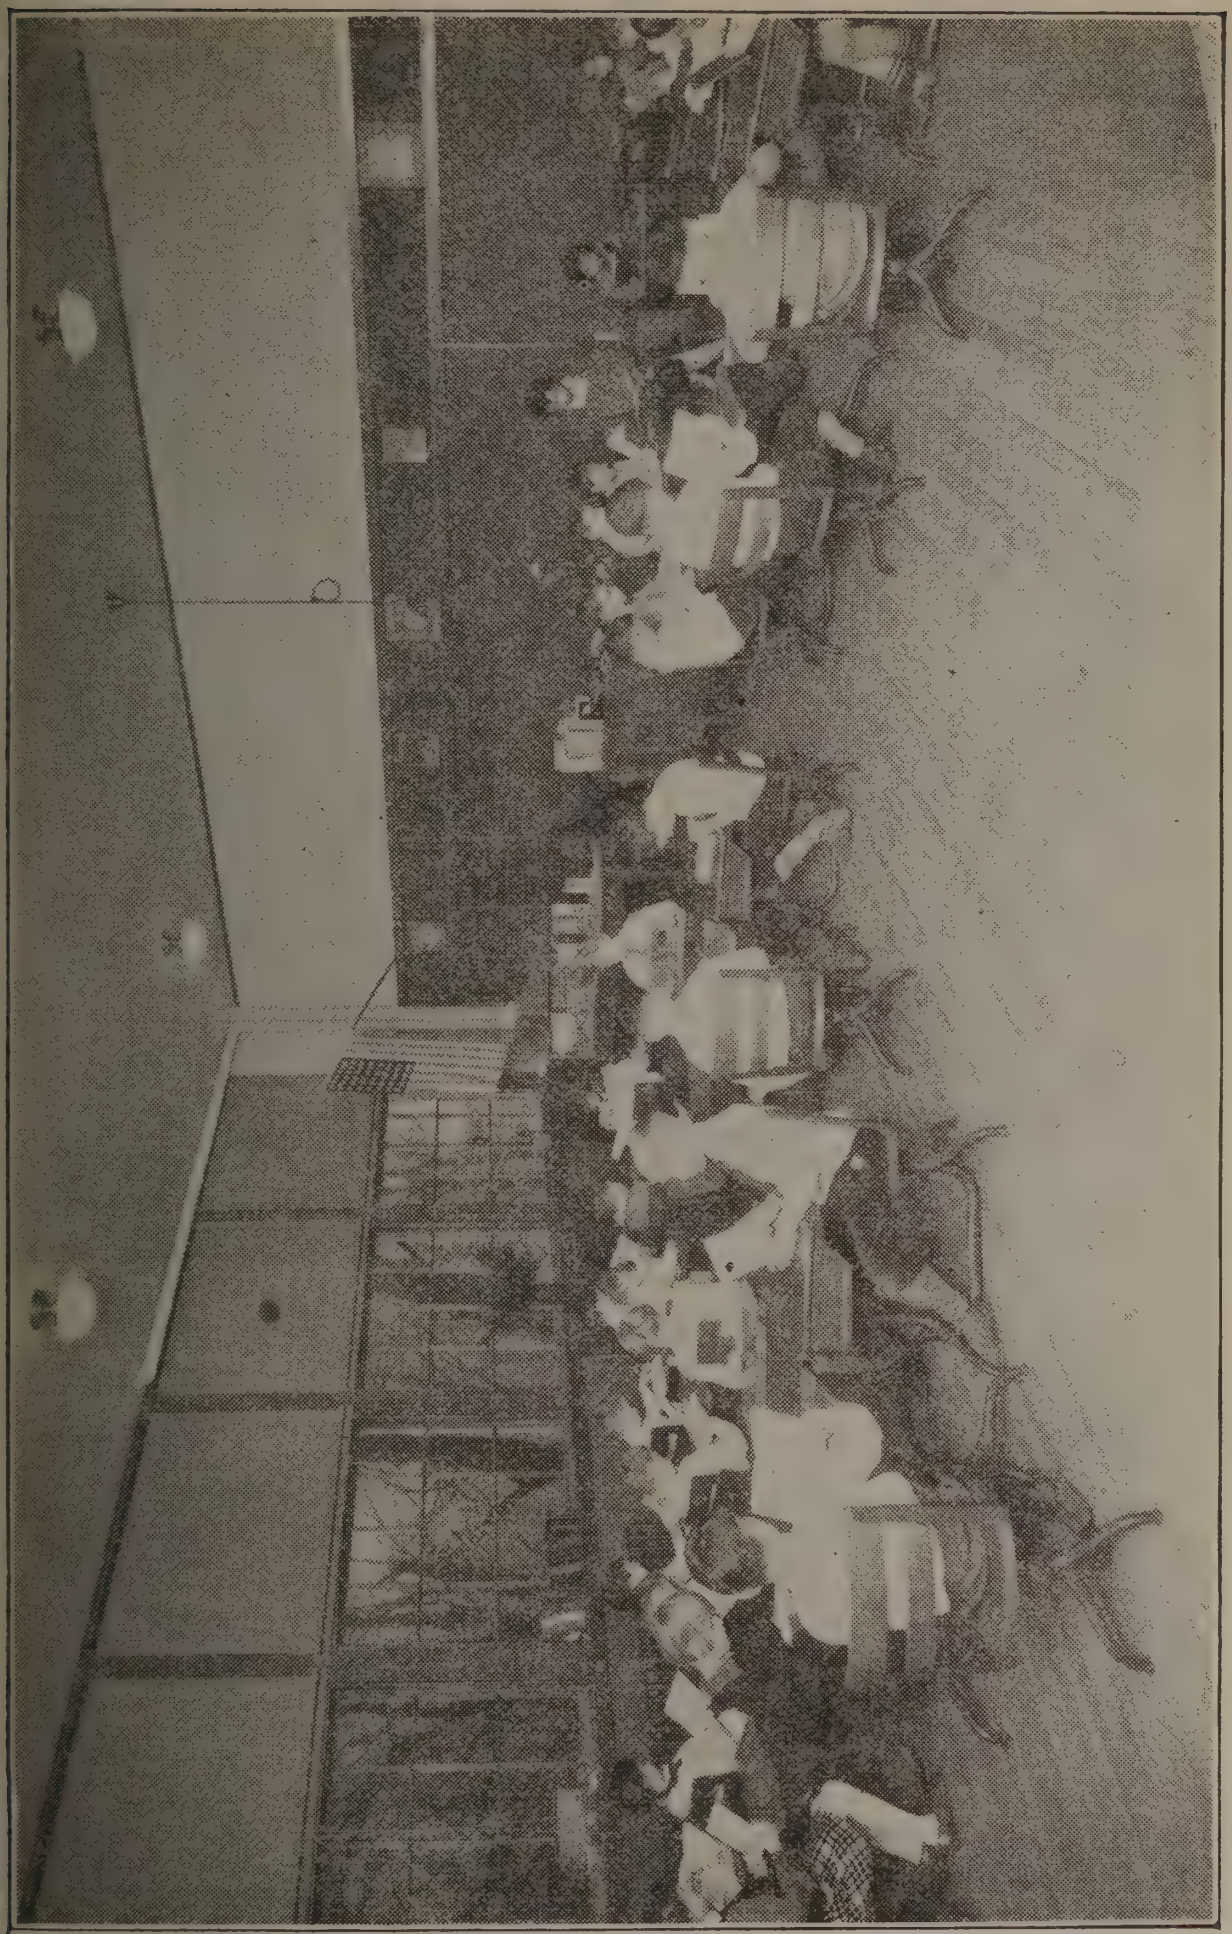

"The Collicot School building departs from the more or less standardized form of school buildings in that it is somewhat irregular in plan in order to conform to the irregular shape of the lot. The lot fronts upon Edgehill Road and the front of the building faces that road, thus facing approximately southeast. The main portion of the building is substantially square with a wing running at a 45 degree angle substantially due north and south and parallel with the easterly sideline of the lot. In this wing are four classrooms on each floor,—three lighted solely from the east and one lighted solely from the west. The remaining classrooms are in the main building lighted either from the south or the west All of these rooms receive direct sunlight during some portion of the school day. By taking advantage of the natural slope of the ground toward the northwest, the special classrooms, such as the sewing room, manual training room, and the lunch room, have been placed in the basement in rooms which are practically wholly above the ground level.

"The main entrance to the building faces Edgehill Road and is approached through an open loggia. From this loggia there is a separate entrance to the principal's office on the west and to the kindergarten suite on the east. The kindergarten suite consists not only of a double kindergarten room but of a separate coat and toilet room for the kindergarten children. Entering through the main doorway one enters the main corridor running parallel to Edgehill Road. On the right or east is the dental room, on the left or west are the nurse's room and the principal's office with its ante room.

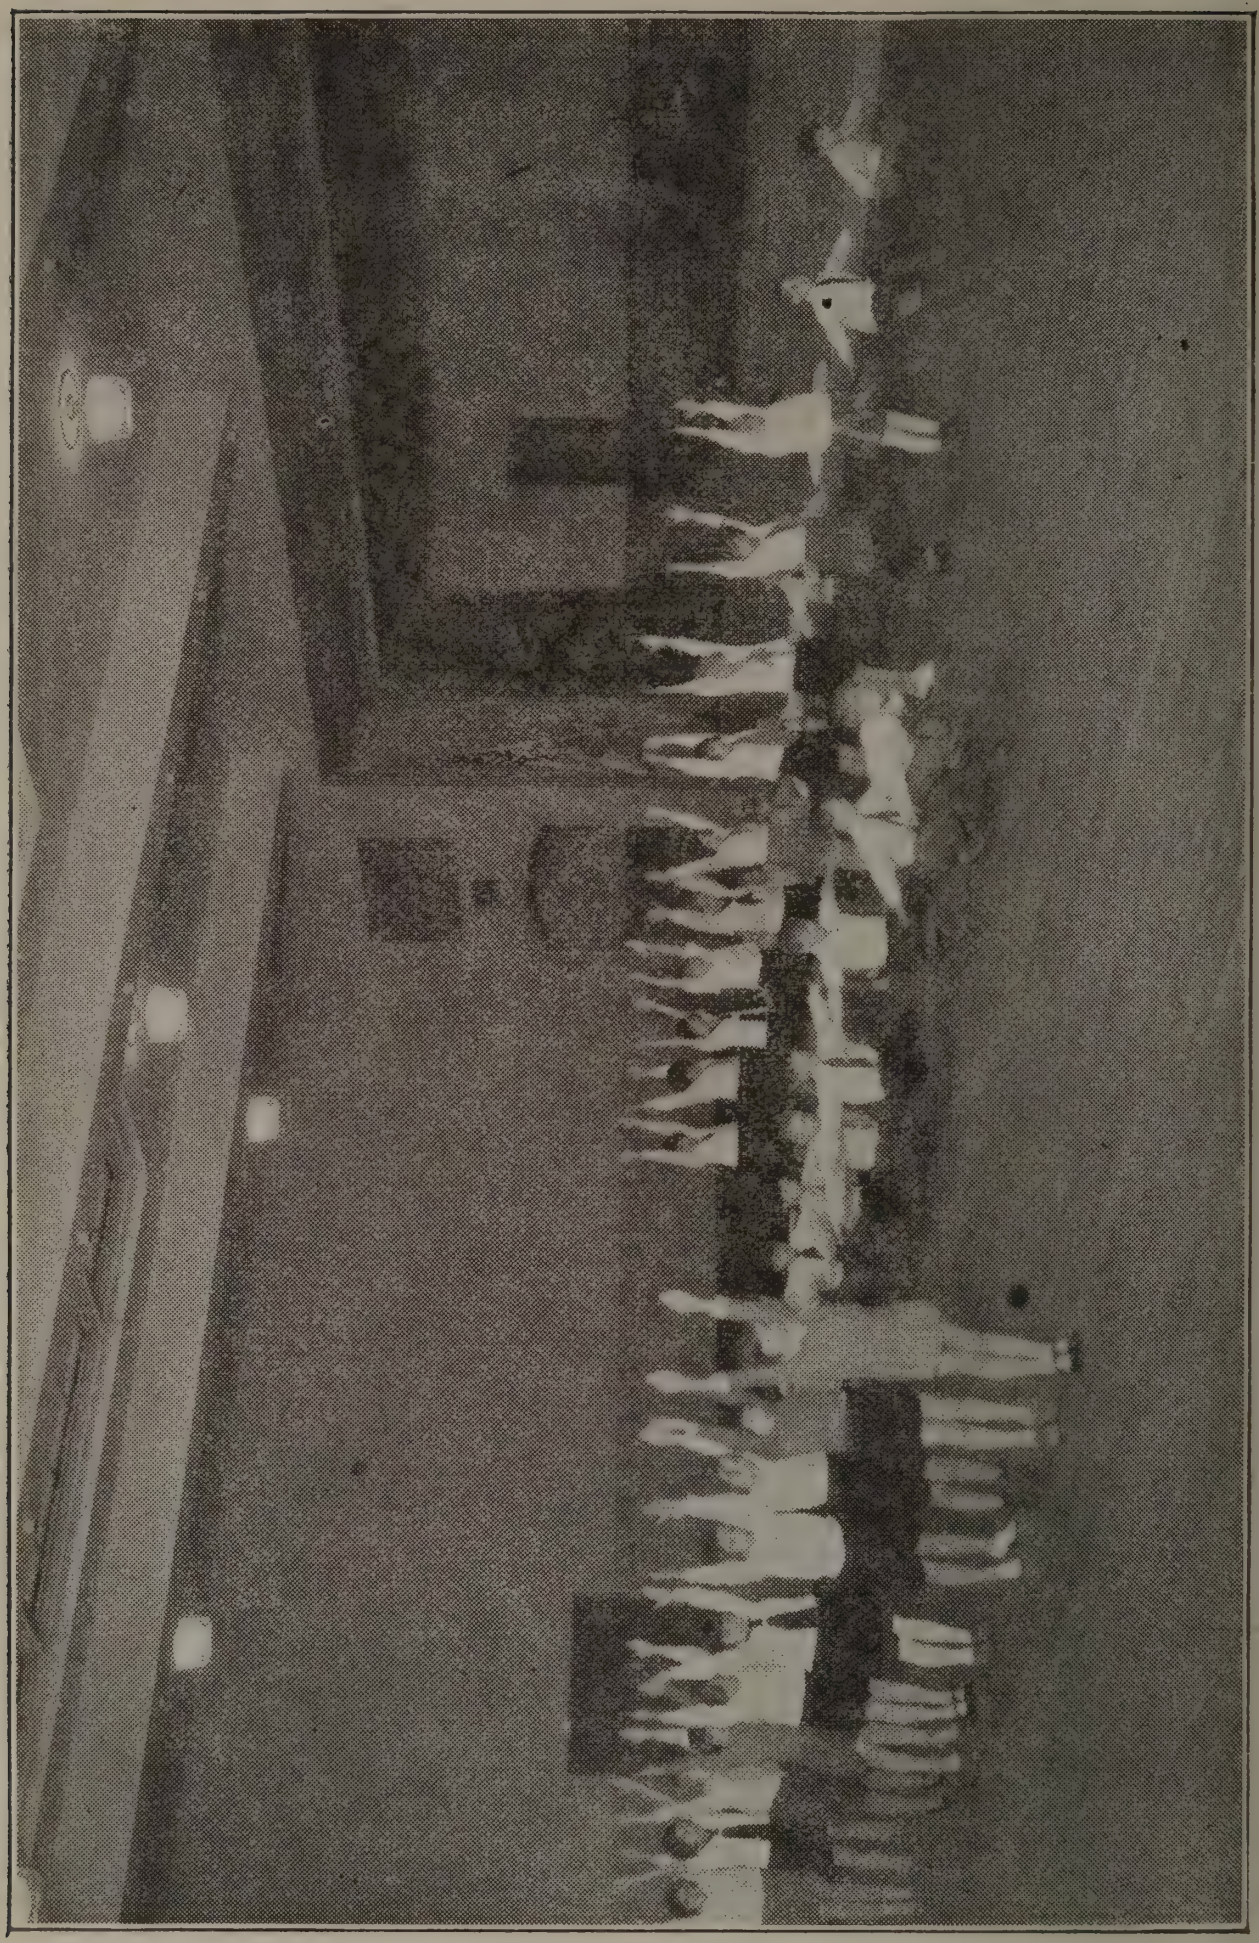

COLLICOT SCHOOL, EDGEHILL ROAD, MILTON

A TYPICAL CLASSROOM, COLLICOT SCHOOL

AUDITORIUM-GYMNASIUM — COLLICOT SCHOOL

REST PERIOD IN FRESH-AIR ROOM, COLLICOT SCHOOL

"Directly opposite the main entrance and across the corridor is an entrance to the stage of the gymnasium-assembly hall. This stage is on the same level as the first floor of the school building. The gymnasium-assembly hall, itself, is three feet lower than the stage and approached by three entrances,—two on either side of the stage and one from the rear. This hall is 50x66 feet in size. Adjacent is a kitchenette.

"The classrooms on the first floor, aside from the kindergarten suite, are six in number,—one in the northwest corner, one in the southwest, and the remaining four in the wing. On the second floor are eight classrooms,—four in the wing, three on the front of the building and one in the northwest corner.

"A fresh-air room is located on the second floor immediately over one of the kindergarten rooms. It has a south and east exposure with large windows arranged in banks, each window pivoted horizontally so that they may be opened to their full extent and can be adjusted to keep out the weather while still admitting the air. A door opens upon a large balcony over the roof of the kindergarten, thus providing a secluded open space with a southerly exposure.

"In each room is a built-in and ventilated Miller wardrobe for the hats and coats of the pupils of that room. This provides more economical use of floor space and a better control of the pupils.

"On each floor is a toilet room for boys and another for girls.

"There are three staircases, each enclosed in a fire-proof stair tower. One is at the west side of the building, one at the east, and a third at the north end of the wing, thus providing convenient and adequate means of egress.

"The classrooms are lighted from one side only and are in accordance with the necessary requirements for lighting.

"The heat is furnished by two tubular Hodge boilers under the low pressure vacuum system. The ventilation is through Peerless Ventilating Units in each room which draw fresh air through vents provided in the walls of the building and after warming the air deliver it into the room. The exhaust is through gravity vents exhausing at the roof.

"In the principal's office is a radio receiving set capable of receiving two separate broadcasts at once and distributing each throughout the entire building where each room is provided with radio outlets for loud speakers.

"The exterior of the building is the colonial precedent in design with red brick walls trimmed with varying shades of slate which is accentuated by a cupola."

CASE STUDIES FROM RECORD BOOK OF SUPERVISOR OF ATTENDANCE FOR THE YEAR 1929

January 11—Case I was found and taken to school.
January 12—Case I could not be found.
March 6—Case II offered excuse for absence that uncle had died, but attendance had been so irregular I took child to school.

March 12—Case III could not be found.
March 13—Case IV was found at home and taken to school.
March 21—Case V was absent without excuse. I called at home and found there was nothing wrong. Mother promised to have pupil in school the next morning.

March 21—Case VI could not be found at home during school hours. I called in vain also at eight o'clock at night
March 24—Case VII and brother absent. Brother was ill in bed. I took sister to school.

March 24—Case I and his brother absent. Mother had gone to Boston and taken one of the boys and the other one was left to care for small children.

March 27—Case VIII ran away from kindergarten. Taken back to school.

March 27—Case IX absent two days. I called at the house and found mother knew nothing about the absence. Mother and I could not find truant.

April 2—Case X was absent from Junior High for six days. I called at his home and was told that he was not there, but he was in the basement. I took him to school.

April 2—Case XI did not come to school in the afternoon. His mother had sent him to Boston on an errand. She thinks she has a right to do as she wishes with her children.

April 5—Case XII was not at home and his Mother did not know he was not in school.

April 8—Case I was absent again. Mother claimed he was at the shoemaker's in Mattapan Square. I could not find him in any of them.

April 29—Case XIII's attendance has been very irregular. I found him at home and took him to school. Apparently the mother's fault.

April 29—Case XIV was absent from school a week. Mother claimed he had no shoes fit to wear and she had no money with which to buy any.

April 30—Case XI was absent from Junior High School. I went to his home and was told that he was out. I asked the mother to produce him, which she did. I took him to school.

May 20—Cases I and XIV were both at home. I took Case XIV to the Vose School, but Case I refused to go to school. She claimed that he had no shoes and that she was away later. When I told the mother we would have to take court action, she laughed and said, "All right, go ahead, I don't care."

May 31—Cases VIII and XV were seen on the way to school, but did not report. I could not find them.

June 3—Case VIII was absent again today. He had been sent to Boston on an errand for his mother. He returned to school in the afternoon.

June 4—Cases XVI and XVII left school at recess. They were found later in the school yard.

June 7—Cases XVIII and XIX were found at home. I took them to school.

June 10—Case XX was absent. I could not find him.

June 12—Case XXI left school at recess. I found her at home and took her to school.

June 13—Case XXII Three children were kept at home in the afternoon because the mother feared the boys at the school would hurt them, but she finally allowed them to come to school.

June 24—Case XXIII was reported absent from school in the afternoon. I went to four of the swimming pools, but could not find him.

June 25—Cases XXIV and XXV were absent from school in the morning. I went to the East Milton swimming pool, where I found them, and took them to school.

September 17—Case I was at home with a boil on his leg.

September 19—Case XXVI was found at home. I took him to school.

October 9—Case I's mother would not let him come to school. She said she was boss of her children and did not care for the court, superintendent, or anybody else. She motioned to throw a plate at me.

October 10—Case XXVII was at home. I took him to school.
October 16—Cases XII and XV were absent. I called at their homes, but found no one in.
November 7—Case XXVIII was absent from school three days and was reported as seen out of doors. I found him ill and not in condition to go to school.
November 13—Cases I and XXIX were absent. Case I was out on doctor's orders. I could not find Case XXIX.
November 20—Case XXIX could not be found.
December 16—Case XXIX was at home with a sore throat.
December 30—Case XXIX's mother thought he was in school. I could not find him.
December 31—Case XXIX's mother sent him to school, but he did not arrive there.
December 31—Case XXX's mother had taken him down east for the holidays.

Conclusion

The attitude of all employed in our school system toward their duties is commendable. Principals and teachers frequently anticipate my suggestions for the best interests of our children. They are a fine, alert, professional group who are continually studying to contribute more for the development of the children whose school education is entrusted to them.

I appreciate the latitude which you as a Committee have given me to carry out the policies which you have approved for education of our children in Milton.

Respectfully submitted,

HORACE F. TURNER,
Superintendent of Schools.

January 13, 1930.

Appendix

SPECIAL REPORTS

AND

STATISTICS

QUOTATIONS FROM RULES AND REGULATIONS OF THE SCHOOL COMMITTEE

1. Admission to Kindergarten and to First Grade

Section 45. Children who will be five years old before January 1 of the following year may be admitted to the kindergarten during the month of September. Children who will be six years of age before January 1 of the following year may be admitted to the first grade during the month of September. Provided further that children mentally above the age requirement limit be admitted to school during the first month of the school year, or later if their residence in Milton began after the beginning of the school year.

2. Tuition Pupils

Section 69. Tuition fees at the rate of $125 (One Hundred Twenty-five Dollars) per year in the High School, $100 (One Hundred Dollars) per year in the Junior High School, and $75 (Seventy-five Dollars) per year in the elementary schools shall be paid by non-resident pupils to the Town Treasurer at the beginning of each term. Pupils whose term bills have not been paid at the end of the second week from the time the bills have been rendered shall be required to discontinue their attendance at school.

3. No-School Signal

Section 61. The signal 2-2 sounded four times on the fire alarm at—

7:15 means no school sessions for all schools for entire day.

7:30 means no school sessions for all schools below the Junior High School for the entire day.

11:40 mean no afternoon session for all schools below the Junior High School. This signal will not be sounded if the 7:15 or the 7:30 signal has been sounded. The session at the Vose School will not be affected by this signal.

The 7:15 signal will rarely be sounded, as it includes the closing of the High and Junior High Schools.

The widely varying conditions in the several parts of Milton make it difficult to reach decisions equally fair to all interests. Parents are, therefore, expected to exercise discretion in regard to their own children.

EIGHTH ANNUAL CONCERT
SENIOR AND JUNIOR ORCHESTRAS OF THE MILTON HIGH SCHOOL

School Auditorium
Friday, June 7, 1929
8:10 o'clock
Conductor, Russell A. Cook

STATISTICS OF CLASS OF 1929 MILTON HIGH SCHOOL

Total number of pupils in class of 1929—98

	Boys	Girls	Total
Colleges	11	11	22
Normal Schools	0	2	2
Other higher institutions	8	9	17
Graduate course, Milton High School	4	4	8
Total in schools or colleges	23	26	49
In business positions	20	27	47
At home	1	1	2
	44	54	98

The wide distribution of our students of this class in higher institutions may be seen from the following list:

Massachusetts Institute of Technology	4	Bridegwater Normal	1
Wentworth Institute	1	Mt. Holyoke	2
Boston University	5	Bryant and Stratton	2
Northeastern University	2	Vesper George	2
University of Maine	1	Curtis School of Aviation	1
Simmons College	4	Bentley School of Commerce and Finance	1
Pembroke College	1	Fannie Farmer's School of Cookery	1
Middlebury College	2	P. G. Course, Milton High School	3
Burdett College	4	P. G. Course, Other Secondary Schools	5
Massachusetts College of Pharmacy	1	At Home	2
Chandler Secretarial School	1	Working	47
Massachusetts Radio and Telegraph School	1	Faulkner Hospital	2
Massachusetts School of Art	1		
Notre Dame	1		

During the year 1929, many requests for pupils' service have been received. These have been for assistance in positions as follows:

Assisting Mothers	Table Service
General Housework	Stenography
Clerical Work	Insurance
Dental Clinic	Gardening
Salesmen	Radio Repair

Whole number in class of 1929	98
Whole number in class of 1929 at work	47
Number placed by help of Advisory Bureau	15

Annual Report

1930

Boston
Poole Printing Co., Inc.
251 Causeway Street
1931

REPORT OF TOWN ACCOUNTANT

To the Honorable Board of Selectmen:

In accordance with the Revised By-Laws of the Town of Milton, and General Laws, Chapters 41 and 44, the books and accounts of all officers and committees intrusted with the expenditures of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending December 31, 1930, have been examined and found correct.

Respectfully submitted,

MARY A. BERNI,

Town Accountant.

Milton, Mass., January 12, 1931

REVISED BY-LAWS

TOWN OF MILTON, MARCH 2, 1902

Adopted by the Town and approved by the Superior Court May 20, 1902

The amendments to Chapters 2, 3, 4, 7, 8, and 10, adopted by the Town March 2, 1914, March 13 and September 1, 1915, March 11, 1922, March 14, 1925, March 13, 1926, March 12, 1927, March 10, 1928, June 13, 1928, were approved by the Attorney-General, December 10, 1914, May 8 and September 22, 1915, April 6 and July 19, 1922, March 26, 1925, March 18, 1926, April 20, June 21, 1927, June 11, 1928, September 24, 1928, June 1, 1929

Chapters 12 and 13, adopted by the Town July 10, 1922, were approved July 11 and 21, 1922

The amendment to Chapter 12, adopted by the Town March 13, 1926, was approved March 17, 1926

CHAPTER 1

General Provisions

Section 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

Sect. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the Town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the commonwealth.

Sect. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

Sect. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board shall have the power to license or permit such thing to be done.

Sect. 5. In all the By-Laws of the Town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The word public way shall include any highway, town way, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; the owner or occupant of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word person may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

Sect. 6. All fines and penalties for the violation of any By-Laws shall, when received, inure to the use of the Town, and be paid into the Town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the Town.

Sect 7. Whoever violates any of the provisions of the By-Laws of the Town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any order of any Town officer or board of Town officers, issued under any of the By-Laws of the Town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the Town shall be commenced within six months from such breach.

SECT. 10 Any or all of the By-Laws of the Town may be repealed or amended, or other By-Laws may be adopted, at any Town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2

TOWN MEETINGS

SECTION 1. The warrants for all Town meetings shall be directed to the constables of the Town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the Town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the Town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of Town officers shall be held upon the first Saturday of March, the polls to be open at fifteen minutes before six o'clock in the forenoon, and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all said officers to be voted for on official ballots. At any time after said four o'clock a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. All business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall be considered at an adjournment of said meeting to the following Saturday at one-thirty o'clock in the afternoon.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, the sense of the meeting shall be taken by the voices of the Town meeting members and the Moderator shall first announce the vote as it appears to him by the sound.

If the Moderator is unable to decide by the sound of the voices or if his announcement made thereupon is doubted by seven Town meeting members arising in their places for that purpose, the Moderator shall request the Town meeting members to be seated, and shall appoint tellers; the question then shall be distinctly stated, and those in the affirmative and negative respectively shall be requested to rise and stand in their places until they are counted by the tellers, who shall report their count to the Moderator.

If the vote is further doubted and twenty-five Town meeting members arise in their places and ask for a division of the meeting by the taking of the yeas and nays, then the roll of the meeting shall be called in alphabetical order and no Town meeting member shall be allowed to vote after the vote is declared.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

to adjourn,
to lay on the table,
for the previous question,
to postpone to a certain time,
to commit (or recommit) or refer,
to amend or substitute,

shall have precedence in the order in which they are placed in this section; provided however, no article in the warrant shall be finally disposed of by a vote to lay upon table, to indefinitely postpone, or to take no action thereunder.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for Town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the Town meeting of the ensuing year.

CHAPTER 3

THE WARRANT COMMITTEE

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the Town, the subject-matter of which is generally included in the warrants for its Town meetings; and the officers of the Town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the Town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the Town Meetings held during the period for which they were appointed including the various articles in the warrant for the annual Town Meeting next after their appointment; they shall also consider all questions submitted to the voters of the Town at any meeting, including State elections under any act or resolve of the Legislature and proposed amendments to the Constitution; and they shall report in print before all such meetings their estimates and recommendations for the action of the Town.

On or before January first of each year each board, committee or officer of the Town shall file with the Selectmen, who shall transmit the same to the Warrant Committee, a statement in detail of the appropriation or appropriations recommended by such board, committee or officer for the work under its or his charge for the ensuing year.

The Warrant Committee shall include in its report of recommendations for the annual Town Meeting a statement setting forth the total apropriations so requested, the appropriations recommended, and the totals of such appropriations requested and recommended, and an estimate of the tax rate for the ensuing year if such recommendations are adopted.

CHAPTER 4

THE TOWN'S FINANCES AND PROPERTY

SECTION 1. The financial year shall begin with the first day of March.

SECT. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the Town, a detailed report of all moneys received into and paid out of the Town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the Town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, except the poll tax list, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and fund of the public library and the cemetery to be furnished by the Trustees respectively, and a statement of all other funds belonging to the Town or held for the benefit of its inhabitants; also statements of the liabilities of the Town on bonds, notes, certificates

of indebtedness, or otherwise, and of the total money paid the Town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the Town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the Collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part I, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the Town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the Town.

SECT. 6. The Selectmen, being duly authorized by vote of the Town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the Town, and to give promissory notes therefor in behalf of the Town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the Town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. The Selectmen shall keep full accounts in respect to the several separate appropriations and the drafts made against each and shall not approve any draft which does not state specifically the appropriation against which it is drawn, whether general or special.

SECT. 9. The Warrant Committee shall send to the Selectmen and to the Auditors certified copies of all votes whereby transfers are made out of the Reserve Fund for extraordinary or unforeseen expenditures.

SECT. 10. No board, committee, or officer of the Town shall commit the Town to any expenditure or liability which would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the Town at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the Town, either by the Selectmen or other Town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the Town.

SECT. 12. The Selectmen shall have full authority as agents of the Town to institute and prosecute suits in the name of the Town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the Town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the Town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the Town, unless the Town shall otherwise vote in any special case.

SECT. 14. The Selectmen shall appoint a Town Accountant, who shall perform the duties prescribed by law. At the close of each fiscal year he shall cause an audit of the accounts of the Town to be made under the supervision of the Director of Accounts, as provided by Section 35 of Chapter 44 of the General Laws.

SECT. 15. Whenever damages may be recovered against the Town under General Laws, Chapter 79, entitled "Eminent Domain" and acts in amendment thereof and in addition thereto, the Board of Selectmen, unless otherwise provided by vote of the Town, may exercise in the name and behalf of the Town all the powers granted in Section 39 of said Chapter relative to settlement of damages, assumption of betterments, offers of settlement, and other matters in said section contained.

CHAPTER 5

The Cemetery

Section 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the Town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual Town meeting, when a Trustee shall be elected for the unexpired term.

Sect. 2. Citizens of Milton who are heads of families and have been residents of the Town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the Town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

Sect. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of not less than fifty cents a square foot, but only to those who are in some way connected with Milton people.

Sect. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such land marks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

Sect. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

Sect. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

Sect. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

Sect. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such Tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

Sect. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.

2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.

6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6

Police Regulations

Section 1. No person shall move or assist in moving any building, over any way which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

Sect. 2. Whoever, without a written license form the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

Sect. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

Sect. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this Town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

Sect. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public way unless the same be broken into small pieces and spread evenly.

Sect. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the Town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

Sect. 9. No person shall dig up or obstruct any portion of any way which the Town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the Town for all expenses and damages which, or for which, the Town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

Sect. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

Sect. 11. No person shall permit any team under his care or control to stand across

any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the Town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any sign board of the Town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other buildings whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars or advertisements through

the Town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

Sect. 23. No person shall fire, discharge, explode or set off any gun, firearm, torpedo, fire-cracker or fire-works in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

Sect. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

Sect. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

Sect. 26. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the Town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the Town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Section 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Section 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

Sect. 27. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

Prosecutions and Penalties

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the Town may be made by any constable or police officer of the Town.

CHAPTER 7

The Construction and Inspection of Buildings

Section 1. This Chapter shall constitute and be known as the Building Code and may be cited as such. It provides, in conjunction with Chapter 635, Acts of 1912, known as the "Tenement House Act", for all matters concerning the construction, equipment, alteration, repair, demolition or moving of buildings or structures erected or to be erected in the Town of Milton.

Sect. 2. Whenever the word "Inspector" occurs in this Chapter it means the Inspector of Buildings.

Sect. 3. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within the Town at any reasonable hour.

Sect. 4. In this Chapter the following terms shall have the meanings respectively assigned to them:

First Class Buildings: A first class building shall consist of fireproof material throughout, with floors constructed of iron, steel or reinforced concrete beams, filled in between with terra cotta or other masonry arches or with concrete or reinforced concrete slabs. Wood may be used only for under and upper floors, window and door frames, sashes, doors, interior finish, handrails for stairs, necessary sleepers bedded in cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Building: Second class buildings shall include all buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete, concrete blocks or other equally substantial and fireproof material.

Third Class Buildings: Third class buildings shall include all buildings not of the first or second class.

Thickness of Wall: The minimum thickness of such wall.

Grade: Average grade of the ground immediately adjoining a building.

Cellar: A story more than one-half below the average grade of the ground immediately adjoining a building.

Wooden Frame Building: Any building of which an external wall is constructed wholly or partly of wood. Wood frames covered with metal, wire lath and plaster or brick shall be deemed to be wood structures.

Reinforced Concrete: By the term "reinforced concrete" is meant an approved concrete mixture reinforced by steel of any shape so combined that the steel takes up the tensile stress and assists in the resistance to shear.

Story: That part of a building between the top of any floor beams and the top of the floor or roof beams next above.

Permits

Sect. 5. Before the erection, construction or alteration of any building or part of any building, structure or part of any structure, wall or any platform or flooring to be used for standing or seating purposes, is commenced, the owner or lessee, or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration shall, except for ordinary repairs, submit to the Inspector a detailed description of the location, purpose and construction of the proposed structure or work on proper blanks to be furnished by the Inspector, and full and complete copies of the plans of such proposed work, and such structural detailed drawings as the Inspector may require.

Such plans and detailed drawings shall be furnished in duplicate and, if approved by the Inspector, one set shall be kept at the building during the progress of the work, open to the inspection of the Inspector or his representative. The other shall be kept on file in the office of the Inspector.

The Inspector may require an applicant for a permit to submit with the plans of a building or other structure detailed drawings and calculations of any portions thereof subjected to unusual stresses, or of complicated construction, or for a steel frame or reinforced construction, or of any type of construction not particularly described in this chapter.

Nothing in this section shall be construed to prevent the Inspector from granting his approval of the erection of any part of a building or structure where the general plans and detailed descriptions have been filed for the same, before the entire detailed plans have been submitted.

Sect. 6. It shall be the duty of the Inspector to approve or reject any plans filed with him pursuant to the provisions of this chapter within a reasonable time and within ten (10) days in any event, and no work shall be commenced until a permit is issued.

Sect. 7. Upon approval of plans the Inspector shall issue a permit. The permit shall be void unless work is commenced within three (3) months from the date thereof.

Sect. 8. No building shall be lathed nor shall any metal ceiling, plaster board or other covering be put on until the Inspector has been notified that the building is ready for such work, and until he has given written consent thereto.

Sect. 9. If a proposed building or structure is of a size or character not provided for by this chapter, plans and specifications of such building or structure shall be submitted to the Inspector and referred by him, with his recommendations thereon, to the Board of Selectmen for approval.

Construction

Sect. 10. The Inspector shall examine all buildings in the course of erection or alteration as frequently as is necessary, to see that the Law and the By-Laws of the Town are complied with.

Sect. 11. Every portion of every building or other structure in process of construction, alteration, repair or removal and every neighboring building or other structure

or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 12. All masonry below the finished grade shall be laid up in mortar no poorer than one part Portland cement and three parts sand.

All masonry above grade shall be laid up in mortar no poorer than one part Portland cement, one part lime, and six parts sand.

SECT. 13. Every building or structure hereafter erected shall have a masonry foundation resting upon the solid ground, piles or other durable structure. Said foundation shall be securely and properly built, and shall be of such thickness as to properly sustain the weight it is intended to support; provided, however, that the Inspector may, in his discretion, permit the use of other materials for foundations of buildings not over one and one-half stories high.

SECT. 14. The underpinning above grade, if of concrete, shall be not less than ten (10) inches in thickness; if of brick, not less than twelve (12) inches in thickness; if of stone, not less than sixteen (16) inches in thickness; and shall be laid in cement mortar, as prescribed in Section 12.

SECT. 15. All foundation walls and pier footings shall be laid at least three (3) inches below cellar bottom and not less than three (3) feet six (6) inches below any adjoining surface exposed to frost.

SECT. 16. All piers shall be built of stone, good, hard burnt brick laid in mortar, or reinforced concrete. Isolated brick piers shall not exceed in height ten (10) times their horizontal dimensions and, if of reinforced concrete, fifteen (15) times their least horizontal dimensions, which shall not be less than twelve (12) inches. Cement filled iron columns may be substituted for piers if of suitable size to carry the superimposed load. Such columns shall have cast iron caps and bases and shall rest on footings of masonry, stone or concrete which shall be at least twelve (12) inches in each dimension.

SECT. 17. For buildings other than frame, where the walls are of brick or solid concrete, the minimum thickness in inches of all exterior and dividing walls carrying the loads of floors and roofs and including foundation walls for the same shall be not less than specified in the following table.:

Height	Foundation	Basement	Stories					
			1	2	3	4	5	6
1 story	16	12	8					
2 stories	16	12	12	8				
3 stories	20	16	12	12	8			
4 stories	20	16	16	12	12	8		
5 stories	20	16	16	16	12	12	8	
6 stories	24	20	16	16	16	12	12	8

The height of stories for the thickness of walls shall not exceed:

First Story	17 feet
Second Story	15 feet
Third Story	13 feet
Fourth and Upper Stories	12 feet

and if any story exceeds the foregoing heights, it shall be counted as one additional story for each twelve feet in height or fraction thereof and the thickness of the walls not diminished from the thickness of the lower portions of such story.

If stone is used in place of brick or solid concrete, the thickness of walls shall be made four (4) inches thicker than above specified.

In external walls of the thickness specified in this section, the area of openings for windows, doors, flues, etc., shall not exceed 50 per cent of the gross area. In case the width of such openings exceeds one-half the length of the wall, the thickness of piers between openings shall be increased so as to maintain an area of at least fifty

(50) per cent of the gross area required by the specified thickness, provided, however, that in the upper half of any vertical portion of the wall required to be of constant thickness a smaller addition may be made to the thickness of piers, if the stresses allowed by this code are not exceeded. Curtain walls of brick or concrete between piers, where carried to the piers by arches or lintels at each story, shall be not less than eight (8) inches in thickness.

SECT. 18. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 19. In reckoning the thickness of walls, no allowance for ashlar shall be made unless it is at least eight (8) inches thick, in which case the excess over four (4) inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four (4) inches thick and properly held by metal clamps to the backing or properly bonded to the same.

SECT. 20. Reinforced concrete construction will be accepted for buildings of the first class, and must be designed in accordance with the recommendations of the Joint Committee of the American Society of Civil Engineers, or American Society for Testing Materials, and all materials used in the construction must conform to the requirements of the standard specifications of the American Society for Testing Materials.

The Building Inspector shall have authority to require tests to be made of all materials used in the construction. Such tests shall conform to the requirements as approved by the American Society for Testing Materials.

Only stone or gravel concrete shall be allowed in the construction of reinforced concrete buildings, except that slag or cinder concrete may be used for fireproofing purposes and for floors or roofs where the superimposed load does not exceed fifty (50) pounds per square foot, and the spacing between supports does not exceed six (6) feet.

The allowable unit stresses shall not exceed those recommended by the Joint Committee above mentioned.

Before issuing permit for the construction of reinforced concrete buildings, the Inspector of Buildings shall require the owner to submit a complete set of working drawings and details of the proposed construction with the approval of some well-known consulting engineer written upon each sheet of the drawing, and the cost of such approved drawings shall be paid by the owner.

SECT. 21. The studding in outside walls shall be at least two (2) by four (4) inches in size and spaced not over sixteen (16) inches on centers.

Studs next door and window openings shall be at least three (3) inches by four (4) inches and shall be mortised into sills and girts.

Openings in outside walls shall be trussed if the Inspector so requires.

SECT. 22. Every wooden building hereafter erected or altered shall have all parts of sufficient strength to carry the weight of the super-structure; shall be built with sills, posts, girts, studs, and plates all properly framed, braced and secured together by mortising, strapping or halving, to the satisfaction of the Inspector.

The posts and girts shall be not less than four (4) inches in size except intermediate posts, which shall be not less than four (4) inches by eight (8) inches in size. Studs in interior partitions shall be placed not more than twenty (20) inches on centers. Plates shall be not less than four (4) inches by four (4) inches in size, but may be two (2) inches by four (4) inches doubled. Sills shall be not less than four (4) inches by six (6) inches in size.

SECT. 23. The studding of main or carrying partitions shall be not less than two (2) by four (4) inches in size, and shall rest on a sole piece of hard pine two (2) by four (4) inches. All openings in main partitions of more than thirty-six (36) inches shall be trussed and have studs doubled at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding and two (2) inches thick, at least once in height.

Partitions over twelve (12) feet in height shall be bridged at least once in every six (6) feet.

When carrying partitions rest directly over each other, the studs shall run down between the floor beams and rest on the header of the partition below.

Headers of carrying partitions shall be at least two (2) inches by four (4) inches in size, doubled and of hard pine.

SECT. 23A. All wooden header beams more than four (4) feet long used in any building shall be framed together and pinned or hung to the trimmer beam in stirrup-irons. When it is not practical to frame or secure the ends of tail beams into header beams, the ends of the tail beams shall be hung to the header beams by stirrup-irons.

SECT. 24. All wooden beams of floors or flat roofs shall be properly bridged with cross bridging at least one (1) inch by three (3) inches in size, and the distance between bridging or between bridging and walls shall not exceed eight (8) feet.

SECT. 25. No part of any floor timber shall be within two (2) inches of any chimney; no studding or furring shall be within one (1) inch of any chimney; and no timbers or woodwork shall be within two (2) inches of the back wall of any fireplace. The header beam, carrying the tail beams of a floor and supporting the trimmer arch in front of a fireplace, shall be not less than eighteen (18) inches from the finished chimney breast.

SECT. 26. Every wooden beam, except header beams, shall rest four (4) inches in the wall at each end, or upon a girder or columns as authorized by this chapter, unless the wall is properly corbelled out of four (4) inches, in which case the brickwork or corbelling shall extend to the top of the floor beams.

SECT. 27. The ends of all wooden beams of floors where they rest on brick walls, and the ends of all wooden roof beams in parapeted walls, shall be cut to a bevel three (3) inches in their depth.

SECT. 28. No cutting of timbers for any purpose shall be done so as to reduce the strength of the supporting posts below that required by the provisions of this chapter. No floor, timber, header or trimmer beam of any building shall be cut into more than two (2) inches in depth for piping without a permit from the Inspector. Holes for electric wires through wooden beams, girders or floor beams shall not be located more than one (1) inch from the neutral axis thereof.

SECT. 29. Every second and third class building hereafter built shall have in each story all vertical space in the exterior walls, and carrying partitions thoroughly stopped with fireproof materials not less than four (4) inches in height. These stops may be omitted on approval of the Inspector in cases where the studding is to remain open and uncovered. In every building used solely as a mill or factory there shall be a fireproof stop between the upper and under floor. This fire stop may, however, be omitted if the floor boards are at least two (2) inches thick and splined or tongued together and the space between the timbers of the floor open and uncovered.

SECT. 30. All floors shall be of sufficient strength to bear the weight imposed thereon and of sufficient strength in all parts to safely bear (in addition to the weight of the material of which the floor is composed), upon every square foot of its surface not less than the weights named below for the specified purposes for which such floors are respectively used or designed to be used:

Dwelling houses and hotels, [except public rooms having a floor area of over five hundred (500) square feet and corridors], fifty (50) pounds; unfinished attics used for storage purposes only, thirty (30) pounds; schoolhouses, except corridors and assembly halls, sixty (60) pounds; stairs, landings, platforms, fire escapes, office floors, places of public assembly and public buildings having permanent seats, seventy-five (75) pounds; stables, private garages and the portions of public garages not containing machinery, seventy-five (75) pounds; corridors of hotels,of public buildings and of schoolhouses and rooms in hotels exceeding five hundred (500) square feet in area, one hundred (100) pounds; retail stores and buildings for light manufacturing purposes, one hundred and twenty-five (125) pounds; places of public assembly and public buildings having movable seats, dance halls and gymnasiums, two hundred (200) pounds; warehouses and buildings for heavy manufacturing purposes, two hundred and fifty (250) pounds. Loads not included in the above classification shall be determined by the inspector.

SECT. 31. The pressure upon brick masonry in walls or piers, of which the thickness or least dimension is more than one-sixth of the height, when lime mortar is used, shall not exceed eight (8) tons per square foot, with lime and cement mortar, twelve (12) tons per square foot; with cement mortar, eighteen (18) tons per square foot. When the thickness or least dimension is between one-sixth and one-twelfth the height, and lime mortar is used, the pressure shall not exceed seven (7) tons per square foot; lime and cement mortar, ten (10) tons per square foot; with cement mortar, fifteen (15) tons per square foot.

On first class stone work laid in cement, pressure shall not exceed: on sandstone, thirty (30) tons per square foot; on marble or limestone, forty (40) tons per square foot; on granite, sixty (60) tons per square foot.

Hollow blocks of terra cotta or concrete when used for bearing walls shall have not more than fifty (50) per cent of cellular space. Concrete blocks shall not be used in construction until they have attained the age of twenty-eight days, or developed the strength required in this section. All blocks shall be laid in Portland cement mortar.

The compressive strength of building blocks shall in all cases be calculated upon the gross area of the bedding faces, no account being taken of the cellular spaces. The average ultimate compressive strength for terra cotta blocks laid with cells vertical shall be not less than twelve hundred (1,200) pounds per square inch; the average for concrete blocks laid with cells vertical shall be not less than eight hundred (800) pounds per square inch. Concrete blocks shall be not less than thirty-six (36) days old when tested. The average strength of the blocks as here given shall be obtained by testing ten blocks of average quality.

The allowable working stress of hollow building blocks shall not exceed one hundred (100) pounds per square inch of gross area for terra cotta blocks, or seventy-five (75) pounds per square inch of gross area for concrete blocks. If a wall be built of blocks with the cells horizontal, the allowable working stress shall not exceed thirty (30) pounds per square inch of gross area.

The maximum stress in pounds per square inch in woodwork shall not exceed the following:

	Long-leaved Yellow Pine, Oak & Locust	Other Woods
Direct tension on compression or fibre stress	1,500	1,000
Direct compression side grain	500	300
Shear across fiber	1,200	800
Shear with fiber	150	100
Short columns	1,000	700

Columns may be used with a length not exceeding forty (40) times the least dimension. The unit strain for lengths up to ten (10) times the least dimensions shall be as given in the above table, with a reduction of one hundred (100) pounds per square inch for every increase of ten in the ratio of length to least dimension.

The maximum stress in tension in cast iron, or tensile fiber stress in case of beams, shall not exceed three thousand (3,000) pounds per square inch. The maximum compression fiber stresses in beams shall not exceed sixteen thousand (16,000) pounds per square inch. Cast iron columns may be used with a length not exceeding twenty (20) times their external diameter. The unit stress for lengths up to three (3) times their diameter shall not exceed eleven thousand (11,000) pounds per square inch, with a reduction of five hundred (500) pounds per square inch for every increase of 3 in the ratio of length to least diameter.

In rolled steel the maximum stresses shall not exceed the following:

Tension and fiber stress, 16,000 pounds per square inch; compression in columns, 13,000 pounds per square inch.

Columns may be used with a ratio of length (1) to least radius of gyration (r) not exceeding 16, 1 being expressed in feet and the r in inches. The unit stress allowed shall be 13,000 pounds per square inch for 1-r from 2 to 4; 12,000 from 4 to 6; with a decrease of 1,000 pounds for each succeeding increase of 2 in the ratio of 1 to r.

Shear in rivets, 10,000 pounds per square inch; shear in rough bolts, 9,000 pounds per square inch; shear in web (stiffened), 8,000 pounds per square inch in short pieces, or compressive bearing on rough bolts, 15,000 pounds per square inch.

The maximum stresses in wrought iron shall not exceed seventy-five (75) per cent of those allowed in rolled steel.

Materials not specifically mentioned above shall not be allowed to carry stresses exceeding one-quarter the stresses which would cause fracture or cracks in specimens

of such material of average quality under similar conditions of loading. In cases of doubt of the strength of such materials, the owner may be required to make such tests as the Inspector shall deem necessary to determine the strength, said tests to be made in the presence of the Inspector or his authorized representative.

Sect. 32. Frame buildings veneered on the outside with four (4) inches of brick or stone work shall have such brick or stone work supported on a foundation of masonry, and bearing on rivets, 18,000 pounds per square inch; shall be properly anchored to the frame structure. The height of any such veneer shall not exceed twenty-five (25) feet above the solid masonry.

Sect. 33. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

Sect. 34. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter extending through the partition and eight (8) inches larger than the pipe. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

Sect. 35. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

Sect. 36. All walls, ceilings and partitions inclosing drying-rooms, when not made of fireproof material, shall be wire lathed and plastered, or covered with metal, tile or other hard, incombustible material.

Sect. 36A. No portion of any building of third class construction to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall be hereafter erected, enlarged, altered, or placed nearer than four (4) feet to the line of any adjacent lot or to any other building of the first or second class; or nearer than eight (8) feet to any portion of any other building of the third class on the same lot, unless fireproof masonry walls, with openings protected as required by Section 36, are built next to the said lot or other building, such walls to be of thickness provided under Section 17.

Sect. 37. In first or second class buildings all openings in walls within four (4) feet of adjoining property lines shall be protected by metal shutters or by metal sash, frames and wire glass.

Sect. 38. Every building of the third class hereafter erected to form a block of two or more buildings shall have a wall of brick, or Portland cement concrete, or other equally substantial and approved fireproof material between adjoining buildings, completely separating same. Such walls to be of thickness specified in Section 17, carried to under side of roof boarding.

Sect. 38A. Every dwelling to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall have at least two independent means of egress.

Electric Wiring and Fixtures

Sect. 39. All wires, appliances and apparatus in the interior of a public building or on private premises, which are intended for the transmission of electricity and to be connected with an outside circuit, shall be made and at all times kept safe, and shall be placed, arranged, attached, changed and maintained by the person, firm or corporation owning or using the same, to the satisfaction of the Inspector of Wires

appointed in accordance with the provisions of Chapter 337 of the Acts of the year 1899. The Inspector of Wires shall have access at all reasonable times to such wires, appliances and apparatus.

Before any person, firm or corporation shall arrange, fix, or essentially change any such wires, appliances and apparatus, the Inspector of Wires shall be notified and given full opportunity to inspect the said wires and their arrangement and fixtures before the same are covered or enclosed. Wires in the interior of buildings and on private premises shall not be connected with an outside circuit which crosses or runs along, over or under any street or way of the Town without written permission therefor having been first obtained from the Inspector of Wires.

Companies and contractors making any repairs on or installing any electric plants in the Town of Milton shall send a notice to the Inspector of Wires before the work is commenced.

All work and material must be supplied and installed in accordance with provisions of the National Electric code and any amendments or additions thereto.

Gas Fixtures

Sect. 40. The burners of all gas fixtures shall be at least three (3) feet below any ceiling or woodwork, unless the same is properly protected by a shield, in which case the distance shall be not less than eighteen (18) inches. No gas bracket on any lath and plaster partition or woodwork shall be less than five (5) inches in length, measured from the burner to the plaster surface or woodwork.

Sect. 41. Gas pipes in any building or structure shall be installed in accordance with the rules and regulations prescribed by the company furnishing gas. All gas pipes shall be inspected and tested by the gas company before the pipes are covered, and a certificate of the same from the gas company shall be placed on file with the Inspector of Buildings by the owner of the building or his representative. The method of installation of the gas pipes shall be subject to the approval of the Inspector of Buildings.

Sect. 42. Every hot water boiler hereafter installed, to be used for heating purposes, shall be provided with a safety or relief valve of a size not less than that known commercially as one half (½) inch. Such valve shall be attached either directly to the boiler or to some pipe connected therewith at a point not more than one foot from the boiler.

Regulations Made by the Fire Engineers According to the Provisions of Chapter 32, Section 46, of the Revised Laws in regard to Chimneys, Flues, Fireplaces and Heating Pipes

Sect. 43. All chimneys hereafter erected shall be built of brick, stone or other incombustible material.

Sect. 44. All chimneys hereafter erected, if walls are less than eight (8) inches thick, shall be lined on the inside with terra cotta or tile pipe, made smooth on the inside from two (2) feet below girder, or from the throat of the fireplace, if the flue starts from the latter, and carried up continuously to the top. The ends of all such lining pipes shall be made to fit close together, and the pipe shall be built in, as the flue or flues are carried up. The walls shall be at least four (4) inches thick. No parging mortar shall be used on the inside of any fireplace, chimney or flue. The firebacks of all fireplaces hereafter erected shall be not less than eight (8) inches in thickness if of solid brickwork not less than twelve (12) inches if of stone. When a grate is set in a fireplace, a lining of firebrick at least two (2) inches in thickness shall be added to the fireback, unless soapstone, tile or cast iron is used and filled solidly behind with fireproof material.

All chimneys shall extend at least three (3) feet above the highest point at which the chimney cuts the roof and at least six (6) inches above any roof surface within ten (10) feet in a horizontal line.

Sect. 45. Imitation fireplaces intended for use with gas or electricity and not having a flue shall be constructed throughout, including the hearth, of fireproof material ot less than two (2) inches thick.

Hearths of all fireplaces and chimney breasts where mantels are placed shall be supported by trimmer arches of brick, stone, burnt clay or concrete built of clay or concrete at least eighteen (18) inches in width, measured from the face of the finished chimney breast and not less than sixteen (16) inches longer than the width of the finished fireplace opening. Wooden centers under trimmer arches shall be removed before plastering the ceiling underneath. Hearths may be supported on steel cantilever beams built not less than sixteen (16) inches into the chimney.

SECT. 46. No chimney shall be supported by, started or built upon any woodwork. In no case shall a chimney be corbelled out more than two-thirds the thickness of a wall to which it is attached, and in all such cases the corbellings shall consist of at least five course of brick. Where chimneys are supported by piers, the piers shall start from the foundation on the same line with the chimney breast, and shall be not less than twelve (12) inches on the face, properly bonded into the walls. When a chimney is to be cut off below, in whole or in part, it shall be wholly supported by stone, concrete, brick, iron or steel.

All chimneys which become dangerous in any manner whatever shall be repaired or made safe, or taken down.

SECT. 47. All hot air furnaces. low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall not be less than one (1) foot.

SECT. 48. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipes. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 49. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield, then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

CHAPTER 8

THE REGULATION AND INSPECTION OF PLUMBING

SECTION 1. There shall be in the Town a department for the inspection of plumbing in accordance with the provisions of Chapter 103 of the Revised Laws.

SECT. 2. The word "Inspector" without further addition wherever used in this chapter means the Inspector of Plumbing.

SECT. 3. Every plumber before commencing work on any part of the drainage system in a building, except in the case of the repair of leaks, shall file at the office of the Inspector upon blanks provided for that purpose, a description of the proposed work. No such work shall be done in any building unless approved by the Inspector and after a permit is issued therefor. Permits to perform plumbing shall be issued only to master plumbers. Drawings of the proposed work shall be filed when required by the Inspector.

SECT. 4. No drainage, waste or ventilation pipes shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two (2) working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All drainage, waste and ventilation pipes shall be subjected to the water test before the fixtures are set, said pipings and fixtures shall be subjected to pneumatic or other reliable test. All such tests shall be made in the presence of the Inspector.

SECT. 6. The drainage and waste piping of every building shall be connected with the public sewer when such sewer is located in a street, way or other land adjacent to the lot upon which the building is located, if the sewer is within two hundred (200) feet of such building and is so located as to take the sewerage therefrom. If the building is more than two hundred (200) feet from the sewer or a sewer is not accessible, connection may be made with a proper cesspool, provided a permit is granted therefor by the Board of Health.

SECT. 7. The soil pipe of every building shall be of sufficient size to receive and allow freely to pass, all that enters or should enter the same. All soil pipes shall be of extra heavy cast iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast iron with leaded and caulked joints, but galvanized wrought iron pipe may be used for vent purposes. All pipes shall be properly secured to walls and ceilings with wrought iron hangers. Waste pipes shall be of cast iron, of lead, or of annealed brass of a thickness not less then No. 13 Stubbs gauge with brass or cast iron recessed fittings. No soil pipe of any building shall be less than four (4) inches inside diameter, except by written permission of the Board of Health. No vent pipe shall be less than one and a quarter (1¼) inches inside diameter.

SECT. 8. All drain pipes shall have a proper pitch, shall have an accessible cleanout, and shall extend to a point ten (10) feet outside of the cellar wall. The pipe from the sewer or cesspool to within ten (10) feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least two (2) feet above the highest window on the roof. Every drain pipe, except a drain pipe from a building having but one sink, or but one sink with adjoining trays, shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain pipe leaves the building. All changes in direction of soil pipes shall be made by Y branches or by curved pipes. No ventilation pipes on the outside of any building shall be less than two (2) inches in diameter.

SECT. 9. All joints in iron pipes, soil or vent pipes shall be made by thoroughly caulking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full sized wiped joint and caulking the ferrules to pipes which are of cast iron, or screwing them to pipes which are of wrought iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop hopper, and every tray or set of four or less wash trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins, or a sink and a set of four or less wash trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixture be connected with the water-closet trap or water-closet lead outlet pipe.

All fixture traps shall be protected from syphonage or air pressure by special vent pipes having a diameter not less than the diameter of the waste pipe at a point not lower than the seal of the trap in such a manner as to make the vent pipe a continuation of or a Y branch from the waste pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent pipe unless the length of the waste pipe from the trap of said fixture to the said stack exceed three (3) feet. Vent pipes for water-closets shall be of not less than two (2) inches bore and may be connected with the water-closet waste pipe below the level of the trap seal. Two or more vent pipes may be connected together or with a soil pipe, but such connection with a soil pipe shall be above the uppermost fixture connected with such soil pipe. Lead vent pipes may be used only where they are exposed to view.

SECT. 11. No drip or overflow pipes from safes under water-closets, urinals, or other fixtures, no overflow pipes from tanks or cisterns, no waste pipes from refrigerators or other receptacles in which food is stored, no rain water conductors, and no steam exhaust pipes or steam waste pipes shall be connected with any soil pipe. No openings shall be allowed in the soil or waste pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory

to the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil or waste pipe.

SECT. 12. Every water-closet shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one and a quarter (1¼) inches inside diameter. Flushing valves attached directly to a water-closet may be used, but when used the method of installation shall conform in every particular to the requirements of the Inspector.

SECT. 13. Cesspools shall have a top of stone or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. No water-closet shall be enclosed with any woodwork.

SECT. 15. None of the provisions of the foregoing sections of this chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. Every closed tank or boiler hereafter installed, which is to be used for the storage and supply of hot water, shall, if fed by direct pressure from any source outside of the building, have a safety or relief valve and a vacuum valve. Each valve shall be of a size not less than that known commercially as one-half (½) inch.

SECT. 17. Any person violating any of the provisions of Chapters numbered Seven and Eight shall be liable to a fine of not less than twenty (20) dollars nor more than one hundred (100) dollars for each offence, to be paid into the treasury of the Town of Milton.

SECT. 18. Upon the approval of Chapters 7 and 8 by the Attorney General of the Commonwealth and the publication as required by law, they shall go into effect, and all building laws heretofore adopted by the Town shall be thereby repealed, except that in cases where permits have been issued prior to the approval and publication as above provided, the laws then existing shall govern the work to be performed under said permits.

CHAPTER 9

STREET RAILWAYS

SECTION 1. The annual report shall contain the following concerning the street railways in the Town and the street railway companies owning or operating the same, viz.:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid in the Town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the Town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the traveling public are required upon any street railway in the Town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10

TOWN WAYS

SECTION 1. Every way that shall be laid out for the acceptance of the Town as a town way shall be not less than fifty feet in width, provided, however, that this section shall not prevent the layout of any way, which, prior to the time this amendment

takes effect, shall have been duly approved by the Board of Survey. Provided, however, that upon written certification by the Board of Survey, in respect to the layout of a particular way, that the requirement of a width of fifty feet will cause practical difficulty or unnecessary hardship, such way, or ways, may be laid out less than fifty feet but not less than forty feet in width.

SECT. 2. If an existing private way the fee of which is in the abutters shall be laid out for the acceptance of the Town as a town way, such way shall not be accepted unless and until the Selectmen shall have certified in writing that such way is well built, and as constructed it is equal to the average construction of existing highways of the Town; provided, however, that this section shall not apply to ways laid out subject to the provisions of law relating to the assessment of betterments.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town.

CHAPTER 11

BILLBOARDS

SECTION 1. No person or corporation shall erect or maintain a billboard sign or other outdoor advertising device, except as provided in Section 32 of Chapter 93 of General Laws, on any location within three hundred feet of any public park or playground or Metropolitan Park or Parkway, if within public view from any portion of such parks, playgrounds, or parkways; or within three hundred feet of any other public way and within public view from any portion of the same, if such billboard, sign or device exceed five feet in height or eight feet in length, and no billboard, sign or device placed within three hundred feet of any such public way and within public view shall be nearer than fifty feet to any other such billboard, sign or device; or at the corner of any public ways and within the radius of one hundred fifty feet from the point where the center lines of such ways intersect; or in any place unless the lowest portion of such billboard, sign or device is at least three feet from the ground, and the entire structure, including its braces and supports, is maintained in good repair, painted, and free from accumulation of rubbish and filth and from the pupæ, eggs and caterpillars of gypsy and brown-tail moths and other tree and shrub destroying pests; provided that this section shall not apply to signs or other devices which advertise or indicate either the person occupying the premises in question or the business transacted thereon, or advertise the property itself or any part thereof if for sale or to let.

CHAPTER 12

USE OF BUILDINGS

SECTION 1. *Districts.*—A residence district is hereby created in the Town of Milton to be known as District A, the bounds of which shall be set forth in the Zoning Map hereinafter in this By-Law referred to, the said district comprising all territory within the corporate limits of the Town of Milton, excepting the districts marked B and C on said Zoning Map, which are bounded and described as follows:

District B.—Beginning at a point in the boundary line between Milton and Quincy at the junction of the northeasterly side line of Bryant Avenue, and said boundary line: thence running northwesterly along said northeasterly boundary of Bryant Avenue to a point where the northwesterly side line of Martin Terrace extended northeasterly would intersect said line of Bryant Avenue: thence turning and running southwesterly along said extension of the northwesterly side line of Martin Terrace and said northwesterly side line itself to the end of said Martin Terrace at the land of L. A. Dame: thence turning to the right and running northwesterly along said land of L. A. Dame to the southeasterly side line of Boulevard Street: thence continuing in a northwesterly direction across said Boulevard Street to the intersection of the northwesterly side line of Boulevard Street with the southeasterly side line of Edge Hill Road: thence turning and running northeasterly and northerly along said southeasterly side line

of Edge Hill Road and continuing northerly in the same line across Adams Street to the easterly boundary line of land of the New York, New Haven and Hartford Railroad Company: thence turning and running northwesterly along said easterly boundary line to a point where the southeasterly side line of Wood Street extended southwesterly would intersect said easterly boundary line: thence turning and running northeasterly along said southeasterly side line of Wood Street to a point distant 200 feet northeasterly from the northeasterly side line of Granite Avenue: thence turning at right angles and running southeasterly in line parallel with the northeasterly side line of Granite Avenue and 200 feet distant therefrom to a point distant 200 feet northerly from the northerly line of Adams Street: thence turning and running easterly in a line parallel with said northerly side line of Adams Street and distant 200 feet therefrom to the westerly side line of Church Street: thence turning and running southerly along the westerly side line of Church Street to a point where the westerly side line extended intersects the southerly side line of Adams Street: thence turning and running westerly to the westerly side line of Mechanic Street: thence turning and running southerly along the westerly side line of Mechanic Street 100 feet: thence turning to the right and running westerly on line parallel with the southerly side line of Adams Street and 100 feet distant therefrom to a point 100 feet northeasterly from the northeasterly side line of Granite Avenue: thence turning and running southeasterly in a line parallel with the northeasterly side line of Granite Avenue and 100 feet distant therefrom to the boundary line between Milton and Quincy: thence turning and running southwesterly along said boundary line to the point of beginning.

District C.—Beginning at a point in the boundary line between Milton and Boston at the Neponset River, said point being at the intersection of the southerly boundary of land of the New England Telephone and Telegraph Company extended easterly and said boundary line between Milton and Boston: thence running westerly along said extension of the southerly boundary line of the New England Telephone and Telegraph Company and said southerly boundary line itself, to the easterly side line of Adams Street; thence continuing in the same general westerly direction across Adams Street and Canton Avenue to a point 100 feet distant westerly from the westerly side of High Street extended : thence turning and running northerly parallel with the westerly side line of High Street and distant westerly 100 feet therefrom to the northerly side line of Eliot Street: thence turning and running westerly along said northerly side line of Eliot Street to Pine Tree Brook: thence turning and running along the center line of said Brook southerly and southwesterly to the southwesterly boundary of land of the Town of Milton used for a Police Station: thence turning and running northwesterly along the southwesterly boundary and southwesterly line extended across Central Avenue to land of Octavia L. Horne: thence turning and running in a general northerly direction along the westerly boundary line of land of said Octavia L. Horne, and said westerly boundary line extended to the northerly side line of Eliot Street: thence turning and running westerly along said northerly side line of Eliot Street to the westerly boundary of land now or formerly of the National Biscuit Company: thence turning and running along said westerly boundary and said westerly boundary produced across land of the New York, New Haven and Hartford Railroad Company to boundary line between Boston and Milton at the Neponset River: thence turning and running in a general easterly and southerly direction along said boundary between Boston and Milton to the point of the beginning.

SECT. 2. *Zoning Map.*—(*a*) The Zoning Map prepared by C. Frederick Joy, Jr. Civil Engineer, dated June 23, 1922, bearing the signatures of the Board of Selectmen and showing the boundaries of Districts A, B, and C, is declared to be a part of this By-Law.

(*b*) Where a boundary line divides a lot in a single ownership at the time of the adoption of this By-Law, the regulations as to District A shall not apply provided the lot does not extend more than twenty-five feet within the boundary line of said District A.

SECT. 3. *Residence Purposes.*—In district A, except as herein otherwise provided, no building shall be used, and no building shall be erected or altered which is intended or designed to be used for a store or shop, or for manufacturing or commercial purposes, or any other purpose except for one or more of the following:

(*a*) A dwelling for one or more families.

(*b*) A hotel or a lodging or boarding house.

(*c*) A club other than a club the chief activity of which is a service customarily carried on as a business.

(*d*) A church, school or academy.

(*e*) Other purposes which are not particular industries, trades, manufacturing or commercial purposes.

(*f*) A railroad passenger station.

(*g*) A farm, truck garden, nursery or greenhouse.

(*h*) An accessory purpose customarily incident to the above purposes and not detrimental to the use of other property in the district for the above purposes, including a private garage for not more than two automobiles. An accessory purpose shall not include an advertising sign except a real estate sign advertising for sale or rent the property on which it is placed, but may include a sign not over one square foot in area, bearing a name and the designation of any authorized occupation, and being such a sign as is customary on any building used for the purposes permitted by this section of this By-Law.

(*i*) A garage for more than two automobiles, or a telephone exchange or transforming station, provided in each case that after a public hearing, fourteen days' notice of which shall be given, in such manner as the Selectmen shall rule that such use in a building or buildings located, designed and constructed as described by them in their ruling, will not be seriously detrimental to the use of other property in the district for the purpose specified in the preceding paragraphs of the section, and provided that the use is confined to a building or buildings conforming to the description of said ruling.

SECT. 3A. *Location of Buildings in District A.*—After this section shall be duly adopted by the Town and become effective pursuant to law, in District A,

1. Set-back: No part of a building except steps, and eaves not exceeding 18″ wide, shall be built within 15 feet of the sideline of the street on which it fronts, provided that no building need be set back more than the average of the set-back of the buildings on the lot next thereto on either side, a vacant lot or a lot occupied by a building set back more than 15 feet being considered as occupied by a building set back 15 feet, and provided further that on a lot less than 100 feet deep of record in the Registry of Deeds at the time this section becomes effective no building need be set back more than 15 per cent of the depth of the lot, and provided that in such cases exceptions shall be permissible as in the case of buildings to which the 15 foot set-back applies.

2. Rear Yards: No part of the building except steps, and eaves not exceeding 18″ wide shall be built within 25 feet or a distance equal to one-quarter of the mean depth of the lot, whichever is the less, from the rear lot line, provided that for each foot that the building sets back from the front line in addition to the requirements in the preceding paragraph its distance from the rear lot line may be reduced one foot, but in no case under this provision to less than 20 feet, excepting that buildings of accessory use as defined in Section 3, paragraph (*h*) may be built within said twenty-five foot or lesser strip.

3. Side Yards: No part of the building except steps, chimneys, and eaves not exceeding 18″ wide, and buildings of accessory use as defined in Section 3 paragraph (*h*) shall be built within 8 feet of a side line on a lot or street, provided that the width of one side yard may be reduced one foot for each foot that the width of the other side yard is increased, but no side yard shall be reduced to less than six feet, and provided further that on no lot of record in Registry of Deeds at the time this section becomes effective, shall the buildable width, with the same permissible exceptions, be reduced to less than 25 feet.

4. Garages: No part of a garage, unless contained within the body of the house, shall be built within 40 feet, or a distance equal to 40 per cent of the mean depth of the lot, whichever is the less, from the front line of the lot, or within 15 feet of a street line forming the side line of a corner lot.

5. Area: No dwelling, exclusive of piazzas, eaves, and steps, shall occupy more than one-third of the lot on which it is placed, and no building other than a dwelling shall occupy more than one-half of the lot on which it is placed, except that on corner lot an additional area of 400 square feet may be occupied, however, subject to the requirements contained in all other paragraphs of this section.

6. No lot shall be so reduced in area that the dimensions of the open spaces thereon shall be smaller than herein prescribed.

7. No building shall be built within 16 feet of any other building on the same lot excepting buildings of accessory use as defined in Section 3, paragraph (*h*).

SECT. 3B. *Single Family Dwellings.*—After this section shall be duly adopted by the Town and shall become effective pursuant to law, no dwelling shall be erected in District A which is intended or designed to be other than a single family detached dwelling, and no building shall be altered so as to be or become a dwelling other than a single family detached dwelling, and no building erected or altered in violation hereof, shall be used as a dwelling provided, however, that a building may be used, erected or altered which is intended or designed to be used as a dwelling for not more than two families on any lot if, at the time this section becomes effective—

1. It is between two lots on which are buildings designed for occupation by two or more families each, located on the same side of the street and less than 100 feet apart, or if

2. The majority of all the frontage on the same street as the lot on a street or streets in substantially direct continuation thereof and within 300 feet of the site of the proposed building is occupied by buildings designed for two or more families each or side yard adjacent thereto, no such side yard to exceed 10 feet width, all frontage between buildings designed for two or more families and less than 100 feet apart being considered as occupied by dwellings for two families.

SECT. 3C. *Validity.*—The invalidity of Section 3A or Section 3B, or any provision of said Sections, shall not affect the validity of any other Section or provision of said Sections, and said Sections shall affect the provisions of Chapter 12 in force when this amendment becomes effective only so far as said Sections are inconsistent therewith and valid.

SECT. 3D. So much of this amendment as is approved by the Attorney General shall go into effect upon its publication, or notice by delivery, as required by law.

SECT. 4. *Existing Buildings.*—Any building or part of a building in District A which at the time of adoption of this By-Law is being used for a purpose forbidden in said District may continue to be used for the same purpose or for a purpose not substantially different in character. Any such building or part of a building and any addition thereto made by permission of the Selectmen as hereinafter provided may be structurally altered or added to at any time provided the alterations or additions do not substantially enlarge the part of the building used for such purpose; and any such building or part of a building or such addition which is partially or wholly destroyed by fire or other casualty may be repaired or replaced by a structure of substantially the same size and character and used for the purpose for which it was formerly used or for a purpose not substantially different in character.

Any such building may be added to or enlarged at any time and such addition or enlargement used for the purpose for which the original building may lawfully be used under the provisions of the foregoing paragraph of this section provided in each case that after a public hearing, of which fourteen days' notice shall be given in such manner as the Selectmen may decide, the Selectmen shall determine that such addition or enlargement and the use to be made thereof will not to any substantial extent be more detrimental to the use of other property in the district for the purposes permitted in Section 3 than the building to which such addition or enlargement is to be made or the use then lawfully made thereof, and shall issue a permit therefor. Each such permit issued by the Selectmen shall specify the size and character of the addition or enlargement and no such addition or enlargement shall be constructed or used for any purpose forbidden in District A which is not constructed in accordance with the terms of such permit.

SECT. 5. *Incidental Use of Residential Buildings.*—Any building in District A designed solely for residential purposes, and used primarily and principally for residential purposes, may be used incidentally for a purpose forbidden in said District, provided, in each case, that after a public hearing, of which fourteen days' notice shall be given in such manner as the Selectmen may decide, the Selectmen shall determine that the use of such building is incidental only, within the meaning hereof, and that such incidental use will not be detrimental to the use of other property in the district for the purposes permitted in Section 3, and shall issue a permit therefor.

SECT. 6. *Enforcement.*—Whoever violates any of the provisions of this By-Law shall be punished by a fine of not more than twenty dollars for each violation. Upon any well founded information from any citizen that this By-Law is being violated or upon his own initiative, the Inspector of Buildings shall take immediate steps to enforce the By-Law.

SECT. 7. *Validity.*—The invalidity of any section or provision of this By-Law shall not invalidate any other section or provision hereof.

SECT. 8. The provisions of this By-Law shall be construed as being additional to and not as limiting or lessening to any extent whatsoever the requirements of Chapters 7 and 8 of the Revised By-Laws of the Town.

SECT. 9. So much of this By-Law as is approved by the Attorney-General shall go into effect upon its publication, or notice by delivery, as required by law.

CHAPTER 13

PLANNING BOARD

A Board consisting of five members is hereby created and established to be known as the Planning Board. At the annual Town meeting to be held in March, 1923, there shall be elected one member of such Board to serve for one year, two members to serve for two years and two members to serve for three years, and thereafter there shall be elected at the annual meeting in each year one or two members to such Board to fill the places of members whose terms of office expire in such year. The members of such Board shall serve without pay.

The Board shall perform the duties prescribed by Sections 70 and 71 of Chapter 41 of the General Laws. It shall be the duty of the Board also to consider and advise upon municipal improvements in regard to which the advice of the Board, at any time, may be asked by any officials of the Town. The Board may upon its own initiative make to any official or officials of the Town such recommendations in regard to municipal improvements as the Board may from time to time think proper or expedient.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON

MARCH 19, 1866. *Voted*, To establish a high school, according to the provisions of Section 2 of Chapter 38 of the General Statutes. (Repealed, 1898, Chapter 496, Section 36.)

MARCH 2, 1874. *Voted*, To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the town of Milton. (Special Act.)

MARCH 4, 1878. *Voted*, To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers. (General Laws, Chapter 48, Section 45.)

MARCH 3, 1879. *Voted*, To accept the provisions of Section 21 of Chapter 38 of the General Statutes relative to the election of School Committee. (General Laws, Chapter 41, Section 1.)

DECEMBER 8, 1879. *Voted*, To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children. (Repealed, 1919, Chapter 363, Section 16.)

MARCH 7, 1881. *Voted*, To accept the act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners." (General Laws, Chapter 41, Section 1.)

MARCH 5, 1883. *Voted*, To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children. (Repealed, 1898, Chapter 496, Section 36.)

MARCH 3, 1890. *Voted*, To accept the first nine sections of Chapter 51 of the Public Statutes, said Chapter being entitled, "Of Betterments, and other Assessments on Account of the Cost of Public Improvements." (General Laws, Chapter 80.)

FEBRUARY 12, 1891. *Voted*, To accept the act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882. (General Laws, Chapter 45, Sections 1 to 11.)

MARCH 2, 1891. *Voted*, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of town officers. (Repealed 1893, Chapter 417, Section 345).

FEBRUARY 3, 1894. *Voted*, That the town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of 1893, relative to the election of a separate Board of Assessors. (General Laws, Chapter 41, Section 1.)

NOVEMBER 28, 1894. *Voted*, To accept the provisions of Chapter 324 of the Acts of 1894, entitled an "Act Relative to the Reservation of Spaces in Public Ways." (General Laws, Chapter 82, Section 34.)

MARCH 4, 1895. *Voted*, That the town hereby accepts the provisions of Chapter 309 of the Acts of 1885, authorizing towns to license groves to be used for picnics and other lawful amusements. (General Laws, Chapter 140, Sections 188 to 190.)

MARCH 4, 1895. *Voted*, To accept the provisions of Section 272 of Chapter 417 of the Acts of 1893, relative to the election of Sewer Commissioners. (General Laws, Chapter 41, Section 1.)

MARCH 4, 1895. *Voted*, To accept the provisions of Chapter 462 of the Acts of 1893, relative to the establishment of a building line on Public Ways. (Repealed, Acts of 1917, Chapter 344, Part 8, Section 1.)

MARCH 4, 1895. *Voted*, To accept the provisions of Chapter 218 of the Acts of 1894 as amended by Chapter 473 of that same year, relative to the election of Boards of Health in towns. (General Laws, Chapter 41, Section 1.)

MARCH 4, 1895. *Voted*, To accept the provisions of Sections 20 and 21 of Chapter 50 of the Public Statutes, relative to the establishment and grading of sidewalks by the Selectmen. (General Laws, Chapter 83, Section 25.)

MARCH 4, 1895. *Voted*, To accept the provisions of Chapter 304 of the Acts of 1895, authorizing the town of Milton to construct one or more systems of sewerage. (Special Act.)

March 1, 1897. *Voted*, To accept the provisions of Chapter 101 of the Public Statutes, relative to the suppression of common nuisances. (General Laws, Chapter 139.)

March 7, 1898. *Voted*, To accept the provisions of Section 11 of Chapter 481 of the Acts of 1894, relative to the regulation and inspection of buildings. (General Laws, Chapter 143, Section 3.)

March 5, 1900. *Voted*, To accept the provisions of Chapter 344 of the Acts of 1899, relative to eight-hour day for town employees. (General Laws, Chapter 149, Section 31.)

March 3, 1902. *Voted*, To accept the provisions of Section 18 of Chapter 122 of the Revised Laws (General Laws, Chapter 166, Section 32), relative to the appointment of an Inspector of Wires by the Selectmen.

July 14, 1902. *Voted*, To accept the provisions of Chapter 307 of the Acts of 1902, relative to water supply. (General Laws, Chapter 92, Section 10.)

August 16, 1902. *Voted*, To accept the provisions of Sections 58 to 64, inclusive, of Chapter 48 of the Revised Laws, relative to the jurisdiction of town over highways and county bridges. (General Laws, Chapter 82, Sections 17 to 20.)

March 2, 1903. *Voted*, To accept the provisions of Sections 20 and 21 of Chapter 25 of the Revised Laws, relative to public baths. (General Laws, Chapter 40, Section 12.)

March 2, 1903. *Voted*, To accept the provisions of Section 339 of Chapter 11 of the Revised Laws, relative to the election of Overseers of the Poor. (General Laws, Chapter 41, Section 1.)

March 7, 1904. *Voted*, To accept the provisions of Section 70 of Chapter 75 of the Revised Laws, relative to privy vaults. (General Laws, Chapter 111, Section 126.)

March 6, 1905. *Voted*, To accept the provisions of Chapter 103 of the Revised Laws, relative to the supervision of plumbing. (General Laws, Chapter 142.)

July 21, 1905. *Voted*, To accept the provisions of Chapter 381 of the Acts of 1905, relative to the suppression of gypsy and brown-tail moths. (General Laws, Chapter 132.)

March 1, 1909. *Voted*, To accept the provisions of Chapter 476 of the Acts of 1908, relative to vacations for members of the Police Department. (General Laws, Chapter 92, Section 62, and Chapter 147, Sections 14 and 17.)

March 8, 1910. *Voted*, To accept the provisions of Section 43 of Chapter 49 of the Revised Laws, relative to the grading and construction of sidewalks. (General Laws, Chapter 83, Section 25.)

March 6, 1911. *Voted*, To accept the provisions of Section 359 of Chapter 560 of the Acts of 1907, relative to the election of Moderators. (General Laws, Chapter 41, Section 1.)

March 6, 1911. *Voted*, To accept the provisions of Section 362 of Chapter 560 of the Acts of 1907, relative to the election of four constables. (General Laws, Chapter 41, Section 1.)

November 7, 1911. *Voted*, To accept the provisions of Chapter 634 of the Acts of 1911, relative to the establishment by counties of the retirement system for employees. (General Laws, Chapter 32.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 146 of the Acts of 1911, relative to the establishment of an Art Commission. (General Laws, Chapter 41, Sections 82 to 84.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 468 of the Acts of 1911, relative to the extension of Civil Service Acts to Chiefs of Police. (General Laws, Chapter 31, Section 49.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 314 of the Acts of 1911, relative to the expending of money by the School Committee for the supervision of sports. (General Laws, Chapter 71, Section 47.)

March 4, 1912. *Voted*, To accept the provisions of Chapter 367 of the Acts of 1911, relative to the use of school halls for other than school purposes. (General Laws, Chapter 71, Section 71.)

November 5, 1912. *Voted*, To accept the provisions of Chapter 503 of the Acts of 1912, relative to the pensioning of laborers in the employ of the town. (General Laws, Chapter 32, Section 77.)

MARCH 8, 1924. *Voted*, To accept the provisions of Chapter 337 of the Acts of 1921, relative to the pensioning of call men.

MARCH 8, 1924. *Voted*, To accept the provisions of Chapter 391 of the Acts of 1923, relative to the collection of water rates.

MARCH 14, 1925. *Voted*, To accept Chapter 9 of the Acts of 1925, authorizing the retirement and pensioning of John H. Higgins of the Police Department.

MARCH 5, 1927. *Voted*, To accept Chapter 27 of the Acts of 1927, an act to erect and constitute in the Town of Milton representative town government by limited town meetings.

MILTON TOWN RECORDS IN THE MUNICIPAL YEAR 1930

MARCH MEETING

WARRANT

1930

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

To any Constable of the Town of Milton, in said County,
Greetings:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Elections and in Town affairs, to meet at the several designated Polling places in their respective Precincts in said Milton, to wit:

In Precinct I, polling place, Town Hall, Canton Avenue,
In Precinct II, polling place, Tucker School Hall, Blue Hills Parkway,
In Precinct III, polling place, Police Station, Central Avenue,
In Precinct IV, polling place, Belcher School, Church Street, on Saturday, March first next, at fifteen minutes before six o'clock in the forenoon, then and there to bring in to the Precinct Officers of their respective Precincts their votes on one ballot respect tively for the following-named Town Officers, to wit:

A Moderator for the term of one year.
A Town Clerk for the term of one year.
A Town Treasurer for the term of one year.
A Collector of Taxes for the term of one year.
Three Selectmen and Surveyors of Highways for the term of one year.
One Assessor for the term of three years.
Two members of the Board of Public Welfare for the term of three years.
One Sewer Commissioner for the term of three years.
A Tree Warden for the term of one year.
Two members of the School Committee for the term of three years.
One member of the Board of Health for the term of three years.
One Trustee of the Cemetery for the term of five years.
Three Library Trustees for the term of three years.
One Park Commissioner for the term of three years.
One Water Commissioner for the term of three years.
One Trustee of the Wadsworth Fund for the term of three years.
One member of the Planning Board for the term of three years.
Four constables for the term of one year.
Seventy-four Town Meeting Members as follows:

Precinct I—Fifteen for three years.
Precinct II—Twenty-seven for three years.
Precinct III—Ten for three years.
Precinct IV—Twenty-two for three years.

For these purposes the polls will be open at each and all of said Precincts at fifteen minutes before six o'clock in the forenoon and will be closed at four o'clock in the afternoon.

And thereupon, by adjournment of said meeting, to meet on the following Saturday, to wit, March eighth next, at thirty minutes past one o'clock in the afternoon at the Town Hall in said Milton, then and there to act upon the following Articles, to which we have requested the Warrant Committee to append their recommendations and report on all printed copies hereof, to wit:

Adjourned Meeting, March 8, 1930

ARTICLE 1. To choose all such Town Officers as are not required by law to be chosen by ballot.

The following officers were elected viva voce, namely: Ralph E. Forbes, Bird Warden; George E. Burt, Measurer of Lumber; Carl R. Horne, Measurer of Lumber.

ARTICLE 2. To hear and act upon the report of the Town Accountant and reports of other Town Officers and Committees.

Voted, That the report of the Town Accountant be accepted and placed on file.

LEGISLATIVE COMMITTEE REPORT

To the Inhabitants of the Town of Milton:

The Legislative Committee appointed for the year ending December 31, 1929 has had, as in the past few years, the services of Mr. L. B. Kent, who has examined all bills filed in the Legislature and reported to the Committee such bills as seemed to affect directly the interests of the Town of Milton. In addition, the Committee, through one or more of its members, has examined all bills filed and has met and discussed proposed legislation affecting the Town. Bills which seemed to require action were reported to the Selectmen with the recommendations of the Committee, so that the Selectmen might, in their discretion, instruct the legislative counsel to represent the Town. In the course of the year seventeen (17) bills were submitted to the Selectmen upon which, subsequently, the Town was represented by the legislative counsel.

Respectfully submitted,

(Signed) LINCOLN BRYANT
Chairman for the Committee.

January 2, 1930

Voted, That the above report of the Legislative Committee be accepted and placed on file.

COLLICOT SCHOOL BUILDING COMMITTEE REPORT

The Special Committee appointed to prepare plans, specifications and estimates of cost of an Elementary School Building on Edge Hill Road, the School now called the Collicot School and continued to build the School, has completed the building and equipment of the School and the grading of the grounds at a total cost of $285,928.12, leaving an unexpended balance to be returned to the Town of $4,081.87. The original estimate brought into the Town by the Committee was $283,319.00.

The building and its equipment are modern and adequate in every particular and may, in general, serve as a model for future buildings in the Town. The exterior as set off by the grading is unusually attractive in appearance due to the combined skill of the architect and the landscape architect, namely, Messrs. Shepard & Stearns and Messrs. Olmsted Brothers.

An adequate description of the School is contained in the report of the Superintendent of Schools to the School Committee and as it is published in the Annual Report for the current year need not be repeated here.

The ground area of the building is 17,145 square feet and the total cubical contents approximately 650,000 cubic feet. The cost of the building is 36½c. per cubic foot, including the architect's commission but excluding the equipment and the grading.

Respectfully submitted,

(Signed) CHARLES M. ROGERSON
Chairman for the Committee.

Voted, That the Report of the Collicot School Building Committee be accepted and placed on file and the committee discharged.

Roll Call

A Roll Call was taken and the following number of Town Meeting Members were found to be present from the different precincts:

Precinct 1	44
Precinct 2	71
Precinct 3	34
Precinct 4	62
Total	211

Those absent were:

Precinct 1	*Precinct 2*	*Precinct 3*	*Precinct 4*
Elsie DeNormandie	Clyde L. Whittier	Walter J. Dodd	Herbert J. Clapp
N. Penrose Hallowell	Walter B. Snow		Earle E. Willard
James W. Rollins	Harold Bisbee		Farquhar D. Carter
	Winthrop L. Carpenter		C. Crawford Hollidge
	Elmer E. Wadsworth		Emily F. Hurd
	William G. Rodd		John G. McHardy

12. Thacher Building		$2,500 00
13. Insurance		$15,314 76
14. Town Reports		$2,800 00
15. Licensing Commission for one and two-car private garages		$150 00
16. Planning Board		$500 00

* Recommendation of Mr. Walter I. Mather that the Selectmen consider favorably the employment at the voting places of men and women who are out of work, so far as it is possible to do so.

ARTICLE 4. To see what sum of money the Town will vote to appropriate for the Reserve Fund for extraordinary or unforeseen expenditures during the current year.

Voted, To appropriate $9,000 for the Reserve Fund for extraordinary or unforeseen expenditures during the current year.

ARTICLE 5. To see what sum of money the Town will vote to authorize the Assessors to use out of the Excess and Deficiency Account in fixing the tax rate for 1930.

Voted, That the Assessors be authorized to use $40,000 out of the Excess and Deficiency Account in fixing the tax rate for 1930.

ARTICLE 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year ending December 31, 1930.

Voted, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow to an amount not to exceed $650,000, in anticipation of the revenue of the financial year ending December 31, 1930, and to issue a note or notes therefor payable within one year from date thereof, and that any debt or debts incurred under this vote be paid from the revenue of the financial year ending December 31, 1930.

(Unanimous Vote.)

ARTICLE 7. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow on and after January 1, 1931, in anticipation of the Revenue of the financial year ending December 31, 1931.

Voted, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow on and after January 1, 1931, to an amount not to exceed $200,000, in anticipation of the revenue of the financial year ending December 31, 1931, and to issue a note or notes therefor, and that any debt or debts incurred under this vote be paid from the revenue of the financial year ending December 31, 1931.

(Unanimous Vote)

ARTICLE 8. To see if the Town will vote to authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer when appointed Collector may use.

Voted, To authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer when appointed Collector may use.

ARTICLE 9. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before committees of the General Court.

Voted, To authorize the Selectmen to employ counsel to represent the Town at hearings before committees of the General Court.

ARTICLE 10. To see if the Town will vote to authorize the Moderator to appoint a committee of five citizens to consider such proceedings of the Legislature and State Boards and Commissions as may affect the interests of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to Represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have power to fill vacancies in its own number, and to report to the Town at the Town Meeting next following the close of its term of office.

Voted, To authorize the Moderator to appoint a committee of five citizens to consider such proceedings of the Legislature and State Boards and Commissions as may affect the interests of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to Represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have power to fill vacancies in its own number, and to report to the Town at the Town Meeting next following the close of its term of office.

ARTICLE 14. To see what sum of money the Town will vote to appropriate for the Protection of Persons and Property the present year:

Voted, To appropriate the following sums:

1. Police Department	$84,000 00
2. Fire Department	$59,800 00
3. Hydrant Service	$20,230 00
4. Wire Department	$9,000 00
5. Tree Warden Department	
For Public Work	$9,000 00
For Private Work	$3,500 00
6. Moth Department	
For Public Work	$5,500 00
For Private Work	$4,000 00
7. Street Lighting	$26,602 85
8. Additional Lights	$1,000 00
9. Building Inspector	$3,100 00
10. Sealer of Weights and Measures	$500 00

ARTICLE 15. To see what sum of money the Town will appropriate for Traffic Signals to be used on public ways, and act on anything relating thereto for 1930, and to appropriate the sum of $338.67 for the unpaid bills of 1929.

Voted, To appropriate $2,000 for expenses the current year, and $338.67 for unpaid bills of 1929.

ARTICLE 16. To see if the Town will vote to supply the members of the Police Department with their uniforms, and appropriate the sum of $1,229 for the same.

Voted, That the Town do not so vote.

ARTICLE 17. To see if the Town will vote to appropriate the sum of $37,900, for improvements of the present police signal system and act on anything relating thereto.

Voted, To appropriate $19,000 for improvements of the present police signal system.

HEALTH AND SANITATION

ARTICLE 18. To see what sum of money the Town will vote to appropriate for Health and Sanitation the present year, and the sum of $141 for unpaid bills of 1929.

Voted, To appropriate the following sums:

1. Health — General	
For expenses the current year	$7,750 00
For unpaid bills of 1929	$141 00
2. Dental Dispensary for Schools	$750 00
3. Inspector of Animals	$300 00
4. Vital Statistics	$750 00
5. Sewer Maintenance	$4,000 00
6. Maintenance and Repairs of Norfolk County Hospital	$9,879 42

ARTICLE 19. To see what sum of money the Town will appropriate for the disposal of garbage, ashes and other refuse and offal, for the present year.

Voted, To appropriate $23,520 for the disposal of garbage, ashes and other refuse and offal, for the present year.

ARTICLE 20. To see what sum of money the Town will vote to appropriate for the Water Department the present year, to be expended by the Board of Water Commissioners, and act on anything relating thereto.

Voted, To appropriate the sum of $27,851.60 to be taken from the balance of water receipts accumulated as of December 31, 1929, and the further sum of $125,000, for the use of the Water Department the current year, to be expended by the Water Commissioners pursuant to the provisions of Acts of 1902, Chapter 307, and acts in amendment thereof and in addition thereto, said expenditures to include payment of the Metropolitan water assessment, the retirement of bonds due in 1930, the interest on bonds and notes outstanding in Town of Milton water loans, and other expenditures authorized under said act.

ARTICLE 21. To see what sum of money not exceeding $75,000 the Town will vote to raise and appropriate under the provisions of Section 8 of Chapter 44 of the General Laws for the extension of water mains of not less than six inches in diameter, and to act on anything relating thereto.

Voted, That the Treasurer be and he hereby is authorized in the name and behalf of the Town and under authority granted in, and in compliance with, the provisions of Section 8 of Chapter 44 of the General Laws and other acts applicable thereto to borrow a sum not exceeding $75,000 the same to be expended by the Board of Water Commissioners for the extension of water mains of not less than six inches in diameter and to issue bonds of the Town not exceeding said sum. Said bonds shall bear on their face the words "Town of Milton, Water Loan," and shall be payable as required by said Section 8 of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than fifteen years from their date, or at such earlier dates as the Treasurer and the Water Commissioners may determine. They shall be sold at not less than the par value thereof from time to time, by the Treasurer. Each bond shall be subject to registration as to principal, and may be exchanged in compliance with the statutory provisions for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticating certificate of The First National Bank of Boston thereon.

(Unanimous Vote)

ARTICLE 22. To see what sum of money the Town will vote to raise and appropriate for the construction of a building on property of the Town for shelter and care of mechanical equipment of the Water Department and act on anything relating thereto.

Voted, That no appropriation be made.

ARTICLE 23. To see what sum of money the Town will vote to expend for the construction of sewers for sanitary purposes, and for sewage disposal and to raise and appropriate money for the same.

Voted, That the Town appropriate the sum of $39,000 for the construction of sewers for sanitary purposes and for sewage disposal; and that to meet said appropriation there be raised in the tax levy of the current year the sum of $10,000 and that the Treasurer with the approval of the Selectmen be and hereby is authorized to borrow the sum of $29,000 and to issue bonds or notes of the Town therefor, said bonds or notes to bear on their face the words "Town of Milton Sewer Loan, 1930" and to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twelve years from the date of the first bond or note or such earlier dates as the Treasurer or Selectmen may determine. Each bond shall be in coupon form and shall be subject to registration as to principal and may be exchanged in compliance with the statutory provision for a registered certificate representing an equivalent obligation for principal and interest. The coupon bonds shall not be obligatory without the authenticated certificate of The First National Bank of Boston thereon.

(Unanimous Vote)

ARTICLE 24. To see if the Town will vote to appropriate the sum of $6,839.14 for the unpaid bills of 1929 in connection with the construction of sewers for sanitary and surface drainage purposes and for sewage disposal, in East Milton.

Voted, To appropriate $6,839.14 for the unpaid bills of 1929 in connection with the construction of sewers for sanitary and surface drainage purposes and for sewage disposal, in East Milton.

RESOLUTION

The following Resolution was offered by Mr. Felix Rackemann and accepted by the meeting:

RESOLVED, That it is the sense of this meeting that disregard of the Town By-Law Chapter 4, Section 10, by Departments and Officers, (as evidenced in eight Articles of the Warrant for this Meeting) must stop.

HIGHWAYS

ARTICLE 25. To see what sum of money the Town will vote to appropriate for the Street Department the present year.

Voted, To appropriate the following sums:

1. General Expense:	
For expenses the current year	$80,000 00
Unpaid bills of 1927	$118 50
2. Permanent Construction:	
For expenses the current year	$20,500 00
Unpaid bills of 1929	$93 50
3. Sidewalks	$6,000 00
4. Private Work — for work on public ways, for which work private individuals or corporations are required to reimburse the Town, or for which departments of the Town other than the Highway Department are responsible	$4,000 00

ARTICLE 26. To see if the Town will vote to appropriate the sum of $35,000 for the reconstruction of Randolph Avenue, from the Milton-Quincy line to Highland Street, in conjunction with the Commonwealth of Massachusetts and/or the County of Norfolk, and to see if the Town will authorize the Board of Selectmen in its name and behalf to enter into all necessary and proper contracts, in connection with the same, with said Commonwealth and/or said County, and with corporations and persons, and act on anything relating thereto.

Voted, To appropriate $35,000, for the reconstruction of Randolph Avenue, from the Milton-Quincy line to Highland Street, in conjunction with the Commonwealth of Massachusetts and/or the County of Norfolk, and to authorize the Board of Selectmen in the name and behalf of the Town to enter into all necessary and proper contracts, in connection with the same, with said Commonwealth and/or said County, and with corporations and persons, and act on anything relating thereto.

ARTICLE 27. To see if the Town will authorize the Selectmen to waive all rights which the Town may have under the provisions of Section 8 of Chapter 81 of the General Laws to enter into a contract for the construction of a section of state highway which the Commonwealth proposes to lay out or construct in the Town from the Quincy line along Randolph Avenue to a point at or near Highland Street, and to act on anything relating thereto.

Voted, To authorize the Selectmen to waive all rights which the Town may have under the provisions of Section 8 of Chapter 81 of the General Laws to enter into a contract for the construction of a section of state highway which the Commonwealth proposes to lay out or construct in the Town from the Quincy line along Randolph Avenue to a point at or near Highland Street, and to act on anything relating thereto.

ARTICLE 28. To see if the Town will vote to authorize the Selectmen in behalf of the Town to agree to indemnify and save harmless the Commonwealth against all claims and demands for damages which may be sustained by any persons whose property shall be taken for, or shall be injured by the laying out or construction of a state highway which the Commonwealth proposes to construct beginning at the Quincy line along Randolph Avenue to a point at or near Highland Street, and to act on anything relating thereto.

Voted, To authorize the Selectmen in behalf of the Town to agree to indemnify and save harmless the Commonwealth against all claims and demands for damages which may be sustained by any persons whose property shall be taken for, or shall be injured

by the laying out or construction of a state highway which the Commonwealth proposes to construct beginning at the Quincy line along Randolph Avenue to a point at or near Highland Street, and to act on anything relating thereto.

ARTICLE 29. To see if the Town will vote to revoke the reservation of a certain part of the special space for the use of street railways heretofore reserved by the Town under authority of the Acts of 1895, Chapter 121, said part being described as follows:

> All that part of space reserved as aforesaid in Randolph Avenue, commencing at the boundary line between the City of Quincy and the Town of Milton and running about 4,500 feet and terminating on the easterly side line of Randolph Avenue at land of the Commonwealth of Massachusetts,

and act on anything relating thereto.

Voted, To revoke the reservation of a certain part of the special space for the use of street railways, heretofore reserved by the Town under authority of the Acts of 1895, Chapter 121, said part being described as follows:

> All that part of space reserved as aforesaid in Randolph Avenue, commencing at the boundary line between the City of Quincy and the Town of Milton and running about 4,500 feet and terminating on the easterly side line of Randolph Avenue at land of the Commonwealth of Massachusetts,

and act on anything relating thereto.

ARTICLE 30. To see what sum of money the Town will appropriate for the drainage of public streets the ensuing year.

Voted, To appropriate $15,735.00 for the drainage of public streets the ensuing year.

ARTICLE 31. To see if the Town will vote to improve drainage conditions on Blue Hills Parkway from Brook Road to the Neponset River and appropriate money therefor and act on anything relating thereto.

Voted, To appropriate the sum of $10,225 to be expended by the Selectmen for the improvement of drainage conditions on Blue Hills Parkway from Brook Road to the Neponset River.

ARTICLE 32. To see if the Town will vote to appropriate the sum of $16,700 for a new shed and new equipment for the Highway Department as follows:

New Shed	$5,000 00
New 3½—5 ton truck	5,500 00
New one-ton truck	1,000 00
New roller	5,200 00

Voted, To appropriate $16,150 for a new shed and new equipment for the Highway Department.

ARTICLE 33. To see what sum of money the Town will vote for the care and maintenance of Granite Avenue Bridge over the Neponset River, under Chapter 58, General Acts of 1915.

Voted, To appropriate $5,770.00 for the care and maintenance of Granite Avenue Bridge over the Neponset River, under Chapter 58, General Acts of 1915.

ARTICLE 34. To see if the Town will vote to accept that part of Concord Avenue running from Blue Hill Avenue to the accepted part of Concord Avenue as a Town way as laid out by the Selectmen, and act on anything relating thereto.

Voted, To accept that part of Concord Avenue running from Blue Hill Avenue to the accepted part of Concord Avenue as a Town way as laid out by the Selectmen.

Voted, To CONSIDER ARTICLES 35 to 49, (both inclusive) TOGETHER.

ARTICLE 35. To see if the Town will vote to accept Churchill Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 36. To see if the Town will vote to accept a part of Lawrence Road, between Pleasant Street and Elton Road, as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 37. To see if the Town will vote to accept a part of Elton Road as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 38. To see if the Town will vote to accept Avalon Road as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 39. To see if the Town will vote to accept Wood Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 40. To see if the Town will vote to accept a part of Hazel Street, extending north from Pleasant Street, as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 41. To see if the Town will vote to accept Cedar Terrace Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 42. To see if the Town will vote to accept a part of Governors Road, between Edge Hill Road and Warner Road, as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 43. To see if the Town will vote to accept a part of Governors Road, between Brook Road and Edge Hill Road, as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 44. To see if the Town will vote to accept Howard Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 45. To see if the Town will vote to accept Verndale Road as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 46. To see if the Town will vote to accept Virginia Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 47. To see if the Town will vote to accept Westbourne Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 48. To see if the Town will vote to accept Garden Street as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

ARTICLE 49. To see if the Town will vote to accept Meredith Circle as a Town way, as laid out by the Selectmen under laws authorizing assessment of betterments, and to appropriate money for the same and act on anything relating thereto.

Voted under Articles 35 to 49 to accept the following streets as Town ways, as laid out by the Selectmen under the law authorizing the assessment of betterments, and that appropriations for said streets, respectively, be made as follows:

	Appropriation
Churchill Street	$6,250 00
Lawrence Road, between Pleasant Street and Elton Road	2,610 00
Elton Road	3,600 00
Avalon Road	7,800 00
Wood Street	10,000 00
That part of Hazel Street extending north from Pleasant Street	5,659 55
Cedar Terrace Street	9,509 75
Part of Governors Road, between Edge Hill Road and Warner Road	9,689 37
Part of Governors Road, between Brook Road and Edge Hill Road	7,821 74

Voted, That the town do not so vote.

Article 79. To see if the Town will vote to authorize the Moderator to appoint a committee of citizens to consider the matter of obtaining for Milton a Town plan legally protected to the extent permitted by the Massachusetts Constitution, and to appropriate money for the use of such committee and act on anything relating thereto.

Voted, That the subject matter of this article be referred to the Planning Board without appropriation.

Article 80. To see if the Town will vote to authorize the Moderator to appoint a committee of five citizens to consider the advisability of revising the building laws of the Town and to make a definite report on the suggestions as to proposed revisions therein contained in the report of the special committee appointed under Article 64 of 1929 Warrant and to appropriate money for the use of such committee and act on anything relating thereto.

Voted, To authorize the Moderator to appoint a committee of five citizens to consider the advisability of revising the building laws of the Town and to make a definite report on the suggestions as to proposed revisions therein contained in the report of the special committee appointed under Article 64 of 1929 Warrant and appropriate $500 for the use of said committee.

COMMITTEE

JOSEPH D. LELAND — EDWARD G. LOWRY, JR.
ALFRED BECK, JR. — JOHN C. PITCHER
LORENZO E. YOUNG

ARTICLE 81. To see if the Town will vote to amend Chapter 12 of Section 1 of the By-Laws of the Town of Milton by striking out in Section 1 in the seventh line the words "B and C" and inserting in place thereof the words "B, C, and D" and by adding in said Section 1 after the paragraph entitled "District C" the following:

"District D—Beginning at a point at the intersection of Granite Avenue and the Neponset River at the junction of property of Barney & Carey, and running Southerly along Granite Avenue and extended Southerly on the Easterly line of Granite Avenue to the Northerly line of the New York, New Haven & Hartford Railroad and extended in a general Easterly direction along the Northerly line of the New York, New Haven & Hartford Railroad to the boundary line of the City of Quincy; thence turning and running Northerly along the boundary line of the City of Quincy and Southerly side to the Neponset River; and thence running in a general Westerly direction along the Neponset River to the point of beginning."

Voted, That the subject matter of this article be referred to a committee of citizens to be appointed by the Moderator for consideration and report to the Town prior to January 1st, 1931.

COMMITTEE

FELIX RACKEMANN — JAMES S. GALLAGHER
HOWARD S. PATTERSON

ARTICLE 82. To see what sum of money the Town will appropriate for printing its early records.

Voted, To appropriate $4,000 to be expended under the direction of the Selectmen for printing the early records of the Town in so far as this appropriation will permit, and further that the Selectmen be authorized to sell on behalf of the Town copies of these records when so printed.

ARTICLE 83. To see what sum of money the Town will appropriate for erecting a suitable tablet on Adams Street, near the Town Landing to commemorate the Enacting of the Suffolk Resolves on September 9, 1774.

Voted, To appropriate $1,000 for erecting a suitable tablet on Adams Street, near the Town Landing, to commemorate the Enacting of the Suffolk Resolves on September 9, 1774, to be expended under the direction of the Selectmen.

ARTICLE 84. To see if the Town will vote to authorize the Moderator to appoint a Committee to consider aviation matters from the point of view of the Town and to report to the Town in relation thereto.

Voted, That the Town do not so vote.

ARTICLE 85. To see what sum of money the Town will appropriate for the necessary expenses of officers and employees of the Police Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in such Department, such appropriation to be limited to such expenses incurred as aforesaid.

Voted, To appropriate $50.00 for the necessary expenses of officers and employees of the Police Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said Department, such appropriation to be limited to such expenses incurred as aforesaid.

ARTICLE 86. To see if the Town will vote to ratify and approve the expenditure by the Board of Selectmen out of its general appropriation made at the Annual Town Meeting held in March, 1929, of the sum of $50.00, for the necessary expenses of the Chief of Police incurred outside the Commonwealth in securing information upon matters in

which the Town is interested or which may tend to improve the service in such Department.

Voted, To ratify, and approve the expenditure by the Board of Selectmen out of its general appropriation made at the Annual Town Meeting held in March, 1929, of the sum of $50.00, for the necessary expenses of the Chief of Police incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said Department.

ARTICLE 87. To see what sum of money the Town will appropriate for the necessary expense of officers and employees of the Fire Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in such Department, such appropriation to be limited to such expenses incurred as aforesaid..

Voted, To appropriate $50.00 for the necessary expense of officers and employees of the Fire Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said Department, such appropriation to be limited to such expenses incurred as aforesaid.

ARTICLE 88. To see if the Town will vote to ratify and approve the expenditure by the Board of Selectmen out of the general Fire Department appropriation made at the Annual Town Meeting held in March, 1929, of the sum of $40.00, for the necessary expenses of the Chief of the Fire Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in such Department.

Voted, To ratify and approve the expenditure by the Board of Selectmen out of the general Fire Department appropriation made at the Annual Town Meeting held in March, 1929, of the sum of $40.00, for the necessary expenses of the Chief of the Fire Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said Department.

ARTICLE 89. To see what sum of money the Town will appropriate for the necessary expenses of officers and employees of the Cemetery Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in such Department, such appropriation to be limited to such expenses incurred as aforesaid.

Voted, To appropriate $50.00 for the necessary expenses of officers and employees of the Cemetery Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said Department, such appropriation to be limited to such expenses incurred as aforesaid.

ARTICLE 90. To see what sum of money the Town will appropriate for the necessary expenses of officers and employees of the Water Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in such Department, such appropriation to be limited to such expenses incurred as aforesaid.

Voted, To appropriate $50.00 for the present year and $33.09 for unpaid bills of 1929, to be taken from the receipts of the Water Department for the current year, for the necessary expenses of officers and employees of the Water Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said Department, such appropriation to be limited to such expenses incurred as aforesaid.

ARTICLE 91. To see if the Town will vote to ratify and approve the expenditure by the Board of Water Commissioners out of its general appropriation made at the Annual Town Meeting held in March, 1929, of the sum of $33.09, for the necessary expenses of the Superintendent of Water Department incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in such Department.

See Vote under Article 90.

ARTICLE 92. To see what sum of money the Town will appropriate for the necessary expense of employees of the Trustees of the Public Library incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which

may tend to improve the service in such department, such appropriation to be limited to such expenses incurred as aforesaid.

Voted, To appropriate $50.00 for the necessary expense of employees of the Trustees of the Public Library incurred outside the Commonwealth in securing information upon matters in which the Town is interested or which may tend to improve the service in said department, such appropriation to be limited to such expenses incurred as aforesaid.

ARTICLE 93. To see if the Town will vote to amend Chapter 3 of the Revised By-Laws by inserting at the end of Section 3 of said Chapter the following:

"The Warrant Committee shall give public hearings on all matters considered by it, giving notice of such hearings, whether original or continued, by publication in each of the local newspapers at least three days before the date thereof."

Voted, That the Town do not so vote.

And you are directed to warn said inhabitants qualified as aforesaid to meet at the times and places and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days at least before said first of March, and leaving printed copies thereof at the dwelling houses of said Town at least four days before said date.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk, on or before said first of March, next.

Given under our hands at Milton, the seventh day of February, nineteen hundred and thirty.

KENNETH D. JOHNSON,
JOSIAH BABCOCK,
NORTON WIGGLESWORTH,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

Milton, Mass., February 25, 1930

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

March 22, 1930 at 4.15 P.M.

Voted, That the Meeting be dissolved.

The foregoing meeting was opened March 1, 1930 at 5.45 A.M. by the Wardens in the several precincts.

Attest:
G. FRANK KEMP
Town Clerk

WARRANT COMMITTEE

EDWARD P. LEDWITH
FRANCIS S. MOULTON
ROY E. MOULTON
FRANK E. WHEATLEY

G. FRANK KEMP,
Town Clerk

1930

WARRANT

SEPTEMBER PRIMARIES

COMMONWEALTH OF MASSACHUSETTS NORFOLK SS.

To any of the Constables of the Town of Milton in said County

Greetings:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton qualified to vote in elections and Town affairs, to meet at the several designated polling places in their respective precincts in said Milton, to wit:

In Precinct 1. Polling Place, Town Hall, Canton Avenue,
In Precinct 2. Polling Place, Tucker School Hall, Blue Hills Parkway,
In Precinct 3. Polling Place, Milton Police Station, Central Avenue,
In Precinct 4. Polling Place, Belcher School, Church Street, on Tuesday, the sixteenth day of September, 1930, at 4 o'clock in the afternoon for the following purposes:

To bring in their votes to the primary officers for the nomination of candidates of political parties for the following offices: Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, United States Senator in Congress; all of this Commonwealth. Representative in Congress for the Fourteenth Congressional District, Councillor for the Second Councillor District, Senator for the Norfolk Senatorial District, Representative in General Court for the Seventh Norfolk Representative District, District Attorney for Norfolk and Plymouth District, Register of Probate and Insolvent, One County Commissioner for the County of Norfolk, two Associate County Commissioners for the County of Norfolk, one County Treasurer; and for the election of the following officers: District Member of the State Committee for each political party for the Norfolk Senatorial District, Members of the Republican Town Committee, Members of the Democratic Town Committee, delegates to the State Convention of the Republican Party and delegates to the State Convention of the Democratic Party.

All the above candidates and officers are to be voted for upon one ballot.

The polls will be open from 4 o'clock P.M. to 9 o'clock P.M. and you are directed to warn said inhabitants qualified as aforesaid to meet at the times and places and for the purposes herein mentioned by posting attested copies of the Warrant in each of the post offices of said Town fourteen days at least before said meeting and leaving printed copies thereof at the dwelling houses of said Town at least four days before said meeting.

Hereof fail not and make due return of this Warrant, or a certified copy thereof with your doings thereon to each of the several precinct wardens at the time and places of meeting aforesaid in said precincts, and to the Town Clerk as soon as may be and before said meeting.

Given under our hands at Milton this nineteenth day of August nineteen hundred and thirty.

KENNETH D. JOHNSON
JOSIAH BABCOCK
NORTON WIGGLESWORTH
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS NORFOLK, SS.

Milton, August 27, 1930

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON
Constable of Milton.

WARRANT

NOVEMBER MEETING

COMMONWEALTH OF MASSACHUSETTS NORFOLK, SS.

To any Constable of the Town of Milton, in said County,

GREETINGS:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton qualified to vote in elections and Town affairs, to meet at the several designated polling places in their respective precincts in said Milton, to wit:

In Precinct I Polling place, Town Hall, Canton Avenue
In Precinct II Polling place, Tucker School Hall, Blue Hills Parkway
In Precinct III Polling place, Milton Police Station, Central Avenue
In Precinct IV Polling place, Belcher School, Church Street,

on Tuesday, the fourth day of November, 1930, at fifteen minutes before six o'clock A.M. for the following purposes:

To bring in their ballots to the election officers for the election of the following offices: Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, United States Senator in Congress, all of this Commonwealth. Representative in Congress for the Fourteenth Congressional District, Councillor for the Second Councillor District, Senator for the Norfolk Senatorial District. Representative in General Court for the Seventh Norfolk Representative District. District Attorney for Norfolk and Plymouth District, Register of Probate and Insolvency, One County Commissioner for the County of Norfolk. Two Associate County Commissioners for the County of Norfolk, One County Treasurer for the County of Norfolk and to vote on the following questions:

"Shall an amendment to the Constitution relative to the apportionment of the senatorial representative and council or districts be approved?"

"Acceptance of the following "Laws proposed by Initiative Petition."

Question No. 2 "An Act to repeal section two A of Chapter One Hundred and Thirty-eight of the General Laws, inserted by Chapter Three Hundred and Seventy of the acts of nineteen hundred and twenty-three."

Question No. 3 "An Act to amend Chapter One Hundred and thirty-one of the General Laws."

Acceptance of Chapter 383, Acts of 1929, entitled "An Act relative to transportation facilities in the Metropolitan District."

All the above to be voted for on one ballot.

The Polls will be open at fifteen minutes before six o'clock A.M. and may be closed at 4 o'clock P.M. and you are directed to warn said inhabitants qualified as aforesaid to meet at the time and places and for the purposes herein mentioned by posting attested copies of this Warrant in each of the post offices of said Town fourteen days at least before said meeting and leaving printed copies thereof at the dwelling houses of said town at least four days before said meeting.

Hereof fail not and make due return of this Warrant, or a certified copy thereof, with your doings thereon to each of the several precinct wardens at the time and places of meeting aforesaid in said precincts, and to the Town Clerk as soon as may be and before said meeting.

Given under our hands at Milton this seventeenth day of October, nineteen hundred and thirty.

KENNETH D. JOHNSON
JOSIAH BABCOCK
NORTON WIGGLESWORTH
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS NORFOLK, SS.

Milton, Mass., October 31, 1930

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton as within directed to meet at the time and places and for the purposes therein mentioned by posting attested copies of the same in the post offices of the town and leaving copies at the dwellings of the inhabitants.

(Signed) PELEG BRONSDON
Constable of Milton.

DEPARTMENT REPORTS

REPORT OF SELECTMEN

Milton, Mass., Dec. 31,1930.

To the Citizens of Milton:

In accordance with the usual custom, your Board of Selectmen respectfully submits to you the following report for the year 1930:

The results of the annual election in March made no change in the personnel of the Board, and in its organization for the year the Board remained the same with Kenneth D. Johnson as Chairman and Norton Wigglesworth as Secretary.

Appointments

The customary appointments were made during the year and with the exception of three of them the action of the Board was unanimous. By reason of a vacancy on the Board of Library Trustees the Selectmen, in a joint election with the surviving members of that Board, unanimously elected Roger Wolcott to fill that vacancy, and by reason of a vacancy on the Planning Board the Selectmen, in a joint election with the surviving members of that Board, unanimously elected Edward G. Lowry, Jr. to fill that vacancy. Further details about the appointments made by the Board of Selectmen will be found elsewhere in this Annual Report of the Town.

Licenses

Three separate applications for permission to construct and maintain billboards in various parts of the Town were filed during the year and in each case the Board voted unanimously to deny the application. This action was taken primarily on account of the provisions of Chapter 11 of the Revised By-Laws of the Town which the Board believes represent very definitely the opinion of the citizens of Milton. Seven applications for variations of the Zoning By-Law were heard during the year involving requests for additions to existing business structures located in the residential district and also the question of allowing a two-family house to be constructed on a lot of land that was located in the district where two-family houses are prohibited by the By-Laws of the Town. In all but one case the variations requested were granted. The attempt made to change the use of the existing carbarn, operated by the Eastern Massachusetts Street Railway Company, from a carbarn and transfer station to a filling station, was unanimously denied on the ground that to do so would derogate from the intent and purpose of the Zoning By-Law. There were only two applications filed with the Board involving the construction of three-car private garages and in both cases the Board voted to grant the applications. Permission for the operation of only one additional filling station was granted during the year. That is indeed a healthy sign when we realize that in other communities the important intersections of main highways are generally monopolized by that particular business. The usual minor permits for various purposes have been granted and are not of any further importance to refer to in detail.

In view of the report made by the special committee appointed by the Moderator under the provisions of Article 81 of the 1930 annual Town Meeting Warrant, the Selectmen believe that some action should be taken at the next annual Town Meeting to amend the present Zoning-Law so as to permit a restricted commercial and industrial development of seventy or more acres of land located on Granite Avenue between the railroad crossing and the Neponset River, with the further recommendation that whatever change is made will not permit the construction of dwelling houses in that area. We believe that if some reasonable change is provided for in that particular area that both the Town and the private property owners interested will receive some real benefit.

Law

Except for the settlement of a variety of small claims brought against the Town and the usual advice rendered by the Town Counsel to the Board, there has been nothing of any great legal importance that occurred during the past year. Town Counsel, Lincoln Bryant, has continued to prove himself a very capable and helpful Town official and the best evidence of the value of his services to the Town is the fact that

no one making a claim has appealed to the courts for relief. It should be the purpose of a public board to dispose of any differences between private persons and the Town in an amicable fashion, thereby making it unnecessary for either the person aggrieved or the Town to resort to court action.

Highways

Snow.—Not even the usual amount of snow and ice difficulties were faced by the Highway Department during the past year. With the equipment that the department now has, it is no longer a serious problem to handle a severe snow-storm. However, due to the vagaries of our New England climate, it is impossible to depend in one year on the good fortune of a preceding year when it comes to the amount necessary for the removal of snow and ice, because, over a period of five or ten years, experience has taught us that a certain definite amount is usually necessary for this work.

Maintenance.—Superintendent Maynard has completed the first full year of his supervision of the department and has been able to carry out for one entire year the program planned by him. Due to the application of a heavier grade of oil on the public highways during the past two seasons, it has not been necessary to do as much oiling this year as was required in other years. The benefits of the heavier oil are now evident and particularly show during an open winter when the highways are free from snow and ice. The amount of money ordinarily spent by the department in patching defects in the highways has been reduced during the past year and that alone furnishes one of the best evidences of the value of treating the highways with the heavier grade of oil. As part of the resurfacing program during the year, we call your attention to the work done on High Street, Hinckley Road, Brook Hill Road, Oak Street, Edge Hill Road at Governors Road, Thacher Street near Central Avenue, Grafton Avenue in the vicinity of Alden Road, Washington Street from Johnson Street to the Milton-Quincy line, Brook Road at Randolph Avenue, Centre Street between Reedsdale Road and Sias Lane, Brook Road between Blue Hill Avenue and Blue Hills Parkway and Town Farm Lane. By improving these particular surfaces, we believe that our Highway Department has provided the Town with a real material benefit.

Permanent Construction.—With part of the appropriation of $20,500.00 for this work, the Highway Department reconstructed Canton Avenue from Atherton Street to Robbins Street, as a result of which the demand for the improvement of that particular section of Canton Avenue was met in a most satisfactory fashion. It is the recommendation of the Board that in appropriating money for permanent construction in 1931 special attention be paid to the request for $7,500.00 so that the remaining section from Robbins Street to the Parkway can be reconstructed. With the exception of a small amount expended on Adams Street, in the vicinity of Squantum Street, where a new type of resurfacing material was experimented with, the balance of this appropriation was spent in resurfacing Eliot Street, from the end of the rapid transit improvement to Central Avenue, and on Central Avenue up to and including the frontage bordering Police Headquarters. This job was done under a contract with Simpson Brothers and the type of material that was used by that company on Adams Street in East Milton and on Thacher Street, was again used. It is our recommendation that a similar type of surface be put on Eliot Street for its entire length to Blue Hills Parkway and we are recommending for 1931 an appropriation that will cover one-half of that street.

In considering recommendations for permanent construction during 1931, it is necessary to have in mind what is to be done with Edge Hill Road, Pleasant Street and Central Avenue where the car tracks have been removed since motor buses have been installed to take the place of the street cars. We believe that a start should be made on this work during the coming year and have recommended an appropriation of over $17,000.00 for work on Edge Hill Road from Grafton Avenue to Pleasant Street. We have received a petition signed by over one hundred citizens requesting that this particular section of highway be retained as a double highway with a grass plot in the centre. Except for the section from Grafton Avenue to Governors Road, we do not believe it advisable to maintain Edge Hill Road as a double highway, although we appreciate that from the point of view of highway beauty much can be said for the request made by these citizens. The original cost of making this road a double highway would be about $2,000.00 more than the cost of construction recommended by the Board and the subsequent cost of maintaining such a double roadway would be much in excess of the cost of maintaining a single wide stretch. We also believe, in considering the program for 1931, that immediate attention must be given to that

section of Centre Street from Brook Road to Randolph Avenue. It is in bad condition and each year requires considerable attention. The largest permanent construction project recommended for 1931 is the reconstruction and widening of Pleasant Street from Adams Street to Brae Burn Road. This improvement must necessarily be made during the coming year because of the development of what is commonly known as the Davis Estate. The present owners of that estate have agreed to convey to the Town, without cost, a sufficient area of land to provide for a reasonable widening of that thoroughfare providing the Town makes an immediate improvement. Mr. Frederick O. Houghton has previously offered to the Town land owned by him on the westerly side of Pleasant Street between Adams Street and Brook Road for this same purpose and we sincerely believe that unless we take advantage of these two generous offers during the coming year we will be acting very unwisely.

In addition to these various jobs, we further recommend as part of the permanent construction program for 1931 the building of Belcher Circle from Church Place to the private property line in Babcock Park. That section of Belcher Circle has been laid out for years as a public way and several residences have been constructed abutting on it. The Town has failed to go along with this development and as a result the private property owners are seriously damaged by the failure on the part of the Town to make this necessary improvement.

It is true that the amount of money recommended by the Selectmen for this so-called permanent construction during 1931 exceeds any previous amount appropriated for such a purpose. However, we believe that each one of these recommendations should be acted upon favorably at this time if the Town is interested in having this necessary work done when it will cost the least to do it. With the possible exception of the Belcher Circle job, we can assure the Town that all the other projects are on public ways where public necessity and convenience require modern and comfortable street surfaces, and we sincerely hope that the Town will join with us in accepting these very definite recommendations.

Randolph Avenue and Other State Projects.—During the past year the Town has witnessed the long wished-for improvement of Randolph Avenue from Highland Street to the Milton-Quincy line, a distance of approximately one and one-half miles, by the construction of a state highway at a cost to the Town of $35,000.00. This is the most important piece of construction engaged in by the State in Milton since the construction of Blue Hill Avenue some eight years ago, and the contribution made by the Town represents just a little more than one-fourth of the entire expense involved. It is now evident that the job should be completed so as to include that part of Randolph Avenue from Highland Street to Reedsdale Road and we are therefore recommending that the Town appropriate an additional $15,000.00 in 1931 for that purpose, having been informed by the County Commissioners that they will contribute $15,000.00 and have received assurances from the Department of Public Works that it will contribute another $15,000.00. The benefits derived by the construction of such a state highway as Randolph Avenue cannot be measured solely on the basis of the great improvement at the present time but must further be measured by the fact that the future maintenance of this thoroughfare is taken over by the State, thus relieving the Town directly of any further cost.

By reason of an Act of the Legislature passed this year, Brook Road, from Blue Hills Parkway to Reedsdale Road, and Reedsdale Road, from Brook Road to Pleasant Street, have been taken over by the State as part of a new parkway system that is to connect Blue Hills Parkway in Milton with Furnace Brook Parkway in Quincy. It is expected that the State will construct this new parkway during the coming year without any direct contribution by the Town and thereafter the State will maintain that parkway entirely at its own expense. In addition to this, we have requested the Metropolitan District Commission to take over as part of its system that section of Hillside Street from the Milton-Canton line to the property of the Metropolitan District Commission. By adding together all these highways, that is, Randolph Avenue, Brook Road, Reedsdale Road and Hillside Street, we find that within a year the State has taken over for future maintenance public roads in Milton amounting to 3.74 miles, thus relieving the Town of a considerable burden. We have considered this to be real progress and feel that it is an appropriate time for us to express our appreciation to the State Departments involved and to inform our citizens of the genuine benefits derived.

Other Road Work.—We believe that this report, although necessarily confined to the actual improvements within the Town limits, should not be presented without some mention of the improvement made by the City of Boston on that part of Granite

Avenue located in Boston from the Neponset River to Gallivan Boulevard. The reconstruction of that roadway has been a real benefit to the citizens of Milton and we are sure that the entire Town joins with us in expressing very sincere words of appreciation to the City of Boston for its cooperation in giving us now an improved highway.

Sidewalks

The major sidewalk job performed in 1930 was the 4 ft. granolithic sidewalk laid on the westerly side of Thacher Street from the Parkway to Pine Tree Brook. The recommendation for this improvement was contained in our report for 1929 and we believe that it is one of the most important sidewalk improvements made by the Town in its history. Other short stretches of granolithic walk have been laid on Warren Avenue, Grafton Avenue, Washington Street, and on Andrews Road approximately 700 square feet of the old permanent sidewalk was relaid. An area of granolithic walk was also relaid on Central Avenue between Brook Hill Road and the Police Station. In addition to this, as result of cooperation received from the Metropolitan District Commission, a granolithic walk was laid on Blue Hills Parkway in front of the Tucker School, thus providing an improvement that has been requested several times in the past. Gravel sidewalks have been constructed during the year on Hillside Street and Canton Avenue and improvements have been made to the gravel sidewalk on Centre Street between Randolph Avenue and the Hathaway House. Immediately after the gravel sidewalks were constructed on Hillside Street and Canton Avenue, the Board received complaints about the use of these sidewalks by equestrians and we immediately gave public notice to these complaints. In spite of the lack of cooperation displayed by a very few of our local citizens who engage in horseback riding, we feel that the majority of our citizens join with us in demanding that these gravel walks be used solely by pedestrians. We trust that it will not be necessary for the Town to take any further action against the persons who have previously given rise to these complaints since it is perfectly evident that these same sidewalks cannot be used both by pedestrians and equestrians if they are to be of any real value to the pedestrians for whom they are primarily constructed.

In 1931 we are again asking for a $6,000.00 appropriation for sidewalk purposes and already have on file requests for granolithic sidewalks that anticipate an expense far in excess of that amount.

Drainage

The drainage work completed in 1930 may be divided into four different groups.

1. The contribution made by the Town towards the cost of the work done on Blue Hills Parkway under the supervision of the Metropolitan District Commission. As result of this expenditure of over $10,000.00, which represents one-half the cost of this work, we have made a very great improvement in the storm water drainage situation that for a long time has been the serious problem in that neighborhood.

2. In the acceptance of fifteen private ways as Town ways under the Betterment Act, it was necessary to provide for additional drainage particularly in reference to Churchill Street where an underground system was constructed from that street to the Neponset River, under private property, across Blue Hill Avenue, through Oak Street, and across Brook Road and Brush Hill Road. This particular piece of drainage construction will not only take care of Churchill Street but will be of great benefit to that entire area and to any future betterment construction in that vicinity.

3. The regular drainage work was carried on in the Warren Avenue, Houston Avenue, and Dyer Avenue section and resulted in providing all of these important thoroughfares with a complete underground drainage system, thus meeting a demand that has been most serious ever since this area was developed as a closely congested residential section.

4. An additional transfer of $2,000.00 from the Reserve Fund to the Drainage account by the Warrant Committee furnished the department with an amount that made it possible to complete the drainage work in the Mattapan section so as to include Kahler Avenue, although only approximately $1,400.00 of the additional amount was spent in 1930 because of the lack of time necessary for the completion of this work. We can now report to the Town that the major part of the storm water drainage work in the Mattapan area, north of Pine Tree Brook and west of Thacher Street, is practically completed. When the streets on which this work has been done have been resurfaced, we will no longer hear the just complaints about "the chain of lakes" that have obtained in this area for many years. We wish to make it perfectly clear that the immediate benefits of this work will not be visible until after these streets have been properly resurfaced.

Being more impressed than ever that the drainage of our public ways is a matter of most vital importance, we have prepared for 1931 a drainage program that will take care of a section of Canton Avenue in the vicinity of Turner's Pond and the upper and lower ends of Adams Street. Because this type of work can be done during the winter season and because of the problem of unemployment, to which we refer more in detail later in this report, we have presented for consideration by the Warrant Committee a further recommendation for additional drainage work in the vicinity of Unquity Brook. This work is something that the Town must attend to within a year or two and because it is work that will provide employment for a number of our citizens, we are definitely planning on it as part of the 1931 program. The wisdom of this action has been recognized by the Warrant Committee and will no doubt be more fully explained in its recommendation for a larger amount than is ordinarily appropriated for the Reserve Fund.

Relocations and Widenings

There was only one project of this type before us during the year and that was the relocation and widening of Adams Street between Hollis Street and Edge Hill Road and of Edge Hill Road between Adams Street and Grafton Avenue. This work was done by the local department and has resulted in opening up for public use an area that will do a great deal towards the relief of traffic congestion. It will be recalled that at the annual meeting in March 1930 some effort was made to secure an appropriation for damages to be paid to the First Baptist Church of an amount in excess of that recommended by the Selectmen. At that time we opposed that request on the ground that we did not believe that anyone was justified in placing the alleged damage to the church property at an amount greater than $1.00 per square foot recommended by us for the land taken in making this widening. However, we did agree to leave the question open until after the job had been completed when we felt it would be easier to determine more exactly what damage had been done. Now that this improvement has been completed, we have received a further request from a committee representing the church for an appropriation by the Town in addition to the amount provided for land damages. Because of the peculiar nature of this request, we have felt it wise to refer it to a Board of Arbitration consisting of three members, one to be appointed by the church, one by the Selectmen and a third member by these two appointees. The personnel of this Board has been decided upon and both the Church and the Selectmen have agreed to recommend that the Town adopt the recommendation of this Board of Arbitration in settlement of the claim made by the church. We feel that in this way everything has reasonably been done that should be done to protect the interests of the church and the interests of the Town and we certainly trust that at the next annual Town Meeting this matter can be finally settled in an amicable and satisfactory manner.

The recommendations for appropriations for 1931 for this type of work amount to a little over $1,000.00 and involve anticipated improvements at the intersection of Highland Street and Canton Avenue where the land necessary for the improvement has been generously offered to the Town by Geoffrey Whitney and at the intersection of Adams Street and Washington Street where a petition signed by forty-six citizens has been presented requesting radius curves that will remove the present alleged traffic hazard at that intersection. We recommend that both of these improvements be provided for during the coming year.

Bridges

The Granite Avenue Bridge continues to be an item of expense from the point of view of repairs. During the past year Milton's share of the cost of renewing the piers and approaches of this bridge was $3,186.83 and during 1931 the engineers who are familiar with the defects of this bridge recommend additional work which will cost us another $5,000.00. That part of the Adams Street Bridge over the Neponset River, which is maintained entirely by the Town, demands immediate attention and we are therefore recommending an appropriation of $4,500.00 so that the present danger on that bridge may be removed.

Betterment Construction

During the past year the Town engaged in the most extensive program in its history in connection with the construction of new streets under the Betterment Act. Over $95,000.00 was appropriated at the Town Meeting for the construction of fifteen new streets, six of which were built by private contract and nine by the local Highway Department. The actual cost of construction was approximately $87,000.00 and as

a result the Town now has about two miles more of public highway than it had a year ago. Several of these new streets involved the largest expenditures of any individual street that may be anticipated for some time to come and we feel very definitely that in carrying out this program the Town has provided improvements that will inure to the permanent benefit of a great number of our citizens.

There have been filed with the Board during the year sixteen petitions for betterment construction in 1931 and although it is not anticipated that all of these will be acted upon favorably by the Board, we feel very certain that a sufficient number of them should be constructed in 1931 so that this type of benefit will be continued for the time being at least as part of the regular program of the Town. We may say in passing that by reason of the liberal attitude displayed at the last annual Town Meeting in reference to petitions of this type, the Selectmen have received very few requests for work with public funds on private ways. Our citizens are getting to realize that the proper way to improve the private ways on which they live is to go before the Town for a permanent improvement, for which, in accordance with the present policy, they pay two-thirds of the cost.

Street Lighting

Most of the money appropriated for additional street lights for the past year has been spent in installing the arc light type on Canton Avenue between Reedsdale Road and Highland Street and on Adams Street in Milton Village as well as one additional arc light at the corner of Granite Avenue and Hope Avenue, which is an important bus stop. The work in Milton Village was done in cooperation with the Edison Company, which company arranged to put all its wires underground in that vicinity. This was provided for by the Selectmen at the request of the officials of the Blue Hill Bank and Trust Company who were anxious to have this improvement made in view of the construction of the beautiful new bank building. For many years there have been complaints about the poor street lighting facilities in the vicinity of the Town Hall. We now believe that the change made there will satisfy all of our citizens.

Traffic Regulation

The past year has given the Town an opportunity to experience the value of the signal equipment that was installed in 1929 and to which no substantial addition has been made during the past year. From the statistics prepared by the Police Department, we learn that although the number of persons killed and injured has increased during 1930 as compared with 1929 the actual number of accidents has decreased by approximately 14%. This decrease in number of accidents we believe can be attributed to the excellent signal system which the Town maintains and we believe it calls for special attention, particularly when we realize that our highways have carried more traffic this year than ever before. We have also put into effect the "through way" system on Blue Hill Avenue and Granite Avenue and are of the opinion that this system is a wise one. Additional silent policemen have been installed at the intersection of Adams and Eliot Streets and at Pleasant Street and Edge Hill Road.

Board of Survey

Due to the general decline in residential construction, there have been only five petitions presented to this Board for approval of street layouts during the past year. The one that has required our most serious consideration was that presented by the present owners of the Davis Estate, which called for the layout of five new streets on which it is anticipated that over one hundred new houses are to be constructed. In connection with this layout we have discussed with the developers the widening and relocation of Pleasant Street and recommend that the Town adopt the proposal already agreed to by the developers which we have previously referred to in this report.

It will be recalled that as a result of the study of the special committee, headed by James S. Russell, certain legislation was approved at the last Town Meeting. Under the provisions of Chapter 273 of the Acts of 1930 an important recommendation of that committee was actually put in the form of legislation so that now, in addition to controlling the location, direction, width and grades of these new streets, our local Board of Survey may also control "the materials, method of construction and plan of drainage" on these new streets. This is indeed a very progressive step in the right direction and will assist the Town materially in preventing the development by private parties of new streets that will later prove to be expensive projects for the Town.

Public Transportation

For a little more than thirty years Milton has observed the street railways come and go. During the past year the Eastern Massachusetts Street Railway Company abandoned all of its street railroad locations in the Town with the exception of the short stretch on Granite Avenue from the Quincy line to Adams Street, which section will be abandoned in a very short time. Motor buses have been substituted in place of the street cars and we believe that the Town will find that the abandonment of the street railways will be of great advantage. Near the close of 1929 the Boston Elevated, by reason of the rapid transit extension from Ashmont to Mattapan, entered Milton for the first time in the history of the Town. We expressed in our report for that year the hope that certain improvements would be made in connection with that extension and we are now pleased to report that as a result of agitation made by the Selectmen, and with the cooperation of the Elevated, shelters have been provided at the various stations along the line in Milton and an additional stop provided at Capen Street, all of which improvements have resulted in greater convenience for our citizens.

Town Engineer

The fact that our Town Engineer is also Superintendent of the Highway Department has in no way decreased the efficiency of this Department but rather, in our opinion, has resulted in improving the efficiency of both Departments and we sincerely recommend that you give close attention to the separate reports found in this same volume that have been filed by Mr. Maynard.

Police Department

The vacancy caused in this department by the sudden death of Officer Francis T. Hanna in September 1929 was filled this year by the appointment of Officer Charles P. Duffy, who was the highest man on the Civil Service list of eligible candidates. It has been necessary during the year to discipline only one member of the department.

Work has been started on the complete installation of a new box signal system for which one-half the cost was appropriated in March. With a similar appropriation at the next annual Town Meeting this important job can be completed. Two additional boxes have been installed this year. There has been added to the department a new up-to-date ambulance which has been received with a great deal of approval, particularly by the many doctors in Town. We have also provided for the installation of the teletype apparatus at our local Police Headquarters, thus joining the Town with some twenty-three other Metropolitan Departments in a very necessary system of police communication. The regular members of the department have been furnished with new badges and new revolvers and we are thoroughly of the opinion that the efficiency of this department has increased during the past year. Except for the last few weeks of the year, the Town has been free from the activities of house-breakers, which activities have occupied many of the neighboring departments throughout the year.

Fire Department

By reason of the appropriation made at the last Town Meeting, a new piece of apparatus has been purchased for this department. We are very much pleased with the manner in which Chief Holmes and his men have conducted the affairs of the department and believe that the Town is receiving real service from its firemen. We do not believe in adding to the personnel of the department and recommend that any effort to increase its personnel be opposed.

Town Hall and Thacher Building

Several improvements have been made in the Town Hall during the past year including the enlargement of the quarters occupied by the Town Clerk and Tax Collector, all of which was done under the personal supervision of Mr. Kemp. In addition to this, the entire interior of the Town Hall was repainted and as a result of a complaint received from the Woman's Club, improvements were made in the Ladies' Room. We believe that there should be no further delay in improving the roof of the Town Hall which is in bad condition, and have, therefore, recommended an appropriation of $1,050.00 for that purpose.

The Thacher Building continues to be one of the busiest of our public buildings and is providing both Town Departments and private patriotic organizations with very comfortable and convenient quarters.

Insurance

There is nothing new to report on the matter of Town insurance. All questions on this subject have been efficiently attended to by our Insurance Adviser, Frank R. Forde.

Tercentenary Celebration

During the past twelve months Milton, along with other municipalities of Massachusetts, has been engaged in a proper observance of the 300th anniversary of the founding of the Massachusetts Bay Colony. A great deal of the planning of our participation in this celebration was done by former Selectman Arthur H. Tucker, whose sudden death early in the year put an end to his personal participation in the carrying out of the plans that had interested him so intensely. However, Messrs. Leonard M. Patton and Chauncy C. Nash, the other members of the special committee appointed by the Selectmen, carried on the work in an unusually satisfactory manner and on September 9 there was the dedication of a boulder on which was placed a tablet commemorating the signing of the Suffolk Resolves. This was indeed a very happy occasion and as a result the Town has finally provided an official commemoration of that most historic event. In addition to the dedication of this tablet, this same committee prepared for publication five hundred volumes of the early records of the Town, thus perpetuating in an excellent form, the records that heretofore were available only in the office of the Town Clerk. May we at this time, in behalf of the Town, express our sincere appreciation of the tremendous amount of work performed and the splendid cooperation given by Messrs. Tucker, Patton and Nash and other citizens who have been responsible for the success of Milton's part in the tercentenary celebration.

Unemployment

We believe that we would be derelict in our duty if we did not make some mention of the problem of unemployment which has continually increased during the past year. Early in the spring, as a result of appropriations made at the Town Meeting, twelve additional men were put to work on the Highway Department. As we approached the fall of the year it was evident that a considerable number of our citizens were suffering because of unemployment. Following a suggestion made by Governor Frank G. Allen, the Selectmen appointed a local Emergency Unemployment Committee consisting of William B. Thurber, Chairman, James W. Rollins, John G. McHardy, Frank G. Nilson, Mrs. Roderick Stebbins, Mrs. Rollin M. Gallagher, Frank A. Stout, William B. Crosby, Thomas F. White, Rev. Horace G. Robson, Mrs. Susan D. Stone, Malcolm A. LeFevre, Mrs. Edward M. Cox, Mrs. W. R. Landers, Mrs. John Merrill, Mrs. Henry Sheldon, Mrs. Russell S. Hadlock, Mrs. Robert L. Shewell, Wallace Dexter, and Louis A. Pendis. After the organization of this committee in a very satisfactory manner, Mr. Thurber, by reason of the very heavy duties imposed on him as Chairman of the Warrant Committee, was forced to resign and his place as chairman was taken by James W. Rollins. The Selectmen, because of the cooperation received from the Warrant Committee in approving a transfer of $2,000.00 from the Reserve Fund to the Drainage Account, were able to put to work in November sixteen additional men, thus increasing the total number of extra men employed in the Highway Department by twenty-eight. We are pleased to report that these men are still at work, primarily engaged in drainage construction which we believe to be an expense that will be of benefit not only to the men employed but to the Town. In order to keep these extra men on the payroll of the Highway Department it will, of course, be necessary for the Town to appropriate additional funds at the annual Meeting in March and it is for that reason that we have taken up with the Warrant Committee the matter of an additional appropriation for drainage work which can be provided for by adding to the Reserve Fund and by having the extra amount transferred from the Excess and Deficiency Account, thus meeting the emergency to some degree without directly putting an additional financial burden on the Town. Of course it is evident that there are more than twenty-eight unemployed citizens in Milton and it is further evident that the unemployment problem is not with us simply for a matter of weeks or a few months. We have no doubt that following the March Meeting other departments of the Town will be able to make use of the services of our citizens who continue to be unemployed and we must also depend on private persons to cooperate as they have in the past in making use of these services. By this cooperation of the Town departments and private persons we believe that the most serious features of the unemployment problem can be taken care of. Although we appreciate fully the seriousness of the problem, we do not propose to become hysterical and we do not believe that any further

appropriation by the Town, other than has been suggested, is necessary at this time. It is easy for public officials and for those aspiring to public office to make capital "on the empty stomachs" of their fellowmen. We hope that the Town will approach this problem in the same spirit with which we and the very able members of our unemployment committee have approached it and as a result, we believe that the present difficulties can be disposed of.

Miscellaneous

Voting Precincts.—As a result of a request that has come to us from the Superintendent of Schools, it will be necessary to provide for a new location for voting in Precinct 2. However, because during the coming year only one regular election is anticipated and because that election does not fall on a school day, we need make no extra appropriation for hiring other quarters.

Fourth of July. —Because the Town increased its appropriation for the celebration of the Fourth of July from $500.00 to $1,000.00, we were able to have this celebration ably taken care of by the local Post of the American Legion. The results speak for themselves and we again recommend, as we did a year ago, the $1,000.00 appropriation for this purpose.

Armistice Day.—For the first time in its history the Town this year appropriated $100.00 for the observance of Armistice Day. Again the local Post of the American Legion, at the request of the Selectmen, assumed the responsibility of conducting this celebration and we believe that it was done in a way that satisfied all of our citizens. We again recommend a similar appropriation for this purpose.

Memorial Day.—For many years the Town has appropriated $400.00 for the observance of Memorial Day under the auspices of the local G. A. R. Post and Sons of Veterans Camp. It has been evident for some time that because of the decreasing contributions in the form of flowers, additional funds are necessary. We are therefore asking that this appropriation during the coming year be increased to $450.00.

We trust that in presenting this report we have furnished the citizens of the Town with an intelligent review of what has been accomplished in 1930 and with a clear outline of what we recommend for 1931. We can assure you that it has been a genuine pleasure to serve you, and further, may we inform you that whatever service we have been privileged to render would have been wholly impossible without the unselfish, sincere and generous cooperation of all Town employees and other citizens associated with us.

The problems of Milton are the problems of an active, suburban municipality. They all require a modern, progressive and intelligent consideration. We trust that in our consideration of the Town problems presented to us we have not fallen short of the standard required by you.

KENNETH D. JOHNSON
JOSIAH BABCOCK
NORTON WIGGLESWORTH
Selectmen of Milton

REPORT OF THE TOWN ENGINEER

To the Honorable Board of Selectmen:

GENTLEMEN:

The report of the Engineering Department for the year ending December 31, 1930 is respectfully submitted.

The work of this department has progressed satisfactorily, according to the program worked out in the spring.

The Town survey has taken the time of two field parties, each party consisting of three men. The work has been done with extreme accuracy and recorded in field books. As the major part of this outside work has been completed, it will require but one party to complete the survey. The engineer of the second party has been placed on map production work and the two chainmen have been dismissed. I estimate that the field work for the Town survey can be completed in a year by one party and I recommend that a draughtsman now be supplied this department for as long as may be needed to produce these plans.

An interesting feature of the Town line survey was the recovery of the witness mark which definitely locates the junction point of Milton, Canton and Boston. This stone has been lost to view since 1913, when the Neponset River was straightened and deepened by the Metropolitan Park Commission. This was found by extending the line from existing markers on the Boston-Canton line to the river bank and excavating to the original stone. On the top of Blue Hill is a copper bolt locating another angle point on the Milton-Canton line. Over this point the tower of the Blue Hill Observatory has been erected. This point was transferred to the top of the tower and used as a foresite, thus a very accurate line was run from the original point on the bank of the Neponset River to the foot of Blue Hill on Canton Avenue, which definitely locates the Town boundary. This extends the Milton-Canton boundary line into the Canton territory thirty to forty feet beyond the old road stones located on Green Street and Canton Avenue. At this time I wish to thank the owners in this vicinity for their courtesy and cooperation.

Since last January we have made tracings from a portion of the Town survey maps and supplied them to the Assessors' Office. These are marked according to the present plate system. In many towns where a Town Engineer is employed, the Section, Block and Lot System is used. With this system the original plans and tracings are kept in the Engineers' Office and the slight changes required to bring them up to date are made yearly. I recommend that a study of this system be made.

Construction

The construction work on streets and drains has required the entire time of one engineer and two assistants. The first Assistant Engineer, George N. Watson, resigned in the spring to become Town Engineer of Braintree, Mass. John H. Bowie, second Assistant was promoted to the position of first Assistant and placed in charge of street construction. Other duties given this party will be listed as miscellaneous work.

Miscellaneous Work

Miscellaneous plans for Planning Board.

Information to outside engineers as to street lines, sewer, gas and water mains and connections.

Basement plans.

Plans and lines for retaining walls.

Police plans.

Appearance at Court on cases involving accidents.
Traffic counts.
Information for Gas Companies, Contractors and Real Estate men.
Plans for accidents for the police and fire alarm maps.
Plans and grades for granolithic sidewalks.
Plans for street acceptance and corner takings.
Trips to registry at Dedham.
Plans on tracing cloth and making extra blue prints.
Street lines for tree planting.
Layout for hydrants and water mains.
Lines for electric light poles.
Field work necessary for correct location of houses.
Lines and grades for all curbings, set ground elevations run, stakes set and grades figured.
Maps and tracings made for land takings.
The engineer on construction is assisted by an employee in the office who spends his time plotting and making tracings.

Betterment Streets

The streets constructed under the Betterment Act this year are as follows:

Street	Length (Feet)	Estimated Cost	Actual Cost	Balance
Avalon Road	880	$7,800.00	$7,156.22	$643.78
*Cedar Terrace Street	900	9,509.75	8,737.75	772.00
Churchill Street	915	6,250.00	5,507.22	742.78
Elton Road	415	3,600.00	3,557.72	42.28
*Garden Street	910	8,991.00	7,854.63	1,136.37
*Governors Road (Edge Hill to Warner)	930	9,689.37	8,244.67	1,444.70
*Governors Road (Edge Hill to Brook)	783	7,821.74	6,320.37	1,501.37
Hazel Street	570	5,659.55	4,967.69	691.86
Howard Street	297	1,867.70	1,563.99	303.71
Lawrence Road	270	2,610.00	2,523.82	86.18
*Meredith Circle	1,362	14,008.50	12,682.72	1,325.78
Virginia Street	293	2,775.95	2,760.96	14.99
Verndale Road	358	2,424.60	1,904.72	519.88
Westbourne Street	284	2,901.00	2,458.15	442.85
*Wood Street	1,160	10,087.10	10,087.10	0.0
TOTALS	10,327 or 1.959 miles	$95,996.26	$86,327.73	$9,668.53

*Street built by a contractor.

Of the above list of streets, five were awarded to Octavius Menici of Peabody, and one to E. C. Sargent of Quincy, who were the lowest bidders. The nine remaining streets were constructed by Town labor.

Detailed plans and estimates have been made for the Board of Selectmen for the acceptance of the following streets:

Betterment Streets Proposed for the Year 1931

Street	Length (Feet)	Estimated Cost
Aberdeen Road	888	$10,931.80
Audubon Road	660	6,661.11
Bradford Road	525	5,719.40
Brae Burn Road	883	8,861.16
Cary Avenue	1,027	10,442.46
Clark Road	402	3,731.85
Hillcrest Road	811	8,135.46
Holbourne Street	265	3,236.25
Johnson Street	266	2,693.25
Meagher Avenue	1,142	9,535.47
Pond Street	450	3,832.95
Pilgrim Road	440	3,117.30
Petersburg Avenue	790	7,576.51
Valley Road Extension	225	2,266.14
Windsor Road	900	4,500.00
West Street	715	6,538.86
	10,389 or 1.967 miles	$97,779.97

Drainage

The following is a list of drainage installed during 1930:

Location	Length (Feet)	Size in Inches	No. of Basins	No. of Manholes
Adams Street at Edge Hill Road	151.5	8	2	1
Avalon Road	824.9	8	6	5
Canton Avenue	354	15	1	1
Cedar Terrace Street	911.4	8	9	5
Churchill Street	515.7	8	5	2
Dana Avenue	120.6	8		1
Dyer Avenue	878.0	10		
	171.0	8	8	4
Elton Road	94.5	8		
	610.3	12	5	6
Garden Street	691.0	8	6	2
Governors Road	784	12		
	1,182.4	8	11	8
Hazel Street	412.8	8	2	2
Houston Avenue	273.5	12		
	685.6	10	4	3
Kahler Avenue (to be completed in 1931)	390.5	10		
	22.0	8	3	2
Lawrence Road	88.5	8	2	1
Meredith Circle	1,114.	8	10	5
Petersburg Avenue	479.5	10		1
Reedsdale Road	100.0	24		
Valley Road	62	8	1	
Virginia Street	350.7	8	4	2
Warren Avenue	1,020.0	10		
	172.0	8	9	3
Westbourne Road	111.5	8	2	
Wood Street	385.4	8		
	338.3	10	11	3
From Neponset River to Churchill Street	141.0	15		
	1,004.8	12		4
	14,441.4		101	61

I recommend that careful consideration be given to the drainage program.

The large flat area along Brook Road should have first consideration. Until this trunk line drain is installed there can be no permanent relief for the adjacent territory. A study of this area was made and a map was published in last year's report. Part of this is an open trench and could be done by manual labor in the late fall and winter months.

After a thorough study of the flood conditions existing in the Shadow Lawn District, I have recommended to the Board of Selectmen the installation of a thirty-inch storm water drain, which will intercept a brook at Pleasant Street. This brook drains the area in the vicinity of Cunningham Park and the outlying districts. It is planned to do this work in connection with the widening and resurfacing of Pleasant Street.

Board of Survey

At the request of the Town Counsel, a set of specifications for the construction of streets has been supplied to the Board of Survey.

Following is a list of streets accepted by the Board of Survey this year:

Name	From	To	Length	Width
Crown Street	Oak View St.	Decker St.	547.12	40
Highfield Circle	Brook Rd.	Private Land	286.0	40—70
Mulberry Road	Blue Hill Terrace St.	Private Land	387.91	40
Thompson Lane	Brook Rd.	Reedsdale Rd.	813.17	40

Curbing Laid During the Year 1930

Location	Circular	Straight	Granite Blocks	Corner Blocks
Adams Street, East Milton	44.3	88.5		
Adams Street, Lower Mills	16.50	139.00		
Avalon Road	95.60	20		
Brush Hill Road at Dana Avenue	14.50	8.00		
Cedar Terrace Street	141.60	30		
Central Avenue	43.00	106.0		2
Churchill Street			31.60	
Edge Hill Road	79.9	313.8		
Elton Road	44.00	10		
Garden Street	58.00	21.8		
Governors Road Brook Road to Edge Hill Road	55.8	22.0		
Governors Road Edge Hill Road to Warner Road	56.9	21.1		
Grafton Avenue			69.50	
Hazel Street	88.0	20.0		
Howard Street				
Lawrence Road	56.6	20.0		
Meredith Circle	111.90	44.4		
Verndale Road	49.50	10.0

TOTALS			9,510 Ft. or 1.8 miles		22,639 Sq. Yds.

Details of the financial statement will be found in the report of the Town Accountant.

I wish to thank the engineering force for their willing and efficient work.

Respectfully submitted,

FORREST J. MAYNARD,

Town Engineer.

REPORT OF ASSESSORS OF TAXES

December 31, 1930

To the Citizens of the Town of Milton, Massachusetts:

The Assessors of Taxes herewith submit their report for the year 1930.

At the annual election of Town Officers for 1930, Mr. William W. Churchill was elected for the three-year term, and on March 6, 1930, the Board organized as follows: William W. Churchill, Chairman; George S. Murray, Secretary. The following two appointments were made: Clerk of the Board, Miss Dorothy L. Maxwell; Secretary to the Board, Miss Bertha M. Johnson.

During the past year, the following number of bills have been sent out: real and personal tax bills, 5,000; poll tax bills, 4,800; excise tax bills, 6,100. The total, 15,900, is an increase of 1,500 over the number of bills committed last year.

Due to the early adjournment of the State Legislature this year, Milton received notices of its share in the State taxes much earlier than usual, and inasmuch as all figures were in readiness, the Assessors were able to announce the tax rate within a few hours after the receipt of the State taxes. To their knowledge, there is only one other town in the State which has ever succeeded in announcing its tax rate on the same day that the State taxes are received. As a result of the early announcement of the rate of $26.80, which was a reduction of $1.00 from that of last year, the real estate and personal tax bills were sent out about three weeks earlier than usual.

On April 23, 1930, the Motor Vehicle Excise law was, to a certain extent, revised, the new rulings being much more favorable to the taxpayer. The new regulations have caused additional work in the office because of the computation of taxes by months, and the amount of time consumed in making the required adjustments for cars traded or sold. Approximately 850 of these adjustments were made during 1930, and an additional 150 abatements because of failure of the taxpayers to supply correct information on the registration blanks.

The Assessors respectfully call attention to last year's report, and the recommendations contained therein, and, as has already been done this year, urge upon the Warrant Committee the necessity of giving the whole subject of local taxation that serious consideration which it demands and must have, if the review of annual expenditures and the distribution of the consequent taxation burden is to be made with fairness to all taxpayers.

The following figures were used by the Assessors in determining the tax rate of 1930:

1930 Income

Estimated:		
Receipts from State—		
Income Tax	$127,960.86	
Corporation Excise	9,890.00	
Public Service Tax	6,510.00	
Trust Companies	5,890.00	
National Banks	4,830.00	
Street Railway Tax	1,125.00	$ 156,205.86
Licenses		560.00
Court Fines		485.00
Dog Licenses (from County)		3,795.00
Special Assessments		41,590.00
Departmental Revenue		35,450.00
Interest Deposit	$ 4,650.00	
Taxes and Assessments	12,180.00	16,830.00
Water		125,000.00
Motor Vehicle Excise		58,000.00
Polls (4,818)		9,636.00
Amount voted by Town from free cash		40,000.00
		$487,551,86

1930 Expenses

State Tax		$34,020.00
State Highway Tax		3,831.84
Fire Prevention Tax		267.26
Metropolitan Parks	$26,513.23	
Metropolitan Planning Board	195.39	26,708.62
South Metropolitan Sewer Tax		22,301.00
South Sewerage Tax-Special Assessment		231.00
Charles River Basin Tax		4,627.87
Neponset River Cleansing		1,125.39
Southern Artery		197.61
Special Investigation—Southern Artery Extension		826.04
Smoke Nuisance Abatement		177.90
State Audit		828.62
Snow Removal Tax		459.00
County Tax		42,066.96
Town Appropriations (including Bond Maturities)		1,289,444.78
Overlay Deficit of 1926		11.12
Soldiers' Exemption		72.67
		$1,427,197.68
Total expenses for 1930		$1,427,197.68
Total income for 1930		487,551.86
Balance to be raised by tax on real and personal estate		$939,645.82
Overlay reserve (to provide for abatements, exemptions, etc., except on motor excise)		6,198.54
		$945,844.36

Valuation of real estate	$32,001,850.00	
Valuation of personal estate	3,290,850.00	
	$35,292,700.00 @ $26.80 =	945,844.36

The population of the Town, as computed by the Assessors for the year ending April 1, 1930, was 16,220.

Other statistics are as follows:

Number of licensed dogs	1,049
Number of horses assessed	101
Number of cows assessed	296
Number of sheep assessed	40
Number of swine assessed	36
Number of fowl assessed	1,640
Number of dwelling houses assessed	3,648
Number of acres assessed	6,218
Number of persons assessed for military duty	2,999

1930 Taxes, In Addition to Those Assessed as of April 1, 1930

28 polls at $2.00 (December levy)	$56.00
Tax on personal estate (December levy)	99.16
Local sidewalk tax and interest	487.43
Local sewer tax and interest	34,544.34
Local street betterment tax and interest	10,193.67
Local moth tax	120.00
	$45,500.60

Total of All Taxes Assessed

Real and personal taxes (April levy)	$945,844.36
Poll taxes (April levy)	9,636.00
All additional taxes	45,500.60
	$1,000.980 96

Respectfully submitted,

WILLIAM W. CHURCHILL,
GEORGE S. MURRAY,
ROBERT BOWIE,

Assessors of Milton.

REPORT OF BIRD WARDEN

Milton, Mass., December 31, 1930.

To the Citizens of the Town of Milton:

I beg to submit to you my report as Bird Warden for the year 1930.

There was no appropriation and there are no accounts to be submitted.

Evidence is accumulating that the Starlings are driving away a number of species of the native birds which are beneficial. The Starlings are increasing in various parts of the town and it is desirable to encourage the trapping and shooting of these birds where possible, as they do a good deal of damage in fruit orchards and are not considered particularly valuable in aiding the control of any pest.

The number of English Sparrows seems to be still diminishing in the town.

My observation on the Spring migration in 1930 was that it was spread out over a longer period without the usual large numbers of insectivorous birds at any one time.

I believe that some of the more common birds and those which inhabit the cultivated fields and gardens are holding their own or even increasing, but that the rarer birds and woodland birds are apparently diminishing.

I wish to repeat my recommendation to the citizens who are interested in establishing feeding stations during the winter months, to continue this practice.

Respectfully submitted,

RALPH E. FORBES,
Bird Warden.

REPORT OF TRUSTEES OF MILTON CEMETERY

Milton, Mass., January 12, 1931.

To the Citizens of Milton:

The Trustees report as follows for the year 1930:

There were 178 interments in the Cemetery during the year, 112 of which were from out of town.

Thirty new lots were completed.

Sixty-one lots were taken by residents of the town and nine single graves were sold to residents.

Thirty-four lots and four single graves were placed under Perpetual Care.

Eighty-nine foundations for monuments and markers were made during the year.

Three lots were regraded and reseeded.

The new building in the Cemetery was completed and the ground around it was graded and seeded. Evergreen trees and Euonymous were planted around the building to beautify the same.

A trench was dug by the Water Department, in conjunction with the employees of the Cemetery Department, from Centre Street to the new building in the Cemetery, and pipe laid for the water, with six additional outlets available.

Respectfully submitted,

PERCY E. SHELDON,
REGINALD L. ROBBINS
THOMAS K. CUMMINS,
ASAPH CHURCHILL,
WM. PRESCOTT WOLCOTT,
Trustees
THOMAS W. POND, *Superintendent.*

REPORT OF THE FIRE DEPARTMENT

Milton, Mass., January 5, 1931.

To the Honorable Board of Selectmen, Milton, Mass.:

GENTLEMEN: I herewith submit my report of the Fire Department for the year 1930.

Alarms

There have been 418 alarms received as follows:
165 bell alarms, 253 telephone alarms; 17 calls to Boston.
Boston responded 28 times to Milton.

Alarms each month:

January	13	July	30
February	13	August	17
March	79	September	52
April	87	October	37
May	29	November	28
June	14	December	19

Classification

Automobile	28	False	19
Awning	2	Factory	1
Bank	1	Fence	1
Barn	1	Garage	4
Bog	4	Gasoline	2
Boy's Hut	1	Grass	86
Bowling Alley	1	Hay Stack	2
Brush	118	Leaves	2
Cable Box	1	Needless	8
Chimney	10	Office Bldg.	2
Church	1	Restaurant	1
Cordwood	1	Rubbish	8
Derrick	2	Shed	7
Dog Kennel	1	Station platform	1
Dump	28	Tree	8
Dwelling	39		

Other Calls

To rescue animals; To assist persons from locked room

Figures on Property at Risk

Value	$727,350 00	Insurance Paid	$32,832 40
Fire Loss	26,950 00	Per Capita Loss	1 65

(Reason for difference in above figures on loss and insurance paid is that conservative amounts allowed for loss by this department and a reliable contractor of this Town did not agree with Insurance Adjustor within $6,000.00 on one fire.)

Work Performed

Feet of hose laid	35,450	Feet of ladder raised	607
Gallons of chemical used	3,537½	Miles traveled	2,468.01

Permits Issued

Out-of-doors fires	747	Explosives	50
Inflammable fluids	12	Fireworks	6
Oil burners	107		

Inspections

On oil burners	170	Factory	15
On stores	258	Bowling alley	14
On garages	36		

Personnel

The force remains the same as last year.

Apparatus

All of the apparatus is in very good condition. The Chief's car has been newly painted, rear tires of Ladder Truck have been replaced with new, and minor repairs have been made during the year.

In April a Chevrolet truck chassis was purchased from Woodward's Garage, and sent to O. F. Kress & Son, Lawrence, to be equipped with body, water tank and 75 gallon pump. This piece of apparatus was placed in service June 28th. The equipment of this new apparatus consists of 600 feet of $2\frac{1}{2}$-inch hose, 300 feet of $\frac{3}{4}$-inch hose, 150 gallon water tank, 75 gallon pump, axes, bars, extinguishers, etc., etc. This piece of apparatus replaced the Oldsmobile and responds to the same calls that wagon did. This new wagon has had a large number of calls since being placed in service and has worked very satisfactorily.

The Oldsmobile has been dismantled and kept for emergency.

It is interesting to note that the total upkeep, beside gasoline and oil, for the Oldsmobile for almost eleven years of service was about $515.00.

Fire Alarm

Two new boxes have been purchased and will be installed very soon. Several tappers have been purchased for call and permanent men.

Discipline

The discipline in the Department still continues to be of the highest.

Recommendations

Again I call to your attention the need of more permanent firemen in this Department. We are adding over a million dollars' worth of new buildings each year and nothing is being done about more fire protection to keep pace with this growth. The past year has shown the real need of more men.

More fires are occurring than ever before, in several cases two or three at the same time, and it seems that the time has arrived when the force should be large enough to be able to leave a man on duty at Headquarters at all times to take care of extra calls received, to despatch apparatus, or to procure additional aid from outside departments if necessary.

Along this line, it must be remembered that every fireman is growing older each year and no new young blood is being added to the force. In order to maintain the proper efficiency, young men should be added to the force at intervals of every few years to make up for slowing up of men who are nearing the sixty year age.

I would like to say at this time that in a very few years, a new fire house will be required in East Milton. Repairs to the present one are coming more often and some extensive ones are very near at hand, and it does not seem good business to spend any large amount on a building in the condition of this one.

I extend my sincere thanks to your Honorable Board for your assistance during the year.

I wish to thank the Police Department for their co-operation.

This year the number of calls for the Fire Department has far exceeded any year in the history of the Department. There have been many times when all of the apparatus has been engaged in separate fires at the same time and it has been only through good luck that something serious did not happen. The permanent men have given up a lot of their "time off" to be on duty when brush and wood fires were occurring by twos and threes, callmen have helped out many times without any extra pay, and at this time I wish to extend my appreciation and sincere thanks to them for their co-operation.

Respectfully submitted,

J. HARRY HOLMES,
Chief of Department.

REPORT OF LICENSING COMMISSION ON ONE AND TWO CAR PRIVATE GARAGES

Milton, Mass., December 31, 1930.

To the Honorable Board of Selectmen, Milton, Mass.

GENTLEMEN: The Licensing Commission for One and Two-Car Private Garages respectfully submits the following report for the year ending December 31, 1930.

Forty-three hearings were held and one hundred thirty-nine (139) licenses were issued. Inspections were made on all locations and garages.

Respectfully submitted,

J. HARRY HOLMES, *Chairman*
G. E. BURT
JOSEPH H. DUFFY.

REPORT OF TREE WARDEN

Milton, Mass., December 31, 1930.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Tree Warden Department of this town, for the past year.

Trimming

There has been practically no damage to the trees from storms, during the past year. The trimming has been somewhat in excess of that of previous years.

Planting

We have planted 146 new trees this year.

Insects

There has been an increase in the insect pests during the past year. The Elm Leaf Beetle especially has done noticeable damage. The infestation of the Satin Moth is about the same as last year. The Tent Caterpillar was about the same as last year, throughout the town in general, but less numerous upon the highways.

Saw Mill

The volume of work at the saw mill was about the same as last year.

Plans for Next Year

Owing to the fact that for several years prior to 1928 we were behind in the planting of trees on the public ways, which we believe desirable, we are hoping to plant 150 or more trees this year.

Appendix A

Trees planted:	
Norway Maples	146
Trees removed	
American Elms	9
Maples	6
Ash	5
Cherry	4
	24

Appendix B. (General Account)

Appropriation for public work	$9,000 00
Credit	3 25
	$9,003 25
Expenditures	$8,956 36
Balance reverting to Treasurer	$46 89

Appendix C. (Private Account)

Appropriation	$3,500 00
Expenditures	2,509 85
Balance reverting to Treasurer	$990 15
Receipts from private work	$2,788 05
Total reverting to Treasurer	$3,778 20
Receipts	$2,788 05
Less Expenditures	2,509 85
Profit from private work	$278 20

Saw Mill Account

Credits

14,000 feet of lumber sawed at $10.00 per 1,000	$140.00	
Receipts from cord wood	189.50	
Receipts from lumber sold	110.40	
Receipts from sawdust	15.00	
		$454.90

Expenses

Cost of Electricity	$45.47	
Cost of Labor	96.80	
		142.27
Credit Balance		$312.63

Respectfully submitted,

RALPH E. FORBES,
Tree Warden.

REPORT OF MOTH SUPERINTENDENT

December 31, 1930.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Moth Department of this town, for the past year.

Suppression Work

The infestation of Gypsy Moths is only slightly different from last year. There was probably a slight reduction of this pest, especially where the clusters were previously congested, but unfortunately, we find some infestation in new locations.

The amount of creosoting done this year was about the same as last year.

We have found no Brown-tail Moths during the year.

Equipment

We have had the trucks overhauled and new tires were put on the 3½ ton G.M.C. truck. We believe that all the equipment is now in good condition.

Appendix A

Inventory of property of Moth and Tree Warden Department.

1—1926—3½ ton G. M. C. truck with Sprayer and platform body	3,000 00
1—1913 Packard truck	50 00
1—1 ton G. M. C. truck	100 00
1—1 ton Ford truck 1928	500 00
1—Nash Coupe 1928	550 00
2 Sprayer tanks and Pumps	500 00
Tools of all kinds (including field supplies)	600 00
Office Equipment	250 00
Buildings (including Sawmill)	10,500 00
Hose	200 00
Total	$16,250 00

Appendix B. (General Account)

Appropriation	$5,500 00
Expenditures	5,491 38
Balance reverting to Treasurer	$8 62

Appendix C. (Private Account)

Appropriation	$4,000 00
Expenditures	2,446 55
Balance reverting to Treasurer	$1,553 45
Receipts from Private work	2,434 36
Total reverting to Treasurer	$3,987 81
Receipts	$2,434 36
Less Expenditures	2,446 55
Total; Loss on Private Work*	$12 19

**Note*: This apparent loss on Private work is due to work done late in December, payments for which will appear in next year's account.

Respectfully submitted,

RALPH E. FORBES,
Local Moth Superintendent.

REPORT OF BOARD OF HEALTH

Milton, Mass., December 31, 1930.

To the Citizens of Milton:

The number of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1930	1929	1928
Anterior Poliomyelitis	–	1	1
Chicken Pox	70	38	59
Diphtheria	5	–	4
German Measles	25	3	9
Lobar Pneumonia	6	16	15
Measles	54	35	336
Mumps	45	5	6
Scarlet Fever	29	40	52
Tuberculosis (Pulmonary)	6	10	13
Tuberculosis (all other forms)	4	2	–
Whooping Cough	15	48	65
Influenza	–	44	–
Dog Bite	14	10	5
Typhoid Fever	2	–	1
Ophthalmia Neonatorum	–	–	2
Septic Sore Throat	3	3	–

The Board organized March 3rd, 1930. Mr. Hervey W. King was elected Chairman and Mr. Philip Y. DeNormandie, Secretary. The following appointments were made: Agent, Dr. Paul W. Kimball; Inspector of Milk, Dr. Paul W. Kimball; Deputy Inspector of Milk, S. R. Ramsdell; Inspector of Plumbing, L. E. Young; Deputy Plumbing Inspector, B. F. Murray; Agent for Issuing Burial Permits, G. F. Kemp; General Contractor, A. B. Snow; Inspector of Slaughtering, P. W. Kimball; Caretaker of Contagious Hospital, John Dexter. The contract for collecting ashes and garbage was awarded to S. G. Craig.

As a measure of protection against diphtheria, the Board, following its usual practice, offered the Schick Test for susceptibility to diphtheria, and the toxin-antitoxin preventive treatment for those not immune.

Four hundred and thirteen persons visited the clinic. One hundred forty-one were given the Schick Test, 130 of these were shown to be immune and 11 susceptible. Two hundred seventy-two were given the toxin-antitoxin treatment. The Board wishes to express its appreciation of the cooperation of the School Department.

One hundred thirty-seven permits for connecting houses with the common sewer have been issued during the past year.

The Board has changed its method of milk examination during the year and is having much more extensive tests made of the milk supplied to Milton residents. Beginning with July 1st, 1930, the Milk Inspectors' report is being published once every three months instead of once a month and the bacteriological examinations are made according to the standard plate method of the American Public Health Association.

During the past year the Board has had its regulations carefully revised and brought up to date. At the regular monthly meeting held on December 3rd, 1930 the Board adopted the revised rules and regulations for the public health and safety which became legally effective by publication in the *Milton Record*, on Saturday, December 13th, 1930.

In its report last year, the Board called attention to the problem of tuberculosis in Milton and recommended the establishment of a Tuberculosis Clinic. There are 48

known cases of tuberculosis over which the Board should have supervision and between 150 and 250 contacts in the families of these cases. The request of the Board for the establishment of a clinic was denied last year but the Public Health Committee of the Milton Women's Club, realizing the needs of the situation, offered to donate $500 to the Board of Health for the purpose of establishing a tuberculosis clinic to meet this need.

After consultation with the various agencies interested, the Board arranged a meeting at which representatives of the Milton Women's Club and the Milton Visiting Nurse and Social Service League were present. At this meeting it was decided that a clinic should be established under the joint auspices of the Milton Visiting Nurse and Social Service League and the Public Health Committee of the Milton Women's Club with the approval and cooperation of the Board of Health.

The Milton Social Service League offered the use of its headquarters on Blue Hills Parkway as a place to hold the clinic and offered the assistance of its nurses. Dr. Philip Grabfield was appointed Physician in Charge of the clinic. The first clinic was held September 17th and successive clinics every two weeks. Eight clinics were held in 1930 which were visited by a total of 49 persons. Forty of these persons were in contact with known cases of tuberculosis. Among these 40, three new cases were discovered. Through the kind cooperation of the Milton Hospital 10 of the cases were X-rayed at the Hospital. Fifty follow-up visits were made to clinic patients by the visiting nurses.

The early discovery of the three new cases above mentioned, making it possible to take steps to arrest the further development of the disease, is the best argument the Board could present to the town for the establishment of this clinic under authority of the town. From the standpoint of the health of the public and from the economic saving to be effected by the early treatment of these cases, rather than their later hospitalization, with its attendant expense, this problem is one that should be assumed by the town and not be left to private enterprise and generosity. It costs $437.20 to keep one patient in the Norfolk County Hospital for one year.

The Board recommends that the town vote to establish a clinic for the discovery and treatment of cases of tuberculosis among the residents of the town and appropriate $700 to cover the expenses for the first year.

Respectfully submitted,

HERVEY W. KING, *Chairman*
PAUL R. WITHINGTON, M. D.
PHILIP Y. DeNORMANDIE, *Secretary*
Board of Health of Milton.

REPORT OF COLLECTION OF ASHES AND GARBAGE

Milton, Mass., December 31, 1930.

To the Board of Health:

I herewith submit my report for the year ending Deecember 1, 1930. There have been collected 465 truck loads and 7,621 double loads of ashes, and 372 cords of garbage.

Respectfully submitted,

SAMUEL G. CRAIG.

REPORT OF GENERAL CONTRACTOR

Milton, Mass., January 5, 1931.

To the Board of Health:

GENTLEMEN: I herewith submit my report for the year ending December 31, 1930.

2 vaults cleaned
41 cesspools cleaned
48 loads removed from same
19 dead animals removed and buried same.

Yours respectfully,

ALVAH B. SNOW.

REPORT OF INSPECTOR OF MILK

Milton, Mass., December 31, 1930.

To the Board of Health:

GENTLEMEN: During the year 1930, there were issued 52 licenses to sell milk or cream, of which 47 were for the sale of pasteurized milk or cream and 5 for milk or cream from cows that have been tuberculin tested and maintained in accordance with State and Federal regulations. For the sale of oleomargarine, 10 dealers were registered. Three establishments for the pasteurization of milk and two for the manufacture of ice cream have been licensed. Beginning July 1, 1930, the milk inspector's report is published once every three months instead of once monthly and the bacteriological examinations of milk are made according to the standard plate method of the American Public Health Association.

Respectfully submitted,

PAUL W. KIMBALL, *Inspector*
SHERMAN R. RAMSDELL,
Deputy Inspector.

REPORT OF INSPECTOR OF PLUMBING

Milton, Mass., January 1, 1931:

To the Honorable Board of Health:

GENTLEMEN:—Herewith I submit report for the Department of Inspection of Plumbing for the year ending December 31, 1930.

Month.	Permits Issued	Valuation of work, per Applications
January	12	$5,230 00
February	12	7,205 00
March	15	9,960 00
April	23	13,350 00
May	21	21,135 00
June	18	8,155 00
July	10	4,425 00
August	29	16,680 00
September	25	9,080 00
October	13	6,995 00
November	17	7,515 00
December	2	2,025 00
Totals	197	$111,755 00

Respectfully submitted.

LORENZO E. YOUNG,

Inspector of Plumbing.

REPORT OF INSPECTOR OF SLAUGHTERING

Milton, Mass., December 31, 1930.

To the Board of Health:

GENTLEMEN: No animals were passed for food during the year 1930.

Respectfully submitted,

PAUL W. KIMBALL,

Inspector of Slaughtering.

REPORT OF INSPECTOR OF ANIMALS

Milton, Mass., January 1st, 1931.

To the Honorable Board of Selectmen:

GENTLEMEN: I herewith submit my report for the year ending December 31st, 1930.

I visited and inspected 49 barns and premises where cattle are kept and found the conditions pertaining to the health and sanitation satisfactory.

Physical examination was given to 354 cows and to 12 bulls for infectious diseases.

Interstate shipments of cattle have been complied with.

Two barns and premises were inspected for proper disinfection following the removal of reactors to the tuberculin test.

It was necessary to quarantine 41 dogs as contacts or for having bitten people; two of the quarantined dogs developed rabies.

Respectfully submitted.

ROBERT H. SEWELL.

Inspector of Animals.

REPORT OF INSPECTOR OF BUILDINGS

Milton, Mass., January 5, 1931.

To the Honorable Board of Selectmen:

GENTLEMEN: I herewith submit my report for the Building Department for the year ending December 31, 1930.

Month	Number of Permits	Permits for New Dwellings	Permits for Alterations	Permits for Garages	Permits for Other Buildings	Valuation
January	16	3	10	3	0	$28,575 00
February	17	3	5	8	1	23,750 00
March	32	12	11	8	1	76,480 00
April	35	9	14	9	3	312,860 00
May	44	11	14	17	2	74,205 00
June	32	9	12	10	1	71,930 00
July	45	13	18	13	1	139,500 00
August	29	6	9	14	0	57,010 00
September	35	11	10	13	1	90,865 00
October	36	7	12	15	2	64,630 00
November	30	12	6	12	0	102,333 00
December	35	11	7	17	0	72,140 00
Totals	386	107	128	139	12	$1,114,278 00

Making valuation as per applications $1,114,278 00.

Respectfully submitted,

G. E. BURT,

Inspector of Buildings.

REPORT OF SUPERINTENDENT OF WIRES

Milton, Mass., January 10, 1931.

To the Honorable Board of Selectmen,
Town of Milton, Massachusetts.

GENTLEMEN:—I herewith present the report of the Wire Department for the year ending December 31, 1930.

This department has supervision of the Fire and Police Signal System, inspection of all buildings equipped with electric light service and all poles and wires on town streets.

Interior Wiring

	1929	1930
Certificates issued for light and power	315	344
Number of inspections	812	756
Number of incandescent lights wired for	8003	7867
Number of motors installed	29	18
Total horsepower	49	39
Number of electric heaters and ranges installed	3	3
Total watts	11000	11000

Radio

All outside antenna wires must be protected by a lightning arrester.

Anyone wishing a copy of rules concerning Radio Installation may have same by notifying the Wire Department.

Fire and Police Signal System (overhead and underground)

Have replaced arms on poles reset by different companies in town.

Emergency calls 257.

For the maintenance of the Wire Department I have requested an appropriation of eight thousand, eight hundred and twenty-five dollars and sixty-eight cents ($8,825.68).

Respectfully submitted,

E. E. CHOATE,
Superintendent of Wires.

REPORT OF PARK COMMISSIONERS

Milton, Mass., December 31, 1930.

To the Citizens of the Town of Milton:

The Park Commissioners herewith present their report for the year ending December 31, 1930.

The personnel of the department was as follows:

Superintendent	John L. Kelly
Playground Director	Aaron H. Yeaton
Assistants	Miss Ethel Hannigan Miss Helen Kelly Miss Barbara Hart
Supervisor of Academy Tennis Courts	Paul McPeake

The Brook Road Playground in 1930 enjoyed a use unsurpassed in any year since its opening. The High School, with its program engaging every boy and girl in some recreational work, used every available space during the months that the weather was fit for outside activity.

The Mattapan Baptist Church, the Milton Police Department's Baseball Team and the Milton Town Team played their respective schedules at the Playground and it was particularly gratifying to the Park Commissioners that so much summer baseball was afforded the townspeople. Altogether fifty-six (56) permits were issued for the use of the baseball diamond and twelve (12) permits for the football oval in the autumn, were granted to the Milton Athletic Club.

Two tennis courts upon the Milton Academy grounds near Brook Road were loaned to the town from June 23 to September 13 through the kindness of the Academy Trustees and good use was made of them which greatly relieved the congestion at the Playground courts.

The supervised playground activities extended through the eight weeks of July and August, and were well attended both at Brook Road Playground and at Hollingsworth Field. A daily average attendance of two hundred and forty-one (241) at the Brook Road Playground and fifty-three (53) at Hollingsworth Field.

Considerable filling was given to the Park Department by the Highway Department and a large area was graded near the tennis courts which greatly improved the baseball field.

The Park Commissioners have become cognizant of the fact that the State Public Highway Department are taking, by the right of eminent domain, a strip of land sixty feet wide the entire length of the Brush Hill Road Playground. This will, in our opinion, practically ruin this piece of land for playground purposes owing to the narrow width of land remaining between the proposed roadway and Neponset River.

The Metropolitan District Commission are planning to take by the same right a strip of land ten feet in width the entire length of the Brook Road Playground. If they do this it will probably necessitate moving the baseball diamond at considerable expense owing to the nature of the land.

The Park Commissioners are working with Town Counsel in both of these takings and hope that some solution may be arrived at whereby the land may be retained.

We ask for an appropriation of $5600.00 for the carrying out of our program for the year of 1931.

Respectfully submitted,

WILLIAM G. RODD,
GEORGE OWEN, JR.,
JOHN F. KERRIGAN,
Board of Park Commissioners.

REPORT OF POLICE DEPARTMENT

Milton, Mass., January 9, 1931

To the Honorable Board of Selectmen:

GENTLEMEN: I herewith submit my report of the Police Department for the year ending December 31, 1930.

Officers detailed for public service		106
Officers detailed at the request of citizens		346
Solicitors driven out of Town		21

Amount of property reported stolen	$13,224 34
Amount of stolen property recovered	8,143 00

Crime

A few houses were entered up to December and in some cases the burglars were caught. Ten houses were entered in December and the burglar is still at large, although everything is being done to apprehend him by this and surrounding departments.

Three houses were raided for liquor and a small quantity was seized.

January 1st, a pipe bomb was found on a private estate and upon examination was found to be of a noisy although harmless nature.

The most serious crime committed was an atrocious assault on a seventeen-year-old girl. The criminal was caught and is serving a sentence of 18 to 20 years in State Prison.

Traffic

There were 185 accidents in 1930 which is a decrease in comparison with 1928. The automatic traffic signals have proved their usefulness in reducing accidents at the dangerous intersections. A semi-actuated traffic signal was installed at Canton Avenue Highland and Thacher Streets and is giving satisfaction. I recommend traffic signals be installed at Central Avenue and Eliot Street, and Blue Hill Avenue and Cheever Street.

Motor Service

A new Ford and motorcycle were purchased to replace the old machines and I recommend that replacements be made for the Ford and motorcycle bought in 1929. June 1st a new Chevrolet ambulance was purchased.

Red Cross—First Aid

A course of instructions in first aid work was given to the members of the Department by Mr. George P. Johnson of the American Red Cross, Boston Metropolitan Chapter. The knowledge gained from the instructions has been a valuable asset to the officers and the American Red Cross is worthy of commendation in giving this course.

The Force

Charles F. Duffy was appointed a patrolman March 7th to fill a vacancy.

Patrolman Fred M. Farrington, a retired member of the Department, died November 30, 1930.

Charges were made and sustained against one member of the Department.

The members of the Department were called upon to do extra duty without compensation and responded willingly.

Equipment

New badges and revolvers were purchased for the Department.

December 17th, a Teletype was installed in the station and has already proved to be an important factor in police work. It affords instant communication with surrounding departments.

Revolver Practice

The members of the Department are showing improvement in shooting by compulsory weekly practice. Patrolman John W. Dalton won the shoot this year, thereby winning two legs of the Selectmen's trophy.

Police Alarm

The work of replacing Circuits No. 3 and No. 4 of the signal system was begun and is nearing completion. I recommend that Circuits No. 1 and No. 2 be replaced in 1931 to put the system in complete working order and up to date.

Conclusion

I desire to thank the Court and its officers, the Selectmen and Town Counsel for their advice and assistance, other Town Departments, the Public and the Press for their cooperation during the year.

I am grateful for the excellent services of the members of this Department.

Respectfully submitted,

JAMES R. TRAVERS,

Chief of Police.

REPORT OF BOARD OF PUBLIC WELFARE

January 2, 1931.

To the Citizens of the Town of Milton:

The work of our department is made much more difficult and less efficient because we have no rooms of our own in which to keep our records or interview our clients. We looked forward eagerly to the new town office building with the hope that in that building our needs would be recognized. We trust that the citizens realize that we are doing our work under difficulties.

At some time in the distant future the town will benefit by the Weston Will which leaves the sum of $15,000.00 to be expended for the poor of the town after the death of all the heirs. A copy of this will is in the custody of the Town Treasurer.

Among the receipts of this department there is the interesting one of $2,142.00, a reimbursement of board for an inmate of the Town Farm who received a legacy and whose board is now paid regularly. The Town Farm has paid to the Town Treasurer the sum of $4,769.06. We consider that the building is of great usefulness in providing a home for those who have no other, or who have no relatives who can care for them. We do not anticipate a large increase in the amount of aid rendered in the town because of the new Old Age Assistance Law as this new law does not change any of the existing laws.

Before the appointment of the town committee on unemployment it was necessary to give aid to two men with families who were out of work, but after the appointment of this committee jobs were found for these men and aid ceased. The increase that we ask in our appropriation is because we fear there may be further need of such aid.

The establishment this year of a Tuberculosis Clinic in the town should prove in the future to be a real help to our department for some of our most serious problems of relief have been due to this disease.

There is excellent cooperation in the town between the private and the public sources of relief and if we were to acknowledge all the help that has come to us in the solving of our problems it would include all such agencies in the town and all their employees, besides many individuals.

We wish to acknowledge again our indebtedness to Mr. and Mrs. Dexter for their devoted service at the Town Farm.

The financial report is so fully given by the Town Accountant that it is not necessary to repeat it here.

Respectfully submitted,

HORACE N. PLUMMER, *Chairman*,
HUGH McCUE, *Secretary*,
CHARLES W. ROLLINS,
JOHN TALBOT,
EDITH ENDICOTT STEBBINS.

REPORT OF PLANNING BOARD

January 15, 1931

To the Citizens of Milton:

Town Plan

At the annual meeting last March under Article 79 the Town referred the question of obtaining a Town Plan for Milton to us.

In view of the repeated rejection by the legislature of the so-called "Nichols" bill, embodying this Town Plan idea, and the opposition to it by many of our own people, we advise no further action at this time. We are also influenced in this decision by the passage in 1930 of "an act establishing the powers of the Board of Survey in the Town of Milton" (Chapter 273).

By it, our Selectmen, acting as a Board of Survey, are given more complete control over new streets.

A Metropolitan Road From Randolph Avenue to Canton Avenue on the North Slope of the Blue Hills

This was again suggested by the Division of Metropolitan Planning. We engaged Edward G. Lowry, Jr. as counsel and hope the project has been laid to rest, as shown by the following correspondence.

February 11, 1930.

Metropolitan Planning Board
60 Battery March
Boston, Massachusetts

Gentlemen:

On December 4, 1929, your Board filed with the Legislature House Bill No. 40 and House Bill No. 41 proposing certain new thoroughfares. House Bill No. 41 Part two section 8 sub-section c2 Lines 40 to 46 reads as follows:

> "Beginning at the intersection of Brook Road and Blue Hill Parkway, thence with suitable widenings along Brook Road, White Street and Reedsdale Road to a point near the intersection of Reedsdale Road and Randolph Avenue, thence over public and private lands and public and private ways to a suitable connection with Furnace Brook Parkway."

At the same time your Board caused to be prepared a map entitled:

"Map of the
Boston
Metropolitan District
prepared by
The Division of Metropolitan Planning
of the
Commonwealth of Massachusetts
showing
Existing and Projected Main Thoroughfares
of the district
1929"

which illustrates what your Board has planned under the proposed legislation, and which further illustrates what your Board planned in the way of thoroughfares not set forth in your proposed legislation.

On that map is shown the thoroughfare set forth in House Bill No. 41 Part Two section 8 sub-section c2 and also a further thoroughfare running from a point on Blue

Hill Avenue approximately at the intersection of Dollar Lane thence easterly along the northern boundary of the Blue Hills Reservation to Harland Street and thence easterly to a point on Randolph Avenue approximately half way between Hillside and Highland Streets thence easterly until it joins the road set forth in the bill, section and sub-section above mentioned.

Against this thoroughfare we, a group of landowners through whose property it would pass, together with other landowners in the vicinity, hereby take this our earliest opportunity to record our protest. We do so at this time lest in the event that such a thoroughfare were actually proposed to the Legislature in the future, it should be said that we allowed without a protest the inception of a general plan of which such a thoroughfare was to our knowledge a part. We base our protest upon two arguments:

First, the proposed thoroughfare is not necessary. Easterly traffic from Hyde Park which would use such a thoroughfare has now two satisfactory easterly routes of travel, —one by way of Canton Avenue and Brook Road, and the other by way of Blue Hill River Road, recently constructed as a circumferential route to take care of exactly the same traffic for which the proposed new route is designed.

Second, the proposed thoroughfare would greatly alter the residential character of the land through which it passes. This land now is divided into estates ranging in size up to several hundred acres, whose financial value to the Town of Milton is demonstrably greater on the basis of the ratio of services demanded to taxes paid than a more minute subdivision of the same land would be. Such further subdivision would necessarily follow if the proposed thoroughfare should be constructed, the chief value of the land in question to its present owners being its secluded character. We believe further that any compensation which might be received by reason of the necessary taking of sufficient land to construct the thoroughfare in question would represent only a small portion of the damage that would be done.

With this letter we enclose a map of the Town of Milton showing the proposed route, also showing the property lines of the estates through which it would pass. We feel that this map illustrates graphically the damage which such a route would do to the property in question.

Respectfully submitted,

s/Arthur Wallace Rice
s/ John F. Perkins
s/ B. W. Trafford
s/ Edward C. Bradlee
s/ F. A. Eustis
s/Roger Wolcott
s/ W. Rodman Peabody
s/ Charlotte H. Bartol
s/ H. Clifford Gallagher
s/ Alexander Forbes

s/ James S. Russell

Office of Selectmen

Milton, Mass., February 14, 1930.

Metropolitan Planning Board
60 Battery March
Boston, Massachusetts

Gentlemen:

A copy of a letter to your Board dated February 11, 1930 and signed by Arthur Wallace Rice, John F. Perkins, B. W. Trafford, Edward G. Bradlee, F. A. Eustis, Roger Wolcott, W. Rodman Peabody, Charlotte H. Bartol, H. Clifford Gallagher, Alexander Forbes, and James S. Russell, has been shown to us, the Selectmen of the Town of Milton.

In our capacity as Selectmen we wish to go on record as endorsing the statements and arguments set forth in that letter. We do not feel that the thoroughfare under discussion is a necessary one at this time. We also feel that anything which tended

to bring about the breaking up of the remaining large estates of Milton into smaller developments would be highly detrimental to the town. The thoroughfare under consideration if actually proposed or constructed would in all probability tend to bring about that result.

Yours very truly,

s/ Kenneth D. Johnson
s/ Josiah Babcock
s/ Norton Wigglesworth

Division of
Metropolitan Planning
89 Broad Street, Boston

March 6, 1930.

Mr. Edward G. Lowry, Jr.
60 State Street
Boston, Mass.

Dear Mr. Lowry:—

I acknowledge receipt of a letter dated February 11th signed by Mr. Arthur W. Rice and ten other property owners in Milton with reference to a proposed road shown on a plan prepared by this Division extending from a point near the end of Dollar Lane mostly across private property to Randolph Avenue south of its junction with Highland Street. I also acknowledge receipt of a letter dated February 14th signed by the three Selectmen of Milton.

There is no proposal to construct this road at the present time and it was shown on the map in connection with the general study made of a cross country road north of or on the northerly side of the Blue Hills Reservation.

An agreement was recently reached between the Planning Division and the officials of Milton and Quincy with reference to an extension of Reedsdale Road from its present junction with Pleasant Street to a point on the Furnace Brook Parkway west of the place where said parkway passes under the Granite Division of the New York, New Haven & Hartford Railroad.

If the Legislature grants authority for the construction of the road, it is my personal view that the road your clients refer to will not be required for many years as there will then be a suitable crosstown connection north of the Blue Hills Range.

It is my personal view that the factors so well brought out by your clients are worthy of careful consideration by the Planning Division and should be very carefully considered in the laying out of any route. There are, however, many cases when public necessity and convenience must override the interests of the property owners.

May I call your attention to the fact the route shown on your map is not technically correct. The proposed route was supposed to be an extension of the Neponset River Parkway, which now ends at Blue Hill Avenue and it was to follow on land already owned by the Commonwealth to a point well east of Canton Avenue, the actual route being substantially south of the route which you have shown.

In writing you this letter, I have expressed to you my own personal views and it must be distinctly understood that the Division of Metropolitan Planning has expressed no view and that nothing I have said should in any way be construed as binding upon the Division or as any other than a personal opinion.

Very truly yours,

s/ H. I. Harriman
Director.

HIH:C

Various other matters at the State House have engaged our attention; perhaps the most important being the taking of Reedsdale Road and a part of Brook Road by the state as a portion of a new trunk line between the Blue Hills Parkway in Milton and the Furnace Brook Parkway in Quincy. Work is going forward on this project under Chapter 420 of the Acts of 1930.

Death of Arthur H. Tucker

The following letter expresses our feeling on this great loss.

Dear Mrs. Tucker:

The members of the Milton Planning Board wish you to know how much they miss your late husband. As a friend of many years' standing we knew him intimately, and had long admired his fine public spirit and unusual services to the Milton he loved so well.

He was elected to the Planning Board when it started in 1923, and served until his death on the fourth of last May.

His distinguished and varied experience in town affairs made him a valuable member, and his interest was always alive.

When in conference with state commissions, or County Commissioners, or representatives of other towns; he spoke with authority, and his influence was important.

We treasure his memory, and shall try to profit by his example.

Sincerely yours,

s/James S. Russell,
s/David A. Heffernan
s/Jesse B. Baxter,
s/Fred N. Russell,
Planning Board of Milton.

The Selectmen and surviving members of our Board, acting jointly, unanimously elected Edward G. Lowry, Jr. to fill the vacancy caused by Mr. Tucker's death.

Respectfully submitted,

JAMES S. RUSSELL,
DAVID A. HEFFERNAN,
JESSE B. BAXTER,
FRED N. RUSSELL,
EDMUND G. LOWRY, JR.
Planning Board of Milton.

REPORT OF THE TRUSTEES OF THE MILTON PUBLIC LIBRARY

January 12, 1931.

To the Citizens of the Town of Milton:

Read the Librarian's report is our first advice to those who would know what the Library has accomplished in 1930 and her report sets forth interesting statistics of its sixty years of being. It is not necessary to repeat them in this report by the Trustees, but the year's circulation of 148,562 is fully worth emphasizing, and also the fact that this is an average of 9½ books for each inhabitant of the town. It must be restated too that this takes no account of the books used but not taken out at the Library or its branches.

The demand for the school children shows need of more money for duplicate books, a need naturally following on the heels of the increased circulation.

In November 1929 the new branch building at Mattapan was opened to the public. It is of considerable interest that there has been returned to the town treasury a balance of $2,697.94 after all the needs of the undertaking had been met. The income of the Oakland Hall Fund paid for the books added. Of greater interest in the estimation of the Trustees is the increase in circulation of books from that branch, 7509 over the previous year, and the use of the reading room for study and reference work. In the old quarters the congestion made study impossible even had it been possible to house the necessary books. We must congratulate Miss Hills, the assistant at Mattapan on her success.

The Trustees feel that East Milton is entitled to similar improvement. Land is now owned by the town, running through from Edge Hill Road to Hollis Street, which waits only for a vote with appropriation for a library branch. An appropriation of $40,000, the same sum appropriated in March 1929 for Mattapan, would enable the Trustees to erect and equip a building adequate for present needs, and further, the Department would thus be rounded out to a system which would provide for all normal growth for many years to come with only running expenses to be cared for.

It would seem that the present is a good time to get a contract for such a building. The question is put before the Town Meeting by citizens who are not on the Library Board and it remains to be seen what action will be taken by the Town Meeting members in March.

Russell Reading Room serves a small settlement but serves it well.

House to house delivery grows and is economical. It can not be expected to furnish the reference books supplied in the closely settled communities like Mattapan and East Milton and the Centre.

Trouble with the boiler installed only this summer is to be regretted, but fortunately the Library suffered only a scare. The boiler is to be made good without further expense by the contractor.

By the death of Arthur H. Tucker the Library has lost a wise and devoted Trustee always ready to help and notably valuable in his knowledge as a builder. Elected in 1902, he served on the committee to build the main Library and in all emergencies requiring his special knowledge.

Mr. Tucker's interests were broad and a long cherished hope of his was that the Town print its old Records. This, by a vote of the Town, was done by a Committee of which Mr. Tucker was Chairman, and copies are on sale at the Library and its Branches.

The Board, meeting jointly with the Selectmen to fill the vacancy, chose Roger Wolcott to serve until the March meeting of 1931.

The Librarian attended the conference of the American Library Association at Los Angeles largely at her own expense.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman,*
FRANK E. LANE, *Treasurer,*
STANLEY CUNNINGHAM, *Secretary,*
VINCENT LEROY BENNETT,
ALEXANDER McADIE,
ROBERT L. RAYMOND,

FREDERIC M. STONE,
ROGER WOLCOTT,
Trustees of the Milton Public Library.

REPORT OF LIBRARIAN

January 12, 1931.

To the Trustees of the Milton Public Library:

GENTLEMEN:

I have the honor to submit my report for the year ending December 31, 1930:

This is an anniversary year for the library. Sixty years ago, in March 1870, the town voted "to appropriate the sum of $3000 for a public library, to be paid to trustees when a like amount had been raised by subscription or donation and secured to the satisfaction of the selectmen." As a result of this vote and through the efforts of generous citizens who subscribed to the fund, the first public library in Milton was opened in Milton Village on February 23, 1871.

Some of our townspeople can remember those pioneer days when we were housed in one room in a dwelling house on Wharf Street. Many can remember when we moved, in 1881 to what the trustees then considered the spacious quarters in Associates Building and most of us recall the proud day in 1904 when we dedicated the present building.

Our predecessors did not always realize the importance of keeping records of statistics, so we occasionally have meagre data of those early years. We know that at the end of the first year, 15,500 volumes were circulated, but the following year we read that "the trustees are unable to state the precise number of books taken out during the second year which is now just ended, but it is considerably larger." However, they were much concerned with the type of book read and in 1875 we learn that "the readers are as numerous as ever and the reading seems to be equally solid and select."

In 1876, which was the year of the founding of the American Library Association, we learn that these far seeing men of the first Board of Trustees were already sensing what was to become in the near future one of the essential features of library work, i.e.: work with children, for their report reads, "A special effort was made this year to increase the number of books for the young, with the hope of interesting a larger number of our youngest readers."

In view of this glance into the past it may be interesting to see the comparative figures of growth during sixty years.

	1872	1880	1890	1900	1910	1920	1930
Circulation	15,550		15,165	31,367	61,919	85,632	148,562
Vols. in Library		8,636	10,349	12,561	24,064	32,319	43,001
No. of borrowers	790	1,860	597	1,475	3,117	4,442	8,230
Town Appropriation	$1,200	$1,342	$1,848	$3,800	$9,900	$12,405	$22,500
Fines collected	$69.38	$46.00	$51.00	$50.00	$403.78	$684.04	$1,132.91

So much for the past. During the last ten years we have heard much of the harmful influence upon our reading habits of the automobile, the moving pictures and the radio. In spite of these adjuncts to our modern civilization, the people of Milton borrowed from the library and its branches, 148,562 volumes, which is an average of nine and one-half books for each inhabitant in the town, and a gain over last year of 12,112.

We are not prepared to say whether the kind of books read would measure up to the standards of that Board of 1875 who judged those then taken out to be "solid and select." We do know that almost one third of the books issued were non-fiction and that Biography led, with travel second and literature a close third.

It has been a particularly busy year at the central library for naturally as the circulation increases, the amount of routine work grows proportionately. We have

answered or attempted to answer a wide variety of reference questions. A few asked at the desk have been:

What is the legend about the painting of the Madonna of the Chair?
What is the Russian word for "dead"?
What is the horticultural name for begonia?
Why is Indian Summer so called?
Some poetry to recite "because my Uncle is engaged."
What is the name of the Army Post at San Antonio, Texas?
What is the origin of the Wedding Ring?
On what date did Easter come in 1884?
Who wrote the poem "The face on the bar-room floor"?

The gain in circulation in the Children's Room has been 1219. The Children's Room is the drawing point for all agencies in our system and after schools and deposits are selected each month it leaves a scant choice of titles for the children who are the regular visitors to the Central Library. We, therefore, need more money for books in this department, not for new titles, but for replacing and duplicating the standards and old favorites.

The mounted picture collection has been increased by six hundred new pictures. There is a steady demand from the schools for this material and 2,864 have been issued in addition to 12,894 books circulated from class room libraries.

A valuable addition to our illustrative material is the Harriet Whittier Post Card Collection. Last spring Miss Whittier gave us approximately 1450 foreign post cards with boxes to file them in. They have been in constant circulation.

As a part of our participation in Good Book Week we issued a special bulletin of children's books, and most of the titles were on display in the children's room. During this week the children were asked to vote for their favorite book and "Tom Sawyer" proved to be first choice of both boys and girls.

When the last report was read Mattapan Branch had been housed less than two months in the new building. As had been anticipated, its first full year has been a busy and a very useful one. Thirty-eight thousand six hundred eighty-three books have been issued, 24,336 from the adult collection and 14,347 from the juvenile, with a total gain of 7,509 over 1929. Cards have been given to 304 people which is almost fifty per cent of our total registration of new borrowers.

The younger children flock in after school and in the evenings the tables are filled with High School boys and girls doing reference work.

Miss Hills has reason to be proud of this first very successful year in her new branch.

We are glad to report that the lecture room has already proved its usefulness and several small meetings have been held there.

It was a great disappointment that money was not appropriated in March for a new Branch Library building in East Milton. Although Mr. Kidder's generous gift of land for this purpose was accepted, by the town, the money to build was not appropriated. Consequently we are still struggling along in the cramped quarters that we have occupied for thirty-five years. There is no reason why East Milton should not circulate as many books as does the Mattapan Branch given an equal opportunity for service. As the figures now stand, the circulation for this Branch in 1930 was 28,662, almost an even ten thousand less than the number issued at Mattapan.

Our third and smallest Branch, Russell Reading Room, circulated 3,815 books. This Branch is used by practically every one in the neighborhood and since the population there varies almost not at all from year to year, the work necessarily varies little.

The delivery wagon continues to be a valuable asset to our service. During the year 14,067 were delivered through the House to House Delivery service and of this number 11,936 were issued directly from the truck.

During the summer a new boiler was installed. On November 20 a crack in one of the drums necessitated closing down the heating plant for two days but owing to the unusually warm weather and the fine spirit of the staff who were willing to keep at work under most unfavorable conditions, we did not have to close the library.

There has been one resignation. In June Miss Mary P. Lane left to attend Simmons College Library School. Mrs. Grace M. Simpson, who had been a former member of the staff, was appointed to take Miss Lane's place.

For several years the Milton Garden Club has furnished us with flowers during the summer months. We are greatly indebted to them and particularly to Mrs. Frank M. Eshleman, who had charge of the work last summer and whose efforts were so much appreciated by all who came to the Library.

Once again the library has met with a great loss in the death of Arthur Holmes Tucker. For twenty-eight consecutive years Mr. Tucker served on the board and during that time was a member of many committees. As a staff we turned to him as a matter of course whenever a local history problem had to be solved. We shall miss his patient and kindly help.

The members of the staff have attended meetings of the Massachusetts Library Club and have taken University Extension Courses and courses offered by the Massachusetts Division of Public Libraries.

The trustees allowed the librarian time to attend the annual Conference of the American Library Association at Los Angeles in June. For this and for constant cooperation she extends a grateful acknowledgment.

Respectfully submitted,

CARRIE S. ALLEN,
Librarian.

APPENDIX I

Art Room Exhibits

Oil paintings by Charles W. Hudson; water colors by M. Donald Plummer and Stephen Yocobowski; Brulé prints by John W. Robinson; work of Milton Artists; Tercentenary Exhibit, arranged by Milton Historical Society; paintings and pastel portraits by Sonia Mazer; water colors by Russell Goodwin; oil, water colors and block prints by William B. Hazelton; Paintings by Mrs. John V. Apthorp.

GIFTS

Books, Magazines and Flowers

REPORT OF THE SEWER COMMISSIONERS

January 1, 1931.

The Board of Sewer Commissioners makes the following report of operations of the Sewer Department during the year ending December 31, 1930.

General

Population by the census of 1930	16,397
Estimated length of streets of the town (miles)	83.15
Percentage of length provided with sewers	34.4
Method of disposal	Metropolitan system

Collection Mains

	For Sewage	For Sewage and Surface Water.
Linear feet of pipe (measured)	157,135.0	700. (storm overflow)
Linear feet extended during the year:		
By town	7,903.8	
By private parties	2,444.8	
Number of manholes	765	
Number of inverted siphons	1	
Number of storm overflows	1	
Number of emergency overflows	1	
Number of automatic pumping stations	1	
Linear feet of force-main (12″)	960.6	
Number of gate chambers on force-main	1	

House Connections

Number made during the year	133
Number of stoppages coming to the notice of the department	19

Discharge of Sewers

Estimated population using the sewer system	12,030
Number of buildings connected	2,311

Financial

Total cost of collection mains to December 31, 1930 (including the East Milton sewer and drain through Babcock Park District	$557,637 88
Bonded debt at date (including East Milton sewer and drain bonds)	$161,000 00
Average rate of interest on bonds	4.087%

For details of sewer construction and maintenance accounts, reference is made to the Financial Report compiled by the Town Accountant, as shown elsewhere.

The sewer extensions made during the year were as follows:

By the town: Adams Street, Reservation Road to Otis Street, 452.6 feet; Blue Hills Parkway, (East side), Parkway Crescent to Parkway Crescent, 410.2 feet; Cedar Terrace Street, 280.0 feet; Edge Hill Road, from Collicot School lot to Lawrence Road, 696.7 feet; Elton Road, 293.6 feet; Fullers Lane, 322.6 feet; Governors Road, from

Rowe Street to Edge Hill Road, 201.5 feet; Granite Avenue, from Squantum Street, northerly, 456.0 feet; Howe Street, from trunk sewer to Wood Street, 599.3 feet; Lawrence Road, from Edge Hill Road to Elton Road, 312.9 feet; Libby Road, 165.5 feet; Parkway Crescent, 67.0 feet; Squantum Street, from Augusta Road to Cedar Terrace Street, 1642.7 feet; Wood Street, 1028.2 feet; Blue Hill Terrace Street, from Crown Street to Mulberry Road, 776.0 feet; Brook Road, from Pleasant Street to Hillcrest Road, 199.0 feet.

By private parties: Augusta Road, 332.5 feet; Hurlcroft Road, 879.8 feet; Taff Road, 313.1 feet; Pillon Road, 919.4 feet.

J. W. ROLLINS, *Chairman*,
FRED Y. MARSHALL,
STANLEY CUNNINGHAM,
Board of Sewer Commissioners.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Milton, Mass., January 14, 1931.

Honorable Board of Selectmen:

GENTLEMEN: I herewith submit my report as Sealer of Weights and Measures for the year 1930:

Number of scales sealed	975
Number of scales condemned	5
Number of scales adjusted	20
Number of inspections	200
Number of reweighings	190

Respectfully submitted,

JAMES SANGSTER,
Sealer of Weights and Measures.

REPORT OF THE HIGHWAY DEPARTMENT

Milton, Mass., January 9, 1931.

To the Honorable Board of Selectmen:

GENTLEMEN: I submit herewith my second annual report as Superintendent of Streets.

"Service" has been the slogan of the department and the workmen have co-operated splendidly.

Highway Construction

The public streets resurfaced this year are as follows:

Street	From	To	Length	Width	Sq. Yds.
Brook Road	100′ east from Blue Hill Ave.	325′ east of Blue Hill Ave.	225	24.5	613
Brook Road	At Randolph Ave.		206	25.0—44.0	888
Brook Hill Road	Eliot Street	West Side Road	735	25.5	2,082
Canton Avenue	Robbins Street	Atherton Street	3,150	25.3	8,890
Centre Street	Reedsdale Road	Sias Lane	665	25.6	1,942
Edge Hill Road	Adams Street	Boulevard Street	400	15.5—23.0	1,010
Grafton Avenue	100′ north of Alden Road	Alden Road	286.5	17.5—37.5	614
High Street	Eliot Street	Canton Avenue	500.0	17.0	944
Hinckley Road	Fairfax Road	Ridge Road	691	24.0	1,843
Oak Street	Blue Hill Avenue	Brook Road	410	18.0	820
Thacher Street	50′ south of Central Avenue	293′ south of Central Avenue	243.5	21.0	568
Washington Street	Johnson Street	Town Line	123.0	25.0	342
			7,635. ft. 1.4 miles		20,556 sq. yds

Following our program of last year we are continuing to repair or resurface the business sections and most traveled highways.

The business area at Central Avenue and Eliot Street was beyond repair and was resurfaced with a vulcanized sheet asphalt pavement by Simpson Brothers Corporation. From Milton Police records it has been shown that there is less skidding on roads of this type than any other type of road in Milton.

A small area on Adams Street at Squantum Street was covered with a sheet asphalt, called Macasphalt. This is a new product, less expensive than the type of sheet asphalt formerly used. I am not ready to report on the results until it has been in service for at least a year.

Canton Avenue

Canton Avenue has been resurfaced with asphalt macadam, from Robbins Street to Atherton Street, a length of three thousand one hundred forty-nine feet (3,149′) with a uniform width of twenty-five and three-tenths feet (25.3′) and should give many years of service. The Boston Consolidated Gas Company decided to extend their main before this resurfacing job was done, and thus co-operating, helped to reduce the cost of this work.

Centre Street

The part of Centre Street between Reedsdale Road and Sias Lane was in such poor condition that a new surface was required.

Brook Hill Road

A certain portion of Brook Hill Road was given a new surface last year. The remaining seven hundred thirty-five (735) linear feet has been laid this year, thus completing the construction on this street.

High Street

For a number of years High Street has been a source of trouble. Most of the storm water was carried on the surface to catchbasins located on the lower end of the street. The old surface was so shaped that the water ran across the road in places and down the center of the street in others. Conditions were remedied by cutting down the gutters, shaping and rolling the center to form a crown, and covering this with four inches of broken stone penetrated with asphalt. This street should now give good service for many years.

Hinckley Road

Hinckley Road, from Fairfax Road to Ridge Road, was resurfaced with asphalt macadam. Town labor was used on this construction and the expense was met by the Boston Consolidated Gas Company as payment for the installation of a gas main through this territory.

Oak Street

Oak Street was resurfaced from Brook Road to Blue Hill Avenue after the trunk line drain had been installed.

Town Farm Lane

Town Farm Lane was shaped with a road scraper, rolled and a coating of sixty-five (65) per cent asphaltic oil was then applied. When another coat of road oil is applied on this lane next summer it will be in good condition for several years.

Betterment Streets

In response to petitions by the abutters, fifteen (15) Betterment Streets were constructed by the town. Surface drains were laid in these streets and the necessary catchbasins and manholes were installed.

1930 Betterment Streets

The streets constructed under the Betterment Act this year are as follows:

Name	From	To	Length Ft.	Width Ft.
Avalon Road	Eliot Street	Lancaster Lane	880	40
Cedar Terrace Street	Squantum Street	Hope Avenue	900	40
Churchill Street	Blue Hill Avenue	Blue Hills Parkway	915	30
Elton Road	Fullers Lane	Lawrence Road	415	40
Garden Street	Edge Hill Road	Warner Road	910	40
Governors Road	Edge Hill Road	Warner Road	930	40
Governors Road	Brook Road	Edge Hill Road	783	40
Hazel Street	Pleasant Street	Private Land	570	40
Howard Street	Washington Street	Private Land	297	30
Lawrence Road	Pleasant Street	Elton Road	270	40
Meredith Circle	Reedsdale Road	Reedsdale Road	1,362	46

Garden Street, Governors Road from Edge Hill Road to Warner Road, Governors Road from Brook Road to Edge Hill Road, Meredith Circle and Wood Street were awarded to Octavius Menici, the lowest bidder. Cedar Terrace Street was awarded to E. C. Sargent, the lowest bidder. The other streets were constructed by the Town. All of these streets have been completed and a detailed report of the amount expended has been submitted to the Engineering Department in order that assessments may be made to the abutters.

Alteration of Adams Street and Edge Hill Road

This work was done very late in the fall and as no difficulties were encountered, it was completed before the ground froze. The granolithic walks were built by town labor, and the concrete used was furnished by a company which supplies the transit mixed concrete.

Road Oiling

Less money was spent for oiling because the heavier grades of oil were used last year and many of the streets required no oil this year. Nearly all the oil used this year was eighty-five (85) per cent asphaltic. This was covered with stone chips and rolled in with a road roller. The Brush Hill section for a distance of about three miles was oiled by town labor. This expense was met by the Boston Consolidated Gas Company who had broken the surface the preceding year for the purpose of laying gas mains.

Granolithic Sidewalks

All sidewalks laid this year were done by contract, and the cost to the Town was twenty-six cents (.26) per square foot.

Sidewalks Built During 1930

Location	Length	Sq. Ft. of 4″	Sq. Ft. of 6″
Adams Street from Hollis Street to Edge Hill Road	181.0	1,436	
Andrews Road on the southerly side	206.0	692	238.0
Central Avenue at Eliot Street	159.0	795	
Edge Hill Road from Adams Street to a point opposite Grafton Avenue	393.0	2,820	
Garden Street at Edge Hill Road	76.0	499.0	
Governors Road at Edge Hill Road	255.0	1,252	141.0
Grafton Avenue	69.0	234	79.0
Thacher Street west side from Pine Tree Brook to Blue Hills Parkway	2,268	10,289	3,063
Warren Avenue at Dyer Avenue and from Dyer Avenue to Thacher Street	378	1,114	395
Washington Street at Town Line	58	196	88
Wood Street at Granite Avenue	82	585	
	4,125.0	19,912.0	4,004.0

Drainage

We have installed more drainage this year than has ever been done in a single year before. It has been laid to line and grade, and the required number of catchbasins and manholes installed. The greater part of this work has been by Town labor.

In the early spring flood conditions on Reedsdale Road near Meredith Circle were such that something had to be done at once. The culvert crossing was found to be obstructed, and when excavated, it was found absolutely blocked by the grading of the land on the lower end. This condition was remedied by extending the culvert one hundred feet (100′) across the adjoining lot.

The drainage on all the public streets of the Thacher Street district, in the Mattapan section, is complete. Five thousand, three hundred and fifty dollars ($5,350.00) had been voted which should have completed only two of these streets. To create work for the unemployed it was decided to proceed with the drainage planned for Warren Avenue, Dyer Avenue, Houston Avenue and Kahler Avenue. Through the efforts of the Unemployment Committee, two thousand dollars ($2,000.00) was transferred from the Reserve Fund to the Drainage Account, and a foreman and sixteen laborers were occupied on this work to December 31. When the streets in this vicinity are properly graded the water nuisance will be entirely eliminated, and because of proper drainage, the streets will last much longer.

Bridges

Granite Avenue: It has been necessary to make frequent and extensive repairs on this bridge during the last two years. Had those repairs been delayed the bridge would have been closed to traffic. This year the motors have been taken out, re-wound, and the old fender piers were rebuilt. The expense of this work is divided equally between the City of Boston and the Town of Milton.

Adams Street: This bridge was originally an old, narrow, stone arch bridge and was widened by adding steel and wood structures to the sides as traffic increased. Several years ago the upstream side was remodeled and encased in concrete. The down-stream side is now badly in need of repairs. At present the span-girders and cross members

are of iron, now badly rusted, which supports a wooden decking and sidewalk. The steet portion is covered about twelve inches deep with broken stone, on which is built the roadway. I recommend the removal of all the upper structure. All the iron work should be encased in reinforced concrete and the decking should be replaced by a concrete slab. I am asking for an appropriation for this work.

Ice and Snow

This year we have had no unusual snow storms. Snow removal has been light, but we have had to do a great deal of sanding because of the icy condition of the roads and sidewalks.

Town Yard and Equipment

Improvements made at the Town Yard have helped to care for things in a more efficient and economical manner.

The new roller has been in constant use up to the time the ground froze.

I have spent seven hundred thirty-one dollars and six cents ($731.06) for the rent of compressors, three thousand seven hundred eighty three dollars and fifty-three cents ($3,783.53) for rent of an excavator and two thousand eight hundred eighty-three dollars and twenty-four cents ($2,883.24) for truck hire this year. I am therefore asking for two five ton trucks, a power shovel, and a compressor. The total cost of this equipment would be about three and one half times as much as the expense of renting for one year but the machines, with care, will last from seven to ten years which will eventually mean a saving to the town. With proper equipment, more town labor can be employed and less work given to contractors.

An effort is made to investigate every request immediately and if it is work required of this department, it is done promptly and cheerfully. It is the desire of this department to cooperate with the citizens of Milton.

On recommendation of the Town Accountant a new system of bookkeeping, corresponding with the State System, has been installed in this office.

Details of the financial statement will be found in the report of the Town Accountant.

In conclusion, I wish to extend my sincere thanks to the Selectmen and other departments of the town for their cooperation.

Respectfully submitted,

FORREST J. MAYNARD,
Superintendent of Streets.

REPORT OF BOARD OF WATER COMMISSIONERS

Milton, Mass., January 13, 1931.

To the Citizens of the Town of Milton:

The Board of Water Commissioners presents herewith its Annual Report for 1930:

Operations

Operating Receipts	$118,015 68	
Operating Expenses (not including property retirement)	66,673 11	
Net Operating Revenue		$51,342 57
Interest	$13,990 01	
Bond Retirement	25,000 00	
Total Fixed Charges		$38,990 01
Balance for property retirement and new construction		$12,352 56*

*The law under which the Department operates requires that the Commissioners shall fix water rates annually which shall be sufficient to cover cost of water, cost of operating, interest, and retirement of loans and bonds, and to pay for new construction of $10,000 each year.

The Department's receipts increased slightly over those for 1929.

The cost of water purchased increased substantially. This increase was caused by the Metropolitan District Commission's supply extension projects and is a condition confronting all cities and towns in the Metropolitan area for some years to come.

Operating and Maintenance Expenses, other than cost of water, increased slightly, due largely to relocation of mains because of changes in street grades.

Conditions in 1902 (the year the Department was established) and during 1929 and 1930 are presented in the following table:

	No. of Fire Hydrants in Use	No. of Meters in Service	Miles of Mains in Use	Population April 1, by Assessors
1902	266	1000	35	7,100
1929	578	3670	74	15,503
1930	591	3814	76	16,220

The Department regularly employs eighteen persons and continues to be operated efficiently.

Financing

The Department has financed its main installations for 1930 by borrowing $40,000.00 on a note which will be refunded by bonds. While the Department was authorized to spend $75,000.00 on 1930 for this purpose, the slowing up of new building in the town made it unnecessary to spend more than $40,000.00.

Water Bonds

The Legislature has recently required that our Water Department Bonds be issued for fifteen years instead of thirty years as formerly.

The increase in the Metropolitan Water rates, and the necessity for retiring double the amount of bonds issued in 1930 and each year thereafter under the law mentioned above, makes it probable that the Commissioners must increase the income of the Department for 1931 or the Town must take care of a deficit not later than 1932.

During the last few years the Town has voted authority to the Commissioners to issue bonds to the amount of $500,000.00. The Commissioners have in fact issued bonds and one note to the value of only $415,000.00 leaving a balance of $85,000.00 authorized but not issued.

For simplicity, the Commissioners recommend that the authorization of these $85,000 of unissued bonds be rescinded and that a new authorization be given to issue bonds to the value of $100,000.00.

It is estimated that the money secured from this issue will be adequate to finance essential extensions and improvements.

Articles covering the issuance of these bonds, and for the operation of the Department in 1931, have been inserted in the Town Warrant.

Respectfully submitted,

EDWARD L. HURD,
EDWARD E. FORD
WILLIAM J. McCLUSKEY,

Board of Water Commissioners.

G. FRANK KEMP,
Tax Collector.

FUNDS HELD BY THE TOWN

Perpetual Care Fund

Amount held December 31, 1930 . . . . . $88,229 50

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15–18, of the Public Statutes.

Jason Reed Fund

Amount held December 31, 1930 . . . . . $2,626 67

The interest on this at the rate of 4½ per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. Reed Public Park Fund

Amount held December 31, 1930 . . . . . $6,488 70

Extract from the Will of Elizabeth T. L. Reed

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the "Jason Reed Fund," and the income thereof shall be applied to the preservation, care, improvement, or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

Mary L. Peabody Fund

Amount held December 31, 1930 . . . . . $5,177 50

The clause under which this bequest is given as follows: "To the Selectmen of the Town of Milton, Massachusetts, $5,000, to be invested and the income thereof to be distributed annually to the poor at Christmas."

REPORT

OF THE

SCHOOL COMMITTEE

AND THE

Fifty-first Annual Report

OF THE

SUPERINTENDENT OF SCHOOLS

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith as its main report the report of the Superintendent of Schools, to which it invites your careful attention.

The Committee acknowledges with pleasure the receipt of the following gifts to the several schools as indicated:

High School:

Picture—Court Scene, King Lear—Class of 1930
Picture—Landing of the Mayflower—Class of 1930
Picture—Suffolk Resolves House—Lieutenant Edwin Fairbanks
Bits of Milton History by Arthur Stanwood Pier—Milton Historical Society

Belcher School

Bulbs—Milton Garden Club
Fish Aquarium—Milton Garden Club
Bits of Milton History by Arthur Stanwood Pier—Milton Historical Society
$50—Belcher-Collicot Association
American Flag—Mrs. James Park
Original U. S. Flag—Frank B. Young

Collicot School

Bulbs—Milton Garden Club
Bits of Milton History by Arthur Stanwood Pier—Milton Historical Society
$50—Belcher-Collicot Association

Glover School

Bulbs—Milton Garden Club
Bits of Milton History by Arthur Stanwood Pier—Milton Historical Society

Tucker School

Bulbs—Milton Garden Club
Bits of Milton History by Arthur Stanwood Pier—Milton Historical Society
Christmas tree and decorations—Tucker School Association
Cleaning of school statuary—Tucker School Association

Vose School

Bulbs—Milton Garden Club
Bits of Milton History by Arthur Stanwood Pier—Milton Historical Society
French Steel Engraving—"Cornelia and Her Jewels"—Mrs. Josiah H. Vose

After careful consideration of the estimated cost of maintaining the schools during the year 1931, your Committee recommends the appropriation of $322,000. (Mary Miley dissenting.)

Respectfully submitted,

GEORGE F. MOULTON, *Chairman*,
ARTHUR W. VOSE, *Secretary*,
HARRIET WHITTIER,
MARY MILEY
JAMES G. RUSSELL,
HAROLD B. GARLAND,
School Committee.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

I present for your consideration my annual report for the year 1930. No attempt is made in this report to discuss the full scope of public school education in Milton. Many of the details are brought before you from time to time in the regular meetings. An attempt is made, rather, to set forth some of the more important phases of the educational work going on in the schools during the past year. I call your attention to the special reports, included in this, from those directly in charge of the several branches of health education. The usual tabulated statistics are included in the appendix.

Pupil Ability and School Progress

Equality of opportunity for all children in the public schools is a principle of education accepted universally. Just what is equality of opportunity is not so widely understood.

The common relationships of life among children as among their parents reveal conclusively that all are not created equal in respect to their capacity for growth. Since this is true, the same opportunity for all pupils in school may be equality of opportunity for none. To scale the horizontal bar on the athletic field at a height of four and a half feet in the running high jump may require training and the limit of effort for most high school boys, but it is too high for some with any amount of training, while it offers no challenge to a boy who can jump five feet. The same is true in other activities which depend upon mental capacity. The single standard of achievement established for the large group of pupils of medium ability in any grade in school is beyond the ability of some and offers little opportunity for development to those of greater capacity for achievement.

The requirement that all children in a grade shall pass the same standard in all studies and school activities operates as a leveling tendency that may overwork and discourage a child of limited mental capacity, and deprive the child with a brilliant mind of incentive for full development. It is true that in some cases it may work to the advantage of the slow pupil, if he is not discouraged to the point of accepting himself as a failure. Under constant pressure to keep up with his class he may develop habits of industry that are of greater value to him than are some of the studies with which he struggles. When he leaves school and enters a field of activity in which he is judged by what he can do through reliable persistent effort, he may achieve success beyond what might be expected when judged according to his school marks in scholarship. By the same measure it may work to the disadvantage of the pupil of superior mental capacity. He is under no pressure to use his full mental powers since he can accomplish the general standard of achievement with little effort. When he enters the field of activity in which book knowledge is not of first importance, he may find that his greater mental powers were not developed at the natural period in school. His later achievement may be considerably less than what it might have been, if the standard required of him had been set according to his ability. The result is a general level of accomplishment. This leveling tendency results in great waste of brain power, the most valuable natural resource of the community.

There has been encouraging progress in our schools in the direction of making the

educational growth of children of greatest importance, rather than the artificial lines of school organization or the mastery of information from books. Opportunity groups have been provided for in several of the elementary schools. Their purpose is to provide a way for pupils with ability above the average to progress at a rate better suited to their needs, unrestricted by grade lines and standards. An attempt is made constantly to provide the proper motivation to bring pupils of high mental ability up to a corresponding level of achievement. The attitude of these pupils toward their school work and the amount and quality of accomplishment indicate that they are profiting by the opportunity given them.

An obstacle which has long stood in the way of individual pupil progress is the common desire to reduce all school learning to final terms that apply to all pupils, and measure those terms by the same mathematical standards. The final terms have generally been the amount of information a pupil may give back when tested on the contents of books, and the measure has been that part of one hundred that shows his approach to perfection.

School failure as indicated by such marks has been accepted too readily as actual failure of the child, rather than of those responsible for his education. The price which a pupil pays for failure of this kind is generally a feeling of incompetency instead of confidence in his own ability, discouragement in the place of interest in school work, and a sense of inferiority instead of eagerness for doing things worth while.

Those who receive marks above what is required for promotion have no need to use their greater mental powers which are allowed to remain undeveloped.

Our teachers have been sensitive to the need for keeping each pupil actively learning near the limit of his capacity without his paying the price of failure. Acting upon the suggestion of the Superintendent a committee of elementary school principals studied the problem over several months and prepared a form of report to parents of the pupil's progress in school which was based upon his achievement in relation to his own ability rather than in relation to a single standard of achievement for all pupils. The report includes not only accomplishment in scholarship but a wider range of school activities which are quite as important from the standpoint of a child's growth.

The report has been received very favorably by the many parents because of its purpose and the greater amount of information it brings to them several times during the school year. While it requires more of the teacher's time to prepare, it also insures careful thought on her part concerning a large part of the pupil's progress not touched upon by the former report card. It is bringing about a closer relationship among parents, teachers, and pupils in the elementary schools.

School Progress of Under-age Pupils

At the beginning of the school year in 1926 the rule relating to admission of children to kindergarten and to first grade was amended to provide that children mentally above the age requirement limit be admitted during the first month of the school year.

This provision was made to meet the constantly recurring problem of the few children who would be required to remain out of school for another year under the rules then in force, because they were a few days or weeks under the necessary chronological age.

A request sent to principals of the elementary schools in December, 1930, to indicate in which quarter of his class in academic work each pupil stands who was admitted under provision of the amended rule, has produced some interesting information relating to progress of these pupils as compared with that of all others in their respective classes. The information is based upon the judgment of the teacher in each room in

which the children in question are now attending. No objective tests have been used and no pretense is made that this is a scientific study of the matter.

During the five years in which the plan has been in operation, 303 children qualified for admission to kindergarten and first grade. Some have moved to other communities. Of the total number, 258 are now in our schools, distributed in kindergarten and the first four grades of the elementary schools and in the opportunity classes for rapid advancement and enriched courses.

In the highest quarter of their class there are 33 per cent of the whole number now in school; in the upper half there are 62 per cent; and in the lowest quarter there are 16 per cent.

It is significant that of those in the lowest quarter, 66 per cent have been in school less than four months. The difficulty of accurately ranking children who have attended kindergarten or first grade for such a short time on the one hand or of the children giving evidence of their real ability on the other, may be a possible explanation. Apparently the condition rights itself with longer school attendance, since only seven and a half per cent of those who have been in school a year or more are now in the lowest quarter. Factors such as illness and other conditions that might have kept individual pupils from school achievement commensurate with mental ability have not been investigated in relation to this study.

Investigations made elsewhere show that there is no greater tendency towards illness among under-age school children than among others.

These facts indicate that under-age children are successful to a degree somewhat above the average for their school grade, and that their ability to excel becomes more pronounced as they progress through the elementary grades.

It is reasonable to expect each one of these 258 children to finish school and begin life's work a year earlier because of the revision of the rule governing admission to school.

HISTORICAL PAGEANT

The outstanding event of observance in the public schools of the Tercentenary year was the historical pageant presented in Cunningham Park on the seventh of June. More than eleven hundred children with their teachers participated. Following is a brief report from the writer of the Pageant.

Mr. Horace F. Turner,
Superintendent of Schools,
Milton, Massachusetts.

My dear Mr. Turner:

In accordance with your request, I herewith submit a brief account of the Milton Pageant, given June the seventh, 1930.

Full credit for the inspiration of this Pageant should be given to Miss Bessie B. Allen, Principal of the Belcher School, and Mr. James G. Russell, President of the Belcher School Association.

The pupils of this school, under the very able leadership of their teachers, have given a gymnastic fete for a number of years. In considering a new subject for the usual annual Field Day, in January last, Miss Allen and Mr. Russell felt that one subject only was fitting for this, the Tercentenary year, that of some historical pageant connected with the Town of Milton.

It was so decided. On Miss Allen's invitation, I undertook to write a pageant suitable for presentation by elementary school pupils.

The theme chosen was the history of the Town of Milton. With this, then, as the main line of thought, certain events and influences were chosen as subjects for the episodes necessary to give proper historical sequence and make the Pageant a related whole.

Subjects to be portrayed in the episodes were the unrest of the Puritans in England; the life of the Indians, to be shown by camp life, games, and dances; the coming of Miles Standish and his Pilgrim comrades to what is now Milton,—the first white people here; his attempt to start a trading post here with the Indians; the beginning of schools; the coming of a Puritan minister, and this coming in contrast to a scene showing the luxurious manner of living of a Royal governor; an example of Colonial determination as opposed to Royal rule at the Hutchinson house; our great wars, fought for right and justice; dances of all the peoples who help to make this Town one of "Opportunity"; lastly, the gathering of all Pageant participants under one flag, our flag, to show that "wider patriotism which binds" all the people of our country together.

The events to be presented were grouped in nine episodes. The period of time was from 1620 to 1930.

Two things were kept constantly in mind in writing the Pageant; first,—to have it connect in every detail, historical or otherwise; second,—since many parts were to be taken by young children out-of-doors, sharp contrasts, color, motion, dances, and rhythmic games would have to be depended upon to produce the desired effect, rather than the spoken word or fine dramatic action. As a consequence many dances and games, true in every detail historically, were incorporated in the various episodes throughout the Pageant.

With these things in mind, the Pageant was produced as it is given on the Program.

The spot chosen for the presentation at "The Pool" at Cunningham Gymnasium grounds was beautiful and historic. The depth of scene, the atmospheric variations, the trees and grounds surrounding the immediate stage, with the delicate reflections in the water, made a scene of surpassing beauty not to be forgotten.

Yours truly,

GRACE WOODBURY.

January 19, 1931

Group of Belcher School Pupils in Costume for the Governor Belcher Episode

REPORT OF SCHOOL PHYSICIAN

My dear Mr. Turner:

In submitting my annual report I wish to express the feeling that a fine spirit of cooperation is being developed between the parents, the school nurse and the school physician. It has been extremely gratifying to see children return to their classes with remedial defects removed. Undoubtedly this has been reflected in better scholarship in the class room. I wish the parents to bear in mind that the report of the physical status of their children cannot be as complete as that of the family medical advisor, and that the final review should rest in his hands.

For the past two years a pre-school clinic has been conducted in May. At this clinic, held at different schools, pre-school children have been examined, and suggestions made as to physical defects and bad habits. In this connection I wish to emphasize the care of the feet. A large number of cases of flat feet have been observed. This condition should receive early corrective treatment to avoid the possibility of deformity.

A yearly physical examination is given to each child. It is in this work that the removal of remedial defects has been observed. While not wishing to over-stress tonsils and adenoids I desire to cite the case of a first-grader in one of the schools whose hearing was 75% impaired. Even though she was sitting in the front seat she could not hear the teacher. Her work was not of passing grade. On recommendation her tonsils and adenoids, badly diseased, were removed. Within one month's time this child's hearing tested normal, and she was enabled to do better work. In citing this case no attempt is made at the spectacular; I wish merely to show that a child cannot make the grade if he or she has the handicap of physical defects or bad habits. A constant check should be had on the child's health.

The fresh-air room at the Collicot school has proved of great benefit to the children. During the school year all of the children in attendance showed a marked gain. It was observed that on their return to school after vacation that many children showed some loss of weight. This was due to a more active play life with less supervision of rest periods. Rest, both mental and physical, plays an important part in the proper development of the undernourished child. Some children require a rest period both before and after meals; in some instances the afternoon nap or rest needs to be continued on days when there is no school. It is possible in most cases to bring the underweight child up to standard, but a tremendous amount of effort along nutritional lines is necessary to bring it about. This, of course, can only be accomplished in children whose remedial defects have been removed.

As in previous years, the Board of Health has immunized the children against diphtheria. Each year finds more and more parents wanting this treatment given to their children. All children should be protected against diphtheria; it may be had for the asking.

Daily visits are made to the schools to examine children who report minor defects. Cases suspicious of any contagious diseases are promptly excluded, and a minimum of communication to others thereby established. First aid treatment is given wherever necessary; more severe injuries are referred to the parents for treatment by the family physician.

In closing I wish to suggest that the yearly inventory of the child's health, as taken by the school physician, is not always enough. The family physician should be consulted at least once a year, and more often when the child shows any deviation from the normal.

Yours truly,

CHESTER L. GLENN, M. D.

School Physician.

January 5, 1931

REPORT OF SCHOOL NURSE

My dear Mr. Turner:

During the spring months of 1930 the Principals and classroom teachers in the elementary schools carried on a kind of Health contest, giving a tag to any child who could show improvement either in weight and general condition, necessary treatment of teeth or remedying of physical defects according to the needs of the case. These tags were sponsored by the Massachusetts Department of Public Health and presented in May. Four hundred and eighty Physically Fit tags were distributed which meant that those children showed a perfect health card. Their teeth were in good condition, their physical defects, if they had any, had been corrected and their weight was very nearly average. Three hundred and nineteen Teeth tags were given out which meant that the teeth of those children needed no treatment, but either their weight was faulty or they had some remediable defect which had not been corrected. Four hundred and seventy-five Improvement tags were given to those children who had made an effort to improve their health habits, but whose defects had received no treatment. We were gratified in going over the Health cards this fall after the annual dental examination to see a notable improvement in general in the care of the teeth. How much of this may have been due to the contest we cannot say, but we feel it is well worth conducting another year as there are still many children to reach. We hope this year the number of tags presented will be much larger.

In March and again this fall the State Clinic re-examined the children who are being followed in the ten year program. These children were all X-rayed and examination showed improvement in nearly every case. We feel that the local Tuberculosis clinic which has recently been established in Milton will prove an excellent help in checking up on some of these girls and boys through the year.

The summer round-up was held again in June and fifty-eight youngsters were examined preparatory to entering school Physically Fit in the fall. We are hoping to conduct this clinic in a little different manner in 1931 and urge all parents who have children entering school for the first time to make an effort to bring them. Of this group of fifty-eight children twenty were found to have some remediable defect, seven of which were corrected during the summer months.

The Fresh-Air room has been filled to capacity this year and the children attending it are living examples of what fresh air and rest will do for a child. The actual gain in pounds is not the only mark by which we measure improvement, but it is perhaps the most tangible evidence. It is interesting to note that every child in the room has made some gain in weight. The greatest gain made by any one child since September, a period of thirteen weeks, is eight and one-quarter pounds and the lowest gain is one and one-half pounds. The average gain per child for the past four months is four and one-half pounds.

This fall we examined the eyes of the Senior and Junior High School pupils and the ears of this same group with the audiometer. Out of approximately eleven hundred we found seventy-five pupils with defective eyesight either in one or both eyes. Many of these had already received attention. Thirty-five had defective hearing in one or both ears. Parents were notified of the findings. In the elementary schools the ears of the children from the third through the sixth grades were examined with the audiometer wherever it was possible. The ears of the smaller children and the eyes of all the children in the elementary grades were examined by the classroom teacher.

We are greatly indebted to the various committees of the Milton Woman's Club, the Social Service League, the East Milton Neighborhood Club, and other associations who have made possible much of our work, either through service or financial aid. Because of this assistance we have been able to save the teeth of one child who required treatment other than filling and who without it would have lost his teeth at the age of sixteen years. Also we have procured glasses for pupils whose academic work and physical health were suffering through faulty eyesight. Milk and some hot lunches are being furnished to our underweight children who need the extra nourishment but who through unfortunate circumstances are not able to pay for it, and clothing is being supplied in homes where it cannot be bought. Last summer these clubs and organizations sent thirty-nine of our girls and boys to summer camps, the duration of their stay depending on the condition of the child. The girls were sent to Cunningham Camp and the boys were sent to the Country Week Camp and Camp Ousamequin which is under the direction of one of the men on the teaching staff at the High School. They reported a most beneficial and highly successful time.

The usual physical examinations were carried on throughout the school system this

year and any defects noted by our school physicians were reported to parents. The most urgent cases are being followed up by home visits. We have questioned before and we ask again, are the parents of these twenty-nine hundred children doing their part in remedying these physical defects in so far as is possible and thus safeguarding the health of their children?

"My child was never sick in his life until he entered school—now it is one thing after another!" How often have we heard this refrain and how much longer must we listen to it? When will parents be able to say, "My child is so well since he started to go to school"? It may be an ideal state to hope for, but surely with all the preventive work which is going on around us it should be attainable. It will take time, schools and parents must cooperate, the child must be taught, but a child that is physically fit, whose physical defects have been corrected and whose weight is average will be mentally alert and will be in condition to resist many of the various annoying maladies to which he might otherwise fall prey.

Much of the Health work that goes on may seem unnecessary to some, but if an underweight, finicky child can develop an appetite and a healthy body through the removal of diseased tonsils, or a child be taught to want to brush his teeth or eat vegetables and drink milk and to go to bed early in order to gain weight and build up his resistance is it not well worth while?

BARBARA ROBINSON,
School Nurse.

December 17, 1930

REPORT OF SCHOOL DENTIST

Mr. H. F. Turner,
Superintendent of Schools,
Milton, Massachusetts.

Dear Sir:

I am submitting the following report for work that has been done at the school Dental Clinics for the school year 1929-1930. This report covers the work accomplished at the Collicot and Vose School Clinics.

In the year past there were a total number of 412 appointments made. Of that number 111 children were discharged as finished or completed for the year. A total of 61 half days were spent at the Clinics. A summary of the work completed at the clinics follows:

Extractions	101
Prophylaxis	104
Amalgam Fillings	146
Cement Fillings	124
Treatments or temporary fillings	5

During the early part of the school year, that is in September and October, a complete dental examination was made of all the pupils and the various defects were recorded on the health cards.

The number of children desiring service continues to grow and the time allotted is not sufficient to completely cover all the pupils on the list in one year, nor is there time to finish as complete all the children seen during the year. As a consequence it has been established as a policy to try to complete all the children eligible in the elementary schools.

Respectfully submitted,

WILBER H. MORRILL, D. D. S.,
School Dentist.

December 27, 1930

Conclusion

I appreciate the manner in which the School Committee have met the problems which have come before them in the year just closed. The successful carrying forward of the whole school program from year to year requires helpful planning and cooperative effort also on the part of all who are in closer relation to the children. I wish to express full appreciation to them for the substantial progress which they have brought about this year of 1930.

Respectfully submitted,

HORACE F. TURNER,
Superintendent of Schools.

January 16, 1931

APPENDIX

SPECIAL REPORTS

AND

STATISTICS

QUOTATIONS FROM RULES AND REGULATIONS OF THE SCHOOL COMMITTEE

1. Admission to Kindergarten and to First Grade

Section 45. Children who will be five years old before January 1 of the following year may be admitted to the kindergarten during the month of September. Children who will be six years of age before January 1 of the following year may be admitted to the first grade during the month of September. Provided further that children mentally above the age requirement limit be admitted to school during the first month of the school year, or later if their residence in Milton began after the beginning of the school year.

2. Tuition Pupils

Section 69. Tuition fees at the rate of $125 (One Hundred Twenty-five Dollars) per year in the High School, $100 (One Hundred Dollars) per year in the Junior High School, and $75 (Seventy-five Dollars) per year in the elementary schools shall be paid by non-resident pupils to the Town Treasurer at the beginning of each term. Pupils whose term bills have not been paid at the end of the second week from the time the bills have been rendered shall be required to discontinue their attendance at school.

3. No-School Signal

Section 61. The signal 2-2 sounded four times on the fire alarm at—

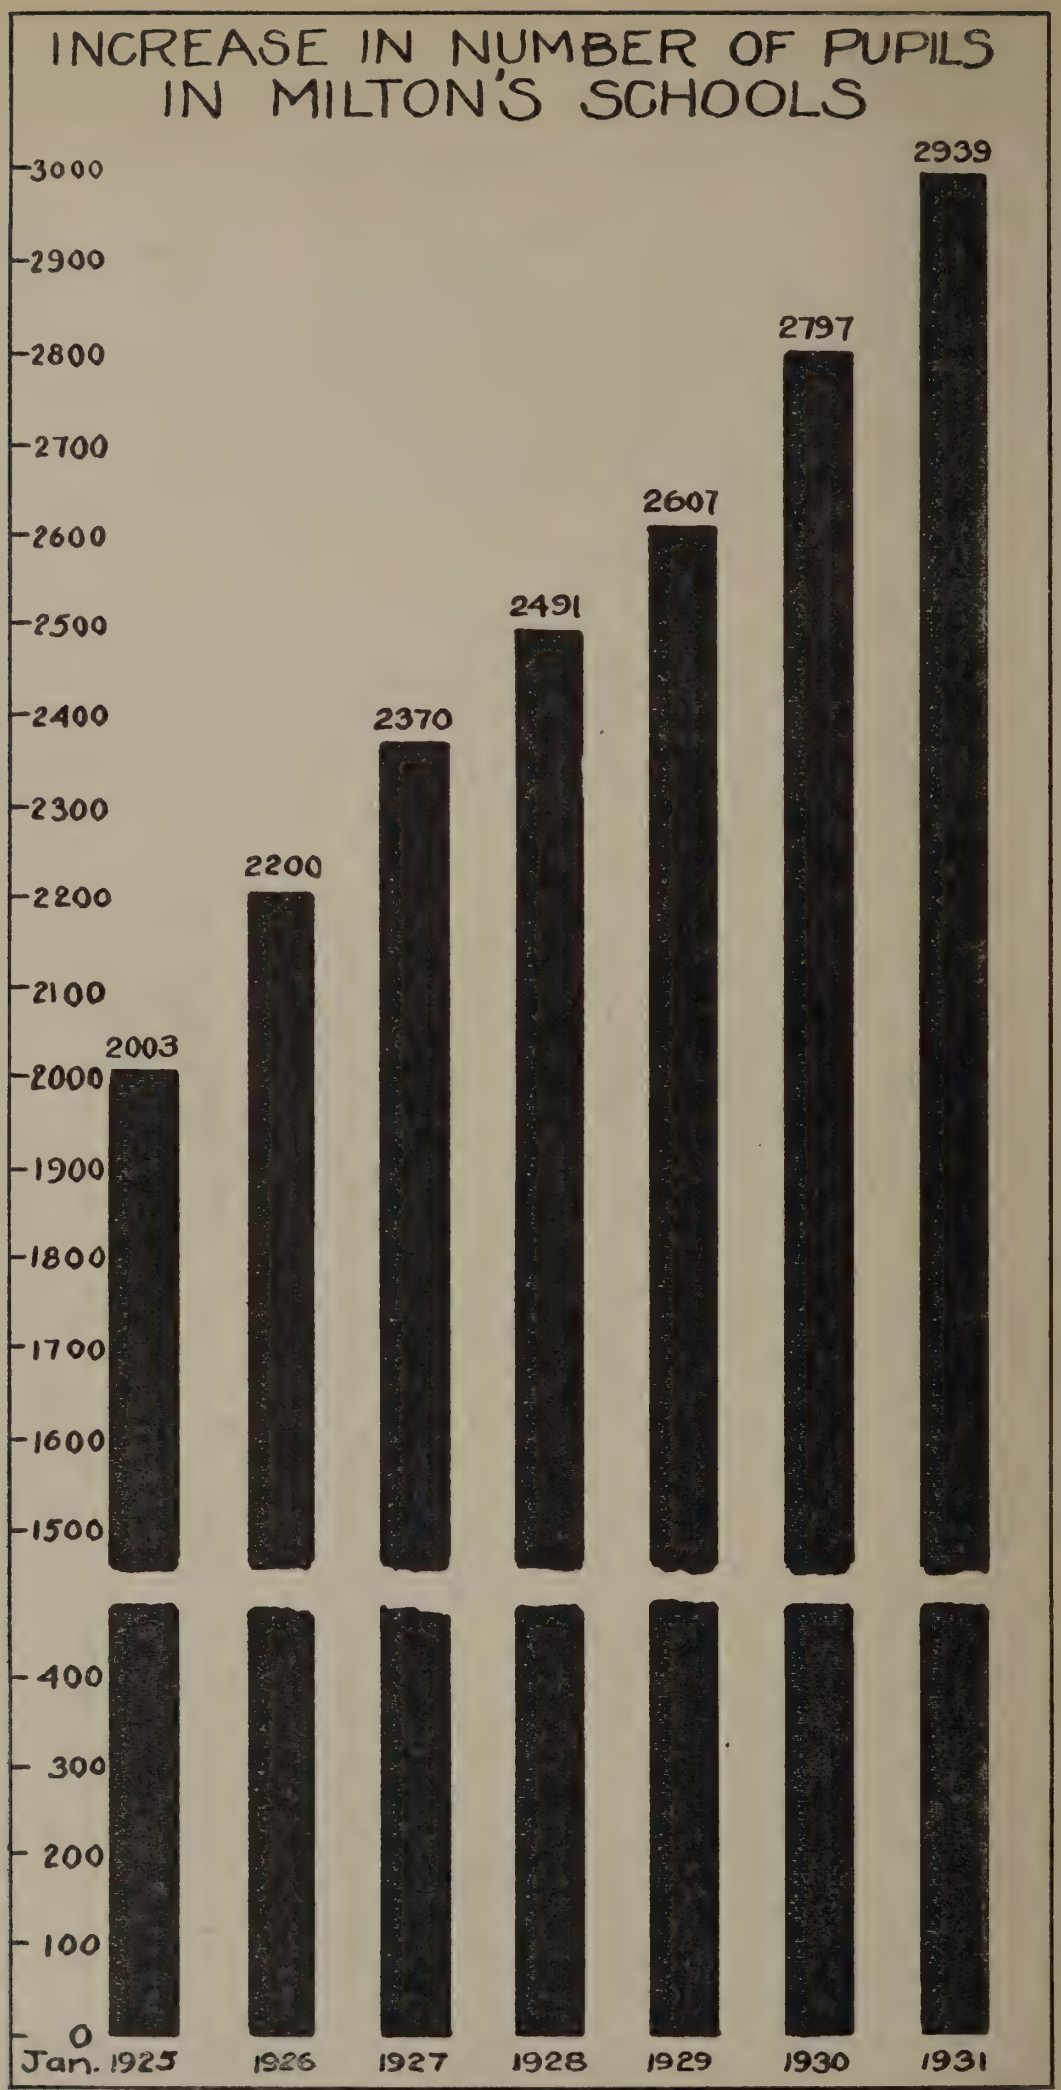

7:15 means no school sessions for all schools for entire day.

7:30 means no school sessions for all schools below the Junior High School for the entire day.

11:40 means no afternoon session for all schools below the Junior High School. This signal will not be sounded if the 7:15 or the 7:30 signal has been sounded. The session at the Vose School will not be affected by this signal.

The 7:15 signal will rarely be sounded, as it includes the closing of the High and Junior High Schools.

The widely varying conditions in the several parts of Milton make it difficult to reach decisions equally fair to all interests. Parents are, therefore, expected to exercise discretion in regard to their own children.

STATISTICS OF CLASS OF 1930, MILTON HIGH SCHOOL

Total Number of pupils in class of 1930—113

	Boys	Girls	Total
Colleges	13	10	23
Normal School	0	1	1
Other Institutions	18	15	33
Graduate Course, Milton High School	3	3	6
Total in schools or colleges	34	29	63
At work	18	32	50
Totals	52	61	113

The wide distribution of our students of this class in higher institutions may be seen from the following list:

Harvard	6	Huntington School	3
Vassar	1	New England Conservatory of Music	1
Emmanuel	1	Annapolis Preparatory Academy	1
Simmons	3	Peter Bent Brigham Hospital	2
Wheaton	1	Fisher Business College	1
Cornell	1	Burdett School	3
Regis	1	Wentworth Institute	3
Mass. Institute of Technology	4	Massachusetts General Hospital	3
Wellesley	1	Deaconess Hospital	1
Radcliffe	1	Atherton Hall	1
Boston University	1	Bentley School of Accounting and Finance	2
Amherst	1	Chandler School	1
Bates	1	Vesper George	1
Bridgewater Normal (Candidate for Degree)	1	Massachusetts Radio and Telegraph School	1
Colby Academy	1	Mary's Manor	1
Holderness School	1	Post Graduate Course, Milton High School	6
Milton Academy	2		
Practical School of Beauty Culture	1		

During the year 1930, many requests for pupils' service have been received. These have been for assistance in positions as follows:

Mothers' Helpers	Stenographers
Bank Clerks	Gardening
Table Service	Salesmen
Store Clerks	General Work

Whole number in class of 1930	113
Whole number in class of 1930 at work	50
Number placed by help of Advisory Bureau	17
